UNDERGRADUATE ACADEMIC CALENDAR 2009 - 2010

July	23	JumpStart Program • Academic Success Track • New Signers Track
July	23-24	Arrival Day
July 25-August 21		Orientation
		JumpStart Program
		Fall Orientation
August	23	Arrival Day for New International Students, New Honors Students, and New Students with Disabilities
August	23-26	Pre-orientations for Honors Students
August	24-26	Pre-orientations for International Students and Students with Disabilities
August	26	Arrival Day for New Students
August	26-28	Family Orientation Program
August	27-29	New Student Orientation
August	27	Arrival Day for New Visiting Students
August	27-28	New Visiting Students orientation
August	28	Business Registration for new students
		Fall Semester 2009
August	24-28	Faculty professional development week
August	30	All dorms open at 10 a.m. for returning students
August	30-31	Business registration (payment of tuition, room and board)
August	31	Classes begin
August	31	Deadline to waive health insurance charges
August	31	ADD/DROP period begins (Fee charged)
September	1	Late Business registration (Fee charged) begins
September	3	Last Day to drop courses
September	4	Last day to add courses/AUDIT
September	7	Labor Day holiday (no classes)
October	12-16	Midterm week
October	19	All midterm grades due from faculty no later than 12 noon
October	19	Last day to change Incomplete grades from previous semester
October	20	Fall Recess (no classes)
October	23	Financial appeal application deadline for Spring 2010 courses
October	23	Last day to withdraw with WD grades (forms must be signed and returned to the Registrar's Office by 4:30 p.m.)
November	6	Final payment for Fall 2009 charges due (charges must be paid in full in order to register for Spring 2010 courses)
November	9	Course registration begins for Spring 2010 semester for currently enrolled students
November	25-27	Thanksgiving Holiday (the University is open Wednesday, but no classes are held)
December	11	Graduation application deadline for December 2009 and May 2010 graduation
December	11	Classes End
December	11	Last day for Consortium registration for Spring 2010 semester
December	12	Late Graduation Application (Fee charged) begins
December	14	Study Day
December	15-18	Final examination period
December	19	All dorms close at noon and Winter Break begins
December	21	All grades due from faculty no later than 12 noon
		Orientation for New Freshmen and Transfer Students
January	13-15	Arrival Day and New Student Orientation
January	14-15	Visiting Student Orientation
January	15	Business Registration for new students
		Spring Semester 2010
January	11-15	Faculty professional development week
January	18	Martin Luther King Holiday and all dorms open at 10 a.m. for returning students
January	19	Classes begin
January	19	Deadline to waive health insurance charges
January	19	Business Registration (payment of tuition, room, and board)
January	19	ADD/DROP period Begins (Fee charged)
January	20	Late Business Registration (Fee charged) begins
January	21	Last day to drop courses
January	22	Last day to add courses/Audit
February	24	GradFest
March	1-5	Midterm week
March	8	All midterm grades due from faculty no later than 12 noon
March	8	Last day to change Incomplete grades from previous semester
March	8	Course registration for Summer School 2010 for currently enrolled students begins (Spring 2010 charges must be paid in full)
March	15-19	Spring Break
March	23	Last day to withdraw with WD grades (forms must be signed and returned to the Registrar's office by 4:30 p.m.)
March	27	Financial appeal application deadline for Fall 2010 courses
April	9	Final payment for Spring 2010 charges due (charges must be paid in full in order to register for Fall 2010 courses)
April	12	Course registration begins for Fall 2010 semester for currently enrolled students
May	3	Classes end
May	4	Study Day
May	5-8	Final Examination period
May	7	Last day for Consortium registration for Summer School (forms must be in Registrar's Office by 4:30 p.m.)
May	9	All dorms close at noon
May	10	All grades due from faculty no later than 12 noon
May	14	Commencement exercises
		Summer Sessions 2010
May 17-June 4		Undergraduate Summer School – 1st session
June	8-26	Undergraduate Summer School – 2nd session
May 17-June 25		Undergraduate full Summer School
June	25	Last day for Consortium registration for Fall 2010

This calendar is subject to change due to circumstances beyond the University's control or as deemed necessary by the University in order to fulfill its educational objectives.

The Gallaudet University Catalog was prepared by the Council on Undergraduate Education, the Council on Graduate Education, the Provost's Office, Enrollment Management Offices, ATLAS Learning Services and the Office of Academic Quality.

Every effort was made to print information accurate as of August 1, 2009. Updates and corrections after that date are available on the web only. This catalog is not intended to serve as a contract between any student and Gallaudet University. University procedures, programs, and courses are under constant review and revision. Gallaudet University reserves the right to change any provision, regulation, or requirement set forth within this document, and the right to withdraw or amend the content of any course. Please consult the department or appropriate office for possible changes and updated information.

The web version of the Gallaudet catalog (catalog.gallaudet.edu) provides comprehensive current official information about academic programs, services, procedures, and policies. As such, it serves as the authoritative and complete catalog resource for current students and other members of our campus community. The responsible departments and offices update the on-line catalog information regularly, and current students are encouraged to use the web version for the most updated information.

Archived catalogs, also available online at catalog.gallaudet.edu, can be used to determine the specific offerings and requirements in place at the time that a student entered the University or is accepted into a specific major or program.

Gallaudet University is an equal opportunity employer/educational institution and does not discriminate on the basis of race, color, sex, national origin, religion, age, hearing status, disability, covered veteran status, marital status, personal appearance, sexual orientation, family responsibilities, matriculation, political affiliation, source of income, place of business or residence, pregnancy, childbirth, or any other unlawful basis.

About Gallaudet University

Gallaudet University provides a community of learning for deaf, hard of hearing, and hearing students who seek a personalized education and strong career preparation in a bilingual environment. Established in 1864, this liberal arts university continues to be the heart of deaf culture.

Students who attend Gallaudet come to the campus with increasingly diverse communication and life experiences. As a result, the University is committed to providing all students with a rich collegiate experience in preparation for dynamic, rewarding careers.

Deaf and hard of hearing undergraduate students can choose from among more than 40 majors leading to a bachelor of arts or a bachelor of science degree. The University also admits a small number of hearing, degree-seeking undergraduate students--up to five percent of an entering class. Undergraduate students also have the option of designing their own majors, called "self-directed majors," in which they select classes from a variety of departments.

Graduate programs, open to deaf, hard of hearing, and hearing students, include master of arts or master of science degrees, specialist degrees, certificates, and doctoral degrees in a variety of fields involving professional service provision to deaf and hard of hearing people.

A member of the Consortium of Universities of the Washington Metropolitan Area, Gallaudet offers its students at both the undergraduate and graduate level the ability to take courses offered at the 14 other institutions of higher learning that comprise the consortium: American University, The Catholic University of America, Corcoran College of Art + Design, George Mason University, Georgetown University, The George Washington University, Howard University, Marymount University, National Defense Intelligence College, National Defense University, Southeastern University, Trinity University, the University of the District of Columbia, and the University of Maryland, College Park.

Gallaudet is a leader in the use of technology in its academic programs and services. Approximately 94 percent of the courses at Gallaudet have an online component, and virtually all students take at least one course using the Blackboard online learning system. Such technology integration is double the average of universities nationwide. Many courses make extensive use of video, including video recordings of classes and a video library.

Gallaudet is committed to providing students with the best educational experience possible, which, in today's changing world, means hands-on learning experiences including internships, practicums, and graduate assistantships. Gallaudet offers an internal grant fund, intended specifically for graduate students and faculty, that supports research projects.

Located in the heart of one of the world's most vibrant and important cities, Washington, D.C., Gallaudet students have access to the political scene as well as the cultural and artistic offerings of the nation's capital. Many of the nation's important organizations that focus on issues of importance to the deaf and hard of hearing community have their headquarters in the Washington, D.C., metropolitan area.

Gallaudet serves as a preeminent resource for research and outreach related to improving the lives of deaf and hard of hearing people worldwide. Gallaudet's library contains the world's most complete collection of materials related to deaf people, deaf culture, and hearing loss. In addition to what's offered on campus, Gallaudet students also have access to the nearby Library of Congress, the world's greatest information repository, and the libraries of all the universities in the Washington Research Library Consortium.

VISITING GALLAUDET

Location

Gallaudet's campus is located in Washington, D.C., about one mile northeast of the U.S. Capitol. The 99-acre campus, Kendall Green, is home to undergraduate and graduate students as well as the Laurent Clerc National Deaf Education Center, a federally-supported program for improving educational results for deaf and hard of hearing children across the nation. The Center includes the Kendall Demonstration Elementary School and the Model Secondary School for the Deaf.

Gallaudet University's mailing address is:

800 Florida Avenue, NE, Washington, DC 20002-3695
Main Telephone Number: (202) 651-5000 (Voice, TTY)

Admissions Video Phone Numbers:

- 866-563-8896 (Undergraduate)
- 202-250-2326 (Graduate)

Maps and travel directions (aaweb.gallaudet.edu/CampusMap.xml) and additional information about visiting the Gallaudet University campus are located on the University's web site: www.gallaudet.edu.

Undergraduate Open House

The Admissions Office hosts Open House events for prospective undergraduate students several times during the fall and spring semesters. Contact the Admissions Office or view undergraduate Open House event information on the web: (admissions.gallaudet.edu/openhouse).

Graduate Open House

The Graduate Admissions Office hosts Open House events for prospective graduate students. Contact the Graduate Admission Office or view graduate Open House event information on the web (aaweb.gallaudet.edu/graduate-openhouse.xml).

Visitors Center

Thousands of visitors tour Gallaudet University's campus every year. The Visitors Center is located on the first floor of the Edward Miner Gallaudet Memorial Building. The Visitors Center offers tours of the campus Monday through Friday at 10 a.m. and 2 p.m. by appointment. Tours are conducted in American Sign Language (ASL) and are provided by both staff and student tour guides. A voice interpreter can be requested in advance.

A wide variety of visitors tour the campus, including prospective undergraduate and graduate students and their families, school groups, sign language clubs, educators of deaf students, and international visitors. For more information about scheduling a tour or for directions to the campus, go to: aaweb.gallaudet.edu/visitorscenter.xml or call (866) 637-0102 (videophone). The Visitors Center can also be reached by calling (202) 651-5050.

Gallaudet University Kellogg Conference Hotel

The Kellogg Conference Hotel (KCH) is nestled on the beautifully landscaped campus of Gallaudet University. The hotel features 93 guestrooms, and over 17,000 square feet of meeting space. For your dining pleasure, the Bistro serves breakfast Monday through Friday from 7:00 a.m.-9:30 a.m., and Saturday from 7:00 a.m.-10:30 a.m. We also offer a lunch buffet Monday through Friday from 11:30a.m. - 2:00p.m. Outtakes gift shop is our newest addition, the perfect place to grab a quick lunch or pick up some gifts to take home, it also features a business center which is available 24 hours a day. The KCH is the ideal location just a few minutes away from Union Station, Lincoln Memorial and the Smithsonian Institute. The KCH welcomes parents and visitors of Gallaudet students! For more information and to make online reservations, please go to www.kelloggconferencehotel.com or call 202-651-6000.

WAYS TO LEARN AT GALLAUDET UNIVERSITY

Undergraduate and Graduate Programs of Study

Gallaudet University offers programs of study for both undergraduate and graduate students. The University offers B.A., B.S., M.A., M.A., M.S., Ed.S., Au.D., and Ph.D. degrees. In addition, the University offers several professional practice degrees. A complete listing of graduate programs can be found in the Graduate School Catalog.

Graduate Certificate Programs

In addition to the traditional degrees mentioned above, Gallaudet University currently offers five graduate certificate programs, which are designed to meet current and pressing needs of professionals and practitioners. Each certificate program includes a set of related graduate-level courses taken over a few years leading to a Graduate Certificate that demonstrates successful completion of the curriculum. These programs are limited to students with at least a Bachelor's degree. Courses may be applied to graduate degree programs and are often taken in conjunction with a regular graduate degree.

Summer Programs

summer.gallaudet.edu

Summer Programs, located in the College of Professional Studies and Outreach (CPSO), offers an array of academic and enrichment programs and courses, including academic programs and sports camps for youth, programs for seniors, graduate and undergraduate courses, leadership and professional studies programs, ASL instruction, and special event planning. Programs may be offered on-campus, online, or on-site. CPSO also offers program opportunities for motivated learners throughout the academic year via its seminars, certificate programs, and workshops designed to promote career development and enhancement, personal growth and life-long learning.

Professional Studies and Extension Programs

cpso.gallaudet.edu

Professional Studies (PST) courses provide deaf, hard of hearing, and hearing professionals with skills that lead to advancing their professional credentials. These courses carry college credit and students receive a grade report upon completion of each semester. While PST courses offered through the Graduate School and Professional Programs are not applied to degree programs at Gallaudet University, they may be transferable to other universities and often satisfy requirements for professional development. Some PST courses are offered as clusters that lead to professional certificates.

English Language Institute (ELI)

eli.gallaudet.edu

The English Language Institute (ELI) offers full-time instruction in English as a Second Language, American Sign Language, and cultural studies to international deaf and hard of hearing students. Intensive study throughout the academic year helps students become proficient in written English and American Sign Language, prepare for academic study in the United States, or enhance their employment potential.

ACCREDITATION

Gallaudet University is accredited by the [Middle States Commission on Higher Education](#), 3624 Market Street, Philadelphia, PA 19104. (Phone: 267-284-5000). The Middle States Commission on Higher Education is a regional institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation.

Many of the University's programs are also accredited by professional accrediting bodies, including the American Psychological Association (APA); American Speech-Language-Hearing Association's Council on Academic Accreditation (ASHA / CAA); Association of Collegiate Business Schools and Programs (ACBSP); Council on Accreditation of Counseling and Related Programs (CACREP); and the Council on Social Work Education (CSWE).

Our Deaf Education program is approved by the Council on the Education of the Deaf (CED) which allows graduates to become CED certified.

Programs that prepare graduates to be a licensed professional in schools are approved by the District of Columbia State Education Agency (SEA). These same programs — along with the MSW in School Social Work Program, the Ed.S. in Change Leadership in Education, and the Ph.D. in Special Education Administration — are part of Gallaudet's Professional Education Unit which is accredited by the National Council for the Accreditation of Teacher Education (NCATE).

In addition, many programs are reviewed and recognized by the following specialized professional associations (SPAs) as part of NCATE's reaccreditation process: American Association of Health, Physical Education, Recreation and Dance (AAHPERD) / National Association of Sports and Physical Education (NASPE); Association for Childhood Education International (ACEI); Council on Accreditation of Counseling and Related Programs (CACREP); Council for Exceptional Children (CEC); National Association for the Education of Young Children (NAEYC); National Association of School Psychologists (NASP); National Council for Social Studies (NCSS); National Council of Teachers of English (NCTE); National Council of Teachers of Mathematics (NCTM); and National Science Teachers Association (NSTA).

HISTORY OF GALLAUDET

The first 100 years

In 1856, Amos Kendall, a postmaster general during two presidential administrations, donated two acres of his estate in northeast Washington, D.C. to establish a school and housing for 12 deaf and six blind students. The following year, Kendall persuaded Congress to incorporate the new school, which was called the Columbia Institution for the Instruction of the Deaf and Dumb and Blind. Edward Miner Gallaudet, the son of Thomas Hopkins Gallaudet, founder of the first school for deaf students in the United States, became the new school's superintendent.

Congress authorized the institution to confer college degrees in 1864, and President Abraham Lincoln signed the bill into law. Gallaudet was made president of the institution, including the college, which that year had eight students enrolled. He presided over the first commencement in June 1869 when three young men received diplomas. Their diplomas were signed by President Ulysses S. Grant, and to this day the diplomas of all Gallaudet graduates are signed by the presiding U.S. president.

Through an act of Congress in 1954, the name of the institution was changed to Gallaudet College in honor of Thomas Hopkins Gallaudet.

A time of expansion

In 1969, President Lyndon Johnson signed an act to create the Model Secondary School for the Deaf (MSSD). That same year, the secretary of the U.S. Department of Health, Education and Welfare and Gallaudet President Leonard Elstad signed an agreement authorizing the establishment and operation of MSSD on the Gallaudet campus. A year later, President Richard Nixon signed the bill that authorized the establishment of Kendall Demonstration Elementary School. Today, the two schools are part of Gallaudet's Laurent Clerc National Deaf Education Center, which is devoted to the creation and dissemination of educational opportunities for deaf students nationwide.

By an act of the U.S. Congress, Gallaudet was granted university status in October 1986. Two years later, in March 1988, the Deaf President Now (DPN) movement led to the appointment of the University's first deaf president, Dr. I. King Jordan. Since then, DPN has become synonymous with self-determination and empowerment for deaf and hard of hearing people everywhere.

In the 1990s, a generous contribution from the W.K. Kellogg Foundation enabled the University to construct the Kellogg Conference Hotel at Gallaudet University, which has become a popular venue for meetings, seminars, receptions, and other events for both on-and off-campus groups. Since then, additional buildings have been constructed, including the technology-rich Student Academic Center and, thanks to the generosity of James Lee Sorenson, chair of Sorenson Development, Inc., the James Lee Sorenson Language and Communication Center, a unique facility that provides an inclusive learning environment totally compatible with the visu-centric "deaf way of being."

The University's undergraduate students can choose from more than 40 majors leading to bachelor of arts or bachelor of science degrees. A small number of hearing undergraduate students--up to five percent of an entering class--are also admitted to the University each year. Graduate programs at Gallaudet are open to deaf, hard of hearing, and hearing students and offer certificates and master of arts, master of science, doctoral, and specialist degrees in a variety of fields involving professional service to deaf and hard of hearing people.

Through the University Career Center, students receive internships that provide a wealth of experiential learning opportunities. Recent internships were offered at Merrill Lynch, National Aeronautics and Space Administration, National Institutes of Health, and the World Bank. Students also benefit from an array of services provided by such campus units as the Gallaudet Leadership Institute, Language Planning Institute, Hearing and Speech Center, Cochlear Implant Education Center, and the Center for International Programs and Services.

Gallaudet is also viewed by deaf and hearing people alike as a primary resource for all things related to deaf people, including educational and career opportunities, communication access, deaf history, language, and culture, and research.

GALLAUDET MISSION AND GOALS

The Gallaudet University Mission Statement

Gallaudet University, federally chartered in 1864, is a bilingual, diverse, multicultural institution of higher education that ensures the intellectual and professional advancement of deaf and hard of hearing individuals through American Sign Language and English. Gallaudet maintains a proud tradition of research and scholarly activity and prepares its graduates for career opportunities in a highly competitive, technological, and rapidly changing world.

The Vision of Gallaudet University

Gallaudet University will build upon its rich history as the world's premier higher education institution serving deaf and hard of hearing people to become the university of first choice for the most qualified, diverse group of deaf and hard of hearing students in the world, as well as hearing students pursuing careers related to deaf and hard of hearing people. Gallaudet will empower its graduates with the knowledge and practical skills vital to achieving personal and professional success in the changing local and global communities in which they live and work. Gallaudet will also strive to become the leading international resource for research, innovation and outreach related to deaf and hard of hearing people.

Gallaudet will achieve these outcomes through:

- A bilingual learning environment, featuring American Sign Language and English, that provides full access for all students to learning and communication
- A commitment to excellence in learning and student service
- A world-class campus in the nation's capital
- Creation of a virtual campus that expands Gallaudet's reach to a broader audience of visual learners
- An environment in which research can grow, develop, and improve the lives and knowledge of all deaf and hard of hearing people worldwide

The Gallaudet Credo

Gallaudet's Vision Statement expresses what the University aspires to become and achieve as the world's premier academic institution for deaf and hard of hearing people. Implicit in our vision are core values that serve as guiding principles for the way members of the campus community teach, study, work and live. The Gallaudet Credo identifies and realizes those core values.

The Gallaudet University campus community includes students, faculty, teachers and staff, all of whom share certain common goals and values that we all believe enrich our academic environment. The community's primary goal is to prepare students to be informed, literate, productive and responsible citizens. In pursuit of this goal, community members pledge to uphold the following values:

We believe that education is a dominant influence on our lives and recognize that learning is a lifelong quest. Therefore we will practice academic and personal integrity and work to create a positive and welcoming environment that is open to the free exchange of ideas among members of our community.

We believe that every person should be treated with civility and that our community is strengthened by the broad diversity of its members. Therefore, we will promote and applaud behaviors that support the dignity of individuals and groups and are respectful of others' opinions. We will especially discourage behaviors and attitudes that disrespect the diversity of individuals and groups for any reason including religion, race, ethnicity, gender, age, sexual orientation, disability, hearing status, or language and communication preference.

We believe that as members of the Gallaudet community we are the recipients of a proud and rich heritage, as well as contributors to and benefactors of our institution's bright future. Therefore, we will strive to bring credit to our community and ensure that the institution flourishes and succeeds in its mission.

Undergraduate Studies Mission

Federally chartered in 1864, Gallaudet University is an institution of higher learning that promotes the intellectual and professional advancement of deaf and hard-of-hearing students from diverse and multicultural backgrounds in a bilingual environment using both American Sign Language (ASL) and English. The mission of Undergraduate Studies at Gallaudet University is to be the premier center of learning for deaf and hard-of-hearing students. Our graduates will become respected members and leaders of their communities throughout the United States and the World.

Undergraduate Studies at Gallaudet University provide all students with a rigorous and integrative education that promotes competence and in-depth knowledge in both the General Studies and major curricula. General Studies courses are predominantly taught as thematic interdisciplinary course, addressing the [Gallaudet University Student Learning Outcomes \(see page 64 in this catalog\)](#). Major-level courses continue to expand on these five learning outcomes and also provide students with discipline-specific competence, preparing them for competitive careers and/or graduate education.

Graduate School Mission

The Graduate School at Gallaudet University draws on Gallaudet's rich heritage, distinguished faculty and staff, and ASL-English bilingual environment to carry out its multifaceted mission to:

1. prepare deaf, hard of hearing, and hearing scholars, leaders, and practitioners from diverse backgrounds to excel in their professions and disciplines; and
2. generate knowledge, via research and other scholarly activities to inform theory and practice in the professions and disciplines represented by graduate programs.

The knowledge, skills, and dispositions addressed in the various graduate programs are aligned with professional accreditation standards as well as the Graduate School's own high academic expectations.

BILINGUAL EDUCATION

Gallaudet University was founded with the unique purpose of providing visually accessible higher education for deaf and hard of hearing students. As such, Gallaudet has always been a bilingual institution with instruction taking place through American Sign Language and English. In 2007, the Board of Trustees affirmed Gallaudet's commitment to ASL/English bilingual education through the University's mission statement. The mission commits the University to fostering an intentional, inclusive and supportive environment designed to develop students' academic discourse, critical thinking and career preparation.

Gallaudet's bilingual educational environment is founded on the following four principles:

Principle #1: Access

Since its founding 1864, the cornerstone of the educational design at Gallaudet University has been direct, visually accessible communication among all participants in academic settings. The use of two visually accessible languages – ASL and written English – provides the most universally effective means of direct communication for all Gallaudet students.

Principle #2: Inclusion

Gallaudet University welcomes academically qualified students from diverse language and educational backgrounds and abilities. Typically, Gallaudet students begin their higher education with varying degrees of proficiency in ASL and English, similar to the range of language abilities seen among students in bilingual universities throughout the world. Learning opportunities inside and outside of the classroom guide students toward developing their full linguistic potential. These opportunities include classes and support services for improving students' skills in signed, written and spoken communication.

Principle #3 Academic Discourse

As it applies to Gallaudet, bilingualism does not mean that students have fewer opportunities to learn and use English; rather, just the opposite is true. Through an intentional and integrated use of ASL and English in the classroom, students are provided with multiple approaches to develop academic discourse, an essential component of lifelong learning and success in the workforce. Research shows bilingualism offers

a significant intellectual resource, providing students with increased cognitive flexibility and self-awareness of language use. Thus, the bilingual environment at Gallaudet provides a richer context for university-level interaction.

Principle #4: Social and Cultural Resource

In addition to cognitive benefits, bilingualism supports personal development by enhancing students' social and cultural experiences. By being a member of a Gallaudet's bilingual community, students enjoy opportunities to form lasting social bonds with their deaf, hard of hearing and hearing peers. Rather than leading toward isolation, bilingualism at Gallaudet extends the reach of students' life experiences, especially as the use of a sign language facilitates participation in deaf communities throughout the world, opening access to a greater global awareness.

Communication on Campus

Gallaudet University is committed to creating a climate of respect with regards to communication on campus. While no formal policies dictate communication behaviors, two key principles underpin a climate of respect.

Principle #1: Welcome and support new and emerging signers

New and emerging signers are welcomed as full members of the Gallaudet community, and will be supported in their efforts toward improving their ASL skills.

Principle #2: Ongoing commitment to improve

All members of the community commit to improve communication skills in ASL in order to create a barrier-free, visually accessible environment throughout campus.

*Classroom Communication:***Undergraduate:**

Instruction at Gallaudet takes advantage of cutting-edge technology, which allows a language-rich learning environment. Students and faculty strive to communicate as clearly as possible, modeling and developing habits of academic discourse in ASL and English.

Graduate:

The ASL proficiency requirements of each graduate program vary. Check individual programs for information relating to ASL proficiency. On the whole, the Graduate School encourages clear and accessible communication for all through the refinement of academic discourse in ASL and English.

*American Sign Language Support Services:***Undergraduate:**

Gallaudet University New Signers may enroll in the [New Signers Program](#) (see page 237 in this catalog), and will also receive support in ASL and General Studies courses to develop their ASL proficiency. Students in these classes are eligible to receive tutoring in ASL skills through the [Tutorial Instructional Program](#) (tip.gallaudet.edu). Students may receive services from [ASL Diagnostic and Evaluation Services](#) (asldes.gallaudet.edu).

Graduate:

The College of Professional Studies and Outreach (CPSO) provides [ASL classes](#) (cpso.gallaudet.edu/aslclasses.xml) for graduate students. Consult individual graduate programs for ASL proficiency requirements. Students may receive services from [ASL Diagnostic and Evaluation Services](#).

English Text Support Services

Students may request captioning services for classes from Academic Technology. See Captioning Services in the Services and Activities chapter of this catalog.

DIVERSITY GUIDELINES

Gallaudet University is a unique institution. Chartered by the United States Congress in 1864 with the mission of offering higher education to deaf and hard of hearing individuals, it has since become a global leader of a distinctive community. Gallaudet's charge is even more important now. Just as the population of the nation has changed and continues to change, so too the population of deaf and hard of hearing individuals has changed and continues to change. Deafness is diverse and dynamic. Deaf and hard of hearing persons include people of all experiences and backgrounds.

Given its mission, Gallaudet University has a responsibility to an increasingly diverse deaf and hard of hearing population. Although every university must address [diversity](#) (www.gallaudet.edu/diversity.xml) to survive, Gallaudet University must be prepared to do more. Deaf and hard of hearing individuals were long denied equal opportunity, solely because they were deaf or hard of hearing. Such injustice was often compounded by further discrimination on the basis of race, gender, and other aspects of personal identity.

Building upon more than a century of traditions, Gallaudet University will take an active role in providing genuine equal opportunity to all deaf and hard of hearing persons. Gallaudet not only acknowledges the problems of the past and responds to the practical circumstances of the present, but also understands that our shared future is guided by basic principles of fairness, mutual respect, and commitment to each other. The University will continue to strive to make its ideals concrete. Gallaudet will reach out, in the United States and around the world, to deaf and hard of hearing persons everywhere. Deafness knows no borders.

Gallaudet University as an institution embraces diversity. Deaf and hard of hearing individuals are best served by reaching deeply and widely into their experiences. Just as they seek to be heard, so must we listen to those with different views and beliefs. A university especially has an obligation to be a place where all views can be shared freely and any belief can be discussed respectfully, allowing the exchange of ideas to flourish. Accordingly, Gallaudet will integrate diversity into every aspect of its operations. This statement on diversity is only part of an ongoing process in which all members of the university participate. Gallaudet's excellence and survival depends on respecting, honoring and using the wealth of its diversity. The guidelines below are designed to frame university-wide efforts on diversity.

Guidelines

The Gallaudet University Board of Trustees recognizes that the pursuit of excellence is intertwined with a commitment to diversity at all levels. To advance toward excellence with diversity, we instruct the administration to implement these guidelines which address three broad areas of action: 1) student diversity and learning; 2) faculty diversity and teaching, research and service and 3) a strong, safe and just campus community. The Board of Trustees expects that the administration will use these guidelines and will develop additional means of accomplishing these goals:

The Gallaudet student body will be reflective of the different ways that deaf and hard of hearing individuals live in society.

The University will actively seek to recruit students of color, and students with different communicative pursuits as well as other dimensions of diversity and will endeavor to provide a supportive environment on campus for all students.

In the next century, deafness as a condition will change.

Our plans for the university cannot be limited to within our national borders; we must broaden our outlook to include deafness on a global scale, to welcome individuals from societies outside the US and around the world.

The education of young deaf and hard of hearing children has always been a part of Gallaudet University's mission.

Gallaudet will continue to promote students' fundamental skills including communication, literacy, science, mathematics and technology competence. Gallaudet is also committed to contributing to the well-being of our students, including strong emotional lives, an appreciation for cultural diversity, a sense of safety and justice, and support for their different life goals. The University is responsible for creating environments that nurture the development of young children into adults, and will recruit and support teachers whose skills make these environments possible.

Gallaudet faculty will be recruited on the basis of excellence in scholarship and teaching.

The University will endeavor to support the activities of faculty members toward this goal in a variety of ways, including but not limited to: creating post-doctoral fellowships for young deaf and hard of hearing scholars; providing institutional support for faculty research and for relationships with research bodies within and outside of the university; promoting professional development, including efforts to improve pedagogy; and recognizing academic service toward these goals.

Gallaudet's commitment to excellence and diversity should extend to the recruitment and retention of students; selection and professional development of faculty and administrators; and the development of a pool of potential deaf and hard of hearing candidates for faculty positions at Gallaudet and elsewhere.

Gallaudet recognizes that its students and faculty are supported by a broad network of staff and other support personnel, and will endeavor to promote diversity among all staff and support personnel, as their influence and reach into all aspects of the campus are broad and meaningful. Gallaudet recognizes a responsibility to gather and evaluate data showing both the progress that has been made and the work that is still to be done. Gallaudet will focus especially on generating data about the deaf and hard of hearing that does not exist elsewhere.

Undergraduate Admissions

Gallaudet University invites deaf, hard of hearing, and hearing students to apply to its academic programs at the bachelor's, master's, and doctoral levels. Gallaudet University makes real the connection between a liberal arts education and professional career success, through relevant majors/programs that meet the demands of the employment market, challenging internships, and a robust career center focused on lifelong support for our students and graduates. Gallaudet is committed to academic excellence, leadership, and support of students to realize the full academic and personal benefits of a Gallaudet education.

OFFICE OF ADMISSIONS

Chapel Hall 102

Web: admissions.gallaudet.edu

Email: admissions.office@gallaudet.edu

Who Can Apply

Deaf, hard of hearing and hearing individuals who have a high school diploma or the recognized equivalent of a high school diploma may apply for admissions to undergraduate programs at Gallaudet University. Applicants should provide evidence of the need for Gallaudet's support services designed specifically for deaf and hard of hearing students. Students must be 18 years of age or have completed a secondary school program (high school) if under 18 years old. Gallaudet recommends that high school students take as many college preparatory classes as possible, including English, social science, science, algebra, and geometry, as well as taking the American College Test (ACT) in their sophomore, junior, and senior years.

Hearing individuals, with high school credentials and interest in careers related to deaf and hard of hearing people, may apply to the Hearing Undergraduate (HUG) program or the Bachelors in Interpretation (BAI) program.

When to Apply

Applicants are encouraged to complete their applications by **June 1** for fall admission and **December 1** for spring admission. After these dates, all housing and financial aid are awarded on a first-come, first-served basis to admitted students. The University is on a rolling admissions schedule and will notify the student within two weeks after all application materials have been received.

Reapplication

Applications will be kept for two years from the initial date of application. Within those two years, applicants may reactivate their original files by submitting, to the Undergraduate Admissions Office, updated materials for academic and professional information that has changed since the original application. The fee for reapplying is \$50.

Readmission

Students who want to be readmitted for a second bachelor's degree or to complete a degree apply through the Registrar's Office. Readmission procedures are described in the Registration and Policies chapter of the catalog.

How to Apply

- (Optional) Request information at admissions.gallaudet.edu/UndergradInquiry.
- Apply online or on paper at admissions.gallaudet.edu/UndergradApp.
- Submit the documentation listed under Undergraduate Admissions Requirements (transcripts, test scores, letters of recommendation, audiogram) to the Office of Admissions as soon as they become available.

Send applications materials to:
Office of Admissions Gallaudet University 800 Florida Avenue, NE Washington, DC 2002-3695
800-995-0550 (VP, TTY, Voice) 202-651-5114 (VP, TTY) 202-651-5750 (Voice) 202-651-5744 (FAX)

Optional Test Scores

University Code for Test Scores

For the ACT, Gallaudet's code is 0662. For examinations under CollegeBoard (including the PSAT, SAT, AP and CLEP), Gallaudet's code is 5240.

PSAT (Preliminary SAT)

Students who take the [PSAT \(Preliminary SAT\)](http://www.collegeboard.com/student/testing/psat/about.html) (www.collegeboard.com/student/testing/psat/about.html) through the College Board during their high school years are encouraged to have their PSAT scores sent to Gallaudet University (send to College Code 5240, although this is not a requirement for admission.)

Advanced Placement Tests

Applicants who submit Advanced Placement (AP) test scores must submit an official AP test report from the College Board (Send to College Code 5240). Test scores of 3 or better will earn university credit. Honors credit will be given for scores of 4 or 5. will be considered transfer credits and thus not counted in the grade point average. Information on procedures for applying for AP transfer credit can be obtained from the Transfer Credit Specialist in the [Registrar's Office](http://registrar.gallaudet.edu) (registrar.gallaudet.edu). Additional information is available on the Admissions web site, admissions.gallaudet.edu/Transfer/AP_tests.asp.

CLEP (College-Level Examination Program)

The [CLEP](http://bit.ly/aFPg0) ([BIT.LY/aFPg0](http://bit.ly/aFPg0)) from the College Board is for students who are interested in receiving credit for knowledge acquired through independent study, prior course work, on-the-job training, professional development, cultural pursuits, or internships. Before taking a CLEP test, students should consult with the Transfer Credit Specialist in the [Registrar's Office](http://registrar.gallaudet.edu). Gallaudet's code for the CLEP is 5240.

UNDERGRADUATE ADMISSIONS REQUIREMENTS

- **Undergraduate Application, including required essay question** (admissions.gallaudet.edu/undergradapp)
- **\$50 Application Fee**
- **Official High School and/or College Transcripts**
- **ACT/SAT Test Scores Taken Within Three Years Prior to Application**
 - ACT: Send to College Code 0662
 - SAT: Send to College Code 5240
- **At Least Two Letters of Recommendations** from teachers, counselors, principals, coaches, employers, or community organizations
- **Audiogram indicating a Hearing Loss**

The Office of Admissions reserves the right to request additional documentation (e.g., standardized test scores, recommendation letters) from any applicant.

Admissions staff evaluate prospective students based on their profile of academic, professional, and personal achievements. They also evaluate educational and career goals. Gallaudet University adheres to the [Statement of Principles of Good Practice](http://bit.ly/yt3tH) ([BIT.LY/yt3tH](http://bit.ly/yt3tH)) endorsed by the [National Association for College Admission Counseling](http://nationalassociationforcollegeadmissioncounseling.org).

Your application to Gallaudet will automatically serve as an application for our [Merit-Based Scholarships](http://aaweb.gallaudet.edu/Merit_Scholarships.html) (aaweb.gallaudet.edu/Merit_Scholarships.html). You do not need to submit additional paperwork to qualify for these scholarships.

The completed undergraduate application, without notification of deferral, will be held in file for two years for U.S. citizens before being destroyed.

NOTE: The Health History Form should be submitted to Student Health Services after you are accepted. (See the instructions on the Health History Form, gallaudet.edu/af/Documents/shs_health_history_form.pdf) For more information, call the Peter J. Fine Student Health Center at (202) 651-5090 (V/TTY) or visit the Student Health Service web site at gallaudet.edu/af/shs.xml.

Before registering for classes, students must also present proof of immunizations required by District of Columbia law. See gallaudet.edu/af/shs_immunizations.xml for details.

TRANSFER REQUIREMENTS

- **Undergraduate Application, including required essay question** (admissions.gallaudet.edu/undergradapp)
- **\$50 Application Fee**
- **Official High School and College Transcripts**
- **ACT/SAT Test Scores Taken Within Three Years Prior to Application - see exceptions below**
 - ACT: Send to College Code 0662
 - SAT: Send to College Code 5240
- **At Least Two Letters of Recommendations** from teachers, counselors, principals, coaches, employers, or community organizations
- **Audiogram indicating a Hearing Loss**

Deaf, hard of hearing, and hearing students in good standing at other accredited colleges and universities are eligible to apply as transfer students to Gallaudet University. The Office of Admissions reserves the right to request additional documentation (e.g., standardized test scores, high school transcripts) from any applicant.

Transfer students who have completed fewer than 12 semester hours of college English and/or Mathematics credit or achieved less than a 2.0 cumulative grade point average must submit recent standardized test scores and a final high school transcript. Students who have completed 12 or more semester hours of transferable credit (with a grade of C or above in each course), completed both English and mathematics courses and achieved a 2.0 or higher cumulative grade point average will be notified by the Office of Admissions if standardized test scores are required. Applicants may request official evaluation of transferable college credits. Gallaudet will accept any college-level course completed with a grade of "C-" or better at any accredited college or university, and other institutions that are in the process of being accredited. See admissions.gallaudet.edu/transfer/Transfer_credits.asp

Transferred courses may be applied to satisfy general studies requirements or major requirements only when approved by the appropriate department chair. An incoming course with no Gallaudet equivalent will be considered as elective credit. Gallaudet will not accept credits from non-accredited institutions. Gallaudet University operates under the semester system. All transfer credits from postsecondary institutions not on the semester system will be converted to semester credits. Transfer courses do not change the GPA at Gallaudet University, except as noted in the section entitled "Prior Permission Transfer Credit." The transfer specialist will notify

applicants of these decisions. Transfer courses do not change the GPA at Gallaudet University, except as noted in the section entitled "Prior Permission Transfer Credit."

Transfer students must meet the residency requirement, which requires residency for the senior year (at least 24 credits) and completion of at least half of the major requirements at Gallaudet. Additional general studies courses may be required to satisfy Gallaudet University degree requirements. Note that some departments may have additional residency requirements for their majors.

Your application to Gallaudet will automatically serve as an application for our [Merit-Based Scholarships](http://aaweb.gallaudet.edu/Merit_Scholarships.html) (aaweb.gallaudet.edu/Merit_Scholarships.html). You do not need to submit additional paperwork to qualify for these scholarships.

The completed undergraduate application, without notification of deferral, will be held in file for two years for U.S. citizens before being destroyed.

Articulation Agreements

Contact the transfer credit specialist in the Registrar's Office for more information on current articulation agreements with other postsecondary institutions.

HONORS ADMISSIONS REQUIREMENTS

All students with ACT English and Reading scores of 22 and above (freshman status) may apply for admission to University Honors. New students are admitted provisionally to either the General Studies Honors or University Capstone Honors based on the following criteria:

- Review of high school or previous postsecondary school transcripts, preferably with a GPA of 3.5 or greater.
- ACT Mathematics Subtest scores or SAT Math score reviewed on an individual basis.
- Interview with the Honors Program.
- Completion of the Honors summer reading and participation in the online discussion of that reading, and participation in the Honors Retreat (for exceptions or alternative means of participation, the student should notify the Honors Director as soon as possible). After meeting established criteria and performing well academically the first semester (as determined by first semester Honors faculty and the Honors Director), new students may move from provisional to full status as Honors students.

To schedule an interview, see the Honors web site: honors.gallaudet.edu/HonorsAdmission.xml

Upon review, some students may also be placed in Bridge to Honors, which clusters students needing an additional semester to adjust to college or to develop skills in an accelerated GSR 101/102 course. Students may be considered for Honors from Bridge with recommendations from two first semester professors and an in person interview; sometimes the student may also submit a writing sample. Any student currently enrolled in the University also may apply to Honors following these requirements and a required submission of a writing sample.

INTERNATIONAL STUDENT ADMISSIONS REQUIREMENTS

International students applying for admission to the English Language Institute (ELI) or the undergraduate program must submit the following documents:

- an application and application fee
- two letters of recommendation
- an audiogram
- copies of secondary school records, including any secondary external examinations
- transcripts of any university-level studies completed; and
- a personal essay.

In addition, undergraduate applicants are expected to demonstrate proficiency through test scores from either the [ACT \(www.act.org\)](http://www.act.org) (College Code 0662) or [SAT \(www.collegeboard.com\)](http://www.collegeboard.com) (College Code 5240).

Original documents not in English must be accompanied by certified English translations. See the [World Education Services \(www.wes.org\)](http://www.wes.org) site for translation services.

All undergraduate applicants must demonstrate a satisfactory level of English proficiency to be admitted to the University. All test results and supporting documents must not be more than three years old.

International applicants should submit their applications by March 15 so that the application, admission test information, and immigration documentation can be processed in time for the fall term. Applicants will be considered for admission after all required application materials are received. Students are considered for admission for studies beginning in the fall semester.

Freshman Eligibility

Applicants who are completing their secondary or upper secondary school education and have not yet entered a university should apply as freshmen. Applicants who are International Baccalaureate diploma candidates or A-level should also apply as freshmen.

Transfer Eligibility

Applicants must have completed their secondary school education and have subsequently enrolled at a college or university as a degree-seeking student in order to be considered for transfer admission. This also applies to interna-

tional students already enrolled as degree-seeking students at another university in the United States. If you wish to have your international courses evaluated, you must submit an official International Transcript in your country's native language. The transcript must be accompanied with certified English translations. [Further information](#) about transfer credit can be obtained from the Transfer Credit Specialist in the Registrar's Office.

Financial Information

Each new international student accepted to Gallaudet will be asked to document how financial support will be provided in the student's first year at Gallaudet, as required by the United States Citizenship and Immigration Services (USCIS). The deadlines to provide the financial support documentations are June 30 for the fall semester and October 30 for the spring semester. After the student has been accepted and evidence of adequate financial support has been submitted, the University can issue the I-20 form from the [Center for International Programs and Services](#) (cips.gallaudet.edu). This form is needed to secure, transfer, and extend a student visa. Financial aid is generally not available for international students in their first year of studies at Gallaudet. However, limited aid is available from the second year onward.

Student and Exchange Visitor Information

Student and Exchange Visitor Information System (SEVIS) is an internet-based system that requires schools and the USCIS to report information and exchange data on the status of international students (F-1) and scholars (J-1). Accurate and current information will be transmitted electronically throughout an F-1 or J-1's academic career in the United States. U.S. embassies and consulates will also have access to SEVIS. Dependents of F-1 and J-1's are also included in the SEVIS reporting requirements.

Information that Gallaudet University is required to report:

- Confirmation that a student has enrolled within 30 days, or notification of failure to enroll.
- All changes of legal name or address.
- Graduation prior to the end date listed on the I-20 (F-1) or DS-2019 (J-1).
- Academic or disciplinary actions taken due to criminal conviction.
- Whether the student drops below a full course of study without prior authorization from Center for International Programs and Services (CIPS).
- Dismissal or withdrawal date, and reason for dismissal or withdrawal.

- Procedures such as program extensions, school transfers, changes in level of study, employment authorizations, and reinstatement.

International Student Business Registration

All international students are required to attend international business registration prior to registering for classes. During business registration every fall and spring, Center for International Programs and Services (CIPS) will review each student's immigration documents, confirm to SEVIS that the student has arrived on campus, and then release the restriction on the student's registration. If students do not attend international business registration or check-in with the CIPS office before the last day of the add/drop period, they will be "encumbered" and will not be permitted to register until the regular registration period of the following semester.

Full Course of Study

International students may not drop below a full course of study without prior authorization from CIPS. Full course of study means 18 credits per semester for ELI students, 12 for undergraduates, and 9 for graduate students. If a student drops below a full course of study without prior approval from CIPS, it will be reported to the USCIS through SEVIS, and the student will be considered "out of status". The student may apply to USCIS for reinstatement only if the violation resulted from "circumstances beyond his or her control." However, as specified by USCIS, acceptable reasons for applying for reinstatement include the following: "serious injury or illness, closure of the institution, or natural disaster." International students are not permitted to audit courses unless it is in addition to an already established full-time course load.

Any international student who is unable to complete a full course of study in a timely manner can apply through CIPS for a program extension. The student must apply 30 days before the completion date on their Form I-20 or DS-2019. Once a student consults with CIPS about the need for a program extension, CIPS will ask the student's academic advisor for endorsement of the student's request.

Mandatory Attendance

In order to maintain legal status, an international student cannot be absent from more than five classes per course per semester without compelling reasons. The University has a duty to report to the CIS through SEVIS when an international student exceeds this limit.

HEARING UNDERGRADUATES ADMISSIONS REQUIREMENTS

There are two different ways to apply as a hearing undergraduate student, either through the Hearing Undergraduate Program (HUG) or through the Bachelor of Arts in Interpretation Program (BAI).

The **Hearing Undergraduate Student (HUG)** program, established in fall 2001, is a unique program for hearing students who want to enroll as degree-seeking undergraduate students at Gallaudet University. The program is designed for those with an existing knowledge of American Sign Language, who want to work in the deaf community or want a deaf-related career. Hearing applicants to the undergraduate program are expected to be able to articulate and demonstrate their reason for wanting to attend Gallaudet University. Applicants should also be able to explain how an education at the world's only liberal arts university for deaf and hard of hearing students will benefit them.

The Board of Trustees and the administration have set a limit to the number of HUGs that may be admitted to the University each fall. Due to limited space, the HUG program is highly competitive and selective. A selected number of HUG applicants that meet the requirements of the program will be scheduled for an on-campus interview and an assessment of their signing skills before being officially accepted into the program.

The **Bachelor of Arts in Interpretation (BAI)** is a four-year program and includes credits in the ASL-English Interpretation major along with supporting courses in Deaf Studies, biology, business, communication studies, linguistics, and sociology. Learn more information about the **BAI** program at admissions.gallaudet.edu/Academics/majors/Interpretation.htm.

Admissions Requirements

- **Undergraduate Application, including required essay question** (admissions.gallaudet.edu/undergradapp)
- **\$50 Application Fee**
- **Official High School and/or College Transcripts**
- **ACT/SAT Test Scores Taken Within Three Years Prior to Application**
 - ACT: Send to College Code 0662
 - SAT: Send to College Code 5240
- **At Least Two Letters of Recommendations** from teachers, counselors, principals, coaches, employers, or community organizations

Application Deadline and Procedures

Application and supporting documents must be received or postmarked on or before January 16.

Applicants interested in the HUG or BAI program should follow the procedures listed in the [chart](http://aaweb.gallaudet.edu/Documents/Admissions/BAI_flowchart.ppt) (aaweb.gallaudet.edu/Documents/Admissions/BAI_flowchart.ppt) to understand the different application procedures. Once admitted into the program, a HUG student may change his/her major while a BAI student may not. If a BAI student wishes to change his/her major, he/she must reapply through the HUG program again. Students are admitted into the HUG or BAI program during the Fall semesters only. For more information, please contact hug@gallaudet.edu.

Standardized Test Waiver

Transfer students who have completed fewer than 12 semester hours of college credits or achieved less than a 2.0 cumulative grade point average must submit recent standardized test scores and a final high school transcript. Students who have completed 12 or more semester hours of transferable credit (with a grade of C or above in each course) and achieved a 2.0 or higher cumulative grade point average will be notified by the Office of Admissions if standardized test scores are required.

Interview

Selected applicants will be asked to come to Gallaudet for an interview with the selection committee. Interviews are usually scheduled for January through February. Applicants are also required to schedule an American Sign Language Proficiency Interview (ASLPI), a video recorded evaluation which will determine the applicant's overall ASL proficiency. Ratings are awarded on a scale from 0-5. The ASLPI can be taken "in person" at Gallaudet or via videophone from an approved location. The ASLPI evaluation system is housed in [ASL Diagnostic and Evaluation Services \(ASL-DES\)](http://aslides.gallaudet.edu/fees.xml) at Gallaudet University. To schedule an ASLPI, send email to ASLPI@gallaudet.edu. There is a fee to take the ASLPI. Please check this web site for current ASLPI fee information: aslides.gallaudet.edu/fees.xml

Acceptance

Initial notification of acceptance into the program will be made by mid-March at which time applicants will then have two weeks to consider their decision of accepting or rejecting the offer to study at Gallaudet. We ask that accepted applicants let us know their decision by April 1, so that vacated slots may be offered to those on our waiting list. For transfer information, Contact the Transfer Credit Specialist in the [Registrar's Office](#).

VETERANS ADMISSIONS REQUIREMENTS

Gallaudet University is committed to America's veterans and has a long history of serving them at our institution. Gallaudet is authorized to accept all GI Bill payments including the additional contributions by the Department of Veterans Affairs (VA) through their *Yellow Ribbon Program*. The Yellow Ribbon GI Education Enhancement Program (Yellow Ribbon Program) is a provision of the Post-9/11 Veterans Educational Assistance Act of 2008. According to the VA, it is available to veterans who have sustained "a service connected disability." In addition to accepting veterans being supported through the general GI Bill, under the Yellow Ribbon Agreement, Gallaudet will support up to 25 eligible veterans during an academic year for any major for an amount up to \$3,050.00 (full time status) in tuition expenses. Gallaudet is listed on the Department of Veterans Affairs (VA) [Approved Education Programs](#) web site (BIT.LY/2hucF) as an institution participating in the Yellow Ribbon Program.

Student Application Policy/Procedures for the Yellow Ribbon Program

- Gallaudet applicants should determine their eligibility for the Yellow Ribbon Program on the U.S. Department of Veterans Affairs, [Yellow Ribbon Program Information](#) web site (BIT.LY/AbPbj) and obtain appropriate authorization from the Department of Veterans Affairs.
- Gallaudet applicants should apply, if they are eligible, for educational benefits under the [Post-9/11 GI Bill](#) with the U.S. Department of Veterans Affairs.
- Gallaudet applicants should complete the undergraduate application form on the [Gallaudet Admissions](#) web site (admissions.gallaudet.edu) or the graduate application form on the [Graduate Admissions](#) web site (aaweb.gallaudet.edu/gspg_graduateschooladmissions.xml).
- Gallaudet applicants and students should complete the Free Application for Federal Student Aid (FASFA) form.
- Gallaudet accepted applicants and enrolled students should download an [Enrollment Verification form](#) (registrar.gallaudet.edu/Enrollment_Verification.xml) from the Gallaudet University Registrar's Office web site and get a signature from the Registrar's Office showing proof that they are enrolled as Gallaudet University students.

- Gallaudet applicants and students are welcome to contact Gallaudet University's point of contact for veterans, Ms. Caroline Finklea, for more information about the Yellow Ribbon program at Gallaudet and/or additional services and programs offered to Veterans. The e-mail address is: veterans@gallaudet.edu.

Additional information about the Post-9/11 GI Bill and Yellow Ribbon Program, as well as VA's other educational benefit programs, can be obtained by visiting the [VA's web site \(www.gibill.va.gov\)](http://www.gibill.va.gov) or by calling 1(888) GIBILL-1 (or 1(888)442-4551).

ADMISSION REQUIREMENTS FOR SPECIAL, VISITING, AND EXCHANGE STUDENTS

Visiting and Exchange Students

Deaf, hard of hearing, and hearing applicants for visiting student status must be currently registered as sophomores, juniors, or seniors at an accredited college or university and must have a cumulative GPA of 2.5 or higher. Special consideration will be given to deaf and hard of hearing students who are currently of freshman status and in good academic standing at their colleges and universities.

Exchange students are welcome from Oberlin College (Oberlin, Ohio) and McDaniel College (Westminster, Md.). Exchange students may spend a semester at Gallaudet and receive college credits toward graduation at either Oberlin or McDaniel College. To qualify for the program, a student must be either a junior or senior with a GPA of 3.0 or higher, and be recommended by at least two faculty members. Students interested in participating in the exchange program must file an undergraduate application with the Office of Admissions.

Visiting and exchange students are strongly encouraged to complete their applications as early as possible. Course availability is not guaranteed, but every effort will be made to accommodate students who apply early. Transfer credits may be evaluated and used as pre-requisites for courses you plan to take at Gallaudet. Contact the Transfer Credit Specialist at the [Registrar's Office](#).

Special Student Status

Deaf, hard of hearing, and hearing students who do not plan to work toward a degree may be admitted as special students if their objectives are approved by the Office of Admissions. Application for the special student status must be made each semester. An application fee of \$50 payable to Gallaudet University must accompany the application. Special students may take one or more courses, up to 19 credits, each semester. If special students later wish to become candidates for degrees, they must meet the undergraduate admission requirements of the University. Application for a change to degree status must be made to the Office of Admissions.

SECOND DEGREE ADMISSIONS REQUIREMENTS

Students who obtained a bachelor's degree at an institution other than Gallaudet and want to pursue a second degree, apply through the Office of Admissions. Applicants must meet all of the requirements for undergraduate admissions and include their college transcripts with their application.

Students who have previously earned a B.A., B.S., or higher degree from an accredited college or university must satisfy only the second B.A. or B.S. degree's major requirements and the major prerequisites. Grade points earned in the previous degree(s) will not apply in determining scholastic eligibility while a student is enrolled for a second degree. Students who have previously taken courses at another accredited college or university may request from the appropriate department chairperson that these courses be transferred.

Students who obtained their first bachelor's degree at Gallaudet apply through the Registrar's Office. Readmission procedures are described in the Registration and Policies chapter of the catalog.

UNDERGRADUATE READMISSION

Students who wish to return to Gallaudet to complete an undergraduate degree should apply through the Registrar's Office. Students who have completed a bachelor's degree at Gallaudet and wish to apply for a second undergraduate degree should also apply through the Registrar's Office. Readmission procedures are described in the Registration and Policies chapter of the catalog.

STUDENT RIGHT-TO-KNOW ACT

The Student Right to Know and Campus Security Act, Public Law 101-542, is a federal law that requires that Gallaudet University make readily available to its students and prospective students the information listed below:

- Academic programs of the institution including a description of the facilities, faculty and other instructional personnel, and [accreditation](http://quality.gallaudet.edu/AccreditationLicensure.xml) information (quality.gallaudet.edu/AccreditationLicensure.xml)
- [Financial assistance available to students](http://financialaid.gallaudet.edu/FA_Programs.xml) (financialaid.gallaudet.edu/FA_Programs.xml)
- [Cost of attending the institution](http://gallaudet.edu/af/financeoffice_tuitionandfees.xml) (gallaudet.edu/af/financeoffice_tuitionandfees.xml) and any [refund policy](http://registrar.gallaudet.edu/Withdrawal.xml) (registrar.gallaudet.edu/Withdrawal.xml)
- Description of any [special facilities available to disabled students](http://oswd.gallaudet.edu) (oswd.gallaudet.edu)
- Institutional security policies and [crime statistics](http://gallaudet.edu/af/publicsafety_annualcrimereports.xml) (gallaudet.edu/af/publicsafety_annualcrimereports.xml)
- [Completion/graduation rate of freshmen](http://quality.gallaudet.edu/Documents/OIR/GraduationRate_By_Cohort.pdf) (quality.gallaudet.edu/Documents/OIR/GraduationRate_By_Cohort.pdf)

This information can also be obtained by visiting the web site provided above or sending a letter to the following address:

Tuition, Fees, and Financial Aid

TUITION AND FEES

Student Financial Services

College Hall, Room B-04

gallaudet.edu/af/StudentFinancialServices.xml

A two-page summary of tuition and fees is also available online at gallaudet.edu/af/financeoffice_tuitionandfees.xml.

Student Financial Services are managed by the Finance Office. Students may pay their tuition and fees in person or online via the [BISON student system \(bison.gallaudet.edu\)](http://bison.gallaudet.edu). Office hours of operation are 8:30 a.m. to 4:30 p.m., Monday to Friday. The office email address is student.accounts@gallaudet.edu.

Tuition and Fee Schedules Basic Costs per Semester

Fall 2009/Spring 2010

U.S. Students

	Undergraduate	Graduate
Tuition	\$5,425.00	\$5,965.00
Unit Fee	\$138.00	\$138.00
Room	\$2,730.00	\$2,730.00
Board	\$2,100.00	\$2,100.00
Health Insurance Fee (Annual)	\$1,698.00*	\$1,698.00*
Health Service Fee	\$50.00	\$50.00
Full-Time Student Total	\$12,141.00	\$12,681.00
Commuter Student Total	\$7,311.00	\$7,851.00
Part-Time Student Per Credit Total	\$542.50	\$663.00

International Students (Non-Developing Countries)

	Undergraduate	Graduate
Tuition	\$10,850.00	\$11,930.00
Unit Fee	\$138.00	\$138.00
Room	\$2,730.00	\$2,730.00
Board	\$2,100.00	\$2,100.00
Health Insurance Fee (Annual)	\$1,698.00*	\$1,698.00*
Health Service Fee	\$50.00	\$50.00
Full-Time Student Total	\$17,566.00	\$18,646.00
Commuter Student Total	\$12,736.00	\$13,816.00
Part-Time Student Per Credit Total	\$1,085.00	\$1,326.00

International Students (Developing Countries)

	Undergraduate	Graduate
Tuition	\$8,137.50	\$8,947.50
Unit Fee	\$138.00	\$138.00
Room	\$2,730.00	\$2,730.00
Board	\$2,100.00	\$2,100.00
Health Insurance Fee (Annual)	\$1,698.00*	\$1,698.00*
Health Service Fee	\$50.00	\$50.00
Full-Time Student Total	\$14,853.50	\$15,663.50
Commuter Student Total	\$10,023.50	\$10,833.50
Part-Time Student Per Credit Total	\$813.75	\$994.50

The list of developing and nondeveloping countries is available at gallaudet.edu/af/financeoffice_EDACountrylist.xml

Explanation of Basic Costs:

Tuition:

Undergraduate: US Citizens:

Amount indicated is for full-time undergraduate students. A full-time course load for undergraduate students is 10 credits or more for billing purposes.

Graduate US: Citizens:

Amount indicated is for full-time graduate students. A full-time course load for graduate student is 9 credits or more for billing purposes.

International Students:

These reflect the 100% tuition surcharge for students from Non-Developing countries and 50% tuition surcharge for students from Developing countries required by amendments to the Education of the Deaf Act. Students from developing countries may apply for a reduction in the percent of tuition surcharge. The list of developing and non-developing countries is available online at gallaudet.edu/af/financeoffice_EDAcountrylist.xml

Unit Fee:

Required for full-time undergraduate and graduate students to cover the cost of student activities.

Health Insurance Fee:

This subject-to-change annual fee is \$1,698 for U.S. and international students. It applies only to full-time and residential students enrolled during the full-year unless a proof of adequate insurance coverage is submitted to the Student Health Services. The annual fee is billed as a one-time charge per academic year in the fall semester for coverage from July 15, 2009 at 12:01 a.m. to July 15, 2010 at 12:00 a.m.

Students enrolling in spring semester 2010 are billed \$993 for coverage from December 15, 2009 to July 15, 2010. Students enrolling in summer session 2010 are billed \$289 for coverage from May 15, 2010 to July 15, 2010. The health insurance fees for 2009-2010 are subject to change at policy renewal on July 15, 2009.

Health Service Fee

Required for all full-time undergraduate and graduate students for fall and spring semesters. Every current registered student is eligible to use the Student Health Service. The purpose for this fee is for educational material and office visits.

Room and Board:

Room

Students are not required to live on campus. Students living off campus may buy meals individually at the University cafeteria (Cafe Bon Appetit), Market Place, Rathskellar, Starbucks, and the Bistro, or choose from a variety of board plans. Room arrangements are made on the basis of a room contract covering the academic year. Rooms are available only to those who also pay board for meals served in student dining facilities. The room contract provides for a room and the necessary furnishings. The room fee for the fall or spring semester is \$2,730 and does not include the winter recess. Room fees are based on two people per sleeping-study room.

University residence hall space is limited. For this reason, the application for housing is accepted only with the \$50 admission fee and the \$200 room deposit. All applications should be received no later than June 1 for the fall semester. New and returning students accepted after June must return room applications as soon as possible and will not be guaranteed residence hall space. To be eligible for University housing, students must carry at least 10 undergraduate or nine graduate credit hours. This academic load must be maintained throughout the semester.

Room and Board Changes or Cancellations

If a student moves out of Gallaudet housing during the semester, refunds will be made using the same criteria as for withdrawals. If a student moves into Gallaudet housing during the semester, charges will be made based on the number of weeks remaining in the semester.

Board Plans

Three meals per day are provided seven days a week in the University cafeteria (Cafe Bon Appetit). Meal plans do not include spring and winter recesses. However, students can use their "Dining Dollars" anytime any of the eateries are open. Board plans are:

250 Block Plan = 250 Block Meals + \$50 Dining Dollars**Per Semester Cost: \$2,200**

This is the standard meal plan that offers the best value for the dollar, approximately 15 meals per week. Students have the opportunity to eat everyday at Cafe Bon Appetit (University Dining Hall) or for a meal deal or \$50 in Dining Dollars in the Rathskeller, Starbucks, or Marketplace. Blocks can be utilized at the Cafe Bon Appetit anytime, all semester, without restriction.

220 Block Plan = 220 Block Meals + \$50 Dining Dollars**Per Semester Cost: \$2,100**

This meal plan is a great value for someone looking to eat daily with unlimited seconds along with some extra spending money to use at the Rathskeller, Starbucks, or Marketplace during off hours. Blocks can be utilized at the Cafe Bon Appetit anytime, all semester, without restriction. In addition, blocks may be used for a meal deal at the Rathskeller or Marketplace.

190 Block Plan = 190 Block Meals + \$150 Dining Dollars**Per Semester Cost: \$2,100**

This plan provides the most flexibility offering approximately 12 block meals per week. This plan works best for someone who usually goes off campus on weekends. This plan also offers \$150 in Dining Dollars to spend in either the Rathskeller, Starbucks, or Marketplace throughout the semester. Blocks can be utilized at the Cafe Bon Appetit anytime, all semester, without restriction. In addition, blocks may be used for a meal deal at the Rathskeller or Marketplace.

150 Block Plan = 150 Block Meals + \$150 Dining Dollars**Per Semester Cost: \$2,030**

This plan provides approximately 10 block meals per week along with \$150 to spend in the Rathskeller, Starbucks, or Marketplace. Blocks can be utilized at the Cafe Bon Appetit anytime, all semester, without restriction. In addition, blocks may be used for a meal deal at the Rathskeller or Marketplace.

100 Block Plan = 100 Block Meals + \$125 Dining Dollars**Per Semester Cost: \$1,960**

This plan provides approximately 7 block meals per week along with \$125 to spend in the Rathskeller, Starbucks, or Marketplace throughout the semester. Blocks can be utilized at the Cafe Bon Appetit anytime, all semester, without restriction. In addition, blocks may be used for a meal deal at the Rathskeller or Marketplace.

Internship Meal Plan

Students on internships may qualify for an internship meal plan. Under this plan, students purchase dining dollars instead of purchasing a normal block based meal plan. To qualify for the plan, students will need a letter from their department advisor written on department letterhead indicating the nature of the internship, internship hours and the number of days per week required to be off campus. They will also need a letter from the place of the internship detailing the same information.

Students should submit the letters and complete a request form for the Internship Meal Plan at the University Post Office in the lower level of the Student Union Building.

TUITION, FEES, AND FINANCIAL AID

Additional Fees

Undergraduate Application Fee	\$50	Required for all undergraduate applicants and students applying for readmission
Undergraduate Admission Fee	\$50	Required for all students accepting admission to the University
Undergraduate New Student Orientation Fee	\$50	Required for all undergraduate students
First Year Seminar (FYS) Fee	\$10	Required for all new students
Graduate Application Fee	\$50	Required for all new graduate applicants and students applying for readmission, \$25 for each additional application
Graduate Admission Fee	\$100	Required for admissions process (\$50 nonrefundable, \$50 deposit to be credited to student's account after enrollment)
Graduate School Fee	\$10	Required for all graduate students each semester
Graduate Continuous Enrollment Fee	\$100	Required for all graduate students registering for Continuous Enrollment, GPS 798 or GPS 898
Master's Thesis Fee	\$600	Required for all thesis publications
Each Additional Thesis Copies	\$80	Required at time of request for publication
Graduate Dissertation Fee	\$750	Required for each doctoral student at time of defense
Each Additional Dissertation Copy	\$90	Required at time of defense
English Language Institute New Student Orientation Fee	\$300	Fall and \$100 Spring - Required for all new ELI Students
Registration Fee	\$10	Required for all students attending Gallaudet for the first time
Room Deposit	\$200	Required for all students who intend to live on campus. Payment must be made in advance of receiving a room assignment
Parking Fee	\$54	Required each semester for students who register their cars to park on campus
Book, Supplies and Class Materials Fee	Varies	Estimated amount a student needs each semester is approximately \$500. Some classes charge additional fees to cover the cost of special services or class materials. Estimate amount for ELI students is \$250 each semester.
Late Registration Fee	\$50	Required of all students who complete registration after the official registration dates.
Add/Drop Fee	\$5	Required for each add/drop transaction
Graduation Fee	\$50	Required for all degree candidates during the semester of graduation.

Living Expenses

In addition to the charges made by the University, students will also incur expenses for transportation, books, supplies, clothing, and personal expenditures. The amount needed to meet such demands will vary with individual taste and the distance from home. It is suggested that students arrive with at least \$100 beyond known expenses at the start of a year; they can then determine what further allowance will be necessary.

Refunds After Withdrawal from the University

Procedure

For the procedure for official withdrawal from the University, see the appropriate section under Registration and Policies on Withdrawal from the University for Undergraduate Students or Graduate Students. Refunds are based on the official date of the student's withdrawal, as accepted by the Registrar's Office, and must be requested by writing to Student Financial Services in College Hall.

Refunds for Fall and Spring Semesters

Refunds for the unexpired portion of the semester will be made according to the time of withdrawal as follows:

Tuition and Room Charges

- During the first week of class, 80% of the charge
- During the second week of class, 60% of the charge
- During the third week of class, 40% of the charge
- During the fourth week of class, 20% of the charge
- Thereafter, no refund

Board - Pro rata refund

Fees - No refund

Room and Board Cancellations

If a student moves out of University housing during the semester, refunds will be made using the same criteria as for withdrawals. If a student moves into University housing during the semester, charges will be made based on the number of weeks remaining in the semester.

Refunds for Summer Session

Refunds for summer session tuition and fees will be made as follows:

Tuition: 50% refund the first day of class; no refund will be issued after the first day.

Room and Board: Pro rata refund based on full weeks only.

Fees: No refunds or cancellations.

Debt Collection Policies

It is the policy of Gallaudet University that the administration must collect all amounts due under promissory notes. Failure to satisfy the financial obligations spelled out in the promissory note may result in the administration's turning the student account over to a collection agency. Furthermore, the administration will deny the student future registrations and withhold grades, transcripts, and degrees until full payment is received.

Student Financial Responsibility and Student Aid

The University recognizes its role in fostering personal initiative, planning, and responsibility in financial affairs as an integral part of the educational process. The administration believes each student has the primary responsibility for arranging financing and payment of his or her charges. Each student will, therefore, be held responsible for his or her bill. Gallaudet University maintains an Office of Financial Aid to make every effort possible to provide financial aid to any deserving student eligible to attend the Institution. This aid may be in the form of scholarships, grants-in-aid, loans, or part-time employment. Further, this office provides assistance to help the student as much as possible in his or her application for funds available from federal government programs, from state vocational rehabilitation offices, and from other agencies and organizations.

Financial Appeals

Students who believe that the inability to pay off their previous promissory notes is due to a rare, extraordinary circumstance (e.g., unexpected major medical emergency and expense) may appeal to the administration for additional time to pay off their balance for fall and spring semesters. Additional information concerning the appeal procedures is available from the Student Financial Services office. Students must understand that submitting an appeal form is no guarantee that it will be approved. Those whose appeals are turned down will be requested to leave the University until their debts are paid in full.

FINANCIAL AID

Chapel Hall, Room G02

Web: financialaid.gallaudet.edu

Email: financial.aid@gallaudet.edu

Gallaudet University makes every effort to provide financial aid to students who are able to demonstrate that they are in need of assistance to continue their education on a postsecondary level.

With the exception of grant-in-aid and Gallaudet scholarships, (which are limited to regular full-time, degree-seeking students), financial aid is awarded to students who are degree-seeking and who are eligible for Title IV programs.

Financial assistance is based on the following calculation:

- Student Cost of Attendance
 - minus (-) student/family contribution (EFC)
 - minus (-) other outside resources
- equals (=) financial need for which aid may be awarded

The student/family contribution is calculated using the Free Application for Federal Student Aid (FAFSA), which is a standard method of determining contributions from taxable and nontaxable income and assets. All applicants for financial aid through Gallaudet must submit both the Gallaudet Institutional Financial Aid Application (IFAA) and the FAFSA. The FAFSA also serves as an application for a Federal Pell Grant.

Parents and students may obtain estimates on college costs, savings plans and expected family contribution and other financial information at: www.finaid.org/calculators.

Educational Costs

The purpose of financial aid is to assist in covering educational costs. Costs include tuition, fees, room, books, board, transportation, and an average allowance for personal expenses (for the period of time the student is enrolled). Financial aid is not intended to meet all living costs and students need to be prepared to meet their own non-educational living needs while they attend school. The average financial aid cost of attendance for the 2009-2010 academic year is \$26,000 for undergraduate students and \$31,000 for graduate students. Financial aid from all sources cannot exceed this amount.

Application

Prospective students may apply for financial aid; however review of financial aid applications will occur only after admission is granted. Currently enrolled students can obtain financial aid packets, during the spring semester, for the following academic year at the Financial Aid Office or online (see below).

Letters are mailed to each applicant regarding the decisions made on his or her application. Awards also may be viewed by accessing individual BISON Student Services.

All applications for financial aid may be accessed online at financialaid.gallaudet.edu/FAAppsAndLinks.xml.

Application Deadlines

The Financial Aid Office accepts applications at any time before or during the academic year; however there are priority deadlines that are enforced for the awarding of any institutional grants and scholarships. For the 2009-2010 academic year, these priority deadlines are July 1, 2009, and January 11, 2010. Funds are awarded on a first-come, first-served basis; so it is important to apply long before the priority deadlines. Institutional funds may be exhausted before the priority deadline dates.

Applications received after the priority deadline dates will be reviewed for federal grant, work study, and loan eligibility (if a loan request has been made).

Financial Aid Eligibility

In order to establish eligibility for Title IV Programs, such as Federal Pell Grant, Federal ACG, Federal SMART Grant, Federal College Work-Study (FWS), Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Perkins Loans, and Federal (subsidized and unsubsidized) Stafford Loans, a student must be enrolled in a degree-seeking program at Gallaudet. The student must meet the requirements of U.S. citizenship. With the exception of unsubsidized Stafford, Grad PLUS, and Parent PLUS loans, all of the federal programs are need-based.

In order to receive assistance from these programs, the student must:

- Be making satisfactory progress toward the completion of a degree in his or her field of study.
- Not be in default on a Perkins or Stafford Loan.
- Not owe repayment on a Pell, ACG, SMART Grant or Perkins Loan

Eligibility for University and Federal Aid Programs											
	UG	GRD	U.S.	INT'L	F/T	H/T	P/T	REPAY	GIFT	DEG	SPEC

F/T	Full-time student (12 hrs. UG, 9 hrs. Grd)	SPEC	Not degree-seeking, or non-degree credits - not eligible for any financial aid
H/T	At least 6 cr. hrs		

Satisfactory Academic Progress for Financial Aid

In order to continue receiving any federal financial aid, students must: 1) be meeting the University's grade point average standards of minimum scholarship and 2) be successfully completing a minimum number of credit hours per academic year.

Undergraduate Students

Students pursuing bachelor's degrees must complete their degree programs within five years if full-time (six years if students were enrolled in a preparatory or non-credit year). Students who take mostly condition courses their first year will be required to pass those courses and enroll in degree credit coursework after two semesters. Upon completing the next two semesters, students must have earned 12 degree credit hours. The minimum standards for financial aid are as follows:

During full-time year	You must earn at least this many credits*
1	12
2	25
3	58
4	91
5	124

* Transfer credits are included as one semester for each 12 hours transferred.

In addition to earning degree credits as shown above, students must maintain a cumulative grade point average of 2.0.

Graduate Students

Students enrolled in master's degree programs must complete their degree program within three years, if full time. The number of credit hours master's students must successfully earn must be one third (1/3) of the total required for program completion. Doctoral students are expected to earn one fourth of the total number of degree credits each

year; four year limit (not including dissertation research). All graduate students are expected to maintain a cumulative GPA of 3.0. Students may be expected to earn a greater number of credit hours per year and to complete their degree programs in less than the maximum time indicated.

Probation

Students not meeting the standards outlined above will be placed on financial probation for one semester. A probationary semester will not be granted at the end of the second year of academic study (four semesters), or if a student fails all credit hours attempted in a semester (see following). If the minimum standards are not met by the end of the probationary semester, students will be ineligible for federal aid. This includes Federal Pell Grant, Federal ACG, Federal National SMART Grant, Federal Perkins, Stafford, and PLUS Loans, Federal SEOG, and Federal College Work-Study.

Second Year Requirement (Undergraduate)

At the end of their second academic year of study (*including* condition year), undergraduate students must have a cumulative grade point average of 2.0. Students who do not meet this requirement will not be granted a probationary semester and will not be eligible for financial aid until the necessary cumulative grade point average is attained and other standards are met.

Course Failures

Students who fail all credit hours attempted (or fail all credits in combination with course WDs) will not be granted a probationary period and will be ineligible for financial aid for the subsequent semester.

Appeals

Students who do not meet the academic standards for financial aid may submit an appeal to the Financial Aid Office if they feel that there were special circumstances that affected academic performance. Appeals must be submitted within the first four weeks of the semester following ineligibility. Further information is available from the Financial Aid Office regarding these regulations. Failing grades in coursework are not grounds for appeal.

Financial Aid Enrollment and Eligibility

Graduate Students Taking Undergraduate Courses

Graduate students taking undergraduate coursework will be awarded financial aid based ONLY on the number of Graduate degree credits. To qualify for federal and institutional aid programs, graduate students must be enrolled in at least 6 credit hours of Graduate coursework.

Summer Students

Some limited financial aid is available for summer school, which is considered to be the "last" semester of the award year for financial aid. Students who desire to apply for summer school aid must complete a Summer Application Supplement, available in the Financial Aid Office each April (and also on-line). Summer school aid will be awarded only to students who are enrolled for the previous fall and/or spring and who have completed the FAFSA and Gallaudet Institutional Financial Aid Application (IFAA).

Summer aid is awarded to eligible students for degree-credit coursework only. Non-degree credit Sign Language courses and credits offered through other University departments/colleges will not be supported by financial aid. Summer aid will not cover coursework which is repeated.

Summer financial aid is limited. Students taking summer courses should not depend on financial aid alone to cover summer charges.

Undergraduate Students Beginning Graduate Program in Summer

Undergraduate students who plan to begin a Graduate Program in Summer, and who have been enrolled as undergraduate students in fall and/or spring, MUST COMPLETE A FAFSA FOR THE SAME AWARD YEAR AS A GRADUATE STUDENT. FAFSA results for undergraduate students are invalid for awarding graduate level financial aid. Adjusted FAFSAs must be filed by the beginning of May for the prior Academic Year. For example, a student who is an undergraduate in 2009-2010 and who starts a graduate program in Summer of 2010 MUST correct their 2009-2010 FAFSA (before May if possible) to reflect graduate level status. It is essential that undergraduate students beginning a Graduate Program in Summer see Financial Aid about requirements and applications even before acceptance into a graduate program.

Online Students

Students taking online courses may receive financial aid funding (if otherwise eligible); however the cost of education used to determine financial aid eligibility for on-line class funding will include tuition, fees, and books only. Transportation costs, personal expenses, room, and board are not included in determining the amount of financial aid funding, and are not considered to be relevant costs associated with on-line study. Students may choose to live in University housing while taking on-line study; however the expenses related to dorm residence will not be included in financial aid calculations or in the amount of aid granted.

In order to be considered for the full cost of education and applicable financial aid, students must be taking a minimum of six credits per semester (in their degree program) of resident (lecture) classes in combination with online classes.

International Students

International students must document sufficient support from personal or private resources in order to obtain valid immigration permits; therefore, no aid is awarded to first year international students. International students are expected to be responsible for meeting education expenses for the entire length of their programs. Very limited aid is available to international students. Assistance through the University is provided only with documentation of unexpected reductions or cancellations of previously planned support. Awards determined by the Gallaudet Financial Aid Office are made to eligible students who are full time and degree seeking only. These awards will depend on availability of funds and individual need. International students who are receiving ongoing family/private support or assistance through other University departments may not be eligible for financial aid.

Visiting Students

Students who are attending other institutions and who are enrolling at Gallaudet for one or two semesters are considered to be visiting or special students and are not eligible for financial aid. In some cases, students' home institutions will agree to transfer any aid for which they are eligible to Gallaudet via a Consortium Agreement; however, all visiting students must apply for aid at their home institutions, not at Gallaudet. Visiting students should discuss their plans with the Financial Aid Office at their home schools (degree-granting institution) prior to attending Gallaudet.

Financial Aid Processing

Financial aid will be disbursed only when the University add/drop period is completed and student enrollment is verified. Financial aid is based on student enrollment status as of the last day of the add/drop period. In addition, all required documentation must be received (e.g., tax forms) before aid will be released for individual students. All financial aid administered by the University must first be used to cover University charges; refunds of financial aid will not be given to students until all semester charges are satisfied. All grants and scholarships are credited directly to students' accounts. Loan checks for Federal Stafford, Perkins, and PLUS loans must be endorsed by the borrower, if not received electronically, and submitted to the University cashier so that the loans can be credited against charges. Loan checks may not be deposited into private checking or savings accounts, or otherwise negotiated by students. Because financial aid is not disbursed at the beginning of the semester or released to students as a refund until all charges are satisfied, it is essential that students be financially prepared to cover expenses for books and usual living costs with personal funds.

Overawards

The Financial Aid Office is charged with the responsibility for compliance with federal aid program guidelines, which include ensuring that students do not receive more aid than that for which they are eligible (exceeding the "financial need" amount). In cases where a student has been awarded financial aid and other financial assistance received exceeds the financial need amount, the Financial Aid Office must reduce or cancel any aid it has awarded to avoid "overawards" of federal aid.

Students who are awarded institutional grants, and subsequently receive departmental assistantships, stipends, VR support, waivers, or outside assistance, may have their institutional grants reduced. Institutional grants are limited, and if awarded without knowledge of "other" assistance, may be reduced to make grant funds available to students who do not receive such other assistance.

It is essential that students notify the Financial Aid Office of any assistance expected or received from outside sources (private scholarships, VR); or from other University departments or offices (such as tuition scholarships/waivers, stipends, grants, or other assistance/scholarships) in order to determine what effect, if any, this assistance will have on aid awarded by the Financial Aid Office.

Campus Communication

All students are issued a campus post office box and e-mail account. Students are advised that all communications from the Financial Aid Office are sent to the campus post office box or via campus e-mail once the semester has started. Students need to check their paper mail and e-mail frequently in order to get essential information from this Office. Financial aid will be delayed or terminated if students do not respond to requests for information or other required activities sent to the post office box or through Gallaudet e-mail.

Gallaudet post office boxes, addresses, and e-mail accounts are maintained in Gallaudet's central database, and this information determines where our communications are sent. Students must be sure that this information is current and accurate. Any changes to this information should be made through the Registrar's Office.

Grants and Scholarships

Federal Pell Grant

Pell is a grant (gift aid) to undergraduate students. This program is limited to students who have not yet received a bachelor's degree. The grants vary in amount depending on the student's expected family contribution (EFC) figure, cost of attendance, enrollment status, and on authorized funds. Pell Grants range from \$304 to \$5,350 for the 2009-2010 academic year.

Federal Supplemental Educational Opportunity Grant (FSEOG)

This program is a grant or gift awarded by the school to undergraduate students who have "exceptional financial need", as determined by the FAFSA-generated Expected Family Contribution (EFC). Grants are limited to students who are enrolled at least half time in a degree-seeking program, and who are PELL Grant eligible.

Average grants range in value from \$200 to \$2,000 per academic year, depending upon individual need and available funding.

Federal Academic Competitiveness Grant (ACG)

The Federal ACG will provide up to \$750 for the first year of undergraduate study and up to \$1,300 for the second year of undergraduate study.

To be eligible for the ACG Grant, students must:

- be at least half-time
- be a U.S. citizen (or eligible non-citizen)
- be eligible for a Federal Pell Grant
 - have successfully completed a rigorous high school program (as determined by the state or local education agency and recognized by the Secretary of Education).
 - have a cumulative grade point average (GPA) of at least 3.0 at the end of their first year of study to receive a second year ACG grant

The program was available for the first time for the 2006-07 school year for first year students who graduated from high school after January 1, 2006 and for second year students who graduated from high school after January 1, 2005.

For more information on ACG eligibility, please go to studentaid.ed.gov/PORTALSWebApp/students/english/NewPrograms.jsp.

Federal National Science and Mathematics Access to Retain Talent Grant (SMART)

The National SMART Grant will provide up to \$4,000 for each of the third and fourth years of undergraduate study.

To be eligible to receive a National SMART Grant, students must::

- be a U.S. Citizen (or eligible non-citizen)
- be eligible for a Pell Grant
- be enrolled at least half-time as a third or fourth year student in a Baccalaureate Program
- have a 3.0 cumulative grade point average at the end of each semester
- be majoring in:
 - Computer Science
 - Engineering
 - Critical Foreign Languages
 - Life Sciences
 - Mathematics
 - Physical Sciences
 - Technology
 - Multidisciplinary Studies.

Eligible majors are determined each year by the U.S. Department of Education.

The National SMART Grant award is in addition to the student's Pell Grant award.

More information can be obtained at studentaid.ed.gov/PORTALSWebApp/students/english/NewPrograms.jsp.

Gallaudet Grant-in-Aid

The University makes available from its general income a limited number of grant-in-aid awards to full-time, degree-seeking undergraduate and graduate students who are U.S. citizens or permanent residents. These grants are used for tuition, unit fee, and campus-based living expenses (room and board).

GIA is supplemental to the student's personal funds, the support provided by parents, and possible financial aid from state agencies. Also included in the student's resources are any federal grants, Federal Perkins Loan, Federal Work Study, or Federal Stafford Loans. Remaining funds from the academic year are used to provide summer session grants for students enrolled full time during either semester of the preceding academic year. Summer applications are available during the spring semester.

Any part of such a grant that cannot be used to cover charges will be cancelled. Grant-in-aid cannot be released to students as refunds.

Need-Based Scholarships

As part of the total financial aid package, scholarships funded by clubs, organizations, individual donors, and foundations are awarded annually. Scholarships, which are need-based, are awarded to those students who meet the eligibility requirements and who submit the appropriate applications (FAFSA and the IFAA). Students applying for a scholarship must be full time and degree-seeking.

The Financial Aid Office matches student applicants with scholarships, based on donor purpose and other criteria. Students do not need to apply for individual scholarships. The FAFSA and IFAA serve as scholarship applications.

State Grants and Scholarships

Several states provide scholarships and grants, based on need.

For information about state resources, students should ask their state department of education or regional vocational rehabilitation counselor. Some information is available in the Office of Financial Aid for students from the District of Columbia, Delaware, Maine, Maryland, Massachusetts, Pennsylvania, Wisconsin, and Vermont.

Merit Scholarships

The Gallaudet University Admissions Office offers merit-based scholarships to deaf and hard of hearing students whose scholastic and personal achievements are exemplary. All newly admitted incoming freshmen and transfer applicants will automatically be considered for all merit-based scholarships. No separate forms are necessary.

Scholarship winners will be notified by the Admissions Office. Timely responses to admission and of merit-based scholarship awards are important because of the limited number of available merit-based scholarships.

For more information, see aaweb.gallaudet.edu/Merit_Scholarships.html.

Loans

Federal Perkins Loan

The Perkins Student Loan is a low-interest (5 percent) subsidized federal loan administered by Gallaudet. Perkins loans are available to students who have "exceptional financial need." Undergraduate students may borrow a maximum of \$5,500 per year, depending on the availability of funds and individual financial need. Graduate/Professional students may borrow a maximum of \$8,000 per year, depending on availability of funds and individual financial need.

The aggregate Federal Perkins Loan Program limit is \$27,500 for a student who has not yet completed a program of undergraduate study and \$60,000 for a graduate or professional student, including loans borrowed at the undergraduate level.

Repayment begins nine months after a student graduates, withdraws, or drops below half time. (Grace periods may vary for less-than-half-time students.) Students are allowed up to 10 years to repay, with a minimum monthly payment of \$40 (depending on date of loan disbursement and aggregate amount borrowed). Deferments, forbearance, and/or cancellation of payments are available to eligible students and must be requested.

Federal Stafford Loans

The Federal Stafford Loan programs provide loans through lenders such as banks, credit unions, or savings and loan associations. Subsidized Stafford Loans are those for which the government pays the interest while a student is enrolled at least half time (a minimum of six credit hours toward the student's degree program) or in applicable loan deferment status. Unsubsidized Stafford Loans are those that are not need-based, and the student is responsible for paying the interest that accrues during in-school and deferment periods.

Interest rates vary, depending on Stafford Loan history and the date on which the loan is disbursed, but are not higher than 8.25%. Variable interest rates are set each June. For prior borrowers with outstanding loan balances, interest rates will be the same for previous loans. For loans disbursed after July 1, 2009, interest rates will be "fixed" at 5.6% for Undergraduate Subsidized Loans.

Undergraduate students may borrow subsidized loans up to \$3,500 per year as freshmen, \$4,500 per year as sophomores, and \$5,500 per year as juniors and seniors. Dependent

undergraduates may also borrow an additional \$2000 per year in Unsubsidized Stafford Loans. Graduate students may borrow up to \$8,500 per year. (Actual loan amounts may be less, depending on individual student eligibility.) Repayment begins six months after the student graduates, withdraws, or drops below half-time attendance.

Independent undergraduate and graduate students may borrow additional unsubsidized Stafford Loans once subsidized limits are reached (and if otherwise eligible). The maximum amounts of additional unsubsidized loans that can be borrowed are:

- freshmen and sophomores - \$6,000;
- juniors or seniors - \$7,000;
- graduate students - \$12,000.

These are maximums only; actual unsubsidized loan amounts are determined according to individual student eligibility.

Stafford Loans are disbursed in two payments, usually one per semester. One semester loans may be disbursed in two payments; the first at the beginning of the semester (or after approval) and the second after the mid-point of the semester.

Loan request forms are available in the Financial Aid Office or online at financialaid.gallaudet.edu.

Students who have outstanding Stafford loans should contact the Financial Aid Office to discuss future borrowing resources. Repayment begins six months after a student withdraws, LOA, graduates, or drops below half-time attendance (including internship and dissertation enrollment). Students with Unsubsidized Stafford Loans will be responsible for the interest that accrues during the six-month grace period. Deferments are available and depend on the loan date. Questions about your deferments should be directed to the holder of your loan.

Loan Deadlines

Federal Stafford and PLUS Loans must be requested by the end of November for the fall semester and the end of April for the spring semester. This is necessary so that adequate time is given to process loan applications, promissory notes, and the receipt of loan funds. Under no circumstances will a loan be awarded/processed for a semester that has ended, unless the student is fully enrolled for a subsequent semester in the same academic year. Loans will not be processed to

cover outstanding charges for a prior semester in order to enroll. Students who owe a balance from a previous semester will have to satisfy all debts to the University before a loan will be processed. Students who have completed the fall semester with an outstanding balance may not enroll for the spring semester, and therefore are not considered "students" for the purpose of loan requirements. For this reason, it is essential that students apply for loans early, and well before the semester ends.

Master Promissory Notes

Students who are first-time Federal Stafford Loan borrowers, or students who are borrowing at Gallaudet for the first time (e.g., transfer students) are required to complete and sign a Master Promissory Note (MPN). The Financial Aid Office will notify students when the MPN has arrived for their signature. Stafford Loans will be canceled for students who do not complete the MPN requirements within 30 days from notification. (Loan funds will not be approved or disbursed by the lender without a signed promissory note.)

Student Loan Counseling

Federal law requires institutions to inform students of their borrower rights and responsibilities. To meet this federal requirement, students may be required to complete an entrance interview/counseling session. The loan Entrance Interview may be obtained at: <https://staffordloanguide.usafunds.org/login.aspx?schoolId=00144300>. Students cannot receive their Federal Stafford Loan funds until they have met this federal requirement. After linking to the web site, students should follow the instructions carefully. If a student is unable to complete the entrance loan counseling session on the web, the student may complete it in the Financial Aid Office.

- *Entrance Loan Counseling* session is required of all first-time Gallaudet loan borrowers at the time of application. Entrance counseling may also be completed in person or on the web. The loan request will not be processed until this requirement is satisfied.
- *Exit Loan Counseling* is required of Stafford Loan borrowers who withdraw, drop below half-time (6 credits), or graduate. Exit Loan Counseling may also be completed in person, by mail, or on the web: <https://studentloantransitionguide.usafunds.org/login.aspx?schoolId=00144300>.

Failure to complete exit interview/counseling requirements will result in a "hold" on transcripts, grades, and diplomas.

Federal Parent Loans for Undergraduate Students (PLUS)

PLUS loans are loans that are borrowed by parents on behalf of their dependent undergraduate students. This program gives parents with good credit histories an opportunity to borrow an amount each year that does not exceed the student's cost of education minus any financial aid received. The PLUS interest rate is variable but cannot exceed 9 percent for loans disbursed on or after October 1, 1992. If a parent has an outstanding PLUS loan received prior to October 1992, the lender should be contacted for interest information. For PLUS loans first disbursed after July 1, 2006, the interest rates will be fixed at 8.5%.

PLUS loans are disbursed in two payments and are made copayable to the borrower and Gallaudet University. Any paper checks are forwarded to the borrower for endorsement and must be returned to Gallaudet to be applied to any of the student's outstanding institutional charges. Any amount in excess of the outstanding charges will be refunded to the borrower. PLUS loans are not subsidized, and interest and principal repayment begins within 60 days of the loan disbursement. Deferment of principal only may be available on PLUS loans. Lenders should be contacted for further information.

Federal Graduate Student PLUS Loan (Grad PLUS)

Graduate Student PLUS Loans are intended to provide unsubsidized loan assistance to graduate students who do not qualify for Federal Stafford Loans, or who have borrowed the maximum Stafford Loans allowed annually and still have remaining unmet educational costs for the academic year (based on their Cost of Attendance). Graduate PLUS Loan interest rate is fixed at 8.5%, and payments may be deferred while enrolled upon request from your lender. See the Financial Aid Office for further information.

Private Educational Loans

Students who do not qualify for Federal Stafford or PLUS loans (or who have reached annual maximum limits) may consider applying for a Private Educational Loan (sometimes called Alternative Loans). These loans are not subsidized, but offer competitive interest rates and deferment options. These loans also may be used to cover previous outstanding balances to the University, depending on the student's last enrollment period. All applications for private loans must be requested by the end of November for the fall semester and the end of April for the spring semester. Eligibility and guidelines will vary among private loan providers.

For more information, contact the Financial Aid Office.

Other Resources

Social Security

Students who have worked a full-time job in the past, but had to leave because of their disability, may be eligible to receive disability benefits from the Social Security Program (FICA Tax). Benefits also may be received if one of the following is true:

- The student is under 18 (disabled or nondisabled), and one or both parents are receiving Social Security benefits or are deceased (Child Benefits).
- The student is a disabled student, over 18, who became disabled before the age of 21, and one or both parents are receiving Social Security benefits or are deceased (Disabled Adult/Child Benefits).

Students who feel that they may be eligible for any of the benefits listed above should apply through their local Social Security Office.

Supplemental Security Income (SSI)

SSI is a federal program of financial assistance that is administered by the Social Security Administration. In order to be eligible for SSI, the student must meet two major requirements:

- The student must have a mental or physical disability (e.g., deafness) that prevents him or her from working, and
- The student must have little or no regular income or property of great value. The amount of income and property he or she can have depends upon his or her living arrangement and the state of which he or she is a resident.

Both of these eligibility requirements must be met by the student. Just having a disability is not enough; the student must be able to prove that the disability prevents him or her from working in a substantially gainful job. If he or she has worked for a period of time and voluntarily quit or has good work skills, the student may not be eligible for SSI, since his or her disability does not prevent him or her from working. Individuals who are over 18 and full-time students will have only their income (not their parents' income) counted for eligibility. When students are proven eligible, they will receive a monthly check to assist them in meeting their living expenses. They also may be eligible for medical assistance from the state in which they permanently reside. They can work and receive SSI at the same time, but their monthly amount will be reduced, depending on their job earnings. Students who feel that they may be eligible for SSI may apply through any local Social Security Office.

Vocational Rehabilitation

Vocational rehabilitation (VR) is a program that exists in each state to help individuals who have a hearing loss or other disabilities. VR may be able to provide financial assistance to help with the cost of college and may also provide assistance for hearing aids, glasses, and other disability-related devices. To be eligible for VR, students must have a disability that limits their ability to obtain or advance in a job, and there must be some indication that VR services will be able to help better prepare them for future employment. Students who think that they may be eligible for VR services should apply to the VR agency in their home state.

Many VR agencies have changed their policies and will not authorize support until they have received the results of all financial aid applications. This means that many students may start the semester without any VR authorization. It is absolutely necessary that students apply for all financial aid programs early and inform their VR counselor of the results as soon as they are known. Students should check with their VR counselor to see if any authorizations will be sent to Gallaudet before financial aid results are known.

If a student's VR authorizations are not received by Gallaudet before registration, the student will be expected to pay his or her expenses or sign a promissory note before he or she can register. When the student's financial aid and VR assistance come through, the student will be reimbursed for any payments made. It is extremely important that each student talk with his or her VR counselor prior to each semester to find out what assistance he or she may or may not be receiving. Students should not assume that the VR assistance will automatically be sent to the University.

If any agency is supplying funds or assistance directly to a student, rather than to Gallaudet, Gallaudet considers that the student is paying for his or her expenses.

Students expecting any VR support for books and supplies should come prepared to buy these materials with their own money. Many times the VR authorizations are not received in time for students to have credit at the bookstore. Students should keep all receipts received; they will be reimbursed by the Student Financial Services. The University Financial Aid Office will not make loans for books and supplies. Students or vocational rehabilitation counselors who have any questions should contact the Financial Aid Office.

Federal Work Study (FWS)

This program is designed to assist students who must earn part of their education costs by working part time. The amount a student can earn under FWS is determined on the basis of need and the amount of funds available in the program. Federal Work Study students are paid on an hourly basis every two weeks. The salary begins at minimum wage and can be increased depending on the nature of the job and the job requirements. Eligibility for this program is determined by the Office of Financial Aid.

Placement for students awarded FWS funds is accomplished through Gallaudet's Career Center. Community service positions and reading tutor positions off campus are available to FWS recipients. These positions offer a variety of service sites and activities.

For more information, contact the Gallaudet University [Career Center](http://careercenter.gallaudet.edu) (careercenter.gallaudet.edu) as well as the Financial Aid Office.

Graduate Assistantships

Graduate assistantships for degree students are frequently available in academic departments and through the Office of the Dean of the Graduate School. These positions are filled on a competitive basis. Students interested in graduate assistantships are encouraged to apply early to their departments.

University Financial Aid Refunds to Institutional and Title IV Programs

The Financial Aid Office is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a payment period or term. The federal Title IV financial aid program funds must be recalculated in these situations.

If a student leaves the institution prior to completing 60% of the semester, the financial aid office recalculates eligibility for Title IV funds. Recalculation is based on the percentage of earned aid using the following Federal Return of Title IV funds formula:

Percentage of payment period or term completed

The percentage of payment period or term completed is the number of days completed up to the withdrawal date divided by the total days in the payment period or term. (Any break of five days or more is not counted as part of the days in the term.) This percentage is also the percentage of earned aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula:

Aid to be returned

Aid to be returned is:

- 100% of the aid that could be disbursed
- minus the percentage of earned aid
- multiplied by the total amount of aid that could have been disbursed during the payment period or term.

An example:

- A student withdraws after 44 days.
- This number is divided by the total days in the semester: $44/110 = 40\%$.
- This student has "earned" 40% of his/her financial aid.
- If the student has received \$6000 in grants and/or loans, 40%, or \$2,400 is earned, and the remaining \$3,600 must be returned.

If a student earned less aid than was disbursed, the institution would be required to return a portion of the funds and the student would be required to return a portion of the funds.

If a student earned more aid than was disbursed to him/her, the institution would owe the student a post-withdrawal disbursement which must be paid within 120 days of the student's withdrawal.

Keep in mind that when Title IV funds are returned, the student may owe a debit balance to the institution.

The institution must return the amount of Title IV funds for which it is responsible no later than 45 days after the date of the determination of the date of the student's withdrawal/LOA.

Refunds are allocated in the following order:

- Unsubsidized Federal Stafford Loans
- Subsidized Federal Stafford Loans
- Unsubsidized Direct Stafford Loans (other than PLUS loans)
- Subsidized Direct Stafford Loans
- Federal Perkins Loans
- Federal Parent (PLUS) Loans
- Direct PLUS Loans
- Federal Pell Grants for which a Return of funds is required
- Academic Competitiveness Grants (ACG)
- National Smart Grants
- Federal Supplemental Opportunity Grants for which a Return of funds is required
- Other assistance under this Title for which a Return of funds is required (e.g., LEAP)

Unofficial Withdrawals

Financial aid is given to students with the understanding that they will be attending the classes for which financial assistance has been awarded. When a student fails all courses (or has a combination of "Fs" and "WDs") for a given semester, the University is required to determine whether the student actually attended classes throughout the semester. If it is determined that the student ceased attending classes (based on attendance as reported by faculty), the student will be considered to have "unofficially withdrawn" from the University for financial aid purposes, and financial aid will be retroactively reduced or canceled according to Financial Aid Refund Policies for LOA/Withdrawal. In addition, students who unofficially withdraw will be ineligible for financial aid for the subsequent semester of enrollment, and until all Satisfactory Academic Progress standards are met.

Students should be aware that they need to file an official withdrawal with the Office of the Registrar if they cannot, or choose not, to attend classes throughout the semester. Students who unofficially withdraw and wish to be reinstated must apply for readmission through the Registrar's Office.

Registration and Policies

Enrollment Management

REGISTRAR'S OFFICE

registrar.gallaudet.edu

Chapel Hall 102

Gallaudet University strives to make the registration experience as smooth as possible. The [Registrar's Office](#) serves as the first point of contact for students related to course enrollment, student record keeping, grading procedures, academic status, and graduation. The Registrar's Office also assists with transfer credits.

Graduate students are served by both the Registrar's Office and the [Graduate Enrollment Office](#) (aaweb.gallaudet.edu/GradAdmissions.xml). For professional studies (PST) courses and non-continuing summer students, students are served by the [College of Professional Studies and Outreach](#) (CPSO) (cpso.gallaudet.edu).

Policies for undergraduate and graduate students at Gallaudet University are established by the Council on [Undergraduate Education \(CUE\)](#) (aaweb.gallaudet.edu/CUE.xml) and the [Council on Graduate Education](#) (CGE) (aaweb.gallaudet.edu/cge.xml). CUE and CGE are faculty-led committees that set academic standards and policies. CUE and CGE review proposals submitted by departments and programs for changes in the curriculum, program requirements, and new or changed courses. CUE and CGE then recommend curriculum changes to the University Faculty. Approved changes are posted in the catalog for the next academic year.

Key registration resources include this catalog and:

- Academic Calendar, registrar.gallaudet.edu/documents/Registrar/schedules/Academic_Calendar_2009_2010.pdf
- Online Student Information System, bison.gallaudet.edu
- Course Schedule, courseschedule.gallaudet.edu
- People Directory, people.gallaudet.edu
- Online Learning System, my.gallaudet.edu

REGISTRATION

Procedures Prior to Registration

There are some requirements that are to be met prior to course registration. Students are required to submit Health History, meet with their Academic Advisor(s) and have a clear balance or financial agreement before they can begin the Course Registration process.

Health History

Before enrolling, all Gallaudet University students must submit a health history form to Student Health Services (SHS). Students cannot register for classes until the form has been submitted and approved as providing the requirement proof of immunizations. The health history form can be downloaded from gallaudet.edu/af/Documents/shs_health_history_form.pdf

District of Columbia law also requires students under the age of 26 at the time of matriculation to provide proof of the following immunizations:

- Varicella (Chickenpox) or documentation of the disease
- Tetanus/Diphtheria booster within the past 10 years
- Measles, Mumps, Rubella (MMR) twice at age 12 months or older or evidence of immunity by titre;
- Tuberculin (Mantoux) PPD 5 TU within twelve months prior to enrollment
- Salk Polio vaccine within the past five years or evidence of oral polio vaccine (TOPV) series
- Hepatitis B and Meningococcal

Students over the age of 26 at the time of matriculation are required to have had a Tetanus/Diphtheria booster within the past 10 years and the Tuberculin (Mantoux) PPD 5 TU within twelve months prior to enrollment.

Academic Advising

Students should meet with their academic advisor prior to registering for courses. Students can find the name of their advisor when they login to the BISON web site, or by consulting their academic department or appropriate advising office.

- **Undergraduate Students with Declared Majors:**
Consult your faculty advisor in the academic department.
- **Undergraduate Students with Undeclared Majors and Special Students:**
Consult the Academic Advising Office.
- **Graduate Students:**
Consult your faculty advisor in the academic department.
- **Graduate Special Students:**
Consult the Assistant Dean, Graduate School Curriculum, Policy, and Operations.

Business Registration (Fee Payment)

Per Gallaudet University's policy, the account balance must be paid in full each semester at posted dates before the student can register for courses and enroll for the next semester or obtain diploma and transcript upon graduation. Student may still register for the next semester if they have made arrangements with the Student Finance Services and signed a Promissory note. Gallaudet University does not offer deferral or payment installment plans. Students have full access to their student financial account via login to bison.gallaudet.edu.

Course Registration

New Students

Registration for new undergraduate students occurs during New Student Orientation (NSO) through the [Office of Academic Advising \(academicadvising.gallaudet.edu\)](http://academicadvising.gallaudet.edu). Registration for new graduate students occurs during Graduate Student Orientation (GSO) during academic department meetings. Undergraduate and Graduate students register for PST prefixed courses through the [College of Professional Studies and Outreach \(cpso.gallaudet.edu\)](http://cpso.gallaudet.edu).

Continuing Students

Registration for continuing undergraduate students (those without remedial English courses) and for graduate students is conducted online through the BISON Student Information System, bison.gallaudet.edu. Students who are taking remedial English courses will register with their Academic Advisor.

Continuing students are encouraged to register for courses for the following semester as soon as registration opens (in April for the following Fall semester and in November for the following Spring semester). The earlier you register, the better your course schedule is likely to be - and the better the University can plan for your needs.

Readmitted Students

Registration for readmitted students is done via the Readmission Advisor in the Academic Advising Office, SAC 2220 for undergraduates and via the Graduate Enrollment Office, Kendall 101.

Students Returning from Leave of Absence (RLOA)

Undergraduate students must contact the LOA/WD Specialist at the Registrar's Office. Graduate students must notify their academic department, the Dean of the Graduate School, and the Registrar's Office if they plan to return from Leave of Absence (RLOA).

Second Degree Students (Undergraduate Students Only)

If your first degree is from Gallaudet, contact your major advisor within your major department for course registration.

If your first degree is not from Gallaudet, please refer to the course registration procedure for "New Students".

Course Changes: Add, Drop

Undergraduate students may add or drop a course in the first four days of a semester. Graduate students may add or drop a course during the first two (2) weeks of classes. No changes in registration for courses may be made after the close of the fourth day, except for reasons beyond the student's control. There is a \$5 fee for each successful transaction during the designated add/drop period.

Course Audit

Students desiring to attend a class and participate in the class activities without earning a grade for the course and without earning credit toward a degree may audit the course. Enrollment as an auditor is permitted only after students otherwise eligible to enroll in the course on a credit basis have had an opportunity to do so.

To audit a course, the student must obtain permission from the instructor before enrolling, registering, and paying the normal tuition and fees. Decisions to audit a course and registration must be made prior to the first day of classes. Audited courses are not counted as credit courses, and grades are not included in the calculation of institutional or degree grade point averages, but are recorded as "AU" in official transcripts upon successful completion of the course as reported by the instructor.

Repeated Courses

Undergraduate Courses: A course may be repeated for credit one time, meaning taking for the second time. A special request for a second repeat should be submitted to the appropriate dean for consideration. The student's record will show grades for all courses that are repeated but the student's cumulative GPA will reflect only the highest grade for each course. A consortium course may be taken to replace a course taken at Gallaudet, provided that the department chair verifies that the consortium course is equivalent to the course at Gallaudet.

Graduate Courses: Graduate students who receive an unsatisfactory grade (e.g., C, F, or WF) in a course satisfying a program requirement, may repeat the same course with permission of the department only one time.

Course Cancellation

Gallaudet reserves the right to withdraw any course not elected by a sufficient number of students.

Study Day

Study Day is a day set aside for students to prepare and study for final exams. It is also a time for faculty to hold review sessions or office hours to be available to help students. This day typically occurs the day after the last class day of each semester. No classes or final exams will be scheduled or administered at any time on Study Day.

Final Exams

Final exams will only be offered during the official exam period, following the Final Exam Schedule distributed by the Registrar's Office. The official exam period is listed on the Academic Calendar each year. Exceptions to this policy must be in writing and have the approval of the department chair and dean.

Course Withdrawals

Procedures for course withdrawals differ for undergraduate, graduate and PST students. In the case of withdrawing from all courses, resulting in zero (0) credits, refer to either the Leave of Absence (LOA) or the University Withdrawal procedure.

Details on course withdrawals are provided under [Undergraduate Policies](#) (page 58) in this catalog.

Course Numbers

Undergraduate and graduate courses offered in the University are numbered as follows:

Below 100	Non-degree courses
100-199	Primarily Freshman courses
200-299	Primarily Sophomore courses
300-499	Primarily Junior and Senior courses
500-599	Courses designed for both upper division undergraduates and graduate students
600-699	Dual-listed graduate level courses
700-799	Master's level graduate courses
800-899	Doctoral level graduate courses

Double numbers separated by a hyphen (321-322) indicate a two-semester course that must ordinarily be taken in sequence.

Double numbers separated by a comma (441, 442) indicate a two-semester course that may be taken for either one semester or both semesters. Figures in parentheses following course titles show credit in semester hours.

500-Level Courses

500-level classes are open to upper division undergraduate and graduate students. They may be listed as program requirements for undergraduate or graduate programs and may be applied as electives in undergraduate or graduate programs, with permission of the department. Graduate students in 500-level classes will be expected to complete graduate-level work.

600-Level (Dual-Listed) Courses

Dual-listed courses, listed in both undergraduate and graduate catalogs, are defined as graduate level courses that are open to advanced undergraduate enrollment. Dual-listed courses carry a 600-level number in both catalogs and have the same course descriptions. Requirements are identical for graduate and undergraduate students. Dual-listed courses may be included in graduate programs.

Cross-Listed Courses

Cross-listed courses are courses that are defined at two different levels or that are defined and listed by two different programs or departments. Cross-listed courses typically meet together for class sessions and thus are scheduled at the same time and location. There are several possibilities for cross-listed courses.

1. A course may be cross-listed as both undergraduate (400-level) and graduate (700-level) courses. Requirements may be different for students in the 400- and 700-level courses, but they will meet together for lectures and thus be scheduled as one class.
2. A course may be cross-listed as two levels of graduate study: 700-level (master's) and 800-level (doctoral). Requirements may be different for students in the 700- and 800-level courses.
3. A course may be cross-listed in two or more departments in order to provide an opportunity for students to collaborate and learn in an interdisciplinary environment. Cross-listing also provides a separate course number (e.g., BUS 341, PHI 341 Business Ethnics), so that student transcript indicate the discipline in which the student majored. Cross-listed courses appear in listings for each program with a notation that they are cross-listed.
4. An undergraduate or graduate course may be cross-listed with a PST prefixed course in order to provide educational opportunities for non-degree seeking students. The requirements for the PST section will be defined by the undergraduate or graduate section.

Kinds of Courses

Undergraduate and Graduate Credit Courses

Courses listed in this catalog are credit courses which have been approved by the Faculty Governance process (either the Council on Undergraduate Education or the Council on Graduate Education). In general, they may be applied to Gallaudet University degrees and graduate certificate programs, unless there is a specific restriction linked to a particular course.

Undergraduate Non-Degree Courses

Courses with numbers lower than 100 are remedial courses, offered in Applied Literacy and Mathematics. These courses may not be applied to Gallaudet University degrees.

Professional Studies Courses

Gallaudet University offers a wide range of professional studies courses that bear the prefix PST. PST courses carry Gallaudet University credit, but are not applied toward a Gallaudet University degree or certificate program. Degree seeking students often take PST classes to supplement their current studies, but credits earned will not be factored into the graduate or undergraduate GPA. Other universities and accrediting organizations do accept PST credits, however, but students wishing to transfer credits should check to determine the applicability of the coursework at their home institution. Some PST courses are offered as clusters that lead to professional certificates.

Enrichment Courses

Summer and Enrichment Programs offers learning-for-pleasure courses throughout the academic year. Some courses offer students Continuing Education Credits (CEU's). Enrichment courses may not be applied toward Gallaudet University degree programs.

Delivery Systems for Courses

Gallaudet courses may be taken in a number of different formats. While most of our classes are offered as traditional face-to-face classes on campus, an increasing number of courses are involving some degree of technological transmission. Many of our teachers combine face-to-face teaching with materials and exercises posted to a web site. In addition, we offer a variety of online courses, both for graduate

credit and for PST credit. Through our extension programs, we can also bring credit courses or contract classes to requested sites given an adequate group of participants. Gallaudet University also has up-to-date facilities to provide tele-courses or video conferencing on the main campus and at the Gallaudet University Regional Centers in various parts of the United States.

Consortium Courses

Eligible Gallaudet students may submit Consortium Cross Registration Authorizations to initiate the cross registration request process to take courses offered at member institutions of the Consortium of Universities of the Washington Metropolitan Area (CUWMA, www.consortium.org). Tuition is paid at the home school. Course fees, class materials/books, transportation, parking and library fees are all the responsibility of the student via direct billing processes using the home school Consortium Coordinator. Consortium schools may require special permission or exclude visiting Consortium students from programs and courses. Refer to the course description and seek advice if unsure from the Consortium Coordinator at the Registrar's Office.

Consortium Course Eligibility

Gallaudet's eligibility criteria for undergraduate and graduate students to participate in consortium courses are listed below:

Consortium Course Cross Registration Eligibility For Undergraduate Career Students:

To qualify for a course through the consortium program, an undergraduate student must meet the following criteria:

- Be a full-time active degree-seeking student at Gallaudet University
- Be in good academic standing (GPA of 3.0 is advisable)
- Have good campus and financial standing
- Have completed all non-degree condition courses.
- Be at least a second-semester freshman.

Undergraduate students are typically allowed one course request for cross-registration per semester unless special permission is given by the Gallaudet Undergraduate Consortium Advisor (Karen Cook) and program dean. Students wishing to request cross registration should ensure that they meet the eligibility criteria, have the UG Authorization to Request Consortium Cross Registration completed and submitted to the Consortium Coordinator at the Registrar's Office by academic calendar date deadlines for processing.

Consortium Course Cross Registration Eligibility For Graduate Career Students:

Graduate students requesting participation in the Consortium Cross Registration program may seek authorization with the following criteria met:

- Be an active degree-seeking student at Gallaudet University
- Be in good academic standing
- Have good campus and financial standing
- Permission from graduate academic department and the Dean of the Graduate School

Graduate students may register for no more than 50% of the credits taken for a semester at a consortium institution.

Consortium Cross Registration

Students wishing to request cross registration should ensure they meet the eligibility criteria, have both the Authorization to Request Consortium Cross Registration along with the official Consortium Registration Request form completed and submitted by academic calendar date deadlines for processing at the Registrar's Office.

Please note: Processing deadline dates have been established to provide the Consortium member institutions with required time to process both Gallaudet hearing and deaf/hard of hearing requests. These dates provide maximum processing time to allow for typical cross registration waitlist action for all visiting students as well as equity and equality for our Gallaudet student population (deaf/hard of hearing as well as hearing students) in the request process.

Interpreting services are requested on a student's behalf in the cross registration request process between institutions. The visited school is responsible for providing/contracting interpreters (by their policies/procedures) and paid by the host institution. If GIS (Gallaudet Interpreting Services) is used and a student does not adhere to class meeting times/dates - the student may become responsible for fees as deemed by GIS. The Consortium Coordinator provides interpreting requests to Consortium member institutions for students requesting interpreting services.

Most institutions now provide all catalogs and schedules online along with department program information.

Questions or concerns about the Consortium Program or process can be directed to the Consortium Coordinator at the Registrar's Office.

The Consortium of the Washington Metro Area membership includes:

- [American University](#)
- [The Catholic University of America](#)
- [Corcoran College of Art and Design](#)
- [Gallaudet University](#)
- [George Mason University](#)
- [Georgetown University](#)
- [The George Washington University](#)
- [Howard University](#)
- [Marymount University](#)
- [National Defense Intelligence College](#) *
- [National Defense University](#) *
- [Southeastern University](#)
- [Trinity University](#)
- [The University of the District of Columbia](#)
- [The University of Maryland College Park](#)

* Students visiting these institutions must have high military clearance and be enrolled in a program at their home school.

Grades, Transcripts, Diplomas

Grade Reports

Grade reports are available for students to view and print in [BISON](#) (bison.gallaudet.edu).

Transcripts and Diplomas

Students may obtain transcripts of their academic records from the Registrar's Office. There is a \$10 fee for each official transcript and \$2 fee for each unofficial transcript. Transcripts will be released only by signed request. No transcripts will be issued to a student who owes money or who has any outstanding obligations to the University. Additional shipping and handling fees apply for rush orders.

Transcript Rates	
Unofficial Transcript	\$2.00
Official Transcript	\$10.00
Fax Transcript	\$15.00
Federal Express	
- United States	\$25.00
- International	\$35.00
Rush Fee*	add \$15.00

*Requests for Rush Processing must be made before 12 noon (Eastern time).

Gallaudet University will not make copies of transcripts on file from other colleges and universities. Diplomas are issued only once, and any errors must be brought to the attention of the Registrar's Office within 90 days of receipt.

Confidentiality of Student Records

Gallaudet University follows the requirements of the Family Educational Rights and Privacy Act of 1974 (Buckley Amendment) regarding student records. Under this act, all official student records are considered confidential. The act applies to records of anyone who is enrolled as a student or has in the past been enrolled as a student of Gallaudet University or Gallaudet College.

All University officers and personnel must observe the following policies:

- Students have the right to inspect their own official records. Corrections or challenges to records may be presented by the student in writing to the office maintaining the record. Each office responsible for an official student record must have a policy for how and when students may read, copy, and, if necessary, challenge information in the record. *Upon receiving the student's signed request, the University (office responsible for that record) will provide an opportunity for the student record review within 45 days.*
- Gallaudet University personnel who need particular information in order to perform their assigned duties may have access* to these records. (*Information and level of access is determined by the Registrar's Office.)
- Disclosure of information contained in student records to other persons or agencies is prohibited, with the following exceptions.
 1. Information from a student record will be released upon written request of the student.
 2. Directory information (name, home address, local address, class, year, major, verification of enrollment) may be released to anyone upon request. **Students who do not wish this information to be available may request in writing to have their names removed from the directory. Such requests should be made to the registrar.**
 3. The University must release official records upon subpoena or court order. The University will attempt to notify the student that the records are being released.
 4. Auditors inspecting the operations of Gallaudet University offices may inspect student records.
- 5. Information from student records may be released to parents who financially support a student (under IRS regulations). *The disclosure is to the parents of a student who is a dependent for income tax purposes; must provide IRS Tax forms showing dependent student status per year student is active.*
- 6. Information from student records may be released to individuals or organizations providing financial aid for a student, or evaluating a student's eligibility for financial aid.

Information Included and Excluded from Student Records

Only information directly related to the educational process is maintained in student records. Official student records do not include references to political or social beliefs and practices. *Students may list memberships in professional associations, honorary societies, or student activities as part of their student records. Memberships in other organizations not listed by the student will not be included in student records.* Medical records, mental health records, and parents' financial statements are not subject to this law.

Such records are confidential and privileged and may not be reviewed or seen by anyone except as provided by applicable law of the District of Columbia and the federal government.

Student Records

The following list details student records at Gallaudet University governed by requirements of the Family Educational Rights and Privacy Act (Buckley Amendment). Questions about these records should be directed to the University officials indicated. Locations, email addresses, and phone numbers are available in the campus people directory, people.gallaudet.edu or the Academic Affairs guide, aaguide.gallaudet.edu.

Official Responsible: Ms. Sarah Hamrick, Director, Library Public Services

BEHAVIOR CODES

Student Responsibility

Students are responsible for keeping track of progress toward their degrees. The final responsibility for knowing all policies and procedures stated in the catalog remains with the student.

Academic Accommodations Policy

Gallaudet University has a legal obligation under the American with Disabilities Act (ADA) to provide reasonable accommodations for students with disabilities in addition to being deaf. Students who seek course accommodations, modifications, or substitutions can find guidelines and procedures for obtaining accommodations based on their disabilities on the Office for Students with Disabilities (OSWD) web site, sa.gallaudet.edu/oswd.xml. The Reasonable Accommodation policy is also online: gallaudet.edu/af/ao_s110.xml

Additional Behavior Codes

Student Handbook

Students are expected to adhere to all policies and procedures in the Student Handbook (sa.gallaudet.edu/studenthandbook.xml).

Drugs, Alcohol, and Smoking

Gallaudet University strictly prohibits the unlawful manufacture, possession, use, sale, or distribution of illicit drugs by anyone on the institution's property or as part of any of its activities. Gallaudet's drug-free environment policy is online: gallaudet.edu/af/ao_s105.xml

Gallaudet University complies with all applicable laws related to the distribution and consumption of alcoholic beverages. The complete policy concerning alcohol is online: gallaudet.edu/af/ao_s104.xml

Smoking is prohibited in campus buildings and leased space including atriums, balconies, stairwells, and other similar building features. Smoking is also prohibited in university-owned vehicles. Smoking is not permitted anywhere in the

residence halls. Smoking is permitted outdoors in areas that are at least 25 feet away from doorways and ground-level air intake structures.

The complete policy concerning smoking is online: gallaudet.edu/af/ao_s107.xml

Service Animals

The University permits service animals, which are individually trained to provide assistance to an individual with a disability, on campus and in its public facilities where the University community and members of the public are normally allowed, including food service areas. Long-term users of service animals (faculty, teachers, staff and students) are required to formally register the animal with the Office for Students with Disabilities (students) or Executive Director, Facilities (faculty, teachers and staff).

The complete policy concerning service animals is online: gallaudet.edu/af/ao_s108.xml

Protection Against Sexual Harassment

This part of the Registration and Policies Chapter is not yet complete in this preview version of the catalog.

Sexual harassment is a violation of Title VII of the Civil Rights Act of 1964, as amended. The University is committed to providing an environment that is free of unlawful sexual harassment and does not condone sexual harassment in any form. Reports of sexual harassment are investigated thoroughly, promptly, and objectively. The Student Handbook contains a [Sexual Misconduct Policy](#) and procedures for dealing with violations.

The complete policy is online at gallaudet.edu/af/ao_s302.xml.

UNDERGRADUATE POLICIES

Catalog Year Requirements

Candidates for bachelor's degrees are expected to graduate under general studies provisions of the catalog in effect at the time of admission.

Students must complete the requirements of a major/minor based on the catalog year requirements in effect for that major/minor at the time of declaration of the major/minor. Transfer and readmitted students are expected to follow the catalog year requirements in effect at the time of readmission for both the general curriculum chosen and the major/minor.

Each academic department has its own criteria that govern the courses needed to satisfy the remaining degree requirements. A readmitted student must receive approval for general studies and general elective credits from his/her academic advisor and the director of Academic Advising. For major courses, students must receive approval from the major department chair and the Dean of their college.

Declaration of Major

Students are expected to declare a major officially after satisfactorily completing 50 college degree semester hours (not including institutional credits). Transfer students with more than 50 degree hours may complete one year of residency before declaring a major. Students who have completed pre-major courses and who have decided on a major during their first year are strongly encouraged to declare a major as early as possible. For timely progress to graduation, some majors require completion of particular major courses within the first two years. For instance, students pursuing Bachelor of Science degrees in science, mathematics, and computer science should begin specific coursework in their first year and are best served by declaring their majors early.

Double Major

Students desiring a double major will be advised in each major by the advisor in each of the departments of their major choices. A student may receive two different degrees simultaneously. If the requirements are completed for a degree outside of the student's declared major, the student's transcript will reflect the fact, although a second degree will not be awarded.

Undergraduate Students in Graduate Courses

Under certain conditions, undergraduate students may enroll for graduate classes. In general, this requires advanced undergraduate standing, permission of the academic advisor, and permission of the department and instructor offering the course. Undergraduate students in graduate classes must compete exactly the same requirements as graduate students. In addition, undergraduate students must have met all prerequisite requirements for the graduate course in which they wish to enroll.

If the graduate class is to be used to fulfill requirements of a bachelor's degree, the same credits may not be applied to a graduate degree from Gallaudet University later. If the credits are to be applied to a graduate degree, they should be excluded from the undergraduate credit count.

Second Undergraduate Degrees

First Degree from Gallaudet

To satisfy the requirements for a second baccalaureate degree at Gallaudet University, a student must complete a minimum of 30 additional semester hours after satisfying requirements for the first degree, and he or she must also satisfy the requirements of a major other than the major declared for the first baccalaureate. Grade points earned in the first degree will not apply in determining the scholastic eligibility while a student is enrolled for a second degree. No student, however, will be permitted to complete the second degree under a catalog or supplement issued more than three years prior to the date of completion of the second degree. A student returning to Gallaudet for a second degree must submit a letter from the appropriate department chair granting permission to enroll in that major.

First Degree from Another Institution

Students who have previously earned a B.A., B.S., or higher degree from an accredited college or university must satisfy only the second B.A. or B.S. degree's major requirements and the major prerequisites. Grade points earned in the previous degree(s) will not apply in determining scholastic eligibility while a student is enrolled for a second degree. Students who have previously taken courses at another accredited college or university may request from the appropriate department chairperson that these courses be transferred.

Undergraduate Student Classifications

Lower-Division Students

- *Students with Conditions* who are required to take non-credit courses in English and/or Mathematics
- *Freshmen* who have earned 24 or fewer semester credits
- *Sophomores* who have earned 25-55 semester credits

Upper-Division Students

- *Juniors* who have earned 56-89 semester credits
- *Seniors* who have earned 90 or more semester credits
- *Second baccalaureate students* who possess a recognized baccalaureate degree and are enrolled in an undergraduate degree program

Full-Time Undergraduate Student

- minimum of 12 credits per semester
- maximum of 19 credits per semester, unless the student obtains permission from the Academic Dean of the college or school

Part-Time Undergraduate Student

- less than 12 credits per semester
- Not eligible for dormitory residence, unless the student obtains permission to reside in a dormitory from the Director of Residence Life and Dean of Student Affairs.

Degree-Seeking Undergraduate Student

Degree-seeking students are those admitted for undergraduate study and pursuing a program of study leading to an undergraduate degree.

Undergraduate Students with Conditions

Students admitted with English conditions may be allowed to take 100-level or higher courses with permission from their academic advisor, based on a list of courses approved by the academic departments.

Students admitted with conditions have two semesters to satisfy the criteria established by the English department for placement in general studies courses (credit-bearing courses). Exceptions can be made by the Conditions Review Committee. The Condition Review Committee will evaluate the student's progress, review the recommendations of the chairs of the English and Applied Literacy departments or the Mathematics and Computer Science department, and make recommendations about continued enrollment

Non-Degree Special Undergraduate Student

Special students are those who are enrolled in undergraduate courses, but are not pursuing a program of study leading to an undergraduate degree. Students must request special student status from the Registrar's Office each semester.

Non-degree special students are not limited in the number of semesters they may attend Gallaudet. If special students later wish to apply for admission to the undergraduate program, they must satisfy the requirements for undergraduate admission.

Visiting Undergraduate Student

Students currently enrolled at an accredited college, university, or community college may take courses at Gallaudet for up to two semesters and transfer all credits earned back to their home institutions. Visiting students often attend Gallaudet in order to enhance their current understanding of and involvement within the deaf community. Requirements for visiting students are:

- sophomore, junior, or senior status at their home institution
- a GPA of at least 2.5 or higher
- working knowledge of American Sign Language (ASL)

Exchange Undergraduate Student

Students currently attending [Oberlin College](#) in Oberlin, Ohio or [McDaniel College](#) in Westminster, Maryland may attend Gallaudet through the Exchange Student Program for one semester. Requirements for exchange students are:

- junior or senior status at their home institution
- a GPA of 3.0 or higher
- working knowledge American Sign Language (ASL)

Undergraduate Continuous Enrollment

Students enrolled in undergraduate programs must be registered for classes continuously from the time of admission until the completion of all degree requirements. Summer sessions in which there are no program requirements are not included. Students must be enrolled during the semester they complete the requirements of an incomplete course.

The only status options for a student wishing to take no courses during an academic semester are "leave of absence" (LOA) or withdrawal from the university. If the student withdraws from the university, the student must reapply in order to return to the university.

Undergraduate students may register for UCE 499 if they have met the University's criteria for "Continuous Enrollment." Registration for Continuous Enrollment must be completed through the Registrar's Office with an approval signature from the student's major advisor. The fee for Continuous Enrollment is \$100 for each semester of registration with Continuous Enrollment. Staff and faculty who register for Continuous Enrollment are also assessed the \$100 fee.

Students who register for Continuous Enrollment receive a grade of NG (no grade) at the end of each semester. UCE 499 Continuous Enrollment earns a student no credit. Failure to enroll in courses in any given semester, including Continuous Enrollment, will result in termination from the university. A student wishing to return later will need to reapply to university.

Undergraduate Grading System

The following grading system applies to undergraduate courses.

Grade	GPA Value	Definition
A	4.0	Excellent
B+	3.5	
B	3.0	Good
C+	2.5	
C	2.0	Fair
D+	1.5	
D	1.0	Poor
F	0.0	Failing
INC		Incomplete*
NG		No Grade, for UCE499 Continuous Enrollment*
P		Pass*
NP		No Pass*, No Credit
IP		In Progress*, No Credit
WD		Withdrawal*, No Credit
AU		Audit*, No Credit

* Not computed in Grade Point Average (GPA)

Incomplete (INC) Grades

A grade of Incomplete indicates that portion of the required coursework had not been completed and evaluated at the end of the course because of unforeseen, but fully justified reasons, and that earning credit remains possible. **Undergraduate students must complete the coursework and receive a grade by the end of the seventh week of the following semester.** Otherwise, the INC grade automatically becomes an "F."

Under extraordinary circumstances, but before the date of the deadline following the reported Incomplete, a student may petition the instructor of the course and the academic dean of the school in which the student is enrolled for an extension of the period normally allowed for removal of the incomplete grade.

Pass (P) and No Pass (NP) Grades

Pass and No Pass grades are assigned only in courses approved for such grading. Regular letter grades apply to all other courses. To earn credit in a Pass-No Pass course, a student must receive a grade of "P."

In Progress (IP) Grades

For certain approved courses, an In Progress grade ("IP") is given to students who make satisfactory progress but who do not yet have sufficient skill to pass the course or skills examination. Upon completion of the course, a final grade is assigned for that semester. However, the former IP grade(s) will not be deleted from the student's record.

Grades for Repeated Courses

Undergraduate students may repeat a course for credit one time. Students may request permission for a second repeat to an Academic Dean. The student's record will show grades for all courses that are repeated, but the student's cumulative GPA will reflect only the highest grade for each course. A consortium course may be taken to replace a course taken at Gallaudet, provided that the department chair verifies that the consortium course is equivalent to the course at Gallaudet.

Change of Grade

A change of grade may be made only in the case of a clerical or other administrative grading error. An appeal for a change of grade must be initiated by the student and must be approved by the instructor, department chair, and academic Dean.

Grade Reports

Grade reports are available for students to view and print in [BISON](http://bison.gallaudet.edu) (bison.gallaudet.edu).

Grade Point Average (GPA)

The GPA is calculated by dividing the total grade points by the total number of credit hours for courses receiving letter grades. For each letter-grade-bearing course, the grade points are obtained by multiplying grade equivalent (4.0 - 0.0) and credit hours. Only grades for courses taken at Gallaudet University, through the Consortium of Universities of the Washington Metropolitan Area, or through approved exchange programs are used in GPA calculations. Transfer credit grades are *not* calculated into your Gallaudet GPA. GPA is noted in grade reports and permanent student records. There are two kinds of grade point averages in use at Gallaudet University: Degree GPA and Institutional GPA.

Degree Grade Point Average (DGPA)

The DGPA includes the letter grades from all courses numbered 100 to 699. DGPA is calculated for students enrolled in degree courses (with no more than one non-degree course). The DGPA is used to determine academic standing, eligibility for graduation (cumulative DGPA 2.0 or better), Dean's list (semester DGPA), and/or for degree with distinction (cumulative DGPA).

Institutional Grade Point Average (IGPA)

The Institutional Grade Point Average includes the letter grades from all undergraduate courses, including non-degree courses numbered below 100 (developmental mathematics and English language courses). The IGPA is only calculated for students who are enrolled in non-degree English classes and is used to determine academic standing.

Undergraduate Academic Honors

President's Scholars

Undergraduate students whose cumulative degree grade point averages (GPA) are 3.4 or above for the preceding semesters and who have earned at least 15 degree credits at Gallaudet are recognized as President's Scholars. Students whose overall cumulative GPAs are 3.8 or above are given the distinction of being named Summa Cum Laude Scholars; students whose cumulative GPAs are 3.6 and above are named Magna Cum Laude Scholars; and those with cumulative GPAs of 3.4 or above are named Cum Laude Scholars.

Dean's List

Juniors, seniors, second-degree-seeking students, visiting students whose semester GPAs are 3.5 or above, and freshmen and sophomores whose semester GPAs are 3.25 or above are placed on the Dean's List for that semester, as long as the student did not receive a failing or incomplete grade in any course taken in that semester. A student must have earned at least 12 degree credit hours in a semester to be eligible for the Dean's List. An exception to this rule is made for some majors in education doing student teaching.

Degree with Distinction

Those students who graduate with a degree GPA of 3.8 or higher shall receive their degrees summa cum laude; for those at 3.6 or above, magna cum laude; and for those at 3.4 or above, cum laude. One-half of the course hours required for graduation (62 credit hours) must be taken at Gallaudet.

Degree with Honors

Degrees may be given with General University Honors, University Capstone Honors, Departmental Honors, or a combination. General University Honors and Capstone University Honors are awarded to students who have completed courses prescribed by the Honors Program. Departmental Honors are awarded to students who have completed the honors requirements prescribed by a department.

Undergraduate Academic Integrity Policy

Academic Integrity Defined

- Academic integrity grows from the longstanding traditions of the world university community.
- Academic integrity is defined as a firm adherence to the code or standard of values of the University and the individual professions.- Academic freedom is a commitment on the part of students, faculty, staff, and administrators even in the face of adversity, to five fundamental values: honesty, truth, fairness, respect, and responsibility.
- Commitment to academic honesty encourages the mutual respect and moral integrity that our University community values and nurtures.

Undergraduate Academic Integrity Student Standards

Standards of the University Related to Undergraduate Students' Academic Integrity

Undergraduate students must demonstrate behaviors that are consistent with the standards of the University as published in the Gallaudet Undergraduate Catalog, the Student Handbook, and the academic departments and academic support units. These behaviors include, but are not limited to, tact, civility, sensitivity to the needs and interests of others, sound judgment, respect for others, and timely attention to academic responsibilities. Failure to meet these standards reflects adversely upon the undergraduate student's suitability for academic study and may be grounds for dismissal from the University. The University can function properly only if its members adhere to clearly established and articulated values related to academic integrity.

Undergraduate students enrolled in graduate courses are subject to the Graduate School Academic Integrity Policy. Graduate students enrolled in undergraduate courses are also subject to the Graduate School Academic Integrity Policy. Faculty, students, staff, and administrators share equally in the responsibility for maintaining standards related to academic integrity.

Undergraduate Academic Integrity Violations

Violations of Academic Integrity

Violations of academic integrity reflect negatively on the undergraduate student, the academic program, and the University; thus, academic dishonesty in all its forms cannot be tolerated. Academic integrity encompasses many principles: respect for intellectual property, fair use, and adherence to the canons of scientific inquiry and reporting. Academic integrity may be violated any number of ways. Common examples of academically dishonest behavior include, but are not limited to, the following:

Cheating

Cheating is the intentional use of or attempt to use unauthorized materials, information, or study aids in any academic exercise. This may include, but is not limited to:

- copying from another student's work;
- representing material prepared by another as one's own work;
- submitting the same work in more than one course without prior permission of the instructors;
- using electronic devices to communicate and/or access information during exams;
- procuring or using stolen evaluation materials;
- violating rules governing the administration of examinations; or
- violating any rules relating to academic conduct of a course or program.

Fabrication or Misrepresentation

Fabrication is the provision or use of any false or altered information, data or citation in an academic exercise. Misrepresentation is giving incorrect or misleading information or failing to disclose relevant information.

Fabrication or misrepresentation of academic records may include, but is not limited to:

- making a false statement regarding one's academic credentials,
- concealing material information, and/or
- forging someone else's signature,
- forging a University academic document or record (also a crime),
- tampering with computer records,
- falsifying academic information on one's resume, and/or

- falsifying communications about class absences, missing assignments, exams or other course expectations and requirements.

Plagiarism

Plagiarism is the use or representation of the words, ideas, or sequence of ideas of another as one's own in any academic exercise. Information stored on a computer system or portable device or sent electronically over a network is the private property of the individual who created it. Dissemination of information, without authorization from the owner of said information, is a violation of the owner's right to control his or her own property and is considered a form of attempted theft. Plagiarism may include, but is not limited to:

- copying another person's paper, article, computer work, or assignment and submitting it as one's own;
- quoting, paraphrasing, or summarizing and utilizing someone else's ideas without attribution;
- copying or downloading (cyber-plagiarism), in part or in whole, articles or research papers or using ideas or information found from other sources and not giving proper attribution.

Facilitation of Academic Dishonesty

Facilitation of academic dishonesty is to knowingly or passively allow one's work to be used by another without appropriate attribution. It also includes participation in or the failure to report known or suspected instances of academic dishonesty.

Impeding Academic Progress

Impeding academic progress includes, but is not limited to:

- denying others access to scholarly resources;
- providing false or misleading information;
- making library material unavailable to others by stealing or defacing books or journals or by deliberately misplacing or destroying materials; or
- altering electronic files that belong to another without prior permission.

Computer Misconduct

Computer misconduct is the violation of rules regarding appropriate computer usage, as established by ITS and Academic Technology.

Undergraduate Academic Integrity - Course Grades

XF Transcript Course Grade Notation for Violations of Academic Integrity

An instructor who determines that the appropriate sanction for a student who has violated academic integrity is a failing grade for the course may record a grade of "XF." For purposes of grade point average calculation, an XF will be treated in the same way as an "F." The XF grade shall be recorded on the student's transcript with the notation "Failure Due to Violation of the University's Academic Integrity Policy". XF grades must be reported to the instructor's department chair. No student who has a grade of XF shall be allowed to participate in any university-sponsored extracurricular activity or organization until the XF is removed. GSPP or CLAST Dean will notify the Registrar, the student's academic advisor(s), all relevant program directors, coaches, and faculty/staff advisors of student organizations regarding a student's XF grade and their ineligibility to participate in extracurricular activities until further notice. The student can appeal the XF grade by following the same procedures described in the Post-Department Student Appeals Process above. After an XF grade has appeared on the student's transcript for twelve months, the student may request to have the XF grade removed. A request to remove the XF grade from the transcript will only be considered by the Academic Integrity Committee if the student has not been found responsible for any other action of academic dishonesty or similar disciplinary offense at Gallaudet University or any other institution. The student's request should include a written explanation of the reason(s) the XF should be removed.

The Academic Integrity Committee is not obligated to approve the student's request. In this instance, the XF grade remains on the student's transcript. If the student repeats the course, and the XF has not been removed by the previous process, both the new grade and XF will appear on the transcript. If the course has not been repeated with a passing grade and the appeal to remove the XF grade is approved, the student's XF course grade converts to an "F" grade. If the student repeats the course, and the XF has been removed, the new course grade replaces the XF.

Undergraduate Academic Integrity - Responsibilities

Department, Faculty, and Student Responsibilities Related to Academic Integrity: University-wide Responsibilities

The above provisions are general, and apply to all academic units. Any member of the Gallaudet community who witnesses a violation of academic integrity is responsible for reporting these violations to the Academic Integrity Committee. Academic Department Responsibilities Academic departments and support units will inform their undergraduate students of the standards of academic integrity and of practices of responsible research and scholarship of their discipline. This information will be disseminated through a combination of mediums such as student handbooks, the Gallaudet Undergraduate Catalog, and related web sites. Specific departmental responsibilities include the following:

- informing students about their responsibility to understand the Academic Integrity Policy in the Gallaudet Undergraduate Catalog and to strictly adhere to it. All academic departments will include a section on their syllabi referring to the academic integrity policy and the expectation that students adhere to this policy.
- informing students where the applicable professional code of ethics can be accessed and the need to adhere to those codes.
- informing students about the procedures and channels of communication within the department related to academic integrity complaints and appeals.

Academic Support Unit Responsibilities

Staff who work in academic support units (e.g., Academic Advising, Office for Students with Disabilities, Career Center, Academic Technology, Tutorial and Instructional Services) are responsible for reinforcing the policies of academic integrity. Specific academic support service responsibilities include:

- informing students about their responsibility to understand the Academic Integrity Policy in the Gallaudet Undergraduate Catalog and to strictly adhere to it.
- informing students where the applicable professional code of ethics can be accessed and the need to adhere to those ethics.

Staff are also responsible for reporting incidents of academic integrity violations to the course instructor(s). Procedures for addressing suspected violations of the academic integrity

policy outside the context of a particular course are the same as those described for suspected violations occurring within a course. If the incident is not course related, staff should report it to the appropriate unit head or Dean.

Sample incidents include but are not limited to:

- forgery on documents (e.g. advising forms, resumes, etc.);
- use of unauthorized aids (e.g. calculators, notes) during an examination;
- suspected duplication of assignments;
- or suspected misuse of technology

Faculty Responsibilities

Faculty will determine the content, organization, and conduct of their courses and adhere to the published content of such courses as they appear in the current year's Gallaudet Undergraduate Catalog. In the classroom, faculty will encourage students to engage in free inquiry and open expression of reasonably related content. They will inform students of the content, schedule, requirements, evaluation procedures, and grading policies employed in the course and of times, outside of class, when they are available for student consultation. Faculty will evaluate students fairly and without bias. Evaluation will adhere to the course goals, design, and timeframe described in the course syllabi. They will provide appropriate and timely feedback to the student about the quality of their work. Faculty will include expectations of academic honesty in their syllabi with references to the Academic Integrity Policy in the catalog. They will model the appropriate application of the principles of academic integrity in the presentation of classroom materials and will make all reasonable efforts to promote academic integrity through course and evaluation design, protection of materials, testing environment, and regular revision of evaluation materials. Faculty will deal with suspected instances of academic dishonesty in accordance with University policy.

Student Responsibilities

Undergraduate students are responsible for reading them Gallaudet Undergraduate Catalog, including the Academic Integrity Policy in this catalog, and are expected to engage in free inquiry and open expression of subjects reasonably related to the content of the course. They will familiarize themselves with the content, schedule, requirements, evaluation procedures, and grading policies employed in each of the courses in which they are enrolled. Students have the right to, and are encouraged to, talk to the person and/or the relevant department chair or unit director, if

they have a concern that a faculty member, staff member or student may have violated the academic integrity policy. Undergraduate students will participate in class activities as defined by the faculty member for purposes of facilitating academic or professional development. They will complete course requirements on time and in a manner consistent with the course requirements. Undergraduate students will make all reasonable efforts to promote academic integrity, by refraining from dishonest practices and by reporting known instances of dishonesty to the appropriate faculty person. Students are subject to the actions brought by faculty who suspect instances of academic dishonesty or other breaches of academic standards. Students may appeal such faculty actions through the undergraduate student appeals process described in the section called "Student Responses to Academic Integrity Violation Allegations."

Undergraduate Academic Integrity Policy Procedures

Procedures for Handling Suspected Violation(s) of Academic Integrity Occurring Within or Outside Course

Violations of Academic Integrity in Classes

A course instructor who suspects a student of academic dishonesty has the obligation to deal with the situation directly and quickly. The instructor will meet with the student to discuss the perceived violation and to determine what, if any, extenuating circumstances exist. The sanctions imposed and remedies recommended depend upon the circumstances surrounding the incident and the severity of the offense. Sanctions may include: failing an assignment, receiving a reduced grade in the course, or other academic sanctions deemed to be appropriate. The instructor may also decide to impose more severe sanctions, such as: failure of the course resulting in the grade of XF (indicates violation of academic integrity policy) or recommendation for suspension or dismissal from the University. Remedies may include: requiring a substitute assignment, repeating the assignment under supervised conditions, and other academic remedies deemed appropriate.

The instructor or staff member is required to prepare a written letter to the student detailing the charge(s) and the sanctions and/or remedies.

The letter will state clearly:

- the nature of the offense,
- the date of the offense or the date it was discovered,
- evidence to support the offense,
- the date and nature of the meeting with the student to address the offense,
- the proposed sanction, any proposed remedy that is required of the student,
- and the expected outcomes of the remedy.

The letter to the student will be hand delivered or sent to the campus post office where the student must sign to receive the letter (electronic messages are not acceptable for this purpose) to the student within five academic days after meeting with the student. Copies of the letter must be sent to the academic advisor, program director (if appropriate), department chair, and the academic dean. All sanctions except the recommendation for suspension or dismissal can be resolved between the faculty or staff member and the student. If there is a recommendation for suspension or dismissal, department procedures for recommending suspension or dismissal are followed. All recommendations for suspension or dismissal are sent to the Academic Integrity Committee by the department chair.

Violations of Academic Integrity Outside of the Class Context

Procedures for addressing suspected violations of the academic integrity policy outside the context of a particular course are the same as those described above for suspected violations occurring within a course. The exception is that the faculty member, staff member, or student contacts the appropriate course instructor or unit head, depending on the nature of the offense, who will meet with the accused student. The department chair or unit head will evaluate the merits of the complaint by interviewing both the complainant and the student who is being accused. If the violation is verified, the department chair or unit head will proceed as described above by preparing a formal letter with copies to the appropriate academic dean and the advisor. Staff working in academic units (e.g., Academic Advising, OSWD, Career Center, Academic Technology, and Tutorial and Instructional Programs, etc.) are responsible for informing students about their need to understand the Academic Integrity Policy in the Gallaudet Undergraduate Catalog and to strictly adhere to it.

Undergraduate Academic Integrity Policy Appeals

Appeal Process

The student has the option of appealing to the department chair or unit head within ten academic days if he or she disagrees with the accuser's decision. If the person accusing a student of a violation of academic integrity is the department chair, or if a department chair or unit head is proposing sanctions or violations, a student's appeal should be made to the Academic Integrity Committee.

Petition for Appeals should include:

- a clear rationale for the appeal, along with all appropriate documents that support the rationale for the appeal.
- the written statement of sanctions or remedies imposed by the faculty member, the written decision of the accuser, and all relevant communications.
- a statement of the student's desired outcome of the appeal (e.g., dismissal of the charge, modification of sanction or remedies imposed), or if the student is proposing an alternative plan for remediation.

Appeals to Department Chairs and Unit Heads

The department chair or unit head evaluates the student's appeal in terms of: whether the sanctions or remedies were arbitrary or capricious; whether the accuser followed the Academic Integrity Policy and whether the student had adequate advance notice and opportunity to respond. If the department chair or unit head wishes to have an in person meeting with the accuser and the student to discuss the appeal, the student has the right to bring an advocate to this meeting (Qualifications and roles of the advocate are explained later in this policy). The department chair or unit head decides whether or not to support the student appeal and responds in writing to the student and instructor or staff member within ten academic days after receipt of the written appeal. Copies of the decision will be sent to others copied by the instructor or staff member in the original letter as well as the student's major chair or academic advisor.

The student has the option of appealing to the Academic Integrity Committee within ten academic days if he or she disagrees with the department chair or unit head's decision. The appeal should include any information the student deems to be important to counter the allegation of a violation of academic integrity.

The accuser has the option of appealing to the Academic Integrity Committee within ten academic days if he or she disagrees with the department chair or unit head's decision. The appeal should include any information the accuser deems to be important to counter the recommendation made by the department chair or unit head.

Appeals to the Academic Integrity Committee

The Academic Integrity Committee will review letters of appeal and any additional documentation [e.g., letters to student from faculty member, program director (if appropriate), and department chair]. The committee may decide: (1) to refuse the appeal, in which case the recommendation made by the department chair or unit head will stand, or (2) to accept the appeal, and conduct a hearing to address the appeal. All committee decisions will be communicated in writing to the student within ten academic days. The Academic Integrity Committee chair hand delivers a letter to the student and all parties or sends the letter through the campus post office where the student must sign to receive the letter. The Committee will communicate in writing to all parties within ten academic days, after receiving written materials from the accused student.

The Academic Integrity Committee is empowered to modify sanctions and remedies based on their review. These modifications may be more severe than the initial sanctions or remedies and could include a recommendation for suspension or dismissal from the University. The student or accuser may appeal to the dean of the school in which the department resides (i.e. GSPP or CLAST) if he or she disagrees with the decision of the Academic Integrity Committee.

Appeals to the Dean

The dean will review letters of appeal and any additional documentation [e.g., letters to student from faculty member, program director (if appropriate), department chair, and the Academic Integrity Committee]. The dean may affirm the Academic Integrity Committee decision or the dean may modify sanctions and remedies based on review of the appeal. These modifications may be more severe than the initial sanctions or remedies and could include suspension or dismissal from the University. The dean's decision is final.

The dean will communicate the decisions in writing to all parties involved within ten academic days by hand-delivered letters to all parties involved or letters sent through the campus post office where the recipient must sign to receive the letter.

Undergraduate Academic Standing

Good Academic Standing

A student is in good academic standing when the student maintains a cumulative grade point average of 2.0 or better.

Assessing Academic Progress

Immediately after the sixth week of fall or spring semester, academic progress reports are sent to all freshmen, international students, and to all other students performing below a "C" level in any course. Students having any problems must confer with their instructors and academic advisors. These reports are not noted in official transcripts.

In addition, if a student's semester GPA is less than a 2.0, the student will be alerted on his end of semester or summer term grade report. The student is encouraged to seek the help of his or her academic advisor to improve his or her GPA in succeeding semesters.

Whether or not students receive academic progress reports or academic alerts, it is the right and responsibility of students to seek feedback about their academic performance from their faculty and academic advisors.

Academic Warning

A freshman student is placed on Academic Warning when the student's cumulative GPA falls between 1.75 and 1.99 at the end of any semester or summer term. Freshmen on Academic Warning are required to meet with their academic advisors to discuss possible modification to their course load, extracurricular activities, and/or employment, and to seek tutoring or other academic support to improve performance.

Academic Probation

A student is placed on Academic Probation if the student's cumulative GPA is below 2.0 at the end of the semester or summer term. A freshman is placed on Academic Probation if the cumulative GPA falls below 1.75 for the first time or if a freshman has been previously placed on Academic Warning and his/her cumulative GPA remains below 2.0 for the second time. While on Academic Probation, the student must have a semester GPA of 2.0 or higher to enroll the following semester. The student remains on Academic Probation until his or her cumulative GPA improves to 2.0 or above. A student on Academic Probation whose semester

GPA falls below 2.0 is automatically suspended. Nevertheless, if a student on Academic Probation makes a semester GPA of 2.0 or better, but has a cumulative GPA below 2.0, he/she shall remain on Academic Probation.

Students on Academic Probation are required at the beginning of the semester to meet with their advisors to sign academic contracts designed to improve their scholastic performance in the upcoming semester. The academic contract will address the following issues:

- Course load - students will be required to take a manageable course load. This stipulation may mean limiting the course load to 12 credit hours.
- Academic Support - students will be required to document participation in academic support activities (tutoring to workshops, for example).
- Extracurricular activities - students will not be permitted to participate in extracurricular activities.
- Employment - students may be required to limit employment.

Students who fail to meet the requirements of their academic contract may be dismissed from the University at any time during the semester.

Academic Suspension

A student may be academically suspended for either of two circumstances:

- A student on Academic Probation whose semester GPA falls below 2.0 is placed on Academic Suspension and is ineligible to be readmitted before one full academic year has elapsed since his or her suspension. (For example, a student suspended after a fall semester can not enroll at the University until the spring semester of the following year, at the earliest.)
- A student admitted with condition(s) who has not satisfied the condition(s) and who has not been recommended by the Condition Review Committee for continued enrollment as a degree-seeking student will be suspended. That student may re-enroll as a degree-seeking student only after satisfying the condition(s).

Reporting Unsatisfactory Academic Performance

Academic Alert, Academic Warning, Academic Probation, and Academic Suspension appear only on the students' term grade reports and unofficial transcripts.

Appealing Academic Suspension

Due to compelling and verifiable circumstances such as personal, family, medical, psychological, or any other emergency or special academic consideration, a student subject to Academic Suspension may request a hearing before Committee C (Faculty and Student Affairs). If Committee C so decides, the student may be permitted to return for an additional semester on Academic Probation. Except for extenuating circumstances such as personal or family medical/psychological emergency, a student who is suspended for academic reasons cannot be readmitted before three terms (including the summer term) have elapsed. Students wishing to appeal to Committee C should contact the Registrar's Office for forms and deadlines.

Undergraduate Placement Tests

Gallaudet University administers placement tests for new undergraduate students to determine appropriate course placement in ASL, English, and Mathematics.

Placement in American Sign Language (ASL) Courses

The ASL Placement Test is used to determine appropriate placement for new undergraduate students in one of three credit-bearing courses: (1) ASL 101 - American Sign Language I, (2) ASL 102 - American Sign Language II, or (3) GSR 103 - American Sign Language and Deaf Studies.

The ASL Placement Test covers each students' linguistic knowledge of ASL with respect to both production and comprehension. The test is computer-based, and all answers are in multiple choice format. Test results are calculated soon after the student completes the test. The ASL Placement Test is not the same as the [ASLPI](http://asldes.gallaudet.edu/ASLPI.xml) (ASL Proficiency Interview) (asldes.gallaudet.edu/ASLPI.xml), which is an admissions and/or graduation requirement for various undergraduate and graduate programs.

Placement in English and Mathematics Courses

The English Placement Test is used to determine appropriate placement for undergraduate students in ALT 050-080 - English Language Study (non-credit bearing courses) or GSR 102 - Critical Reading and Writing or higher (credit-bearing courses).

The Mathematic Placement Test is used to determine appropriate placement for new undergraduate students in MAT 040 - Pre-College Mathematics (non-credit bearing courses) or GSR 104 - Quantitative Reasoning Approach or higher (credit-bearing courses).

Information about undergraduate students with conditions is provided under "[Student Classifications](#)" ([page 47](#)) in this catalog.

Class Attendance

Regular attendance and participation is an obligation assumed by every student registered for courses at Gallaudet University. Faculty establish attendance policies for their own classes and these policies will be clearly stated in their course syllabi. Students must attend the first week of classes to verify their enrollment. Students, who are registered for class and who fail to attend the first week of scheduled classes, may be dropped from the course by the instructor.

Senior Year Residence

Students graduating from Gallaudet are expected to be "in residence" for their senior year. This means that at least their last 24 credit hours must be taken at Gallaudet, not transferred from another university. However, eligible graduating seniors in good academic standing who have completed their senior year in residency at Gallaudet and who have an exceptional condition may request 'Undergraduate Continuous Enrollment' to be used in the semester immediately following their senior year.

Transfer Credits

The student must indicate any institution(s) previously attended on the Application for Admission (or re-admission) to Gallaudet University in order for that coursework to qualify for consideration as transfer credit. No transfer credit can be considered in the future if the institution(s) is not listed on the application, unless with Prior Permission.

There are different ways students can transfer credits to Gallaudet to apply towards degree programs. Gallaudet mostly accepts credits from accredited colleges/universities. Students may earn credits toward graduation by taking tests in specific subjects under the College Level Examination Program or through the Advanced Placement Program provided by the Educational Testing Service (www.CollegeBoard.com). Prior Permission for transfer credit may be arranged.

Evaluation / Re-evaluation Process

Gallaudet University only processes transfer credits with official transcript(s). The evaluation process may take approximately two (2) weeks. Course equivalencies are requested and approved by respective academic departments. The Transfer Credit Specialist at the Registrar's office will process the official transfer information. Pre-approved transfer cred-

its may be requested for re-evaluation. Contact the Transfer Credit Specialist at the Registrar's Office for further information.

Remedial Credits (English and/or Mathematics)

Gallaudet does not accept any remedial English courses for transfer (College level courses tend to be numbered 100 or higher.)

Remedial mathematics courses may be considered for waivers at Gallaudet.

Credits Conversion

Gallaudet University operates under the semester system. All transfer credits from post-secondary institutions not on the semester system (eg: quarter hours) will be converted to semester credits. Credits from International (non-USA) college / universities vary and will be evaluated individually.

International Credits

To have your international courses evaluated, you must submit an official transcript in your country's native language. The transcript must be accompanied with certified English translations, preferably from World Education Services (WES). For more information, go to www.wes.org. Fees vary from service to service.

Credits by Examination

Most examinations are provided by CollegeBoard and include, but not limited to, Advanced Placement (AP), and College Level Examination Program (CLEP). Contact the Transfer Credit Specialist in the Registrar's Office for Gallaudet's policies.

College Level Examination Program (CLEP)

The College Level Examination Program (CLEP) gives you the opportunity to receive college credit for what you already know by earning qualifying scores on each examination, as judged by the appropriate department. Information on the CLEP, as well as the procedure for applying, can be obtained online at www.CollegeBoard.com. Information about transfer credit and the process can be obtained from the Transfer Credit Specialist in the Registrar's Office.

Advanced Placement Tests

University credit will be given for Advanced Placement (AP) tests with scores of 3.0 or better, and Honors credit will be given for scores of 4.0 or 5.0. These shall be considered as transfer credits and thus will not be counted in the grade point average. Information on available AP tests and obtaining AP scores can be found at www.CollegeBoard.com. Information on procedures for transferring AP credits can be obtained from the Transfer Credit Specialist in the Registrar's Office.

Undergraduate Course Withdrawals

Withdrawal from individual courses is permitted until the end of the eighth week of a semester. No student will be allowed to withdraw from a class after the end of the eighth week, except for compelling and verifiable circumstances, in which case the student must obtain the permission of the course instructor and the appropriate dean. "WD" will appear on the student's official transcript. Students may not withdraw from the same course more than two times. Students have the option of withdrawing from a maximum of 16 credits during their entire undergraduate career at Gallaudet University. If a student takes a leave of absence or withdraws from all classes during a semester, these will not count towards the 16 allowable maximum number of credits.

Students who request a withdrawal from all classes, resulting in zero (0) credits, must complete a Leave of Absence (LOA) or University Withdrawal form through the Registrar's Office, or will be considered as an "unofficial withdrawal" and will have to apply for readmission if they desire to be reinstated.

If in any circumstances, the student does not fill out an official withdrawal and has failing grades ("Fs") or a combination of "Fs" and "WDs" for all courses and has stopped attending those courses, the student is considered unofficially withdrawn from the University. Students who are unofficially withdrawn and wish to be reinstated must apply for readmission through the Registrar's Office. Forms are available on the Registrar's Office web site at registrar.gallaudet.edu/Registrar-FormsProcedures.xml.

Undergraduate Leave of Absence (LOA)

Leave of absence (LOA) for up to three consecutive semesters is granted to students (U.S. citizens only) who are with Good Academic Standing and who wish to suspend their undergraduate studies. Students may enroll for classes at the end of their approved leave without applying for readmission. Students must contact the Registrar's Office to apply for a LOA. Students who enroll at another college or university while on a leave of absence are considered withdrawn from the University and must apply for readmission before being permitted to re-enroll at the University.

Students should be advised that financial aid will be recalculated if the student takes a leave of absence prior to completing 60% of the semester. See the [Financial Aid - LOA](#) portion ([page 34](#)) of this catalog for details.

Returning from Leave of Absence (RLOA)

When the student is ready to return from LOA (RLOA), contact the LOA/WD Specialist at the Registrar's Office to initiate the process of return.

Undergraduate Withdrawals from the University

Students finding it necessary to withdraw from the University are required to submit a completed withdrawal form, which they can obtain from the Registrar's Office, after meeting with the LOA/WD Specialist. The WD form requires signatures from different offices on campus. A withdrawal becomes official when it has been accepted by the Registrar.

Students can withdraw from the University through the eighth week of classes. A "WD" will appear on the student's official transcript for all courses the student was enrolled in. See the "Refunds After Withdrawal from the University" description in the "Fees and Financial Services" section of this catalog for information on refunds.

After the eighth week students may withdraw with permission of the appropriate dean and with compelling and verifiable reasons. Unauthorized withdrawal from the University can result in the assignment of failing grades ("F") in all courses.

A student is considered to have "unofficially withdrawn" from the University if the student receives failing grades ("F") or a combination of "F" and "WD" in all classes, and has stopped attending all classes during the semester (based on attendance dates provided in their grade reports). Students who are unofficially withdrawn and wish to be reinstated must apply for readmission through the Registrar's Office.

Undergraduate Readmission

Readmission for a Second Undergraduate Degree

Students who have received a degree from Gallaudet may return to pursue a second degree. Students should apply through the Registrar's Office. They should complete an application form and submit it along with a \$50 non-refundable application fee. All student debts must be cleared before the application deadline. Students should also submit a letter from the appropriate department chair granting permission to enroll in that major.

To satisfy the requirements for a second baccalaureate degree at Gallaudet University, a student must complete a minimum of 30 additional semester hours after satisfying requirements for the first degree, and he or she must also satisfy the requirements of a major other than the major declared for the first baccalaureate. Grade points earned in the first degree will not apply in determining the scholastic eligibility while a student is enrolled for a second degree. No student, however, will be permitted to complete the second degree under a catalog or supplement issued more than three years prior to the date of completion of the second degree.

Students who obtained a bachelor's degree at an institution other than Gallaudet and want to pursue a second degree, must apply through the [Office of UG Admissions](#) (admissions.gallaudet.edu).

Readmission After Withdrawal

Students who withdraw from the University without obtaining a leave of absence (LOA) and who wish to resume studies at the University must apply for readmission. Students applying for readmission must contact the Registrar's Office for readmission application materials. An application fee of \$50 payable to Gallaudet University must accompany the application. All outstanding debts must be paid in full before applying for readmission.

Readmission After Suspension

Students who are academically suspended due to GPA below 2.0, and who wish to be reinstated must apply for readmission through the Registrar's Office, which includes an appeal to Committee C of the University Faculty. A student readmitted after academic suspension is placed on academic probation and is subject to all requirements and conditions of that status. Former students who were academically dismissed or suspended and who apply for readmission will be placed on academic probation. They will be required to follow academic procedures described under Academic Probation.

Students who are academically suspended due to conditions, and who wish to be reinstated must complete the required conditions prior to applying for readmission. Conditions may be satisfied by taking only the remedial course at Gallaudet as an Undergraduate Special Student, if the student's GPA is 2.0 or above, through the Undergraduate Admissions Office; or by taking a course at another college/university and transferring to Gallaudet. Once the required condition(s) have been met, the student may then apply for readmission through the Registrar's Office. The student must appeal to Committee C of the University Faculty with evidence of completed conditions.

Students who are academically suspended due to conditions, and also have a GPA below 2.0, should refer to the procedure for conditions.

Students who have been suspended for disciplinary reasons must write a letter of appeal to the Office of Student Conduct, obtain permission before applying for readmission, and provide evidence that they have met the conditions of the suspension.

Academic Clemency

Undergraduate students who are readmitted to Gallaudet University after a separation of five or more years may request that grades and credits previously earned at Gallaudet University, totaling no more than 18 credits, be removed from the calculation of their cumulative grade point average. These grades and credits will not be counted toward graduation requirements. This request for clemency must be made during the student's first semester following readmission. The student should request this clemency through the Registrar's Office; the Registrar will then seek the approval for such clemency from the appropriate deans. Approval is not automatic or guaranteed.

Undergraduate Application for Graduation

Information about commencement ceremonies can be found online at commencement.gallaudet.edu.

Graduation Checklist and Application

Students who expect to complete requirements for an undergraduate degree must file an application for graduation, with completed graduation checklist, and submit it to the Registrar's Office. The deadline for filing the graduation application is stated in the University's academic calendar. Seniors who have filed a graduation application will receive an explanation of procedures for graduation along with a copy of their progress towards graduation degree audit advisement report. The Registrar's Office will review the advisement report and note any requirements still outstanding. Students are responsible for meeting with their faculty advisor to review the advisement report and make arrangements to complete any outstanding requirements. The Registrar's Office will notify students of their eligibility or ineligibility to graduate and participate in the graduation ceremony.

Six (6)-Week Grace Period

At the end of the term, undergraduate degree candidates are given six weeks in which all issues/conflicts must be resolved that are delaying degree conferral. Eligible circumstances include incomplete or in-progress grades, course substitutions/waivers and program completion memos, transfer of credit to be posted, and dropping an unmet minor. If the issue is resolved by the end of the six-week deadline, your degree, diploma and transcript will still be issued for the applied official graduation date. Please keep in mind that certain circumstances are not eligible to be resolved during this six-week grace period. Such examples for undergraduate candidates are unsatisfied requirements - internships yet to be taken.

6 Week Grace Period Date Calculation:

- May - last day of classes for spring term + 6 weeks
- Aug - 1st day of Aug + 6 weeks
- Dec - last day of classes for fall term + 6 weeks

Graduation Fest

Gallaudet's Graduation Fest is a one-day event for potential graduates to access each area, office, or department to ensure they have made the necessary arrangements to graduate. Included are representatives from the Bookstore, Student Financial Services, Campus Life, the Office of the President, Alumni Office, Career Center, Graduate School, and others. Graduation Fest is usually held in February or March.

Description of Graduate Hooding and Commencement Ceremonies

Graduate Hooding typically occurs the day prior to the Commencement Ceremony. At the Hooding, Graduate students who have met all the requirements are awarded a distinctive hooding to add onto the graduation gown to wear at the Commencement Ceremony.

The Commencement Ceremony usually is on Friday, one week after the final exam week. All eligible Undergraduate or Graduate students will receive notice of their completion during the ceremony.

Participation in Commencement Ceremony

Once the application for graduation has been filed, students who have completed all work toward their degrees are automatically eligible to participate in the commencement ceremony. Students who are eight or fewer credit hours short of completing their degrees will be permitted to participate in the ceremony if they are registered for summer school. Information on the commencement ceremony is sent only to those students who apply for graduation.

Academic Attire

Academic attire is required of all candidates at commencement exercises. Students who choose to order cap and gowns from the Bison Shop (Gallaudet bookstore) must do so during the annual "Graduation Fest" in February/March. Gowns may be picked up through commencement day.

Degree with Distinction

Those students who graduate with a degree GPA of 3.8 or higher shall receive their degrees summa cum laude; for those at 3.6 or above, magna cum laude; and for those at 3.4 or above, cum laude. One-half of the course hours required for graduation (62 credit hours) must be taken at Gallaudet.

Transcripts and Diplomas

Students may obtain transcripts of their academic records from the Registrar's Office. There is a \$5 fee for each official transcript. Transcripts will be released only by signed request. No transcripts will be issued to a student who owes money to the University. Gallaudet University will not make copies of transcripts on file from other colleges and universities. Diplomas are issued only once, and any errors must be brought to the attention of the Registrar's Office within 90 days of receipt.

Undergraduate Education

Philosophy

The undergraduate programs of Gallaudet University are designed to produce graduates who are well-informed about the world around them, about civilizations and their achievements, and about themselves as human beings. Students will ultimately be able to exercise sound independent judgment necessary to enable them to provide leadership in both the workplace and the community. The undergraduate curriculum will provide students with a foundation for lifelong learning by offering opportunities to develop the skills, knowledge, and understanding needed for productive and fulfilling citizenship in a diverse and interrelated world. Gallaudet graduates will, as a result, have the competencies required to be competitive in their post-graduate endeavors.

Undergraduate Degree Programs

Undergraduate programs and courses are offered by academic departments in the [College of Liberal Arts, Sciences, and Technologies](#) (CLAST) (clast.gallaudet.edu) and the [Graduate School and Professional Programs](#) (GSPP) (gspp.gallaudet.edu).

A candidate for graduation with the baccalaureate degrees must select a major and has the option of selecting additional majors and minors. Selecting more than one major or minor may extend the length of time required to complete the degree. Students may also develop their own self-directed major, wherein a customized program of study is selected by the student and a faculty advisor.

¹ Spec - Specialization or Concentration

² UG Only - Undergraduate Courses Only

STUDENT LEARNING OUTCOMES

Learning Outcomes are the general education goals the university has established for all undergraduate students and represent the knowledge, skills and attitudes that students should gain to successfully complete the requirements of a course, program major, and degree. Additional student learning outcomes specific to a program and/or course can be found on [academic department web sites](http://academic.gallaudet.edu/aaguide-academicdepartments.xml) (aaguide.gallaudet.edu/aaguide-academicdepartments.xml).

Undergraduate studies at Gallaudet University provide all students with a rigorous and integrative education that promotes competence and in-depth knowledge in both the General Studies and major curricula. General Studies are predominantly taught as thematic interdisciplinary courses, addressing the Gallaudet University Student Learning Outcomes. Major-level courses continue to expand on these five learning outcomes and also provide students with discipline-specific competence, preparing them for competitive careers and/or graduate education.

Language and Communication

Students will use American Sign Language (ASL) and written English to communicate effectively with diverse audiences, for a variety of purposes, and in a variety of settings.

Critical Thinking

Students will summarize, synthesize, and critically analyze ideas from multiple sources in order to draw well-supported conclusions and solve problems.

Identity and Culture

Students will understand themselves, complex social identities, including deaf identities, and the interrelations within and among diverse cultures and groups.

Knowledge and Inquiry

Students will apply knowledge, modes of inquiry, and technological competence from a variety of disciplines in order to understand human experience and the natural world.

Ethics and Social Responsibility

Students will make reasoned ethical judgments, showing awareness of multiple value systems and taking responsibility for the consequences of their actions. They will apply these judgments, using collaboration and leadership skills, to promote social justice in their local, national, and global communities.

UNDERGRADUATE DEGREE REQUIREMENTS

1. A candidate for graduation with either a B. A. (Bachelors of Arts) or B. S. (Bachelor of Science) must fulfill the following requirements successfully: 40 hours of General Studies Requirements (GSR)
2. A minimum of 120 hours, including the requirements of a major listed in the catalog
3. A cumulative grade point average (GPA) of 2.0 or better
4. A one-year residency requirement
5. A satisfactory record of conduct
6. A Career Development Certificate

Career Development Certificate Requirement

As part of the General Studies Curriculum, the Career Center offers a required, non-credit Career Development Certificate Program for all first year students which is designed to help students develop a resume, practice networking and interview skills and develop a plan that will lead to an internship to explore their career interests. The Career Center will document student progress through the program and certify completion of the requirement to the Registrar's Office. It is recommended that the Career Development Certificate Program be completed during the spring semester of the first year of enrollment, as a co-requisite of the GSR 150 course. Students are required to complete the Program before they can take the last two GSR 200 courses and the GSR 300 Capstone course.

GENERAL STUDIES REQUIREMENTS

The following general education requirements apply to students matriculated (admitted and registered) during or after Fall 2007. Students matriculated before Fall 2007 should refer to the [archived catalog \(catalog.gallaudet.edu/Catalog.xml\)](http://catalog.gallaudet.edu/Catalog.xml) of record for the academic year in which they were admitted.

General Studies Requirements (GSR)

General Studies Overview

The general studies program requires students to take 40 credits in general studies courses. All courses in the curriculum emphasize skill development in critical thinking, language, and communication. These abilities are the heart of every course students take.

The new General Studies curriculum includes three components:

- Freshman Foundation courses (4 courses, total 12 credits)
- Integrated courses (5-6 courses, total 24 credits), including one service learning course
- Capstone Experience (1 course, total 4 credits)

Freshman Foundation

The Freshman Foundation is the first General Studies component. Under this component, you take four Freshman Foundation courses:

- First Year Seminar (GSR 101)
- Critical Reading and Writing (GSR 102)
- American Sign Language and Deaf Studies (GSR 103)
- Quantitative Reasoning (GSR 104)

The four foundation courses will give you the fundamental tools to progress toward the five student learning outcomes. You will improve your communication and problem-solving skills and start thinking about your own identity and college life. The four courses will have linked content.

Integrated Courses - Part One

Interdisciplinary and multidisciplinary courses have become common practice with many colleges and universities across the nation. Courses are traditionally taught alone as a discipline, separate from the other, for instance, as a history course, an English course, or a mathematics course. However, with integrated courses being multi- or interdisciplinary, the focus is on a central topic with two or three faculty from, say the History, English, or Sociology Departments, teaming up to teach the course. Faculty members can voluntarily design and offer integrated courses as long as they meet the appropriate five competencies. With a multi- or interdisciplinary approach and because a specific topic is explored in detail and from the perspectives of different disciplines such as business, communication studies, and psychology, it hones critical thinking skills. Each integrated course will be 4 or 6 credits and will address some or all of the five competencies.

Introductory course

- GSR 150: Introduction to Integrated Learning

Integrated courses

- GSR 210/211: Comparing Multicultural Perspectives
- GSR 220/221 Methods of Multiple Disciplines
- GSR 230/231: Scientific and Quantitative Reasoning in Context
- GSR 240/241: Ethical Decisions and Actions

One of the integrated courses you must take from among the four topical categories is a service learning course. Service learning courses are required at numerous institutions of higher learning across the nation. Service learning courses emphasize applying learned content and skills to solve real-life, real world dilemmas. For example, students could volunteer to help restore the Chesapeake Bay by understanding the delicate estuary and its ecological significance for the metropolitan DC area including Maryland and Virginia. They could volunteer by planting trees or transplanting oyster shells into the Bay.

Integrated Courses - Part Two

What are the potential themes or topics that the integrated courses may have? Examples of themes or topics that may be offered for the various integrated course categories include:

Comparing Multicultural Perspectives (GSR210/211)

- "Racism, Sexism, Audism" taught by Sociology and Deaf Studies Departments
- "Post-Colonial Africa" taught by Business, History, and Foreign Languages Departments
- "Women in the Middle East: Lolita in Tehran" taught by English, History and Foreign Languages Departments

Methods of Multiple Disciplines (GSR 220/221)

- "Renaissance Europe" taught by History, Art, and Foreign Languages Departments
- "Mass Marketing" taught by Business, Art, and Family and Child Studies Departments
- "Leonardo da Vinci" taught by Physics, Art, and History Departments

Scientific and Quantitative Reasoning in Context (GSR 230/231)

- "Global Warming" taught by Government, Biology, and Communications Studies Departments
- "Frank Lloyd Wright: Organic Architecture" taught by Art and Biology Departments

Ethical Decisions and Actions (GSR 240/241)

- "Animal Rights, Human Wrongs?" taught by Biology, Philosophy, and Psychology Departments

General Studies Capstone Experience

The third and final component of the General Studies curriculum is the Capstone Experience. The Capstone Experience is a "wrap-up" course. You take the General Studies Capstone course when you complete all other General Studies Requirements. The course includes all five competencies plus service learning and will challenge you to apply your knowledge and skills to solve real world problems through a project, artifact, or substantial work experience. Gallaudet will invite community groups, both on-campus and off-campus, to present problems and needs. You will be on project teams to research, plan, and implement innovative solutions.

COLLEGES AND SCHOOLS

Academic departments and programs are housed in either the College of Liberal Arts, Sciences, and Technologies or the Graduate School and Professional Programs. The College of Professional Studies and Outreach provides support for summer school, professional studies, and outreach.

College of Liberal Arts, Sciences, and Technologies

clast.gallaudet.edu

Dr. Isaac Agboola, Dean
Hall Memorial Building S242

The College of Liberal Arts, Sciences, and Technologies (CLAST) offers majors in diverse disciplines of the humanities, the sciences, technologies, and social sciences. Students select a major from a wide variety of fields and often supplement their studies by taking courses offered at other universities through the Consortium of Universities of the Washington Metropolitan Area. Upon completion of general studies and major coursework, graduates of the College are prepared to enter the job market or to pursue professional and graduate studies at Gallaudet or other universities.

Through a variety of faculty research projects and grants, the College has strengthened the educational experiences of students. Some examples are financially supported student research projects, student co-op work experience and internships, equipment and instructional materials for science and computer labs, scholarships and opportunities for collaboration with faculty and students at other institutions. Academic departments, businesses, and federal institutions foster an intellectually challenging environment by sponsoring writing contests, theatre productions and theatre-for-young audience performances, study abroad and work-study programs, visual and fine art shows, scholarly lectures series, and a wealth of enriching experiences in and out of the classroom.

The College features a variety of special facilities. Among these are a recent renovated science lab, fully-equipped 762-seat proscenium theatre, a 96-seat lab theatre, photography darkrooms and studios, and a state-of-the-art digital media studio.

Academic departments and programs in the College of Liberal Arts, Sciences, and Technologies include:

- American Sign Language and Deaf Studies
- Art
- Biology
- Chemistry and Physics
- Communication Studies
- English
- Family and Child Studies
- Foreign Languages, Literatures, and Cultures
- Government and History
- Honors
- Mathematics and Computer Science
- Philosophy and Religion
- Psychology
- Sociology
- Theatre Arts

Graduate School and Professional Programs (GSPP)

gspp.gallaudet.edu

Dr. Carol Erting, Dean
Fowler Hall 210

The Graduate School and Professional Programs (GSPP) offers both undergraduate and graduate degrees and certificates leading to professional preparation and certification in a variety of fields. Undergraduate students admitted as majors to GSPP departments have made decisions about their career paths and are seeking professional education to qualify them for at least entry-level jobs in their chosen careers. Students enter Gallaudet's graduate programs to receive advanced education to become leaders in their fields. A graduate degree from Gallaudet signifies the highest level of professional education available for individuals working in occupations serving deaf people.

Academic departments and programs in the Graduate School and Professional Studies include:

- Administration and Supervision
- Business
- Counseling
- Education
- Educational Foundations and Research
- Hearing, Speech, and Language Sciences
- Interpretation
- Linguistics
- Physical Education and Recreation

The Dean of the Graduate School and Professional Programs has academic oversight of the nine departments making up the school, and also maintains oversight of the graduate programs offered in the College of Liberal Arts, Sciences, and Technologies (CLAST) in the Departments of American Sign Language and Deaf Studies, Government and History, Psychology, and Social Work. The Dean is an ex-officio member of the Council of Graduate Education (CGE), which develops and maintains policies and standards for all Gallaudet graduate programs.

In addition to nine academic departments, GSPP includes the the Graduate Admissions Office, the Office of Graduate School Curriculum, Policy and Operations, the Office of Sponsored Programs, and three research centers: Gallaudet Research Institute, the Visual Language and Visual Learning (VL2) Science of Learning Center, and the Rehabilitation Engineering Research Center (RERC) on Hearing Enhancement.

The Graduate Admissions Office coordinates all marketing, recruitment, and admissions, and financial aid for all graduate and professional studies courses and programs. The Office of Graduate School Curriculum, Policy, and Operations coordinates the central functions of the Graduate School, student records, graduate student orientation, and commencement, and also serves as liaison between the office of the Dean and the Council on Graduate Education. The Office of Sponsored Programs coordinates efforts to acquire external grants and contracts for faculty and staff throughout the campus community.

The Gallaudet Research Institute is world renowned for its studies of deaf and hard of hearing people in the United States and the Visual Language and Visual Learning (VL2) Center was funded in 2006 as a NSF Science of Learning Center. The Rehabilitation Engineering Research Center (RERC) on Hearing Enhancement is a national project funded by the United States Department of Education, National Institute on Disability and Rehabilitation Research (NIDRR) in the Office of Special Education and Rehabilitation Services (OSERS). The objective of the project is to conduct research programs that promote technological solutions to problems confronting people who are hard of hearing. Funding for the RERC-HE began in 2003. GRI, VL2 and RERC offer opportunities for graduate students to become involved in research with interdisciplinary teams of scientists.

UNDERGRADUATE MAJORS AND MINORS

The following departments offer majors, minors, and courses for undergraduate students.

ACCOUNTING

Please see Accounting major information and course listing under the Business Department.

AMERICAN SIGN LANGUAGE AND DEAF STUDIES

asl.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Arlene Kelly, Chair
Sorenson Language and Communication Center, Room 1200

The Department of American Sign Language and Deaf Studies gives students an opportunity to acquire an understanding of the deaf community as part of human diversity. The courses are designed to prepare students to spend their professional or social lives after graduation in the deaf community or to make further contributions in a chosen academic discipline. The Department of ASL and Deaf Studies offers an introductory course (DST 101) to help all entering students develop a special focus on the sociological, historical, and linguistic aspects of deaf and hard of hearing people. If interested, students can then explore further by majoring in either ASL or Deaf Studies, providing that pre-major course requirements are met. Core programs in both majors are designed for students to develop a multidisciplinary approach in the areas of teaching, language, community, history, culture, and literature to the study of deaf and hard of hearing people.

For information on linguistics and interpretation courses, please look under either the [Linguistics](#) or [Interpretation](#) Departments.

Majors Offered

American Sign Language
Deaf Studies

Minor Offered

Deaf Studies

Declaring a Major

Requirements for Admission to a Major in American Sign Language

Students must complete or demonstrate the following before declaring a major in ASL:

- A letter of interest
- Three letters of recommendation
- A cumulative grade point average of 2.5 or better.
- A SCPI rating of Advanced Plus or better.
- A C+ or better in English 102 and 103, or the equivalent.
- An interview with at least 2 members of the program faculty.
- A grade of B or better in DST 101 and LIN 263.
- Students are required to purchase a laptop computer and a digital camcorder.

Requirements for Admission to a Major in Deaf Studies

Students must complete or demonstrate the following before declaring a major in DST:

- A letter of interest.
- Three letters of recommendation from other faculty members
- A cumulative grade point average of 2.5 or better.
- An interview with at least two DST faculty members.
- A grade of B or better in DST 101, DST 201.
- A grade of C+ or better in ENG 103, or the equivalent, prior to declaring a major in Deaf Studies.
- Students are required to purchase a laptop computer and a digital camcorder.

Requirements for Admission to a Minor in Deaf Studies

Students must pass DST 101 and DST 201 with a grade of "B" or better and a "C+" or better in ENG 103 or the equivalent prior to declaring a minor in Deaf Studies.

B.A. in American Sign Language

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	6
Major and Related	36
Free Elective	38
TOTAL	120

Requirements for a Major in American Sign Language

To continue in the program, an ASL major must maintain a cumulative grade point average of 2.5 in major and related courses and can have no more than one D in his or her major courses.

Required pre-major courses 6 hours

DST 101 Introduction to Deaf Studies (3)
LIN 263 Introduction to the Structure of American Sign Language (3)

Required major courses 27 hours

ASL 301 ASL and English: Comparative Analysis (3)
ASL 303 Classifiers: Theory and Applications (3)
ASL 304 Fingerspelling and ASL Numbers: Theory and Practice (3)
ASL 305 Non-manual Grammatical Signals in ASL (3)
ASL 314 ASL Literature (3)
ASL 405 Discourse Features in ASL (3)
ASL 421 Introduction to ASL Instruction (3)
ASL 480 ASL Registers: Speaking to the Public (3)
ASL 494 Senior Seminar (3)

Required related courses 3 hours

DST 305 Deaf Culture (3)

Elective courses 6 hours

Choose two courses:

ASL 403 Communication in Gestures (3)
ASL 495 Special Topics (3)
ASL 499 Independent Study (3)
DST 495 Special Topics (3)

Courses encouraged, but not required

DST 312 Black Deaf People's Studies (3)
DST315/ART 215 Introduction to Deaf View/Image Art (3)
DST 402 Deaf Women's Studies (3)
HIS 331 History of the American Deaf Community (3)

B.A. in Deaf Studies

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	15
Major and Related	33
Free Elective	32
TOTAL	120

Requirements for a Major in Deaf Studies

To continue in the program, a DST major must maintain a cumulative grade point average of 2.5 in major and related courses and can have no more than one "D" in his or her major courses.

Required pre-major courses 15 hours

DST 101 Introduction to Deaf Studies (3)
DST 201 Deaf Culture (3)
HIS 111 American History I (3)
HIS 112 American History II (3)
SOC 101 Introduction to Sociology (3)

Required major courses 15 hours

DST 311 Dynamics of Oppression (3)
DST 314 Oral Traditions in the Deaf Community (3)
DST 498 Senior Thesis (3)
LIN 263 Introduction to the Structure of American Sign Language (3)
HIS 331 History of the American Deaf Community (3)

Elective major courses 9 hours

Choose three related courses:

ASL 301 ASL and English: A Comparative Analysis (3)
ASL 314 ASL Literature (3)
DST 315 Introduction to Deaf View/Image Art (3)
DST 316 Disability Studies (3)
DST 401 Black Deaf People's Studies (3)
DST 402 Deaf Women's Studies (3)

Elective non-major courses 9 hours

Choose three courses:

- ASL 480 ASL Registers (3)
- COM 430 Gender and Communication (3)
- COM 440 Intercultural Communication (3)
- COM 450 Political Communication (3)
- EDU 250 Introduction to Education and Teaching (3)
- ENG 325 The Deaf in Literature (3)
- GOV 360 Public Policy (3)
- GOV 370 Human Rights (3)
- GOV 387 Nationalism and Developing Nations (3)
- HIS 322 Cultural Geography (3)
- HIS 332 History of Mass Media and the Deaf Community (3)
- HIS 378 U.S. Women's History (3)
- HIS 380 The History of Sexuality (3)
- PSY 410 Psychology and Deaf People (3)
- PSY 448 Psycholinguistics (3)
- SOC 211 Race and Ethnic Relations (3)
- SOC 225 Sociology of Deafness and Deaf People (3)
- SOC 268 Cultural Anthropology (3)
- SOC 436 Social Inequality: Race, Class and Gender (3)
- SWK 318 Human Diversity (3)

Minor in Deaf Studies

Requirements for a Minor in Deaf Studies

Required pre-minor courses 12 hours

- DST 101 Introduction to Deaf Studies (3)
- DST 201 Deaf Culture (3)
- HIS 111 American History I (3)
- HIS 112 American History II (3)

Required minor courses 12 hours

- DST 311 Dynamics of Oppression (3)
- DST 314 Oral Traditions in the Deaf Community (3)
- HIS 331 History of the American Deaf Community (3)
- LIN 263 Introduction to the Structure of American Sign Language (3)

Elective minor courses 6 hours

Choose two related courses:

- ASL 301 ASL and English: A Comparative Analysis (3)
- ASL 314 ASL Literature (3)
- ASL 480 ASL Registers (3)
- DST315/ART 215 Introduction to Deaf View/Image Art (3)

DST 316 Disability Studies (3)

DST 401 Black Deaf People's Studies (3)

DST 402 Deaf Women's Studies (3)

Total 30 hours

American Sign Language Courses Offered

ASL 101 American Sign Language I (3)

This course introduces the student to basic knowledge about American Sign Language and deaf people. Emphasis in the course is upon acquisition of both comprehension and production skills as well as upon knowledge of the deaf community and the development of cultural awareness necessary for maximal communication interaction. The student will begin with visual readiness activities and then progress through a group of targeted lexical items taught within meaningful contexts that stress use of questions, statements, commands, and conversational rules such as attention-getting and turn-taking. Basic fingerspelling skills will also be stressed. Prerequisite: None. This course is designed to help the non-signer and/or the beginning signer develop basic skills and knowledge in American Sign Language and deaf culture.

ASL 102 American Sign Language II (3)

This course is a continuation of ASL 101 and emphasizes expansion and refinement of the fundamental comprehension and production skills covered in ASL 101, with the acquisition of additional functional grammatical structure and targeted lexical items. Spontaneous, interactive use of American Sign Language is stressed through discussion of Gallaudet-related events and activities, and the student will continue study of information related to everyday life experiences of deaf Americans and deaf people elsewhere in the world.

Prerequisite: ASL 101 or departmental approval.

ASL 301 ASL and English: Comparative Analysis (3)

This course covers areas of vocabulary, semantics, grammar and organization of ASL and English. Students look at the linguistic aspects of both languages and compare the two. The class also covers word classes and sentence structure of both languages. To assist students in understanding the structure of both languages, discussion of how languages work is included.

Prerequisite: ENG 103 or Equivalent.

ASL 303 Classifiers: Theory and Applications (3)

This course introduces classifier theory and the three levels of complexity of classifiers. An understanding of classifier theory, which is one of the most complex areas of ASL linguistics, will enhance students' understanding of ASL structure in general. Students will develop lesson plans and materials to teach ASL classifiers, as well as evaluation materials.

Prerequisite: LIN 263; permission of the instructor.

ASL 304 Fingerspelling and ASL Numbers: Theory and Practice (3)

This course introduces students to fingerspelling and numbers in ASL. The course covers topics such as techniques and forms of fingerspelling, when people fingerspell and how they use fingerspelling to meet their needs and numerical systems in ASL. Student will develop teaching materials and ways to assess the skills of their students.

Prerequisite: LIN 263; permission of the instructor.

ASL 305 Non-Manual Grammatical Signals in ASL (3)

This course covers the non-manual aspect of the language. The upper part of the face demonstrates sentence types and the lower part demonstrates modifiers. Other parts of the body (e.g., shoulder shift, eye gaze) used to demonstrate grammar will also be covered. Students will do analysis of specific features (e.g., brow raise, clenched teeth) required for each aspect. Their development of or improvement on these skills is expected.

ASL 314 ASL Literature (3)

Study of selected videotapes and films ranging from the early 1900s to the present. Emphasis will be placed on historical background (deaf actors/actresses in silent films), meanings of the story content, discussion of grammatical features in ASL or ASL expressions signed by deaf people, and discussion of the various signing registers and styles revealed in these contents. A critical analysis of the value of available videotapes and films (appropriate selection of grammatical features, cultural information provided in the tapes, mannerisms); producing ASL literature in accordance with the development stage of readiness in elementary, secondary, and postsecondary students (making videotapes that are appropriate for various age groups).

Prerequisite: DST 314, LIN 263; or permission of the department chair.

ASL 403 Communication in Gestures (3)

This course provides an introduction to communicating with gestures. Students learn to describe objects, ask for and give directions, discuss limited hypothetical issues, paraphrase, describe floor plans, and develop a skit through the use of gestures. The instructor uses gestures throughout the course.

ASL 405 Discourse Features in ASL (3)

This course demonstrates the use of space and eye gaze. It also demonstrates the use of role shifting to indicate speaker or locus of the subject/object in the ASL text. Organization of an ASL text and the function of these features will be covered. How they overlap with other features of the language will also be covered. Turn-taking regulators will be discussed within the conversation style of a discourse text.

Prerequisite: ASL 303, 305.

ASL 421 Introduction to ASL Instruction (3)

This course introduces ASL majors to the field of ASL instruction. Areas covered will be methods, curriculum and training in the field. Discussion of ASLTA certification will be covered as well. Students will be able to observe ASL classes to assist them in understanding the pedagogy of ASL teaching.

Prerequisite: ASL 303, 304, 305.

ASL 480 ASL Registers: Speaking to the Public (3)

This course covers registers of ASL discourse -- frozen, formal, consultative, casual and intimate. Students will be able to discuss using ASL in the most common registers (formal, consultative and casual) in classrooms or at social events. They will also learn how to refine their skills in giving presentations using formal ASL.

Prerequisite: ASL 303, 305; COM 290.

ASL 494 Senior Seminar (3)

This capstone course is required for those students who complete the prerequisite courses, and it is to enable them to review their prior learning in the program. The course is also designed to give students the opportunity to develop an integrated approach to the study of ASL. Students will be expected to do at least one research paper on a selected topic to be approved by the faculty member.

Prerequisite: ASL 304, 405.

ASL 495 Special Topics (1-3)

Special topics in sign communication depending on the needs and interests of Gallaudet students. May be repeated for different topics.

Prerequisite: Permission of the instructor.

ASL 499 Independent Study (1-3)

A project in the area of the student's special interest as it relates to sign communication. Title indicating the content must be available at time of registration.

Prerequisite: Permission of the department.

ASL 595 Special Topics (3)

Special Topics

ASL 601 Communication in Gestures I (1)

This course is taught in five 3 hour sessions which provide an introduction to communicating with gestures. Students learn to describe objects, ask for and give directions, and discuss limited hypothetical issues through the use of gestures. The instructor uses gestures throughout the course.

ASL 602 Communication in Gestures II (1)

This course is taught in five 3-hour sessions which build on the skills learned in ASL 601. Students learn to paraphrase, describe floor plans, and develop a skit through the use of gestures. The instructor uses gestures throughout the course.

Prerequisite: ASL 401.

ASL 661 American Sign Language Curriculum (3)

This course teaches curriculum planning and specialized adaptations in teaching ASL for various types of students. The course features reading and analysis of other ASL curricula. Focus is on tailored lesson planning, material and method selection and type of evaluation tools.

ASL 695 Special Topics (1-3)

Grading System: letter grades only.

ASL 699 Independent Study (1-3)

Grading System: letter grades only. Individualized course of study focusing on particular problem not covered in regular courses.

Prerequisite: Appropriate level of matriculation, permission of instructor and Special Independent Study Form.

Deaf Studies Courses Offered

DST 101 Introduction to Deaf Studies (3)

This course helps students to appreciate deaf culture, American Sign Language, and the deaf community as contributors to the heritage in the United States and abroad. It gives students a chance to reevaluate these contributions through scholarship and research in advanced courses.

Prerequisites or Co-requisites: ALT 080 or the equivalent.

DST 201 Deaf Culture (3)

This is a survey of the various areas of study of deaf culture in the United States (history, folklore, anthropology, and sociology).

Prerequisite: DST 101 or GSR 103.

DST 311 Dynamics of Oppression (3)

This course examines various forms of oppression by looking across different cultures and communities, then examines possible parallels occurring within the deaf community.

Prerequisite: DST 101 or GSR 103.

DST 314 Oral Traditions in the Deaf Community (3)

The dynamics of oral cultures and their traditions will be introduced in this course by studying the development of oral literature and literary artists in other cultures. Then using this as background, attempts will be made to study ASL literary tradition by looking at life histories, narratives, and poetry performances.

Prerequisite: DST 201.

DST 315 Introduction to Deaf View/Image Art (3)

This course is cross-listed and is otherwise known as DST315. This course introduces a humanistic perspective on De'VIA and Deaf artists. Deaf View/Image Art (De'VIA) refers to works by artists who express their Deaf experiences through visual art. Students will also explore how other minority groups (such as feminists, African Americans, Native Americans, etc). Use art as an expression of resistance. This course involves slide presentations of minority arts and De'VIA and group discussions.

Prerequisite: DST 201.

DST 316 Disability Studies (3)

This course will introduce students to the field of Disability Studies. As an emerging interdisciplinary field of study, Disability Studies does not approach disability as a "medical condition, but as a human condition" (Charlton). Instead of studying the causes and rehabilitation of persons with

disabilities, we will explore the historical, social, political, religious, philosophical, and cultural influences that "construct" the category of "disability." We will also examine how persons with disabilities construct their own meanings and identities.

Prerequisite: DST 101 or GSR 103.

DST 401 Black Deaf People's Studies (3)

This course primarily examines black deaf people in America including the Caribbean Islands and Africa. The course is organized to focus on the history, education, community and culture, language, and psychosocial forces that influence black deaf people's experience. It will concentrate on the social, political, and cultural development of a unique group of people that is a part of the general deaf community and the black community.

Prerequisite: DST 201.

DST 402 Deaf Women's Studies (3)

This course will explore how the field of women's studies came into being by way of the 1848 Seneca Falls Convention. Issues faced by both hearing and deaf women will be investigated: career, educational opportunities, reproduction, and patriarchy, among others.

Prerequisite: DST 201.

DST 494 Senior Seminar (3)

This seminar gives students the opportunity to develop an integrated approach to the study of deaf and hard of hearing people in America and abroad. Students will be asked to investigate a particular topic in depth.

Prerequisite: Successful completion of the core major program with a GPA of 2.5 or better.

DST 495 Special Topics (3)

Topics not taught in other courses.

DST 498 Senior Thesis (3)

The course allows interested seniors to study a specialized topic of their choice in depth. It encourages the students to conduct a case study or cross-cultural comparative study in consultation with the Deaf Studies Department and another appropriate department or research program.

Prerequisite: Permission of the Department.

DST 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

DST 595 Special Topics (3)

Grading system: letter grades only.

DST 695 Special Topics (1-3)

Grading System: letter grades only.

DST 699 Independent Study (1-3)

Grading System: letter grades only. Individualized course of study focusing on particular problem not covered in regular courses.

Prerequisite: Appropriate level of matriculation, permission of instructor and Special Independent Study Form.

APPLIED LITERACY

appliedliteracy.gallaudet.edu

Associate Provost's Office, Enrollment and Retention

Dr. Carie Palmer, Chair

Hall Memorial Building, Room S337C

The Department of Applied Literacy (DAL) focuses on developing the English literacy skills of Gallaudet students. The faculty teaching in this department share a passion and love for teaching, learning, English, signed languages, and critical thinking. Courses in Applied Literacy are not credit-bearing courses, meaning the credits do not count toward an undergraduate degree. These courses are required for students admitted with English conditions.

No Undergraduate Majors or Minors are offered.

Applied Literacy Courses Offered

ALT 050 English Language Study (6)

The emphasis in this course will be on the development and reinforcement of English grammar and vocabulary skills through reading and writing. Students will attend a tutoring program for at least six hours per week. If students do not achieve the necessary placement test scores to advance to ENG070 by the end of the semester, they may elect to repeat ENG050 or take ENG060. A grade of IP (In Progress) may be given to any student who has made satisfactory progress but who has not satisfied the requirements for entry into the next level. The requirement for entry into the next level of English is based on the end-of-semester placement test. In order to qualify to take the placement test, students must receive a passing grade in the course, or with permission of the chair.

Prerequisite: Permission of the department chair.

Course Fee: \$50

ALT 060 Intensive English Language Study I (12)

These semi-intensive English language courses meet 15 hours per week. Students work to achieve the English skills necessary to succeed in an academic environment. Emphasis is on the development and reinforcement of English grammar and vocabulary skills through reading and writing. (Twelve class hours and three hours of lab work). A grade of IP (In Progress) may be given to any student who has made satisfactory progress but has not satisfied the requirements for entry into the next level. The requirement for entry into

the next level of English is based on the end-of-semester placement test. In order to qualify to take the placement test, students must receive a passing grade in the course, or with permission of the chair.

Prerequisite: Permission of the department chair.

Course Fee: \$50

ALT 065 Intensive English Language Study II (12)

These semi-intensive English language courses meet 15 hours per week. Students work to achieve the English skills necessary to succeed in an academic environment. Emphasis is on the development and reinforcement of English grammar and vocabulary skills through reading and writing. (Twelve class hours and three hours of lab work.) A grade of IP (In Progress) may be given to any student who has made satisfactory progress but has not satisfied the requirements for entry into the next level. The requirement for entry into the next level of English is based on the end-of-semester placement test. In order to qualify to take the placement test, students must receive a passing grade in the course, or with permission of the chair.

Prerequisite: ALT 060 and permission of the department chair.

Course Fee: \$50

ALT 070 English Language Study: Reading and Writing Skills (6)

This English language course meets for a total of eight hours each week. Students work to achieve the English skills necessary to succeed in an academic environment. The emphasis is on the development and reinforcement of English grammar and vocabulary skills through reading and writing. This course is limited to students who have demonstrated a specific level of basic English skill. (Six class hours and two hours of lab work). A grade of IP (In Progress) may be given to any student who has made satisfactory progress but has not satisfied the requirements for entry into the next level. The requirement for entry into the next level of English is based on the end-of-semester placement test. In order to qualify to take the placement test, students must receive a passing grade in the course, or with permission of the chair.

Prerequisite: Passing performance on the English Placement Test or its equivalent.

Course Fee: \$50

ALT 080 English Language Study: Writing Emphasis (6)

This is an English language course designed for students who have demonstrated the required minimal skill in reading English but who need more focused work on written English before beginning college-level composition work. Students will write paragraphs and short essays, review basic grammar, and continue to reinforce their reading and vocabulary skills. The course may be individualized to meet the needs of students with a variety of linguistic backgrounds. A grade of IP (In Progress) may be given to any student who has made satisfactory progress but has not satisfied the requirements for entry into the next level. The requirement for entry into the next level of English is based on the end-of-semester placement test. In order to qualify to take the placement test, students must receive a passing grade in the course, or with permission of the chair.

Prerequisite: Passing performance on the reading section of the English Placement Test or the equivalent and permission of the department chair.

Course Fee: \$50

ART

art.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Marguerite Glass, Chair

Washburn Arts Building, Room 127

Located in the Washburn Arts Center, the department has fully equipped classrooms, studios, and labs in an environment that encourages creativity, collaboration, and the development of individual expression. The student experience in the department is enriched by an ongoing arts exhibition series and by visiting artists who offer master classes and lectures. With close ties to various campus units and world renowned museums, galleries and professional settings off campus, the department provides students with multiple opportunities to develop their professional portfolios and to exhibit their art work.

A total of 48 (12 pre-major and 36 major) credit hours of coursework is required for completion of this program. The curriculum is designed to provide the maximum education and training in a specialized area for both graduate school or entry-level positions in the industry.

Students seeking admission to a major in art must maintain an overall GPA of at least 2.5. In addition, students are required to complete four pre-major courses (listed below), in which specific elements for an admission portfolio are developed. Interested students are required to submit a statement of purpose, two letters of recommendation from university faculty, and a portfolio to the department for consideration.

Additional information may be obtained from the department chair.

Majors Offered

Art History
Digital Media
Graphic Design
Photography
Studio Art

Minors Offered

Art History

Art Courses Offered

ART 110 Introduction to Television, Film and Photography (3)

An introduction to how we see and what we see including visual communication, perception, and literacy. While reviewing theories of visual communication, this course develops a first approach to the production of visual media. Examples will be drawn from graphics, photography, television, film, and multimedia.

ART 126 Ceramics: Basic Hand-building Techniques (3)

An introduction to clay as an artistic medium. A variety of pots will be constructed using the following hand-building techniques: pinch, coil, slab, and compression. Three-dimensional design principles will be emphasized.

Course Fee: \$40

ART 131 Beginning Photography (3)

This course is a first approach on how to control exposure and composition with a 35mm camera. The students use 400 ASA black and white film. They learn how to process and print their own negatives. They are given approximately 10 different assignments, which they must complete by the

end of the semester. Students must have access to a manual 35mm camera throughout the semester.

Course Fee: \$50

ART 135 Introduction to Digital Media (3)

This course introduces the elements and principles of Film and Video production. Basic knowledge and skills using video camera equipment, digital editing applications, script-writing and storyboarding are discussed.

Course Fee: \$50

ART 140 Art History (3)

This course is designed to assist the student in a visual understanding of the art of the past and present. The Western tradition is analyzed, with emphasis upon art forms such as architecture, painting, and sculpture. The one-semester course highlights the major art periods starting with prehistory and ending with the modern era. Students are expected to take this course before taking major level courses in Art.

Prerequisites or Co-requisites: ENG 102 or the equivalent.

ART 150 Fundamentals of Design in Art (3)

An introduction to the language of art and design (space, line, shape, value, texture and color) and the principle of composition for both two-dimensional and three-dimensional art. A series of hands-on projects will reinforce these concepts. Students are expected to take this course before taking major level courses in Art.

Course Fee: \$40

ART 160 Introduction to Digital Imaging (3)

This introductory course, a prerequisite to all art courses, introduces students to the Macintosh computer system including digital imaging and illustration, layout, and other digital media software. Emphasis is placed on acquiring a base of skills and understanding of the variety of software.

Course Fee: \$40

ART 170 Introduction to Drawing (3)

A foundation course in drawing. An introduction to principles and procedures of drawing in various media. Lectures and studio work. Students are expected to take this course before taking major level courses in Art.

Course Fee: \$40

ART 215 Introduction to Deaf View/Image Art (3)

This course is cross-listed and is otherwise known as DST315. This course introduces a humanistic perspective on De'VIA and Deaf artists. Deaf View/Image Art (De'VIA) refers to works by artists who express their Deaf experiences

through visual art. Students will also explore how other minority groups (such as feminists, African Americans, Native Americans, etc). Use art as an expression of resistance. This course involves slide presentations of minority arts and De'VIA and group discussions.

ART 220 Asian Ceramics (3)

A focus on Asian ceramics with emphasis on Chinese, Japanese, Korean and Vietnamese traditions. Students will use earthenware, stoneware and porcelain clays to create examples of the traditional styles. The Asian ceramics collection in the Freer and Sackler Galleries on the Smithsonian Mall will be used as a major resource.

Course Fee: \$50

ART 222 Caves to Computers: The Evolution of the Graphic Arts (3)

This course both surveys and samples the creative, technological and social developments that have had impact on the evolution of the graphic arts. Course content emphasizes both the visual and written record through a variety of media including original objects, reproductions, film, the Web and other published sources.

Prerequisite: ART 140, ART 160.

Course Fee: \$40

ART 227 Ceramics: Advanced Hand-building and Wheel (3)

A continuation of hand-building techniques used to construct more complex forms. An introduction to the potter's wheel. Students will critique their work based on principles of three-dimensional design.

Prerequisite: ART 126 or Permission of instructor.

Course Fee: \$40

ART 232 Intermediate Photography (3)

This photography track course includes a study of advanced camera and darkroom techniques, including developing and printing of color photographs and an advanced analysis of styles in photography emphasizing a student portfolio. The impact on the deaf community and culturally diverse populations is discussed through viewing photographs.

Prerequisite: ART 131 or permission of the department chair.

Course Fee: \$50

ART 236 Digital Video Production (3)

This course in an intermediate course focused on capturing live motion actions, requiring a high level of film editing skills, discussing films and the economics of production.

Each student is required to submit small scale experimental film projects including screenplay and storyboard. This course requires team work on each film production, providing a simulation of the real life collaborations that occur in film development.

Prerequisite: ART 135.

Course Fee: \$75

ART 242 Digital Animation (3)

Students will learn a vector graphics based program identifying vector drawing, object layers, keyframes, and motion/shape tween techniques. Vector drawings are easily scaled and resized. Building layer management, basic animation and tweening techniques, and rollover buttons are emphasized. Basic ActionScriptings, web site navigation and interaction are discussed. Shockwave and professional HTML editing applications are included in this course.

Prerequisite: ART 160.

Course Fee: \$75

ART 255 Digital Photography (3)

This course incorporates the production of photography using digital cameras and demonstrates the advanced techniques and tips available for image manipulation. Students use an imaging editing software application on cross-platform equipment to develop their skills. Critiques of the images occur throughout the semester.

Prerequisite: ART 131, 160.

Course Fee: \$75

ART 260 Digital Illustration (3)

Students build proficiency in Illustrator - a vector-based graphic software that is used in professional settings. Students utilize various techniques of vector art creation to explore.

Prerequisite: ART 160.

Course Fee: \$40

ART 261 Layout and Composition (3)

Through this course, ideas are brought to paper with the software used by graphic design professionals in studio and printing settings. The focuses of the course include the study of type treatments, the exploration of different grids, and the study of layout possibilities. A particular emphasis will be developing a sensitivity on the part of the designer in the process of choosing the right combination of elements, such as headings, text and illustrations in order to convey messages in an original and effective manner. Cre-

ative solutions to artistic problems are also emphasized.

Prerequisite: ART 150, 170, 222, 260, Full Faculty Portfolio Review.

Course Fee: \$40

ART 270 Typography (3)

This course explores all aspects of typography. Students will organize and produce complex typographic designs and layouts. Projects involve the representation of varied texts as visually dynamic and clear communication. The course looks at the art of typography in both pre-electronic and electronic realms. Students analyze, edit and configure copy for business, literary or informational purposes.

Prerequisite: ART 261.

Course Fee: \$40

ART 290 Web Design (3)

This course provides an introduction to design created for the World Wide Web. Students are offered an introduction to HTML and web enhanced software applications, pixels, screen resolutions, image maps, rollover buttons, and graphic file formats, reliable colors in cross-platforms, and cross browsers. Current and future directions of the information superhighway, on-line service, search engines and WWW development will be discussed.

Prerequisite: ART 160.

Course Fee: \$40

ART 319 Modern Art (3)

A study of major developments in art since Post-Impressionism with emphasis on European and American painting, sculpture, and architecture. The development of abstract styles and the growing tendency toward very rapid stylistic changes. Placing works of art in their relevant historical, social, and cultural context. Field trips to local museums and related institutions.

Prerequisite: ART 140.

ART 324 Studies of Film/Video (topic to be specified) (3)

Studies in Film/Video are designed to provide an in-depth study of a specific area of the film discipline. Each time the course is offered, it will cover different topics including particular times, groups, genres, styles, techniques, software, and film history. Topics may include American film and culture, documentaries, women filmmakers, cutting edge editing programs, experimental film, senior thesis, etc. Topics will be offered on a rotating basis. The course may be repeated as topics change.

Prerequisite: ART 135.

Course Fee: \$25

ART 325 Scriptwriting (3)

This course is focused on writing concepts and techniques using classic structural elements of scripts, formats, different types of scripts for feature films, TV sitcom, commercial, animation, and the stage. Principles such as plot, structure, character, conflict, crisis, climax, exposition, and dialogue will be introduced. Each student will explore a new screenplay or work on a draft of a work-in-progress and receive feedback.

Prerequisite: ART 135, ENG 204 or equivalent.

ART 350 Studies in Drawing: [medium to be specified] (3)

Studies in Drawing is designed to provide an in-depth study of a specific area of the drawing discipline. Each time the course is offered, the materials and artistic processes related to one medium will be identified by the instructor, e.g. Mixed Media, Pastel, Ink, Dry Media, Charcoal, Collage, and Life Drawing. Students majoring in Studio Art may apply two Studies in Drawing courses to their major requirements.

Prerequisite: ART 170 and permission of the instructor.

Course Fee: \$40

ART 360 Studies in Sculpture (3)

Studies in Sculpture is designed to provide an in-depth study of a specific area of the sculptural discipline. Each time the course is offered, the materials, artistic concepts, and construction processes related to one medium will be identified by the instructor, e.g. Wood, Plaster, Fabric, Plastic, Glass, Metal, Papier-Mache, Mixed Media, etc. Students majoring in Studio Art may apply two Studies in Sculpture courses to their major requirements.

Course Fee: \$40

ART 370 Studies in Printmaking: [medium to be specified] (3)

Studies in Printmaking is designed to provide an in-depth study of a narrowly defined area of the printmaking discipline. Each time the course is offered, the materials, tools, artistic concepts, and printing processes related to one medium will be identified by the instructor, e.g. Screen printing, collagraph, woodcut printing, linocut printing, and lithograph printing.

Prerequisite: ART 170 and permission of the instructor.

Course Fee: \$40

ART 388 Principles of Museum Work (3)

Introduction to the study of the philosophy and practice of museum work. Emphasis on administration of a museum

art collection, registration methods, cataloging, storage, introductory methods of art conservation, exhibit planning, insurance, gifts, loan agreement forms, and interpretation of objects as related to history of museums. Provides background for internship and employment in the field.

ART 390 Web Design II (3)

This course introduces students to advanced interactive design and layout using advanced techniques. The procedures for importing multimedia projects and page layouts into web sites using Shockwave and professional HTML editors will be discussed. Intermediate competency-level in HTML/Flash is required.

Prerequisite: ART 290.

Course Fee: \$40

ART 392 Advanced Studies in Graphic Design (3)

In this course, students develop creative strategies for addressing market-related issues in the client-designer relationship. This course consolidates previous graphic design knowledge and skills. Students are expected to produce design solutions that reflect a high level of creativity and technical skills.

Prerequisite: ART 270.

Course Fee: \$40

Prerequisites or Co-requisites: ART 492.

ART 426 Studies in Ceramics : [medium to be specified] (3)

This course is designed to provide an in-depth study of a specific area within the ceramics discipline. While the medium used is the same (clay), different techniques, stylistic approaches, and historic perspectives will be taught in each course. As topics change, this course may be repeated.

Prerequisite: ART 227 or permission of the instructor.

Course Fee: \$40

ART 440 Production Design (3)

This course emphasizes the important relationship between graphic designer and printer in preparing images for the press. Through lectures, demonstrations, field trips and studio work, this course focuses on developing technical proficiency related to the specifications required for high-quality visual output.

Co-requisite: ART 392.

ART 450 Studies in Art History: (topic to be specified) (3)

This course will provide advanced study in art history in a variety of diverse, timely and interdisciplinary topics covering particular periods, artists, movements, and thematic

approaches in the field of art history. Course topics will emphasize; subjects in art which highlight the creative achievements of diverse groups of people; themes created in conjunction with important cultural collections, exhibitions or events related to art within the greater Washington, D.C. area; and those subjects which are of particular interest to our campus community. Topic will be offered on a rotating basis. Course may be repeated as topics change.

Prerequisite: ART 140.

ART 451 Women in Art (3)

The work of women as well as many other minority or racially diverse groups has often been overlooked and under-documented throughout much of history. At the same time, women and feminist scholars have provided leadership in the field of art and culture studies, bridging gaps and expanding the boundaries of traditional academic studies. Through a diverse group of readings, classroom lectures and discussions, visits to area museums, interactions with women artists, and independent research, this course provides students with a comprehensive overview of the important contributions women have made and are making in the art world.

Prerequisite: Permission of the instructor.

ART 460 Studies in Photography: (3)

This course is designed to provide an in-depth study of a specific area of the photography discipline. Each time course is offered, the materials, equipments, artistic concepts and techniques related to the medium will be identified by the instructor, e.g. studio lighting, large format, alternative processing, pinhole, color photography.

Prerequisite: ART 131, 232; and permission of the instructor.

Course Fee: \$50

ART 463 Photojournalism (3)

Analysis of the role of photography in mass communication with an emphasis on the photographic essay. Probes the legal aspects of news photography, the ethics of the profession, and shooting and layout of stories. A study of selected readings in photographic methods and skills.

Prerequisite: ART 131.

Course Fee: \$25

ART 470 Studies in Painting: [medium to be specified] (3)

Studies in Painting is designed to provide an in-depth study of a specific area of the painting discipline. Each time the course is offered, the materials, tools, artistic concepts and techniques related to one medium will be identified by the instructor, e.g. oil, acrylic, knife painting, mural painting, watercolor, airbrushing.

Prerequisite: ART 170 and permission of the instructor.

Course Fee: \$40

ART 491 Portfolio/Senior Exhibit (3)

Senior students are to select a theme for their culminating body of art, prepare an artist's statement, set up a Senior Year Art Exhibit showcasing their best work, and prepare a portfolio of work including actual works, slides, photos, and/or CD ROM or web-based documentation.

Prerequisite: Permission of the department.

Course Fee: \$40

ART 492 Major Internship Experience (3)

This course is individualized depending on the student's major. Students are required to complete either an internship or apprenticeship. The format of this experience will be determined in consultation with the department. Students work with their major advisor to determine appropriate distribution of credits over a time period of one or more semesters.

Prerequisite: Permission of the department.

ART 495 Special Topics (1-3)

Courses cover special topics, current issues, or areas of interest not included in other courses offered by the Art Department.

Prerequisite: Permission of the instructor.

ART 499 Independent Study (1-3)

Research, experimentation, or other project according to the interest and needs of the student.

Prerequisite: Permission of the department.

BIOLOGY

biology.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Ann Powell, Chair
Hall Memorial Building, Room 300

The Department of Biology at Gallaudet offers excellent undergraduate programs for deaf and hard of hearing students in the biological sciences. Department faculty also manage the Genetics Program, which provides genetic evaluation and counseling services to members of the Deaf community and other deaf and hard of hearing people, and the Molecular Genetics Laboratory, a new research initiative with laboratory facilities completed in 2008.

Biology is a rapidly evolving field that has become increasingly cross-disciplinary in recent years. The explosion of knowledge of molecular techniques and of our ability to analyze and manipulate DNA has impacted every area of biology, from agriculture to medicine. The future promises expansion and application of this technology along with the potential to use it toward solving many of the world's most pressing problems.

As educators and researchers, we recognize that these advances have changed science and therefore how Biology should be taught. Our faculty and staff are committed to providing the best curriculum and experiential opportunities we can, so that each student will possess the knowledge and laboratory skills they need to excel in this exciting, ever-evolving field.

Our Mission

The mission of the Biology Department is to provide a high quality educational experience in the biological sciences to undergraduate students in a bilingual environment. The curriculum offered by the department requires that students develop competence in the use of modern biological techniques and in the analysis, interpretation and presentation of data. The department prepares students to make contributions to diverse communities and a multicultural world beyond Gallaudet as educators, researchers, professionals and citizens.

Majors Offered

B.A. in Biology

B.S. in Biology

Minor Offered

Biology

Requirements for Admission to a Major in Biology

Students considering majoring in biology or a related field are advised to begin taking courses as early as possible, so that all the coursework can be completed for a timely graduation. For guidance feel free to consult with your academic advisor or with any of the members of our department.

Freshmen should enroll in Principles of Biology for Science Majors (BIO 107-108 with laboratory 109-110), and Honors students should enroll in Honors Biology (BIO 101H-102H with laboratory 103H-104H). Freshmen intending to enter the B.S. degree program should also enroll in a mathematics course as well as General Chemistry (CHE 107-108 with laboratory 109-110).

Before declaring a major in Biology, both B.A. and B.S. degree seekers must complete any math and English conditions, and should complete Principles of Biology for Science Majors or Honors Biology with a grade of C or better.

Students must complete Principles of Biology for Science Majors I and II (BIO 107-108) with a grade of "C" or better before declaring a major in biology.

B.A. in Biology

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	8
Major and Related	41
Free Elective	31
TOTAL	120

Requirements for a Major in Biology with a B.A. Degree

The B.A. degree program is designed for majors who are seeking employment in the field immediately after college or as a second major for education majors who aim to become primary or secondary school biology teachers.

Students must complete Principles of Biology for Science Majors I and II (BIO 107, 108) with a grade of C or better before declaring a major in biology.

Required pre-major courses 8 hours

BIO 107 Principles of Biology for Science Majors I (4)
BIO 108 Principles of Biology for Science Majors II (4)

Required chemistry courses 16 hours

CHE 107 General Chemistry I (3)
CHE 108 General Chemistry II (3)
CHE 109 General Chemistry Laboratory I (1)
CHE 110 General Chemistry Laboratory II (1)
CHE 211 Organic Chemistry I (4)
CHE 212 Organic Chemistry II (4)

*Required mathematics course 4 hours**

MAT 130 Precalculus (4)*

*Three hours count toward general studies requirements, replacing GSR 104.

Elective biology courses 24 hours

Take at least one course from each of these four areas, for a total of 24 credits.

Genetics

BIO 211 Genetics (4)
BIO 411 Human Genetics (3)

Microbiology, Molecular and Cell Biology

BIO 221 Microbiology (5)

BIO 499 Independent Study (1-3)

B.S. in Biology

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	8
Major and Related	59
Free Elective	13
TOTAL	120

Requirements for a Major in Biology with a B.S. Degree

The Bachelor of Science degree in biology is designed for students who want a more intensive background in the sciences. It is especially tailored for students who aspire for graduate studies in biology or a related field, or who wish to enter medical, dental, or veterinary school. The Bachelor of Science degree in biology differs from the Bachelor of Arts degree in biology in that it requires additional courses in physics, organic chemistry, biochemistry, research methods in biology, and calculus.

Students must complete Principles of Biology for Science Majors I and II (BIO 107, 108) with a grade of C or better before declaring a major in biology.

Required pre-major courses 8 hours

BIO 107 Principles of Biology for Science Majors I (4)
BIO 108 Principles of Biology for Science Majors II (4)

Required biology courses 6 hours

BIO 401 Research Methods in Biology (3)
BIO 403 Senior Capstone I (3)

Required chemistry courses 16 hours

CHE 107 General Chemistry I (3)
CHE 108 General Chemistry II (3)
CHE 109 General Chemistry Laboratory I (1)
CHE 110 General Chemistry Laboratory II (1)
CHE 211 Organic Chemistry I (4)
CHE 212 Organic Chemistry II (4)

Required physics courses 8 hours

PHY 151 Physics I (3)
PHY 152 Physics II (3)
PHY 153 Physics I Laboratory (1)
PHY 154 Physics II Laboratory (1)

Required mathematics course 8 hours

MAT 130 Precalculus (4)*
MAT 150 Calculus I (4)

*Three hours count toward general studies requirement, replacing GSR 104.

Elective biology courses 24 hours

Take at least one course from each of these four areas, for a total of 24 credits.

Genetics

BIO 495 Special Topics (1-4)
BIO 499 Independent Study (1-3)

Minor in Biology

Requirements for a Minor in Biology

Students must complete Principles of Biology for Science Majors I and II (BIO 107, 108) with a grade of C or better before declaring a minor in biology.

Required pre-minor courses 8 hours

BIO 107 Principles of Biology for Science Majors I (4)
BIO 108 Principles of Biology for Science Majors II (4)

Elective biology courses 15 hours

Fifteen credits of biology courses of the 200-level or above are required.

Total 23 hours

Biology Courses Offered

BIO 101 Introduction to Biology I (3)

This course is the first part of an one year overview of biology for non-science majors. This introductory level course will discuss biomolecules, cell physiology, genetics, and biotechnology, with emphasis on real-life application. Three hours of lecture per week. Students enrolling in this course must also enroll in BIO 103 laboratory.

Co-requisite: BIO 103.

BIO 102 Introduction to Biology II (3)

This course is a continuation of BIO 101 and provides the second part of an one year overview of biology for non-science majors. This course will discuss evolution, comparative biodiversity, human and animal anatomy and physiology, and ecology and environmental science. Three hours of lecture per week. Students enrolling in this course must also enroll in BIO 104 laboratory.

Co-requisite: BIO 104.

BIO 103 Introduction to Biology Laboratory I (1)

This laboratory course must be taken with BIO 101. Students will perform laboratory experiments including practical applications of the scientific method, a study of the metric system, using bioinstrumentation, analyzing biochemical reactions including photosynthesis and fermentation, a microscopic study of cell and nuclear division, and genetics techniques including DNA electrophoresis. Students will learn to write laboratory reports in the same format as professional journal articles. This course particularly emphasizes critical thinking and problem solving skills. One two-hour laboratory per week.

Co-requisite: BIO 101.

Course Fee: \$75

BIO 104 Introduction to Biology Laboratory II (1)

This laboratory course must be taken with BIO 102. Students will perform laboratory experiments including analysis of skull fossils, cultivation, growth and analysis of bacteria, human anatomy and physiology, water analysis, and an analysis of the effect of pollution on aquatic organisms. Students will continue to practice writing laboratory reports in the same format as professional journal articles. This course particularly emphasizes critical thinking and problem solving skills. One two-hour laboratory per week.

Co-requisite: BIO 102.

Course Fee: \$75

BIO 105 Introduction to Human Biology (4)

This course addresses human biology from its beginning, sexual reproduction and birth, to its ending, aging and death, including the physical developmental stages in between. Students will study the structure and functions of cells and organ systems and learn how these systems are integrated to support the human body over its life span. The course will cover a number of bioethical and diversity issues including such topics as advances in medical technology, recombinant DNA, and human genome studies. Students will be introduced to basic research methods and scientific writing. Three hours of lecture and two hours of lab.

Course Fee: \$35

BIO 107 Principles of Biology for Science Majors I (4)

This is the first part of a two-semester sequence of an introductory-level biology course for science majors. This course is designed for students who want to major in biology or another science, or who plan to attend dental, veterinary, or medical school after graduation. It will cover the fundamentals of biomolecules, cell physiology, respiration and photosynthesis, and genetics. In laboratory, students

will perform experiments including analysis of biochemical reactions, photosynthesis and fermentation, a microscopic study of cell and nuclear division, and genetics techniques including DNA electrophoresis. Students will learn to write laboratory reports in the same format as professional journal articles. Three hours of lecture and one two-hour laboratory per week.

Course Fee: \$75

BIO 108 Principles of Biology for Science Majors II (4)

This course is a continuation of BIO 107 and is designed for students who want to major in biology or another science, or who plan to attend dental, veterinary, or medical school after graduation. It will cover the fundamentals of evolution, comparative biodiversity, human and animal anatomy and physiology, and ecology and environmental science. In laboratory, students will perform experiments including the analysis of skull fossils, cultivation, growth and analysis of bacteria, human anatomy and physiology, water analysis, and an analysis of the effect of pollution on aquatic organisms. Students will continue to practice writing laboratory reports in the same format as professional journal articles. Field trips are a part of the lab requirement. Three hours of lecture and one two-hour laboratory per week.

Co-requisite: BIO 107.

Course Fee: \$75

BIO 201 Internship in Biology (2)

Internships provide intellectually enriching work experiences related to the student's major and/or career interest. They enhance and integrate academic study with supervised practical experience and training. Students may receive course credit for internships by enrolling in this course either concurrently or in the semester after the internship experience.

Prerequisite: BIO 108 or equivalent ; or permission of major advisor.

BIO 211 Genetics (4)

This course provides an overview of modern genetics, beginning with classical Mendelian genetics and continuing through molecular genetics. Laboratory activities will introduce students to techniques currently used in genetics laboratories, including gel electrophoresis, the polymerase chain reaction (PCR), and DNA fingerprinting using STR polymorphism analysis. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 108.

Course Fee: \$100

BIO 221 Microbiology (5)

A general survey of the microorganisms, with emphasis on their morphology, physiology, growth, and methods of isolation and identification. Three hours of lecture and two two-hour laboratories per week.

Prerequisite: BIO 108.

Course Fee: \$100

BIO 231 Invertebrate Zoology (4)

Advanced survey of the biology of invertebrates with an emphasis on comparative and functional morphology to include major features of body plans (multicellularity, symmetry etc), physiology, evolution, systematics, behavior of the invertebrates, a study of the reproductive strategies, development and diverse ecological strategies invertebrates exhibit. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 108.

BIO 233 Anatomy and Physiology for Human Service Majors (4)

A comprehensive course with emphasis on major body systems including musculoskeletal, nervous, digestive, cardiovascular and respiratory systems. This course is designed to give Physical Education majors a strong foundation for PED 341 (Kinesiology). Field trips that have direct applications to the course are arranged, dependant on availability. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 105.

BIO 241 Ecology (4)

A study of the interrelationships between organisms and physical factors in and with the natural world. The course discusses ecological parameters (physical factors, nutrient cycles, energy flow), organisms (life histories, evolutionary fitness), populations (population growth, temporal and spatial dynamics), communities (predator-prey interactions, competition, co-evolution, succession), ecosystems (biomes, biodiversity, species-area relationships). Laboratory experiences will include both field trips and modeling exercises. Three hours of lecture and one two hour laboratory per week.

Prerequisite: BIO 108 or permission of the instructor.

Course Fee: \$75

BIO 331 Vertebrate Zoology (4)

Through a combination of lectures, laboratories, field trips and independent research projects, this course will provide a general overview of the many aspects of vertebrate biology

to include: comparative anatomy of the vertebrates, function of organ systems, developmental pathways, evolution, physiological, ecological and behavioral adaptations. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 108.

Course Fee: \$50

BIO 332 Botany (4)

Molecular, cellular, physiological, morphological, ecological, systematics, and evolutionary principles of plants, with special reference to their economic importance, genetics, and ecology. The course also includes brief discussions on algae and some bacteria, as well as fungi. The course consists of tightly linked lecture and laboratory learning experiences. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 108.

Course Fee: \$75

BIO 333 Human Anatomy and Physiology I (4)

The first part of a two-semester course sequence, this course will study the various systems of the body from a combined anatomical and physiological standpoint, with laboratory experiments which illustrate their structure and function. Students will develop their critical thinking skills by analyzing hypothetical problems relating to anatomy and physiology; many of these problems will have medical applications. The first semester will focus on the following organ systems: integumentary, skeletal, muscular, nervous and special sensory. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 108.

Course Fee: \$75

BIO 334 Human Anatomy and Physiology II (4)

The second part of a two-semester course sequence, this course will cover the remaining physiological systems of the body. Students will develop their critical thinking skills by analyzing hypothetical problems relating to anatomy and physiology; many of these problems will have medical applications. This semester will focus on the following organ systems: endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary and male and female reproductive systems. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 333.

Course Fee: \$75

BIO 341 Field Biology (4)

Field Biology is an intensive ecology course that will allow students to become familiar with more principles and applications of ecology. Experimental and descriptive methods of ecological investigations will be learned through laboratory exercises and field projects. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 241 Ecology.

BIO 401 Research Methods in Biology (3)

This course will provide an overview of experimental research methods in the sciences. Topics include discussions of laboratory research design and methods, ethics in research, the use of animal and human subjects, and the critical analysis of published research reports. Development of scientific writing skills will also be emphasized. Three hours of lecture per week.

Prerequisite: BIO 108 or permission of the instructor.

BIO 403 Senior Capstone I (3)

This course is for biology B.S. program majors who are in their last year of the program. Students will produce three major products (1) a literature review on an approved topic of their choice; (2) a research proposal that may or may not be submitted to the Gallaudet Research Institute in order to obtain funding; and (3) a final research article, which summarizes and analyzes the data which the student collected during their research project, and which is written in the format of a professional journal article. The student and instructor will need to draw up a work contract which specifies the parameters of this work as well as meeting times.

Prerequisite: Permission of the instructor.

BIO 404 Senior Capstone II (3)

Students whose capstone research project requires more than one semester of work may also enroll in this course for the second semester to obtain additional course credit. The student and instructor will need to draw up a work contract which specifies the parameters of this work as well as meeting times.

Prerequisite: Permission of the instructor.

BIO 411 Human Genetics (3)

This course is cross-listed and is otherwise known as BIO 711. An in-depth examination of the mechanisms involved in producing genetic variation in humans and medical/clinical aspects of genetic variation and disease. Topics include human cytogenetics and chromosomal disorders, nontraditional inheritance, genetic counseling, and the ethical,

legal, and social impact of genetics technology. Hereditary variations in deaf people are also discussed. Three hours of lecture per week.

Prerequisite: BIO 108.

BIO 421 Molecular Cell Biology (4)

An in-depth study of cellular structure and organization and the biochemical functioning of the cell. Modern cell biology weaves three areas into one. The three areas are: cytology, which is concerned with cellular structure; biochemistry, which helps in understanding the techniques for the separation of cellular components and the life processes in cells at the molecular level; and genetics, which emphasizes the molecular structure of genes and how the genetic code controls expression through transcription of mRNA and translation into protein structure and function. Topics will include similarities and differences between prokaryotes and eukaryotes; the composition, function, and synthesis of biomacromolecules; storage and retrieval of genetic information; gene activity; cellular differentiation, intercellular communication; and mutation. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 108.

Course Fee: \$75

BIO 431 Developmental Biology (4)

Study of the origin and development of representative vertebrates, illustrating in detail the development from zygote to germ layers to organ derivatives. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 108.

BIO 432 Vertebrae Histology (5)

A study of the microscopic anatomy and histophysiology of the major tissues and organs of the vertebrate body, with emphasis on structure-function relationships. Three hours of lecture and two two-hour laboratory per week.

Prerequisite: BIO 331.

Course Fee: \$50

BIO 433 Animal Physiology (4)

A comparative study of the physiological processes occurring in highly evolved animals, including but not emphasizing humans. The course is intended to outline the functional problems of the living state and illustrates the strategies that emerge to change them. Three hours of lecture and one two-hour laboratory per week.

Prerequisite: BIO 108.

BIO 441 Marine Biology (3)

This course will offer students an opportunity to take an intensive look at aquatic systems, beginning with an overview of the chemical, geological, and physical aspects of the world's oceans. Students will learn about the ecology of marine systems of microscopic (bacteria, phytoplankton, and zooplankton) to macroscopic organisms (fish and marine mammals). A variety of current events will be discussed (e.g. harmful algal blooms, iron fertilization, recent discoveries in bacteria and phytoplankton genomes). Three hours of lecture per week and one all-day field trip to the Chesapeake Bay.

Prerequisite: BIO 241 Ecology.

Course Fee: \$50

BIO 495 Special Topics (1-4)

Advanced, in-depth study on special topics, current issues, or areas of interest not included in current offerings by our department. Examples of previous special topics courses have included aquatic entomology and water pollution, environmental policy, bioterrorism, evolution, and pathogenic microbiology. The meeting times and number of credits will be announced along with the course.

BIO 499 Independent Study (1-3)

Reading, research, discussion, writing in the discipline, or laboratory work, according to the goals of the student. The student and instructor will need to draw up a work contract which specifies the parameters of this work as well as meeting times.

Prerequisite: Permission of the department chair.

BUSINESS

business.gallaudet.edu

Graduate School and Professional Studies

Dr. Khadijat Rashid, Chair

Ely Center, Room 203

The Department of Business is accredited by the Association of Collegiate Business Schools and Programs. The department offers undergraduate programs in the following fields: accounting, business administration, computer information systems, and economics and finance.

The department seeks to provide each student with programs that reflect the most recent developments in the field of management and related professional programs, to familiarize students with technological advances that are transforming the workplace, and to afford students through internships the opportunity of applying classroom theory in "real-life" settings.

The programs of the department are designed to prepare students for direct entry into a career in business or government or for graduate study in business, economics, law, public administration, or similar fields. The programs are designed to provide education concerning the highly complex and technical character of management common to all organizations. Students are expected to develop an insight into basic tenets and analytical skills that will equip them to meet the needs and problems of diverse types of business organizations. Students who plan to major in one of the Department of Business programs are encouraged to start their business courses in their freshman year.

Accounting

Mr. William Sloboda, Accounting Program Coordinator

Ely Center, Room 209

The accounting program provides a broad base of study and is designed to ensure that the student is adequately prepared for entry-level positions. Through careful course selection within the department and supporting fields, it is possible for students to prepare themselves for careers in government and private industry. Students aspiring to become certified public accountants (CPAs) need to be aware of the educa-

tional requirements of the state in which they intend to sit for the CPA examination. Advisors in the department are available to help students plan their courses to meet the CPA requirements or any speciality within the field of Accounting.

Business Administration

Mr. Thomas Baldridge, Business Administration Program Coordinator
Ely Center, Room 200

The Business Administration program provides a foundation in business administration to prepare students for entry-level management positions in either the private or public sector. Students can design their own areas of specialization from the electives offered within the department.

Computer Information Systems

Dr. Qi Wang, Computer Information Systems Program Coordinator
Ely Center, Room 200

The computer information systems curriculum is constantly updated to reflect the latest technological developments in the computer and information systems field. Our program goals are to provide top quality training to make our students employable immediately upon graduation, and to build a strong foundation for a successful career in this challenging field. Our core and elective courses provide students with broad-based knowledge and skills that will enable them to branch out to specialized careers. Students are exposed to a variety of platforms including mainframe, client server, and PC systems. In addition to the University computer resources, three networked PC labs are available for instructional purposes and for students' use for practice and experimentation.

In addition to the coursework, students are strongly encouraged to acquire work experience through summer internships, part-time employment, and computer lab work. Internship opportunities are widely available through the Career Center. Students who plan to major in computer information systems are encouraged to start the program in their sophomore year.

Economics and Finance

Mr. Steven Chalkind, Economics/Finance Program Coordinator
Ely Center, Room 200

Declaring a Major

Requirements for Admission to a Major or Minor in the Department of Business

Students considering a Business major are encouraged to declare their major by their sophomore year in order to complete all the required major courses in a timely fashion. The following minimum criteria must be met for a student to be considered for admission into any of the five majors in the Department of Business:

- A minimum cumulative GPA of 2.5.
- Completion of an application form and a written 2- 3 page statement outlining career goals.
- Successful completion of GSR 150 or equivalent, with a grade of C or better.
- Successful completion of BUS 101 or equivalent, with a grade of C or better.
- Two letters of recommendation of which at least one must be from a former professor.

For continuation in a Business major, a student must maintain a minimum cumulative GPA of 2.5 in both major and nonmajors courses. All business majors must complete at least one internship in the field prior to graduation.

B.S. in Accounting

Summary of Requirements

	2009-2010
General Studies	40
Major and Related	69
Free Elective	11
TOTAL	120

Requirements for a Major in Accounting

Students must complete GSR 150 or the equivalent and must have declared a major in the Business program before taking 300-level or above courses in the Department of Business.

For continuation in an accounting major, a student must maintain a minimum cumulative GPA of 2.5 in major and nonmajor courses. An accounting major must complete at least one internship in the field prior to graduation.

Required core courses 42 hours

ACC 201 Financial Accounting (3)
 ACC 202 Managerial Accounting (3)
 BUS 101 Introduction to Business (3)
 BUS 211 Management and Organizational Behavior (3)
 BUS 221 Marketing (3)
 BUS 331 Business Statistics (3)

 BUS 371 Business Law I (3)
 BUS 431 Production and Operations Management (3)
 BUS 461 Global Business (3)
 BUS 491 Senior Seminar (3)
 CIS 203 Management Information Systems (3)
 ECO 201 Introduction to Economics I (3)
 ECO 202 Introduction to Economics II (3)

Required accounting courses 18 hours

ACC 301 Intermediate Accounting I (3)
 ACC 302 Intermediate Accounting II (3)
 ACC 303 Intermediate Accounting III (3)
 ACC 321 Managerial Cost Accounting (3)
 ACC 331 Income Tax Accounting (3)
 ACC 441 Auditing (3)

Elective courses 9 hours

Choose three courses:

ACC 350 Nonprofit Accounting (3)*
 ACC 401 Advanced Accounting (3)*
 ACC 402 Current Accounting Theory (3)
 ACC 421 Advanced Cost Accounting (3) **
 ACC 442 Accounting Information Systems (3)
 ACC 461 International Accounting (3)
 ACC 495 Special Topics (1-3)***

*Recommended for those planning to sit for the CPA examination.

** Recommended for those planning to sit for the CMA examination.

***Students must take three credits of ACC 495 in order for it to qualify as an accounting elective.

B.S. in Business Administration

Summary of Requirements

	2009-2010
General Studies	40
Major and Related	63
Free Elective	17
TOTAL	120

Requirements for a Major in Business Administration

The program provides a foundation in business administration to prepare students for entry-level management positions in either the private or public sector. Students must choose a minimum of two out of six pre-established specialties or design their own areas of specialization from the electives offered within the department. Minor in business administration is an excellent choice for students with management and leadership potential who choose to major in a liberal arts discipline.

Requirements for a Major in Business Administration

Students must complete GSR 150 or the equivalent and must have declared a major in a Business program before taking 300-level or above courses in the Department of Business.

Required pre-major courses 3 hours

COM 340 Business and Professional Communication (3)

Required core courses 42 hours

Students can design their specialization in this field in consultation with their advisor by selecting from among the variety offered by the Department of Business

Specialization in Finance 9 hours

Students can design their specialization in this field in consultation with their advisor by selecting from among the variety offered by the Department of Business

Specialization in Human Resource Management 9 hours

Students can design their specialization in this field in consultation with their advisor by selecting from among the variety offered by the Department of Business

Specialization in International Business 9 hours

Students can design their specialization in this field in consultation with their advisor by selecting from among the variety offered by the Department of Business

Specialization in Law 9 hours

Students can design their specialization in this field in consultation with their advisor by selecting from among the variety offered by the Department of Business

Specialization in Marketing 9 hours

Students can design their specialization in this field in consultation with their advisor by selecting from among the variety offered by the Department of Business

B.S. in Computer Information Systems**Summary of Requirements**

	2009-2010
General Studies	40
Major and Related	69
Free Elective	11
TOTAL	120

Requirements for a Major in Computer Information Systems

Students must complete GSR 150 or the equivalent and must have declared a major in a Business program before taking 300-level or above courses offered by the Department of Business.

Required core courses 42 hours

ACC 201 Financial Accounting (3)
 ACC 202 Managerial Accounting (3)
 BUS 101 Introduction to Business (3)
 BUS 211 Management and Organizational Behavior (3)
 BUS 221 Marketing (3)
 BUS 331 Business Statistics (3)
 BUS 351 Business Finance (3)
 BUS 371 Business Law I (3)
 BUS 431 Production and Operations Management (3)
 BUS 461 Global Business (3)
 BUS 491 Senior Seminar (3)
 CIS 203 Management Information Systems (3)
 ECO 201 Introduction to Economics I (3)
 ECO 202 Introduction to Economics II (3)

Required computer information systems courses 18 hours

CIS 302 Business Applications Development I (3)
CIS 303 Business Applications Development II (3)
CIS 305 Business Information Systems Analysis and Design (3)
CIS 316 Business Telecommunications (3)
CIS 317 Database Design and Implementation (3)
CIS 418 Application System Development Project (3)

Elective courses 9 hours

Choose three courses:

CIS 402 Network Management (3)
CIS 404 Multimedia Applications in Business (3)
CIS 405 Advanced Database Concepts and Applications (3)
CIS 406 E-Commerce (3)
CIS 495 Special Topics (3)

Minor in Accounting

Requirements for a Minor in Accounting

The minor in accounting consists of a minimum of 15 credit hours of accounting courses. Department of Business majors must take a total of 15 credit hours in accounting (ACC 301, ACC 302, and ACC 303 are mandatory) beyond those accounting courses required in their major programs. For majors outside of the Department of Business, ACC 201, ACC 202, ACC 301, ACC 302, and ACC 303 are required. The specific course of study will be determined in consultation with the Accounting Program Coordinator or an advisor within the accounting program.

Minor in Business Administration

Requirements for a Minor in Business Administration

The minor in business administration consists of a minimum of 15 credit hours from management courses and other related courses. For Department of Business majors, these 15 credit hours must be beyond the school (or business administration) courses required for those majors. The specific course of study will be determined in consultation with a faculty advisor within the Department of Business.

Minor in Computer Information Systems

Requirements for a Minor in Computer Information Systems

The minor in CIS consists of a minimum of 15 credit hours of major core and elective courses. For Department of Business majors, the requirements are CIS 302, 316, 317, and any other two CIS courses. Students who are not Department of Business majors can take any mix of CIS courses based on their personal or career interests. The specific course of study will be determined in consultation with the lead professor of the CIS Program. Students in all other programs are strongly encouraged to minor in CIS since a knowledge of computer systems will enhance career opportunities and provide valuable skills for success in life.

Minor in Economics and Finance

Requirements for a Minor in Economics and Finance

The minor in economics and finance enables a student to pursue concentrated study in an area of economics or finance that meets his or her individual interest. The minor requires satisfactory completion of one prerequisite, ECO 201 and of ECO 202. A total of 15 credits (not including the prerequisite) satisfies the minor's requirements. For majors within the Department of Business, these 15 credits must be beyond the economics and finance courses required for those majors. The specific course of study will be determined in consultation with the lead professor or other advisor within the Department of Business.

Accounting Courses Offered

ACC 201 Financial Accounting (3)

An introduction to basic financial accounting theory and practice. This course provides students with the ability to understand business activities and the decisions that managers make by studying the accounting methods used in preparing financial reports. A user approach is emphasized so that students will learn to interpret financial reports in an accurate and relevant way by focusing on how accounting methods affect the evaluation of business results and the quality of business decisions that have been made.

Prerequisite: BUS 101.

Co-requisite: CIS 101.

ACC 202 Managerial Accounting (3)

Management (or Managerial) Accounting comprises financial and nonfinancial information intended to meet internal users' needs. It involves the development and interpretation of accounting information intended to specifically assist management in the operation of the business. Topics include the use of accounting information for planning and control, performance evaluation, decision making, and statement of cash flows, along with financial statement analysis. The course will cover cost behavior, job order costing, process costing, cost volume-profit relationship, relevant costing/benefits, budgeting, activity-based costing, cash flow and financial statement analysis. Computer lab required.

Prerequisite: ACC 201 and CIS 101.

Course Fee: \$50

ACC 301 Intermediate Accounting I (3)

This is the first part of a three-semester sequence. This course covers a more detailed application of principles of first-year accounting, theory supporting principles, and detailed definition of various parts of the financial statement.

Prerequisite: ACC 202; Business department majors only or permission of the department.

ACC 302 Intermediate Accounting II (3)

This is the second part of a three-semester sequence. This course emphasizes the various techniques of accounting for inventory, tangible and intangible assets, liabilities, equity, and investment transactions.

Prerequisite: ACC 301; Business department majors only or permission of the department.

ACC 303 Intermediate Accounting III (3)

This is the third part of a three-semester sequence. This course emphasizes the various techniques of accounting for investments, income taxes, pensions, and leases. This course also analyzes accounting changes and errors, cash flows, and full disclosure in financial reporting.

Prerequisite: ACC 302; Business department majors only or permission of the department.

ACC 321 Managerial Cost Accounting (3)

Study of concepts, techniques and principles of cost and management accounting. The use of accounting data for managerial decision making, planning, and control. Topics include budgeting, cost concepts, cost behavior, cost-volume-profits relationships, inventory control, standard costs, absorption costing versus direct costing, variance analysis,

cost allocations, setting price and international issues.

Prerequisite: ACC 202; Business department majors only or permission of the department.

ACC 331 Income Tax Accounting (3)

Study of federal income taxation of individuals and their impact on personal and business financial decision making. Topics include: concepts of gross income, deductions, tax credits; business and personal investment deductions; sale and other dispositions of property; changes in tax law and economic impact of the law. Although the course emphasizes income taxation, issues such as gift, estate, partnership and corporate taxation are discussed.

Prerequisite: ACC 202; Business department majors only or permission of the department.

ACC 350 Non-Profit Organization Accounting (3)

Course covers the accounting concepts used in governmental units and other not-for-profit organizations such as hospitals, voluntary health and welfare organizations, and others. Emphasis will be placed on the accounting and budgeting procedures used in these organizations.

Prerequisite: ACC 301; Business department majors only or permission of the department.

ACC 401 Advanced Accounting (3)

This course explores in depth the financial concepts used by the Accounting profession for partnerships, business combinations and consolidated financial statements, bankruptcy, liquidation and reorganization, and estates and trusts.

Prerequisite: ACC 302; Business department majors only or permission of the department.

ACC 402 Current Accounting Theory (3)

This course studies and analyzes current accounting thought as reflected in leading professional and accounting research reports.

Prerequisite: ACC 302; Business department majors only or permission of the department.

ACC 421 Advanced Cost Accounting (3)

Advanced level cost accounting with emphasis on integration of managerial aspects of accounting internal record-keeping, business and managerial functions of decision making, planning, and control. A consideration of quantitative and behavioral aspects.

Prerequisite: ACC 321; Business department majors only or permission of the department.

ACC 441 Auditing (3)

An introductory course covering both the concepts and procedures that the auditor must know and follow. The course attempts to give students a comprehensive, one semester review of the auditing field, with an emphasis on the auditing procedures and techniques needed to audit financial statements as well as to provide basic preparation for the CPA exam.

Prerequisite: ACC 302; Business department majors only or permission of the department.

ACC 442 Accounting Information Systems (3)

This course provides an opportunity for accounting majors to learn, study, and apply computerized accounting methods. It is designed to introduce students to accounting systems and covers an introduction to the analysis and development of accounting information systems for businesses by giving a systems perspective on some traditional accounting topics. The course provides hands-on experience with an accounting program(s). Students are encouraged to develop individual modules to specific business needs. Computer lab required.

Prerequisite: ACC 202; Business department majors only or permission of the department.

Course Fee: \$50

ACC 461 International Accounting (3)

The course studies how accounting is practiced in different countries around the world, and students will learn to compare the differences in financial reporting, taxation and other accounting practices that exist across countries. As business becomes more global, an understanding of these differences and efforts to harmonize differing accounting standards grow in importance. The course deals with both cultural issues and accounting issues having the greatest differences between nations.

Prerequisite: ACC 202; Business department majors only or permission of the department.

ACC 495 Special Topics (1-3)

Topics not taught in other courses.

Prerequisite: Business department majors only or permission of the department.

ACC 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Business department majors only or permission of the department.

Business Courses Offered

BUS 101 Introduction to Business (3)

This course surveys the fundamentals of business administration, including management, organizational behavior, marketing, economics, statistics, management information systems, accounting, finance, entrepreneurship, international business, and ethics and social responsibility. It is intended both for students who seek a one-time exposure to business as well as those planning to major in a Department of Business program.

Prerequisites or Co-requisites: GSR 102 or the equivalent.

BUS 211 Management and Organizational Behavior (3)

This course explores the major functions of management: planning, organizing, leading, and controlling. Within these four functions are subjects such as self-management, organizational structure and culture, leadership, motivating employees, teamwork, human resource management, self-management, change management, and planning and decision-making tools and techniques. This course takes an inside out approach, where the student learns first about themselves and then develops their ability to manage progressively larger and more diverse groups of people and projects.

Prerequisite: BUS 101 and GSR 150 or equivalent.

BUS 221 Marketing (3)

This course examines the basic principles of marketing and provides the opportunity to develop the critical analysis and management skills needed by successful marketers. Within the framework of the "product, price, promotion, distribution, and customer" elements of marketing, course topics include market segmentation, targeting, positioning, consumer behavior, integrated marketing communication, marketing ethics and social responsibility, and the global dimensions of marketing (including e-marketing).

Prerequisite: BUS 101 and GSR 150 or equivalent.

BUS 280 Career Search Strategies in Business (1-3)

This course provides a key opportunity for Department of Business majors to learn, study, and apply their university coursework to a designated internship experience. The course focuses on developing the skills critical to searching for and obtaining internships and full time jobs. Course topics will include exploring career options; preparing effective job search materials; and practical skills such as interviewing and networking.

Prerequisite: BUS 101 and GSR 150 or equivalent.

BUS 313 Public Administration (3)

This course is an introduction and analysis of government administrative organizations. It addresses the roles of administrative agencies within the office of the President, the U. S. Congress, and selected state and local governments, with emphasis on the principles of budget planning and financial management within these organizations. Students will analyze issues from both a theoretical practical operational perspective.

Prerequisite: BUS 101; Business department majors only or permission of the department.

BUS 331 Business Statistics (3)

This course examines the basic principles of statistics as applied to business situations and provides opportunities to develop basic quantitative, research, presentation, and critical analytical skills that will be useful to a successful manager. Topics include quantitative and graphical descriptive techniques, data collection and sampling, probability distributions, estimation techniques, and basic inferential analysis.

Prerequisite: BUS 101 and GSR 150 or equivalent; Business department majors only and permission of the department.

BUS 341 Business Ethics (3)

This course is cross-listed and is otherwise known as PHI 341. It introduces the student to the normative theories of moral philosophy as they apply to free enterprise market systems, corporations and other organizations. Students use case studies and current events to critically assess how to resolve moral issues commonly faced by managers, employees, marketers, and consumers.

Prerequisite: BUS 101 and GSR 150 or equivalent; Business department majors only and permission of the department.

BUS 351 Business Finance (3)

This course examines the basic principles of financial management and provides opportunities to develop basic quantitative, research, and critical analytical skills that are useful to a financial manager. Topics include financial managerial functions and responsibilities, risk/return trade-off, ethics and social responsibility, taxation issues, financial institutions and economic environment, interest rate analysis, financial statement analysis, time value of money, and valuation techniques.

Prerequisite: ACC 208, BUS 211 and BUS 331; Business department majors only or permission of the department.

BUS 353 Investments (3)

A course that examines the principles of financial investing and provides opportunities to develop basic quantitative, research, presentation, and critical analytical skills that are useful to an investor. Topics include analysis of the investment environment, tools and mechanics of investing (debt instruments, government and municipal securities, common stock, real estate), portfolio construction and management, dealing with securities markets, tax issues in investing, research strategies, financial statement analysis, and risk/return trade-off analysis. This course incorporates student management of an actual investment fund that is a component of Gallaudet University's endowment.

Prerequisite: GSR 150; Business department majors only or permission of the department.

BUS 371 Business Law I (3)

This course introduces students to the American business legal environment and covers basic concepts in contracts, the uniform commercial code, corporations and partnerships, agency, intellectual property, employment, antitrust, consumer protection, security regulation, environmental and international law, and business ethics and social responsibility.

Prerequisite: BUS 101 and GSR 150 or equivalent; Business department majors only and permission of the department.

BUS 372 Business Law II (3)

This course addresses additional legal topics required for certification as a certified public accountant, including debtor and creditor relations, negotiable instruments, real property, trusts, wills and estates.

Prerequisite: BUS 371 or permission of instructor.

BUS 414 Human Resources Management (3)

This course focuses on the successful planning, staffing, and management of personnel in small and large business organizations. Course topics include job design and organizational structure, recruitment and selection, legal issues (benefits, privacy, equal opportunity), and performance management. Special attention is paid to problems of successfully implementing human resource strategies at both the operating unit and corporate level. Through the use of case studies and real-world scenarios, the issues of workplace productivity, turnover, employee morale, and manager effectiveness are discussed.

Prerequisite: BUS 211, BUS 341 or PHI 358 and BUS 371; Business department majors only or permission of the department.

BUS 421 Marketing Research (3)

This course examines ways that research methods and procedures are be used to obtain the information necessary for making sound strategic marketing decisions. Topics includes a review of marketing concepts, research ethics, research design (secondary data, qualitative data, observation, survey and experimentation), data acquisition and measurement, questionnaire design, sampling issues, and data analysis and findings. By performing group and individual marketing research projects, students learn how to write a research proposal as well as how to execute and present of complete marketing research study.

Prerequisite: BUS 221 and BUS 331; Business department majors only or permission of the department.

BUS 431 Production and Operations Management (3)

This course examines the production phase of business activity and emphasizes developing skills to analyze methods of design and operation of production systems.

Prerequisite: BUS 211 and BUS 331; Business department majors only or permission of the department.

BUS 461 Global Business (3)

The course will provide an opportunity to understand the various issues that affect a business when expanding to the global marketplace. It will provide an overview of the international political, economic, technological, cultural, and institutional environment of business, as well as an introduction to some of the managerial challenges unique to the management of the multinational enterprise (MNE). Theories and issues related to international trade, foreign direct investment, economic integration, and international monetary system will be explored.

Prerequisite: ECO 202, BUS 211, and BUS 221; Business department majors only or permission of the department.

BUS 491 Senior Seminar (3)

A comprehensive course which will integrate and test the student's learning of the core subjects and preparation for employment in a field of business administration. A variety of instructional techniques may be used including case studies, discussion groups, team teaching, and guest speakers from the business world.

Prerequisite: All core courses in the Department of Business, or permission of instructor.

BUS 493 Entrepreneurship (3)

This course examines current theories about entrepreneurship and reviews the fundamental areas of business administration that every entrepreneur should know, including

management, marketing, accounting, finance, and policy and strategic planning. The structure and purpose of a business plan are covered in detail.

Prerequisite: ECO 202, BUS 211, BUS 221, BUS 331, BUS 351, and BUS 371; Business department majors only or permission of the department.

BUS 495 Special Topics (1-3)

Students with special business interest may register for this course with approval of the department chair. Topics will require a written agreement between the student and an interested business faculty member.

Prerequisite: Senior standing; Business department majors only or permission of the department.

BUS 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Business department majors only or permission of the department.

Computer Information Systems Courses Offered

CIS 101 Computer Literacy (3)

This course equips student to function in the information age. It introduces students to the current Windows environment and Microsoft Office Suites as they are ubiquitous in today's workplace and personal computing environment. Through hands-on training, students will learn basic skills in Word (word processing), Excel (spreadsheet), Access (database), and PowerPoint (presentation). In addition, file management, Browser, and E-mail basic skills will be taught. Lab required.

Course Fee: \$60

CIS 203 Management Information Systems (3)

An introduction to data and information processing concepts and systems viewed from a contemporary management perspective. The course provides the conceptual foundations in understanding technologies: computer platforms of hardware and software; the Internet, networking, enterprise computing, ecommerce, database management, information systems development, and security. It emphasizes on uses and applications as well as emerging managerial issues of information systems. This is a prerequisite for students who plan to major in CIS. Lab required.

Prerequisite: CIS 101 or permission of the instructor

Course Fee: \$60

CIS 302 Business Applications Development I (3)

An introductory course in the design and development of customized business applications for end-users. Specific skills areas include business information systems requirements analysis, application structure and logic design, user-interface design, and the ability to apply one or more contemporary business application development tools.

Prerequisite: CIS 203 with a grade of C or better; Business department majors only or permission of the department.

CIS 303 Business Applications Development II (3)

A second course at developing business application programs using a higher level programming language. Students will learn to analyze business problems, develop solutions, and write, test, and debug programs. The emphasis of the course is on learning the logic of programming and developing advanced programming skills. The course will use an object-oriented programming language or a high-level programming language.

Prerequisite: CIS 302 with a grade of C or better; Business department majors only or permission of the department.

CIS 305 Business Information Systems Analysis and Design (3)

Strategies and techniques of analysis and design of business information systems. Topics include requirements determination and specification, logical and physical design, alternative design methods and techniques, and the use of CASE tools. Lectures are complemented with a semester-long, phased information systems analysis and design project to provide practical experience in analyzing business information systems problems and formulating computer-based solutions for them.

Prerequisite: CIS 302 with a grade of C or better; Business department majors only or permission of the department.

CIS 316 Business Telecommunications (3)

An introductory course in business telecommunications. This course covers current state of the data communication industry, the network development life cycle, introductory concepts and terminology in data communications, communication circuits and modems, telecommunications architecture and standards, wide area networks, telecommunications management, Internet and other public/private computer networks, and future directions in business telecommunications.

Prerequisite: CIS 302 with a grade of C or better; Business department majors only or permission of the department.

CIS 317 Database Design and Implementation (3)

Managing an organization's data resources using a database management system. This course includes the analysis of organizational needs, comparison of database models, entity-relationship modeling, designing relational databases, use of relational DBMSs using the Structured Query Language (SQL), and the normalization of tables in a relational database. Students are exposed to databases running on mainframe, client-server, and PC platforms.

Prerequisite: CIS 302 with a grade of C or better; Business department majors only or permission of the department.

CIS 402 Network Management (3)

This course will give an overview of network management and focus on daily administrative tasks of the two most popular LAN environments: Windows NT and Netware. Students will learn how to install and configure LAN servers and workstations, how to manage network printing, network file systems, security, resource sharing, user accounts, etc., and how to troubleshoot most common problems. The goal of the course is to introduce students to industry-wide certification programs such as: (CNA (Certified Network Administrator), CNE (Certified Network Engineer) and MSE (Microsoft systems Engineer).

Prerequisite: CIS 316 with a grade of C or better; Business department majors only or permission of the department.

CIS 404 Multimedia Applications in Business (3)

This course serves as an overview of multimedia hardware and software and their applications in the business environment. Some of the topics include multimedia hardware devices, software (graphics, animation and authoring software), graphic user interface, interactivity, object linking, and embedding. An hands-on activities, students will develop various types of applications such as business presentations, new product advertisement, and courseware application prototypes.

Prerequisite: CIS 303 with C or better; Business department majors only or permission of the department.

CIS 405 Advanced Database Concepts and Applications (3)

Analysis and design of complex, multiuser databases. This course builds on the knowledge and skills acquired in CIS 317. Coverage of advanced topics in database design including database systems architecture, knowledge-based management systems, database administration, emerging database technology, and comparative database models.

Prerequisite: CIS 317 with a grade of C or better; Business department majors only or permission of the department.

CIS 406 E-Commerce (3)

This course is designed to provide the students with the prerequisite skills and knowledge in order to participate in the ever-growing electronic business sector. Specific topic areas include key E-commerce concepts, emerging technologies related to E-commerce, business to business, business to consumers, consumers to consumers and global business transactions.

Prerequisite: CIS 203, BUS 356; Business department majors only or permission of the department.

CIS 418 Applications System Development Project (3)

A capstone course integrating the knowledge and skills acquired in the CIS core curriculum and electives. The central feature of the course is a comprehensive, semester-long computer information system development project to be completed by student teams. Whenever possible, students will be assigned real-world projects intended for actual use upon completion.

Prerequisite: CIS 303, CIS 305, CIS 316, and CIS 317 with a grade of C or better; Business department majors only or permission of the department.

CIS 495 Special Topics (1-3)

A course that covers current topics of interest in CIS. This course is open to computer science majors and students with advanced standing in other areas of study.

Prerequisite: Senior CIS students; Business department majors only or permission of the department

CIS 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Business department majors only or permission of the department.

Economics-Finance Courses Offered

ECO 201 Introduction to Economics I (3)

This course introduces students to the study of economics and provides an overview of common macroeconomic concepts. The course encourages students to understand, use, and analyze common macroeconomic concepts such as inflation, employment, consumption, national income, money, and interest rates, as well as the fundamental economic concepts of supply and demand, marginal analysis, and opportunity costs.

Prerequisite: GSR 102 or equivalent.

ECO 202 Introduction to Economics II (3)

This course provides an overview of common microeconomic concepts. The course encourages students to critically analyze common microeconomic concepts such as supply and demand, prices, markets and market structure, competition, utility, production costs, marginal analysis, and opportunity costs. The underlying theoretical basis for these concepts and how they are interrelated with each other and with the overall economy is also introduced in this course.

Prerequisite: ECO 201.

ECO 205 Economics for Social Workers (3)

An introductory macroeconomics course for social work majors with emphasis on the economic issues that social workers are likely to encounter in the course of their jobs. The course is designed to help the social work student to understand the basics of United States and global economics including: how the economy works; how economic policy is developed and implemented; how economic policy can impact upon social workers, their clients, and the services they provide.

Prerequisite: GSR 102 or equivalent.

ECO 251 Foundations of Economics and Finance (3)

This course will provide an in-depth study of common economic institutions encountered in everyday situations for personal and family applications. Topics covered will include, but not be limited to, how prices are established in the market; supply and demand; relationships between price and quantities bought and sold by individual consumers; money; checking and savings accounts; the banking system, credit, and interest rates, budgeting; and wages in the labor market.

Prerequisite: GSR 102 or equivalent.

ECO 301 Economic Analysis I (3)

This course expands and builds upon previous macroeconomic knowledge learned in introductory macroeconomics study. The course emphasizes the depth and breadth of the workings of the macroeconomic system through classroom examination and research, and by providing students with the experience of critically applying these concepts as they are related to current national and world events. Issues in monetary policy, employment and unemployment, inflation, aggregate demand and supply, and economic growth, and their interrelationships and policy implications are stressed. The study of these topics is structured in a manner that will serve as models for the types of analyses required in many

post-graduate employment and graduate study environments.

Prerequisite: ECO 202; Business department majors only or permission of the department.

ECO 302 Economic Analysis II (3)

This course expands and builds upon previous microeconomic knowledge learned in introductory microeconomics study. The course emphasizes the depth and breadth of the microeconomic system through classroom examination and research, and by providing students with the experience of critically applying these concepts as they are related to current national and world events. Issues in fiscal and business policy, the competitive environment, regulation, the utilization of supply and demand, profit maximizing behavior, production and costs, and their interrelationships and policy implications are stressed. The study of these topics is structured in a manner that will serve as models for the types of analyses required in many post-graduate employment and graduate study environments.

Prerequisite: ECO 301; Business department majors only or permission of the department.

ECO 311 Labor Economics (3)

This course covers many of the current questions in labor economics. Foundations of wage and employment theory are included, as are practical applications of the theory for production. Issues and trends in the labor force, including participation of women, minorities, and other groups, are discussed with implications for labor supply. Government policies affecting unemployment, equal opportunity, discrimination, and comparative growth, among others are also discussed.

Prerequisite: ECO 202; Business department majors only or permission of the department.

ECO 341 History of Economic Thought (3)

This course focuses on the history of economic ideas. It covers the major schools of thought in economics, beginning with mercantilism and moving through supply-side economics. Emphasis will be placed on the classical underpinnings of economics as currently practiced. The theories of Smith, Ricardo, and Malthus will lead into discussions of other economic thinkers, including Marx and Keynes.

Prerequisite: Business department majors only or permission of the department.

ECO 351 Money and Banking (3)

Monetary standards, theories, and controls in relation to business cycles and full employment; credit, domestic, and foreign exchange; the nature of banking operations; the organization of a bank, the clearinghouse system; and the Federal Reserve System.

Prerequisite: ECO 202; Business department majors only or permission of the department.

ECO 361 International Economics (3)

The distribution of natural resources among nations; factors responsible for major movements in international trades; tariffs and other trade restrictions; means of promoting free trade.

Prerequisite: ECO 202; Business department majors only or permission of the department.

ECO 362 Country Analysis (3)

This course is designed to provide students with an in-depth analysis of a particular country or economic development area. The area to be studied will depend on the student's interest and the availability of faculty.

ECO 363 Comparative Economic Systems (3)

An intensive study of the different economic systems in the modern world and their adaptations in various countries. Implications for the future of these systems are discussed.

Prerequisite: GSR 102 or equivalent; Business department majors only or permission of the department.

ECO 403 Research Methods in Economics (3)

This course covers research techniques, data collection, hypothesis formulation, and application of research methods to specific problems in economics. Also included are practical exercises in presenting economic research to the wider audience.

Prerequisite: ECO 302, ECO 431; Business department majors only or permission of the department.

ECO 411 Business and Managerial Economics (3)

This course integrates much of the theory about the firm and management of the firm with the economic rationale necessary for such managerial decision making. The relationships between business and economics are exemplified, with the use of actual business applications of economics. These applications will involve both domestic and international business decisions.

Prerequisite: ECO 202; Business department majors only or permission of the department.

ECO 431 Mathematics for Economics (3)

This course will provide the basic mathematical techniques necessary for understanding economics, including economic modeling, equilibrium analysis, optimization techniques, financial analysis, and elements of calculus, algebra, and matrix algebra. These mathematical techniques are taught in a way to enhance an understanding of them as specifically used by economists and financial analysts.

Prerequisite: ECO 202; Business department majors only or permission of the department.

ECO 451 Public Finance and Policy (3)

This course will provide the foundations for economic analysis within the public context. Included will be the study of spending and tax policy within the government as well as the economic policy affecting individuals and groups within the reach of the government.

Prerequisite: ECO 202; Business department majors only or permission of the department.

ECO 461 Economic Development (3)

The origins, development, and present status of economic institutions are the focus of the course. World trends in population, living standards, outputs, and technology are examined.

Prerequisite: ECO 202; Business department majors only or permission of the department.

ECO 495 Special Topics (1-3)

Prerequisite: Business department majors only or permission of the department.

ECO 499 Independent Study (1-3)

Intensive, supervised study and research on topics of the student's selection.

Prerequisite: ECO 202; Business department majors only; or permission of the instructor.

CHEMISTRY AND PHYSICS

chemistry.gallaudet.edu, physics.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Charlene Sorensen, Chair
Hall Memorial Building, Room E400

This department contains two disciplines: chemistry and physics.

Chemistry: Chemistry is the study of the composition and reactions of substances. The study of chemistry can apply to a wide variety of fields, including forensic science, environmental studies, the development and testing of medicines, chemical engineering, agriculture and food processing, and research into new energy sources.

Physics: A thorough knowledge of physics can form a basis for work in many areas of modern science and engineering, and can provide an excellent background for the development and application of advanced technologies in medicine, law, and business.

Majors Offered

Chemistry with a B.A. degree with specializations in
Chemistry
Chemistry Technology
Chemistry with a B.S. Degree

Minor Offered

Chemistry

Declaring a Major

Requirements for Admission to a Major in Chemistry

To declare a major in chemistry, a student must have successfully completed the following chemistry courses:

- CHE 107
- CHE 108
- CHE 109
- CHE 110

B.A. in Chemistry**Summary of Requirements**

	2009-2010
General Studies	40
Pre-Major Courses	8
Major and Related	47
Free Elective	25
TOTAL	120

Requirements for a Major in Chemistry with a B.A. Degree

This option prepares the student for graduate study in chemistry and for most entry-level positions as chemists in industry and government. For continuation in the major, the student must maintain a cumulative degree average of 2.0 or better in chemistry courses numbered 300 and above.

Required pre-major courses 8 hours

CHE 107 General Chemistry I (3)
 CHE 108 General Chemistry II (3)
 CHE 109 General Chemistry Laboratory I (1)
 CHE 110 General Chemistry Laboratory II (1)

Required chemistry courses 26 hours

CHE 211 Organic Chemistry I (4)
 CHE 212 Organic Chemistry II (4)
 CHE 307 Analytical Chemistry I (3)
 CHE 308 Analytical Chemistry II (3)
 CHE 309 Analytical Chemistry Laboratory I (2)
 CHE 310 Analytical Chemistry Laboratory II (2)
 CHE 331 Physical Chemistry I (4)
 CHE 332 Physical Chemistry II (4)

Elective chemistry courses 4 hours

Choose four hours:

CHE 315 Organic Spectroscopy (3)
 CHE 322 Advanced Inorganic Chemistry (3)
 CHE 325 Biochemistry: Proteins and DNA (3)
 CHE 326 Biochemistry: Nutrients and Metabolism (3)
 CHE 327 Biochemistry Laboratory I (1)
 CHE 328 Biochemistry Laboratory II (1)
 CHE 341 Advanced Organic Chemistry I (2)
 CHE 342 Advanced Organic Chemistry II (2)
 CHE 495 Special Topics (1-3)

Required related courses 20 hours*

MAT 130 Precalculus (4)*
 MAT 150 Calculus I (4)
 MAT 205 Calculus II (4)
 PHY 107 General Physics I (3)
 PHY 108 General Physics II (3)
 PHY 109 General Physics Laboratory I (1)
 PHY 110 General Physics Laboratory II (1)

*Three hours count toward the general studies requirement, replacing GSR 104.

Recommended courses

CSC 100 Computer Literacy (3)
 CSC 130 Computer Programming I (3)
 MAT 206 Calculus III (4)

and one of the following languages:

FRE 111 Basic French I (4)
 FRE 112 Basic French II (4)

or

GER 111 Basic German I (4)
 GER 112 Basic German II (4)

B.A. in Chemistry with specialization in Chemical Technology**Summary of Requirements**

	2009-2010
General Studies	40
Pre-Major Courses	8
Major and Related	31
Free Elective	41
TOTAL	120

Requirements for a Major in Chemistry with a B.A. Degree with a Specialization in Chemical Technology

This option prepares the student for commercial laboratory work as a chemical or laboratory technician, provides the subject area courses for a student to become a science teacher (along with appropriate education courses), or supplements the courses taken in other major fields.

For continuation in the major, the student must maintain a cumulative degree average of 2.0 or better in chemistry courses numbered 300 and above.

Required pre-major courses 8 hours

CHE 107 General Chemistry I (3)
CHE 108 General Chemistry II (3)
CHE 109 General Chemistry Laboratory I (1)
CHE 110 General Chemistry Laboratory II (1)

Required chemistry courses 18 hours

CHE 211 Organic Chemistry I (4)
CHE 212 Organic Chemistry II (4)
CHE 307 Analytical Chemistry I (3)
CHE 308 Analytical Chemistry II (3)
CHE 309 Analytical Chemistry Laboratory I (2)
CHE 310 Analytical Chemistry Laboratory II (2)

Elective chemistry courses 12 hours

Choose twelve hours:

CHE 315 Organic Spectroscopy (3)
CHE 322 Advanced Inorganic Chemistry (3)
CHE 325 Biochemistry: Proteins and DNA (3)
CHE 326 Biochemistry: Nutrients and Metabolism (3)
CHE 327 Biochemistry Laboratory I (1)
CHE 328 Biochemistry Laboratory II (1)
CHE 341 Advanced Organic Chemistry I (2)
CHE 342 Advanced Organic Chemistry II (2)
CHE 495 Special Topics (1-3)

*Required related course 4 hours**

MAT 130 Precalculus (4)*

*Three hours count toward the general studies requirement, replacing GSR 104.

Recommended course

CSC 100 Computer Literacy (3)

B.S. in Chemistry

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	18
Major and Related	48
Free Elective	14
TOTAL	120

Requirements for a Major in Chemistry with a B.S. Degree

The Bachelor of Science degree in chemistry provides an opportunity for a chemistry major to take a more rigorous calculus-based course of study in chemistry. This option prepares the student for graduate study in chemistry and for most entry-level positions as chemists in industry and government.

For continuation in the major, the student must maintain a cumulative degree average of 2.0 or better in chemistry courses numbered 300 and above.

Required pre-major courses 18 hours

BIO 107 Principles of Biology for Science Majors I (3)
BIO 109 Principles of Biology Laboratory for Science Majors I (1)
BIO 401 Research Methods in Biology I (3)

 CHE 309 Analytical Chemistry Laboratory I (2)
 CHE 310 Analytical Chemistry Laboratory II (2)

Total 32-33 hours**Chemistry Courses Offered****CHE 103 Introduction to Chemistry I (3)**

This course is designed for liberal arts students with little or no background in chemistry and who do not intend to major in any science. Basic topics include the scientific method, composition of matter, atomic structure, nuclear chemistry, bonding, chemical formulas and equations, and basic organic chemistry. Knowledge of basic math will be used to solve the most basic problems; for example, for simple unit conversions and stoichiometry of chemical reactions. A

simultaneous laboratory course, CHE 105, should be registered for separately. Three one-hour lectures a week.

Co-requisite: CHE 105.

Prerequisites or Co-requisites: GSR 102 or the equivalent

CHE 104 Introduction to Chemistry II (3)

This course is a continuation of CHE 103 and explores various applications and implications of chemistry in our daily lives, such as polymers, metals and minerals, environmental chemistry, energy resources of the earth, food chemistry and nutrition, drugs, and poisons. A simultaneous laboratory course, CHE 106, is required and should be registered for separately. Three one-hour lectures a week.

Prerequisite: CHE 103.

Co-requisite: CHE 106.

CHE 105 Introduction to Chemistry Laboratory I (1)

This laboratory covers topics such as metric and temperature measurements, physical and chemical changes, basic reactions, pH and basic organic chemistry. The student develops basic skills in writing laboratory reports. One two-hour laboratory a week.

Co-requisite: CHE 103.

Course Fee: \$35

CHE 106 Introduction to Chemistry Laboratory II (1)

This laboratory course is a continuation of CHE 105 and covers such topics as water pollution, soap making, synthesis of nylon, properties of hard water, and analysis of food and a simple organic synthesis. The student continues to develop laboratory report writing skills. One two-hour laboratory a week.

Prerequisite: CHE 105.

Co-requisite: CHE 104.

Course Fee: \$35

CHE 107 General Chemistry I (3)

Designed for science majors, this is the first of a two-semester sequence and is designed to help students become familiar with the properties and reactions of matter. This course will also address modern applications of these concepts. Specific topics for this course include: observation of properties and changes, scientific method, unit conversions and measurements, chemical formulas, balancing equations, predicting products and yields, reactions and reaction types, the Ideal Gas Law, thermodynamics, molecular and atomic structure of matter, and orbital hybridization.

Co-requisite: CHE 109.

Prerequisites or Co-requisites: GSR 102 or equivalent; MAT 130 or MAT 125, 126.

CHE 108 General Chemistry II (3)

Designed for science majors, this course is the second of a two-semester sequence and is designed to help students become familiar with the properties and reactions of matter. This course will also address modern applications of these concepts. Specific topics for this course include: chemical bonding concepts, solution chemistry, colligative properties, kinetics, equilibrium, acids and bases, solubility and equilibria, entropy, free energy, electrochemistry, and nuclear chemistry.

Prerequisite: CHE 107.

Co-requisite: CHE 110.

CHE 109 General Chemistry Laboratory I (1)

A laboratory course to accompany CHE 107, this course enables students to develop skills appropriate to the first-year chemistry course for science majors. Experiments for this course include: observation of properties and changes, measurements, observing activities and reactions for the various types of reactions, obtaining quantitative and qualitative information regarding products, and the use of computer simulations.

Co-requisite: CHE 107.

Course Fee: \$35

CHE 110 General Chemistry Laboratory II (1)

A laboratory course to accompany CHE 108, this course enables students to develop skills appropriate to the first-year chemistry course for science majors. Experiments for this course include: quantifying thermodynamic changes, observing colligative properties, evaluation of chemical kinetics, evaluation of acid/base reactions via titration, and the use of computer simulations.

Prerequisite: CHE 109.

Co-requisite: CHE 108.

Course Fee: \$35

CHE 211 Organic Chemistry I (4)

This is the first course of a two-semester sequence. A study of the structure, nomenclature, reactions and spectroscopy of organic compounds. Functional groups such as alkanes, alkyl halides, alcohols, and ethers are discussed. The laboratory covers the techniques for preparing and purifying organic compounds. Three lectures and one three-hour laboratory.

Prerequisite: CHE 107, 108, 109, 110; or permission of the instructor.

CHE 212 Organic Chemistry II (4)

The second course in a two-semester sequence. A functional group approach to organic chemistry with an emphasis on alkenes, alkynes, aromatic compounds, aldehydes, ketones, carboxylic acids, and amines. The laboratory covers the techniques for preparing and purifying organic compounds. Three lectures and one three-hour laboratory.

Prerequisite: CHE 211 or permission of the instructor.

Course Fee: \$35

CHE 240 Computer Applications for Scientists (3)

This course introduces students to the use of spreadsheet and computer programming for data exploration, process modeling, information visualization and instrument/robot control. Taught jointly by the Biology and Chemistry and Physics faculty. Course fee \$25.

Prerequisite: BIO 108; or CHE 108; or PHY 108; or PHY 153; MAT 130.

Course Fee: \$25

CHE 250 Introduction to Forensic Science (3)

This course investigates the chemical aspects and applications of forensics studies. The lecture and the laboratory provide a means to develop skills in the following areas: soil analysis and organic analysis, fingerprint analysis and foot print analysis, hair analysis, fiber analysis, physical evidence evaluation, document examination, forensic anthropology, forensic toxicology and drug analysis.

Prerequisite: One year of either Biology with lab or Chemistry with lab.

Course Fee: \$35

CHE 307 Analytical Chemistry I (3)

This is the first course of a two-semester course sequence on basic quantitative methods of chemical analysis. This course focuses on basic analytical tools, such as measurements, analysis of experimental errors, gravimetric methods and volumetric analysis.

Prerequisite: CHE 108, 110; MAT 101, 102 or 130.

Co-requisite: CHE 309.

CHE 308 Analytical Chemistry II (3)

This is the second and last course of a one-year course sequence on basic quantitative methods of chemical analysis. The second semester covers instrumental topics, such as potentiometry, spectroscopy, analytical separations, chromatographic methods and quality assurance.

Prerequisite: CHE 309; or MAT 101, 102 or 130.

Co-requisite: CHE 310.

CHE 309 Analytical Chemistry Laboratory I (2)

This is the first laboratory course of a two-laboratory course sequence, focusing on applications of the basic quantitative methods of chemical analysis in the laboratory. The course focuses on basic analytical tools, such as measurements, analysis of experimental errors, quality assurance, gravimetric methods and volumetric analysis. Two three-hour laboratory sessions per week.

Prerequisite: CHE 108, 110; or MAT 101, 102 or 130.

Co-requisite: CHE 307.

Course Fee: \$35

CHE 310 Analytical Chemistry Laboratory II (2)

This is the second and last laboratory course of the two-laboratory course sequence, focusing on applications of the basic quantitative methods of chemical analysis in the laboratory. This course focuses on instrumental methods, such as pH, spectroscopy, analytical separations and chromatographic methods. Two three-hour laboratory sessions per week.

Prerequisite: CHE 307, 309; MAT 101, 102 or 130.

Co-requisite: CHE 308.

Course Fee: \$35

CHE 315 Organic Spectroscopy (3)

The identification of organic compounds using various types of spectroscopy. Two lectures and one three-hour laboratory each week.

Prerequisite: CHE 212

CHE 322 Advanced Inorganic Chemistry (3)

Application of modern chemical theories of structures, bonds, and reactions to inorganic substances.

Prerequisite: CHE 212

CHE 325 Biochemistry: Proteins and DNA (3)

A study of the principles and reactions that involve proteins and DNA in biological systems. The course investigates the structure and chemistry of amino acids, the combination of the amino acids in the formation of proteins, the function and structure of proteins, the building blocks of DNA, the chemistry and structure of DNA, the structure of RNA, the replication of DNA, and current topics in biochemical/bio-medical engineering.

Prerequisite: CHE 212; BIO 102 or 332.

CHE 326 Biochemistry: Nutrients and Metabolism (3)

A study of the principles and reactions that occur upon the intake of nutrients (including carbohydrates, lipids, and proteins) in biological systems. The course will evaluate the

processes by which nutrients are metabolized. The breakdown of substances taken in from the environment will be studied. This will be followed by an analysis of the reactions that create the molecules necessary and usable by living organisms.

Prerequisite: CHE 212; BIO 102 or 332.

CHE 327 Biochemistry Laboratory I (1)

A laboratory course to accompany CHE 325. Qualitative and quantitative experiments related to ordinary biological-chemical materials. One three-hour laboratory.

Co-requisite: CHE 325.

Course Fee: \$35

CHE 328 Biochemistry Laboratory II (1)

A laboratory course to accompany CHE 326. Qualitative and quantitative experiments related to ordinary biological-chemical materials. One three-hour laboratory.

Prerequisite: CHE 327.

Co-requisite: CHE 326.

Course Fee: \$35

CHE 331 Physical Chemistry I (4)

The first course of a two-semester sequence. An introduction to the basic laws of thermodynamics and the application of these laws to chemical equilibria, phase equilibria, electrochemistry, and biochemistry. The laboratory part of the course covers the observation, measurement and calculation of various physical properties. Three lectures and one three-hour laboratory.

Prerequisite: PHY 108, 110 or PHY 152, 154; MAT 205.

CHE 332 Physical Chemistry II (4)

The second course of a two-semester sequence. An introduction to quantum mechanics, chemical kinetics, and statistical mechanics. The laboratory part of this course covers the observation, measurement and calculation of various physical chemical properties. Three lectures and one three-hour laboratory.

Prerequisite: CHE 331.

Course Fee: \$35

CHE 341 Advanced Organic Chemistry I (2)

The first course of a two-semester sequence. A study of the structure of organic molecules on a more advanced level using molecular orbital theory. The mechanisms of some reactions are studied using molecular orbital theory. Two lectures.

Prerequisite: CHE 212

CHE 342 Advanced Organic Chemistry II (2)

The second course of a two-semester sequence. A detailed study of the reaction mechanisms of several organic chemistry reactions. Two lectures.

Prerequisite: CHE 341.

CHE 420 Pharmacology (3)

This course is cross-listed and is otherwise known as HSL 785. This course provides the student with a better understanding of pharmacology from chemical and biochemical perspectives. The areas covered in this course include: classifications of drugs, routes of ingestion, chemical and biochemical structures of medications, metabolism of drugs, effects of drugs, and the relationship between the structures of some drugs and the structures of some important chemicals in the body. The course also covers material specifically related to ototoxic medications.

Prerequisite: CHE 211 or enrollment in the graduate Hearing, Speech and Language Sciences program or Permission of Instructor.

CHE 495 Special Topics (1-3)

Topics not taught in other courses.

Course Fee: Varies by section

CHE 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Physics Courses Offered

PHY 105 Basic Circuit Analysis (3)

An introduction to electronics fundamentals. The course topics include current flow, voltage, resistance, Ohm's Law, magnetism, electrical measurements, series and parallel circuits, Kirchhoff's Laws, Thevenin's theorem, Norton's theorem, bridge circuits, inductance, capacitance, alternating current, AC meters, oscilloscopes, capacitors in AC circuits, RC circuits, inductors in AC circuits, RL circuits, transformers, transformer applications, tuned circuits, and LC filters. Supplemental mathematics and data analysis topics will be introduced.

Co-requisite: PHY 105L.

PHY 105L Basic Electronics Laboratory (1)

A laboratory course that illustrates topics discussed in Physics 105 including current flow, voltage, resistance, Ohm's Law, magnetism, electrical measurements, series and parallel

circuits, Kirchhoff's Laws, Thevenin's theorem, Norton's theorem, bridge circuits, inductance, and capacitance. Three hours of laboratory.

Co-requisite: PHY 105.

PHY 107 General Physics I (3)

The first course of a two-semester sequence. An introduction to traditional topics in classical and modern physics: classical mechanics, fluids, waves and sound, Emphasis is on development and application of analytic (non-calculus) and computer-based modeling and problem solving methods.

Co-requisite: PHY 109.

Prerequisites or Co-requisites: MAT130 or MAT 102; ENG102, GSR 102 or the equivalent.

PHY 108 General Physics II (3)

The second course of a two-semester sequence. An introduction to traditional topics in classical and modern physics: temperature, gas dynamics, and thermodynamics electricity, magnetism, light, optics, quantum theory, atomic and molecular structure, radioactivity, and nuclear structure. Emphasis is on development and application of analytic (non-calculus) and computer-based modeling and problem solving methods.

Prerequisite: PHY 107.

Co-requisite: PHY 110.

PHY 109 General Physics Laboratory I (1)

A laboratory course to accompany PHY 107. It provides a project-centered experience in doing science: planning, collecting data, visualizing data and science processes, reviewing current research and technologies, critiquing alternatives and publishing results.

Prerequisite: MAT 130 or MAT 102, either of which may be taken concurrently, GSR 102 or the equivalent.

Co-requisite: PHY 107.

Course Fee: \$35

PHY 110 General Physics Laboratory II (1)

A laboratory course to accompany PHY 108. It provides a project-centered experience in doing science: planning, collecting data, visualizing data and science processes, reviewing current research and technologies, critiquing alternatives and publishing results.

Prerequisite: PHY 109.

Co-requisite: PHY 108.

Course Fee: \$35

PHY 121 Earth Systems and Processes (3)

This course studies the earth system, hazardous geologic processes, and earth resources. Models that quantify the cycling of elements within the Earth system provide a unifying theme in the course. Study of cycles of the elements makes explicit the Earth's "metabolic" processes and uncovers the facts of human dependence on maintenance of natural recycling processes.

Co-requisite: PHY 123.

Prerequisites or Co-requisites: GSR 102 or the equivalent.

PHY 122 Space and Astronomical Science (3)

This course studies our solar system and the universe with special emphasis on planetary science and the possibilities for space travel. Nearby planets and moons will be contrasted with Earth to highlight the uniqueness of our planet.

Co-requisite: PHY 124.

Prerequisites or Co-requisites: GSR 102 or the equivalent.

PHY 123 Earth Systems and Processes Lab (1)

Case studies of explorations, catastrophes, technology application and human disturbance will provide focus for project work confronting a question or challenge that requires experimental design, implementation, data collection and publication of results.

Co-requisite: PHY 121.

Course Fee: \$35

PHY 124 Space and Astronomical Science Laboratory (1)

Case studies and science fiction accounts of explorations, resource extraction, technology application will provide focus for project work confronting a question or challenge that requires experimental design, implementation, data collection and publication of results.

Co-requisite: PHY 122.

Course Fee: \$35

PHY 141 Intro to Engineering Design (3)

This course introduces the student to product design and development, including product investigation, design, manufacture, assembly and performance evaluation by means of a semester-long project. Fundamentals of design and project-related technicalities will be taught in class lectures and actual project implementation will be accomplished in teams.

Prerequisites or Co-requisites: MAT 150.

PHY 151 Physics I (3)

This introductory physics course develops a view of the universe as a clocklike mechanism where change is continuous, observers do not affect their measurements, identical experiments yield identical outcomes and the laws of physics are never violated. It uses methods of calculus to investigate topics in the kinematics and dynamics of particles and rigid bodies, phases of matter, geometrical optics, optical instruments and Einstein's theory of relativity.

Prerequisite: MAT 150.

PHY 152 Physics II (3)

This introductory physics course develops a view of the universe as a realm of uncertain possibilities, where change may be discontinuous, measuring may cause different experimental results, identical experiments yield many different outcomes and the laws of physics are violated under certain conditions. It uses methods of calculus to investigate topics in electricity and magnetism, vibrations, wave motion, quantum physics, atomic and nuclear physics, heat, ideal gas laws, thermodynamics, and quantum statistical physics.

Prerequisite: PHY 151.

PHY 153 Physics I Laboratory (1)

This is the companion laboratory course to PHY151.

Through a sequence of selected experiments, students will practice experiment design, report writing, use of standard instruments, data visualization, and error analysis skills.

Course Fee: \$35

Prerequisites or Co-requisites: PHY 151.

PHY 154 Physics II Laboratory (1)

This is the companion laboratory course to PHY152.

Through a sequence of selected experiments, students will practice experiment design, report writing, use of standard instruments, data visualization, and error analysis skills.

Course Fee: \$35

Prerequisites or Co-requisites: PHY 152.

PHY 205 Digital Devices and Designs (3)

This course trains participants to start from the description of a control, computing, communication or information processing task, develop a state diagram of the process and design a digital circuit that will perform the task. Three hours of lecture per week.

Prerequisite: GSR 102 or the equivalent and MAT 013 or the equivalent.

PHY 207 Introduction to Microprocessors (3)

An introduction to microprocessor programming and electronics. The course topics include number systems and codes, microcomputer basics, addressing modes, binary arithmetic, branching, programming algorithms, microprocessor architecture, microprocessor instruction set, stack operations, subroutines, I/O operations, interrupts, interface fundamentals, the peripheral interface adapter, and using the PIA.

Prerequisite: Permission of the instructor.

Co-requisite: PHY 207L.

PHY 207L Basic Microprocessors Lab (1)

A laboratory course that illustrates topics covered in PHY 207. Three hours of laboratory.

Co-requisite: PHY 207.

PHY 215 Introduction to Digital Circuits (1)

This is a laboratory course that provides experience building, troubleshooting and testing progressively more complex, functioning digital circuits. Three hours of laboratory per week.

Prerequisite: GSR 102 or the equivalent and MAT 013 or the equivalent.

PHY 495 Special Topics (1-3)

Topics not taught in other courses.

Prerequisite: Permission of the instructor.

PHY 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the instructor.

COMMUNICATION STUDIES

commstudies.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Robert Harrison, Chair

Sorenson Language and Communication Center, Room 1111

Courses in the department are designed to provide an important liberal arts perspective on the process and use of communication. Communication is vital to career and to personal and social relationships. Through studies in intrapersonal, interpersonal, and public communication, students can increase self-understanding and acquire more effective tools with which to participate in society. These courses are appropriate for all students but are particularly important for those who plan careers in professions that require more than minimal interpersonal and/or group contact.

Honors in Communication Studies

Academically qualified students may graduate with distinction in the major by satisfying the following requirements for Honors in Communication Studies: successful completion (with grade of "B" or better) of a two-semester independent honors thesis project (through COM 499H) under the supervision of a faculty member plus completion of all requirements for graduation with a minimum grade point average of 3.5 in the major and 3.0 overall.

Lambda Pi Eta Honor Society

Communication studies major and minors are encouraged to strive for membership in Lambda Pi Eta, the official honor society of the National Communication Association, established in 1985 as an accredited member of the Association of College Honor Societies. The goals of Lambda Pi Eta are to encourage and recognize scholastic achievement, stimulate interest in communication, promote professional development, exchange ideas about the field, foster close relationships among faculty and students, and explore options for graduate study. The department founded the Iota Nu chapter of Lambda Pi Eta in the spring of 2000, joining over 400 colleges and universities with chapters around the world. To achieve the honor of Lambda Pi Eta membership, students must have junior or senior standing with a minimum cumulative grade point average of 3.0, must have completed at least 12 hours in communication studies with

a grade point average of 3.25 or higher, must be in the upper 35% of their class, and are required to be enrolled full-time in good standing.

Majors Offered

Communication Studies

Minor Offered

Communication Studies

Journalism

Declaring a Major

Requirements for Admission to a Major in Communication Studies

For admission to the communication studies major, students must have a cumulative grade point average of 2.5 or better. A student majoring in communication studies can have no more than one "D" or "D+" in his or her major courses plus must maintain a cumulative grade point average of 2.5 or better.

Requirements for admission to a Minor in Journalism

Students planning to minor in journalism must complete either ENG 204 or the equivalent and provide evidence of writing effectiveness (a writing sample) to the English and Communication Studies Department chairs. Courses taken to satisfy major requirements in either communication studies or English cannot be counted toward this minor.

B.A. in Communication Studies

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	6
Major and Related	37-39
Free Elective	35-37
TOTAL	120

Requirements for a Major in Communication Studies

For admission to the communication studies major, students must have a cumulative grade point average of 2.5 or better. A student majoring in communication studies can have no more than one "D" or "D+" in his or her major courses plus must maintain a cumulative grade point average of 2.5 or better.

Required pre-major courses 6 hours

COM 150 Introduction to Communication (3)

Choose one course:

PSY 201 Introduction to Psychology (3)

SOC 101 Introduction to Sociology (3)

Required courses 18 hours

COM 280 Group Communication (3)

COM 290 Public Presentations (3)

COM 340 Business and Professional Communication (3)

COM 350 Introduction to Mass Communication (3)

COM 380 Theories of Human Communication (3)

COM 440 Intercultural Communication (3)

Elective courses 15 hours

Choose 15 hours:

COM 160 Communication Research (3)

COM 270 Parliamentary Procedure (3)

COM 324 Interpersonal Communication (3)

COM 360 Introduction to Public Relations (3)

COM 390 Communication Accessibility (3)

COM 400 Persuasion (3)

COM 410 Advanced Public Presentations (3)

COM 420 Nonverbal Communication (3)

COM 430 Gender and Communication (3)

COM 450 Political Communication (3)

COM 460 Organizational Communication (3)

COM 470 Family Communication (3)

COM 480 Argumentation and Debate (3)

COM 493 Senior Seminar (2-3)

COM 495 Special Topics (1-3)

COM 499 Independent Study (1-3)

Required related courses 4-6 hours

Take one field experience course:

CAP 320 Field Experience (1-3)*

**Field experience (internship) should be completed off-campus during spring or summer of junior year.*

Take any one of the following English courses:

ENG 380 Writing for the Business and Professional World (3)

ENG 381 Editing (3)

Communication Studies Courses Offered

COM 150 Introduction to Communication (3)

Introductory survey of the field of communication that includes discussion of the importance of communication in our lives, examination of communication as a uniquely human process of interaction, an overview of the varied contexts in which communication occurs, and investigation of communication as an academic discipline, field of research, and possible career track. This course also provides an introduction to the Communication Studies Department.

COM 160 Communication Research (3)

Processes of inquiry within human communication. Students are introduced to concepts of framing research questions, conducting literature reviews, developing a research design, using qualitative and quantitative research tools, and interpreting results of research in communication.

Prerequisites or Co-requisites: COM 150.

COM 270 Parliamentary Procedure (3)

The rules of parliamentary procedure and their correct application to the management of campus and other organizations.

COM 280 Group Communication (3)

Process of thinking and problem solving in committees and small groups; methods of leading and participating in discussions and conferences.

Prerequisite: ENG102 or GSR 102, or the equivalent, or permission of the department.

Prerequisites or Co-requisites: COM 150 or permission of the department.

COM 290 Public Presentations (3)

The course emphasizes the principles involved in the selection and organization of ideas and their effective presentation to a group.

Prerequisite: ENG102 or GSR 102, or the equivalent, or permission of the department.

Prerequisites or Co-requisites: COM 150 or permission of the department.

COM 324 Interpersonal Communication (3)

This course will provide for the experiential learning of the elements of effective interpersonal communication. Students will observe, record, and analyze interpersonal transactions; opportunities for improving interpersonal skills will be provided.

Prerequisite: COM 150 or permission of the instructor; Personal Training majors are required to take COM 290.

COM 340 Business and Professional Communication (3)

This course prepares students to be effective communicators in the workplace and includes interviewing, professional presentations at staff meetings, business writing, and interaction with a variety of professionals.

Prerequisite: COM 150 or permission of the instructor; COM 280 or 290.

COM 350 Introduction to Mass Communication (3)

A critical study of the development, scope, influence, and theories of mass communication in America.

Prerequisite: COM 150; COM 290; junior or senior standing or permission of the department.

COM 360 Introduction to Public Relations (3)

Provides a broad overview of components of public relations in the public, private, and nonprofit sectors. Examines the concept of public relations as an ongoing process. Exposes students to the basic knowledge, skills, strategies, and tools used by practitioners.

Prerequisite: COM 150 or permission of the instructor; COM 350.

COM 380 Theories of Human Communication (3)

A survey of conceptual approaches to the study of human communication. Emphasis on theories that focus on speaker and message aspects, and the use of communication strategies in the forming, building, and dissolution of relationships. Interdisciplinary perspectives are used.

Prerequisite: COM 150; COM 280 or 290.

COM 390 Communication Accessibility (3)

The ability to have access to communications is an important foundation for empowerment of people who are deaf and hard of hearing. This course explores how communication accessibility is achieved through study of current and emerging technology, trends in industry, public policies, and the government agencies that enforce these policies. Access to telecommunications (including Internet and wireless communications, relay services, etc.), information, video media, emergency services, public accommodations, employment, education, and other contexts are included.

Prerequisite: COM 150 or permission of the instructor.

COM 400 Persuasion (3)

A study of the ways in which beliefs, attitudes, and behavior are affected by communication. The findings of behavioral research and contemporary theories are employed to demonstrate the workings of persuasion in political campaigns, advertising, and everyday life.

Prerequisite: COM 150 or permission of the instructor; COM 280 or 290 and upper-class standing.

COM 410 Advanced Public Presentations (3)

An approach to the study of public speeches and speech-making based on theory, performance, and criticism. Students will both write and deliver their own addresses and learn principles for rhetorical criticism of others' speeches.

Prerequisite: COM 150 and COM 290.

COM 420 Nonverbal Communication (3)

A study of the theories and research on the influence of artifacts, appearance, facial expression, gestures, paralanguage, posture, movement, space, time, and touch on human interaction. Opportunities for analysis and application of learned principles through in-class exercises, simulations, videotaped sessions, and original field research.

Prerequisite: COM 150 or permission of the instructor.

COM 430 Gender and Communication (3)

An introduction to the study of gender differences and sex role stereotypes as they affect communication in various contexts, and the implications and consequences of each.

Prerequisite: COM 150; junior or senior standing; and permission of the instructor.

COM 440 Intercultural Communication (3)

An examination of the role played by communication in the bridging and separating of cultures. How norms, values, and expectations concerning the communication act itself differ from culture to culture, and how these differences affect intercultural encounters.

Prerequisite: COM 150 or permission of the instructor.

COM 450 Political Communication (3)

An examination of the persuasive strategies used by mainstream politicians, social activists, and propagandists. Special emphasis is on the rituals and implicit rules of conducting public information campaigns and electoral campaigns, and the relationship among politicians, the voting public, and the mass media that link them.

Prerequisite: COM 150 or permission of the instructor.

COM 460 Organizational Communication (3)

The role of communication in complex organizations. Emphasis upon the role of communication styles of managers and employees in the creation of corporate culture. Dissemination of messages within and among divisions of organizations. Use of such diagnostic tools as the ICA Communication Audit to identify dysfunctional communication patterns.

Prerequisite: COM 150 or permission of the instructor.

COM 470 Family Communication (3)

Examination of the communication concepts that are fundamental to understanding interaction in the family. Exploration of how communication affects the development, maintenance, and enhancement of family relations.

Prerequisite: COM 150 or permission of the instructor.

COM 480 Argumentation and Debate (3)

The process of arriving at reasons and conclusions; practice in debate; projects in analysis, research, ordering of arguments, and refutation.

Prerequisite: COM 150 and COM 290.

COM 493 Senior Seminar (2-3)

Advanced study of topics related to communication. May be repeated for different content areas.

Prerequisite: COM 150; Permission of the instructor.

COM 495 Special Topics (1-3)

Special topics, current issues, or areas of interest not included in other courses offered by the department. May be repeated with different content areas.

Prerequisite: COM 150; and permission of the department.

COM 499 Independent Study (1-3)

Reading, research, discussion, or laboratory work, according to the interests of the student. Title indicating the content must be available at registration.

Prerequisite: Permission of the department chair.

COUNSELING

counseling.gallaudet.edu

Graduate School and Professional Studies

Dr. Roger Beach, Chair
Fowler Hall, Room 107

The Department of Counseling offers graduate-level programs for the professional preparation of counseling specialists to work with deaf people. The department offers a small number of undergraduate-level courses.

No Undergraduate Major or Minor programs are offered.

Counseling Courses Offered

COU 330 Introduction to Careers in School and Rehabilitation Counseling with Deaf People (3)

This course is designed to introduce undergraduate students to professional counseling work in school and rehabilitation settings serving deaf and multihandicapped deaf people. The course will provide students with a knowledge of the work and role of professional counselors serving people in school or rehabilitation settings. In addition, the course will provide knowledge to facilitate active consumerism among and for deaf people.

Prerequisite: PSY 201 or SOC 101, or permission of the instructor.

COU 351 Techniques of Student Development: The Resident Advisor I (1)

This course focuses on the acquisition of the theoretical knowledge of student development and skills necessary in the provision of supervised care for children and young adults. In particular, students develop the skills necessary to function in the role of a resident advisor and begin to make application of these skills within the Student Life program of the University. This course is part of a sequence. A second semester course, COU 352, is required.

Prerequisite: Permission of the department chair.

COU 352 Techniques of Student Development: The Resident Advisor II (1)

This course, the second in the series, focuses on the application of the theoretical knowledge of student development and skills necessary in the provision of supervised care for children and young adults. In particular, students develop the skills necessary to function in the role of a resident advisor and make practical application of these skills within the Student Life program of the University.

Prerequisite: COU351; permission of the department chair.

COU 695 Special Topics (1-3)

Grading System: letter grades only.

DEAF STUDIES

Please see Deaf Studies major information and course listing under the American Sign Language and Deaf Studies Department.

ECONOMICS

Please see Economics minor information and course listing under the Business Department.

EDUCATION

education.gallaudet.edu

Graduate School and Professional Studies

Dr. Cynthia Bailes, Chair
Fowler Hall, Room 304

The Department of Education offers four separate undergraduate specializations in teacher preparation: early childhood, elementary education, secondary education and K - 12 Physical Education. Each of these programs provides students with the prerequisites for certification in general education for the public schools of Washington, D.C., and a number of states. Certification in general education is now required by many programs prior to specialization at the graduate level in fields such as education of deaf students, educational media, and other areas of special education. Students in early childhood education and elementary education must major in education. Students pursuing any secondary education focus must be accepted as a major in a content area such as biology, English, history, mathematics, or physical education. Each of these programs includes coursework in psychology, human development, teaching methods, curriculum, and a supervised field practicum experience (student teaching) in nearby school settings.

All students who wish to major in education, or in a content area and secondary education, must apply for admission to teacher education by completing and returning an application form to the Department of Education in Fowler Hall, Room 304. The fall application deadline is the second Friday in October and the spring application deadline is the fourth Friday in February. Applications are accepted twice a year for admission. Only a limited number of students can be accepted. Applicants should meet the following criteria:

- Completed Undergraduate Teacher Education Program Application.
- Submission of a minimum of three recommendations by current and former professors.
- Praxis 1 scores (two of the three scores on the Praxis 1 must be above 167)
- A 2.75 or higher cumulative grade point average.
- Submission of a portfolio including a resume, educational philosophy and lesson plan.
- An interview with the Undergraduate Teacher Education Admissions Committee.

Students who are thinking about making an application are encouraged to take one or more of the following courses that are part of the program requirements, but which are available without formal admission to the program major: EDF 323, EDU 250, EDU 311, LIN 101, and PSY 201.

The undergraduate teacher preparation program has received state approval from the Board of Examiners of the District of Columbia Public Schools and accreditation from the National Council on the Accreditation of Teacher Education. This approval means that graduates of the program will qualify for a professional teaching credential in regular education in the District of Columbia and those states with whom the D.C. schools have signed an interstate reciprocity agreement.

Majors Offered

Education with specializations in:

Early Childhood

Elementary

Secondary

• Biology, English, Mathematics or Social Studies

K-12 Physical Education/Teacher Education

Education: American Sign Language/English Bilingual

Deaf Education

Declaring a Major

Requirements for Admission to a Major in Education

Students in early childhood education and elementary education must major in education. Students pursuing any secondary education focus must be accepted as a major in a content area such as biology, English, history, mathematics, or physical education. Each of these programs includes coursework in psychology, human development, teaching methods, curriculum, and a supervised field practicum experience (student teaching) in nearby school settings.

Students wishing to obtain a B.A. or B.S. degree in the teacher education program must meet the following Undergraduate Education requirements :

*Requirements for Admission to Teacher Education**

Admission to teacher education is conditional upon acceptance by an Admissions Committee of the Undergraduate Teacher Education Admissions Committee.

Application for admission to teacher education is to be made upon satisfactory completion of or while enrolled in the EDU 250 - Introduction to Education course. (Students are encouraged to apply no later than the second semester of their sophomore year in order to complete the program in two years.). Students wishing to major in secondary education or K-12 Physical Education, must first be accepted in their content area major such as biology, English, history, mathematics, or physical education).

Criteria considered for admission to the teacher education program include:

1. Completed Undergraduate Teacher Education Program application.
2. Praxis 1 scores. (Students must score 167 or higher on 2 of the 3 Praxis 1 tests.)
3. Submission of a minimum of three disposition evaluations by current and former professors.
4. A 2.75 or higher cumulative grade point average.
5. Submission of portfolio including a resume, educational philosophy and lesson plan.
6. A personal interview with member(s) of the Undergraduate Teacher Education Admissions Committee.

Requirements for Admission to Student Teaching

Admission to student teaching is conditional upon approval by the Student Teaching Committee of the Department of Education.**

Application for admission to student teaching is to be made after satisfactory completion of 90 semester hours.

Criteria considered for admission to student teaching would include:

1. A 2.75 cumulative grade point average with grades of B or higher in education courses and a C+ or better in all pre-professional and pre-major courses.
2. For those students in secondary education, a grade point average of 2.75 or higher in the (teaching field) content area.
3. Satisfactory completion of all but 6 hours of preprofessional courses and professional education courses.
4. Completion of all remaining required courses before or during the student teaching semester.

5. Submission of application and portfolio which includes passing scores on the Praxis 1 exams and taking the Praxis 2 exams required for the major and satisfactory evaluations of performance assessments.
6. Review and approval of the Department of Education Student Teaching Committee.

**Exceptions to the above may be made on the merits of each individual case.*

***Total maximum course load for this semester would be nine hours, including six hours of teaching that would be undertaken during the last full semester in residence.*

Praxis Requirements for all Education Majors

For admission:

1. Students must take the Praxis 1 (Pre-Professional Skills test: Reading, Writing and Mathematics) prior to admission to the undergraduate program. Students with scores will be considered for an interview with the Undergraduate Education Admission Committee. (To get information about the Praxis or to send scores to Gallaudet, go to www.ets.org/praxis or see Helen Thumann.)
2. Students who take the Praxis and score 167 or higher on all tests (and meet the other admission requirements) will be interviewed for admission. (Exceptions will be made in the case of strong candidates.)
3. Students admitted to the program who score 167 or higher but do not pass the Praxis 1 tests will be required to attend Praxis study groups or provide evidence of participation in a Praxis workshop.

After admission:

1. Students admitted to the program will be asked to take practice exams in their content area.
2. Students who do not pass their content area practice exam may be required to take additional coursework, attend study groups or otherwise demonstrate content area proficiency prior to admission to practicum.

For entrance to Practicum (EDU 493):

1. Students must pass all Praxis 1 exams prior to beginning practicum.
2. Students must demonstrate content area proficiency prior to admission to practicum

For entrance to Student Teaching:

1. Students must pass all Praxis 1 exams and have taken all praxis 2 exams prior to student teaching.

For Program completion and recommendation for

Licensure:

1. Students must pass all required praxis exams (1 and 2) prior to program completion and recommendation for licensure.

B.A. in Education with a Specialization in Early Childhood Education

Summary of Requirements

	2009-2010

Combined B.A. and M.A.T. in Education: American Sign Language/English Bilingual Deaf Education Program

Undergraduate majors in education are encouraged to consider an innovative program that combines the final year of the undergraduate education major with an additional one-year program to obtain a Master of Arts in Teaching degree in deaf education. This program combines a BA or BS in Education with a Masters of Arts in Teaching: American Sign Language/English Bilingual Deaf Education (also known as the BA/MAT program.)

Targeted toward graduates of its undergraduate program in education, the Department of Education offers the BA/MAT program as an option leading to a Master's of Arts in Teaching degree in deaf education. The BA/MAT program is designed to meet the needs in the field for an increased number of teachers who are deaf. It enables students to complete their Master's degree in one calendar year after completion of the bachelor's degree in education. Coursework in the program can begin as early as the junior year. Students in the program will major in deaf education at the elementary (1 - 6th) or secondary (junior and senior high school) level. Students in the program major in ASL/English

Bilingual Education at the elementary or secondary (junior and senior high school) level. Graduates are qualified to accept teaching positions in residential, day school, and day class programs and to teach in self-contained, departmentalized and mainstreamed settings. The course of study leads to state license in education of deaf and hard of hearing children and to Council on Education of the Deaf (CED) certification in elementary or secondary education.

Admissions Requirements - BA/MAT

Students will be admitted to the program before beginning their senior year (some course work can be taken as early as the junior year). Qualifications include demonstration of the following:

- Score of 2+ or higher on the American Sign Language Proficiency Interview (ASLPI).
- Passing Praxis 1 scores as determined by the District of Columbia State Education Agency.
- At least 200 hours of successful paid or volunteer work with deaf and/or hard of hearing infants, children or adolescents corresponding to the level for which the applicant is applying (as documented in resume, letters of support and graduate school application).
- Extensive experience with people who are deaf.

Gallaudet undergraduate students desiring admission to the BA/MAT ASL/English Bilingual: Deaf Education Program also must demonstrate:

- Good standing in Gallaudet's Undergraduate Teacher Education Program (GPA of 3.0 or better, B or better in all EDU courses, 3.0 average in all content area coursework for Secondary majors).
- Three letters of reference. Two of those recommendations must come from Gallaudet University faculty members who regularly teach undergraduate education courses.
- Eligibility for education major coursework (i.e., 400-level courses).
- Completion of at least 15 credits of undergraduate education coursework.
- Interview/disposition assessment

Upon completion of the bachelor's degree, students in the BA/MAT program must apply for graduate study and must meet all admission requirements specified for graduate degree students as described in the Admission sections of the graduate catalog.

Admissions and Requirements

The Combined Undergraduate Education Major and Masters in Arts in Teaching: American Sign Language/English Bilingual Deaf Education Program

Students will be admitted to the program before beginning their senior year (some course work can be taken as early as the junior year). Qualifications include demonstration of the following:

- Score of 2+ or higher on the American Sign Language Proficiency Interview (ASLPI).
- Passing Praxis 1 scores as determined by the District of Columbia State Education Agency.
- At least 200 hours of successful paid or volunteer work with deaf and/or hard of hearing infants, children or adolescents corresponding to the level for which the applicant is applying (as documented in resume, letters of support and graduate school application).
- Extensive experience with people who are deaf.

Gallaudet undergraduate students desiring admission to the BA/MAT ASL/English Bilingual: Deaf Education Program also must demonstrate:

- Good standing in Gallaudet's Undergraduate Teacher Education Program (GPA of 3.0 or better, B or better in all EDU courses, 3.0 average in all content area coursework for Secondary majors).
- Three letters of reference. Two of those recommendations must come from Gallaudet University faculty members who regularly teach undergraduate education courses.
- Eligibility for education major coursework (i.e., 400-level courses).
- Completion of at least 15 credits of undergraduate education coursework.
- Interview/disposition assessment

Upon completion of the bachelor's degree, students in the BA/MAT program must apply for graduate study and must meet all admission requirements specified for graduate degree students as described in the Admission sections of the graduate catalog. Visit the [Graduate Admissions](#) web site for more information and a [checklist of application requirements](#).

Program of Study

Students must satisfactorily complete the prescribed course of study for the BA/MAT program. The BA/MAT program consists of 39 credits (plus student teaching, 22 of which can be completed prior to the undergraduate education student completing their BA at Gallaudet. The remaining 17 credits (plus student teaching) are taken during the summer, fall and spring of the graduate year. The coursework is designed to meet the requirements for teacher licensure and certification and also reflects the philosophical orientation of the Department of Education.

The course of study includes work in these areas (credit hours indicated in parentheses are approximate):

- education and deaf culture (3)
- literacy and language development (12)
- curriculum instruction and assessment (12)
- research and foundations of education (6)
- families (3)
- practicum (9)

For a specific list of courses see the [graduate catalog](#) (catalog.gallaudet.edu).

Practicum

Practical, classroom-based experiences are incorporated throughout the undergraduate and graduate portions of the program. These experiences include directed participation during which the students work in classrooms for three half-days per week, and a minimum of a 6 week student teaching placement working with Deaf and Hard of Hearing children (in addition to a minimum 6 week placement working with hearing children.).

Practicum sites are chosen to provide students with a variety of experiences in settings of different types-day/residential, mainstreamed/self-contained/departmentalized-and in classes using a variety of communication modes and instructional approaches. For practicum experiences (three half-days per week), students are typically placed in the Washington, D.C., metropolitan area include the Kendall Demonstration Elementary School and the Model Secondary School for the Deaf (both on the Gallaudet University campus), the Maryland School for the Deaf, and day schools and classes in Fairfax County, Virginia, and in Prince George's and Montgomery Counties, Maryland. For the 6 week (minimum) period of full time student teaching, students can be placed in out-of-state assignments. Programs

used in recent years have included public and private programs for deaf and hard of hearing students in several U.S. states.. There may also be opportunities for international student placement.

Institutional Report Card for Teacher Preparation in response to Title II of the Higher Education Act, 1998

Title II of the Higher Education Act, as amended in 1998, holds institutions accountable for preparing teachers who have appropriate teaching skills and are highly competent in the academic content areas in which the teachers plan to teach. Section 207 of Title II of the Higher Education Act mandates that the U.S. Department of Education collect data on state assessments, other requirements, and standards for teacher certification and licensure, as well as data on the performance of teacher preparation programs.

The information below provides an overview of Gallaudet University's undergraduate teacher education program. The Educational Testing Services (ETS) documents present Praxis licensure test pass-rate information as reported by ETS for first-time completers of our state approved teacher education program. ETS also reports pass rate information for program completers three years after they complete the program in Follow-Up Cohort Pass Rates.

Program Information for Academic Year 2007-2008:

1. Total number of students enrolled: 41
2. Total number of students in programs of supervised student teaching: 12
3. Total number of supervising faculty for the teacher preparation program: 6
4. The student/faculty ratio: 2:1
5. The average number of hours per week required of student participation was 35 hours. The total number of weeks of supervised student teaching required is 10 weeks. The total number of hours is 350 hours.
6. The teacher preparation program is currently approved by the District of Columbia.
7. The teacher preparation program is not currently designated as "low-performing" by the state as defined by Section 208(a) of the HEA of 1998.

[Pass-Rates Information for Academic Year 2007-2008](#) is provided in the Appendix of this catalog, starting on [page 262](#). Title II Follow-Up 2004-2005 Academic Year Cohort reports are also provided in the Appendix.

Education Courses Offered

EDU 250 Introduction to Education and Teaching (3)

An overview and study of contemporary trends, problems, and issues in general education in terms of educational philosophies, types of educational programs, the relation of education to the individual and society, and curriculum and instruction. Some consideration of the relevance of regular education to special education and education of deaf and hard of hearing students. Discussion of organizations and agencies related to education.

EDU 311 Foundations of Literacy Teaching and Learning (3)

This course is designed to provide students with a foundational understanding of the theories, research and literature in the area of language and literacy acquisition and learning. Students will examine their own beliefs and processes related to language and literacy acquisition and learning. This course will prepare students for subsequent courses that address literacy teaching and learning in the classroom and the home courses.

Prerequisite: EDU 250, LIN 101.

Prerequisites or Co-requisites: EDU 323.

EDU 320 Early Childhood Environments (3)

The focus of this course is on the interactions between young learners and the physical and social environments encountered in parent-infant programs, preschool, kindergarten, and primary settings. Students will learn how to organize, plan, create, and modify environments for optimal learning. 40 clock hours of related practicum experience are required.

Prerequisite: EDU 250 or permission of program director.

EDU 350 Observing, Documenting and Assessing Young Children (3)

The course presents basic techniques of observing, recording, and interpreting the development and behavior of young children, documenting teaching and learning, and using child study records for educational guidance.

Prerequisite: EDU 250 or permission of program director.

EDU 420 Curricular Foundations of Early Childhood Education (3)

This course provides a broad background in curriculum design, implementation and evaluation. Students will trace philosophical and theoretical frameworks on which the contemporary early childhood field is based. They will also plan

and evaluate developmentally appropriate curricula based in varying philosophical frameworks.

Prerequisite: EDU250, EDF323; admission to the program or permission of the program director.

EDU 421 Emergent Literacy (3)

This course provides an integrated approach to the study of theory, curriculum, methods and materials for emergent literacy instruction, with particular emphasis on birth through preschool. Relationships among the language arts and reading are examined 30 hours of related practicum experience is required.

Prerequisite: EDU 320; admission to program or permission of program director.

EDU 424 Integrative Methods for Early Childhood Education: Preprimary (3)

This course emphasizes developmental learning environments, materials, and experiences for teaching young children, birth through preschool. Focus will be on curriculum based in home-school interactions, as well as the integration of language arts, reading, science, social studies, mathematics, and creative expression. 30 hours of related field experience required.

Prerequisite: EDU 320, EDU 420; or permission of the program director.

EDU 426 Integrative Methods for Early Childhood Education: Primary (3)

This course emphasizes developmental learning environments, materials, and experiences for teaching young children, 6 to 8 years of age. Focus will be on curriculum based in home-school interactions, as well as the integration of all subject areas (social studies, mathematics, language arts, reading, arts, science, and physical education). 30 hours of related field experience is required.

Prerequisite: EDU 320, EDU 420; or permission of the program director.

EDU 428 Student Teaching in Early Childhood Education (6)

This course is the final professional experience in the early childhood education program and is a required field experience in a school classroom for a period of ten weeks under the supervision of the classroom teacher (cooperating teacher) and a University supervisor. During the course, the student will take responsibility for planning, teaching, and evaluating all aspects of the classroom program, including five days of full-time responsibility for the class. A required noncredit seminar is given weekly on campus for purposes

of discussion of common problems and/or concerns and exchange of useful teaching experiences.

Prerequisite: An approved student teaching application and permission of the Program Director.

Co-requisite: EDU 494.

EDU 430 Elementary Curriculum and Instructional Technology (4)

This course will familiarize majors with the nature and importance of curriculum in elementary education. The course also provides an initial experience in integrated curriculum planning that incorporates the use of current technologies. Field experience in a school setting is a required part of this course.

Prerequisite: EDU 250, EDF 323; admission to the program or permission of the program director.

Course Fee: \$75

EDU 431 Developing Literacy in Elementary School (3)

This course provides the required theoretical and methodological basis in the teaching of reading and writing to K-6 grade students for candidates who are about to embark upon the student teaching practicum experience in elementary school settings. 30 hours of related practicum experience is required.

Prerequisite: EDU 311, EDF 323, admission to the program; or permission of program director.

Prerequisites or Co-requisites: EDU 430, 665.

EDU 433 Language Arts in Elementary Education (3)

Students will acquire the necessary content and methodology for developing a complete language arts program at the elementary school level, including writing, listening, and speaking.

Prerequisite: EDU 430, 431, 665; or permission of the program director.

EDU 435 Methods of Teaching Elementary Social Studies (3)

Students will learn about curriculum trends, teaching techniques, and appropriate media for teaching social studies in today's elementary schools. Topics will include the social science disciplines in relation to social studies, simulation, multicultural education, inquiry skills, and how to deal with controversial issues in the classroom.

Prerequisite: EDU 430, 431; or permission of the program director.

EDU 437 Methods of Teaching Elementary Science (3)

Students will learn about the current curriculum, methods, and materials for teaching science in the elementary school, including organization of the science curriculum, the learning environment, and laboratory experiences.

Prerequisite: EDU 430, 431; or permission of the program director.

EDU 438 Student Teaching in Elementary School (6)

This course is the final professional experience in the elementary education program and is a required field experience in a school classroom for a period of ten weeks under the supervision of the classroom teacher (cooperating teacher) and a University supervisor. During the course, the student will take responsibility for planning, teaching, and evaluating all aspects of the classroom program, including five days of full-time responsibility for the class. A required noncredit seminar is given weekly on campus for purposes of discussion of common problems and/or concerns and exchange of useful teaching experiences.

Prerequisite: An approved student teaching application and permission of the Program Director.

Co-requisite: EDU 494.

EDU 439 Methods of Teaching Elementary Math (3)

In this course students are familiarized with the content of typical mathematics curricula in elementary schools. Strategies and materials for presenting math concepts and skills are discussed and demonstrated. Procedures for diagnosing pupils' skill needs are described.

Prerequisite: EDU 430, 431; permission of the program director.

EDU 440 Secondary Curriculum and Instructional Technology (4)

This course will familiarize majors with the nature and importance of curriculum in secondary education. The course also provides an initial experience in integrated curriculum planning that incorporates the use current technologies. Field experience in a school setting is a required part of this course.

Prerequisite: EDU 250, EDF 323, admission to the program; or permission of the program director.

Course Fee: \$75

EDU 441 Developing Literacy in Secondary School (3)

This course provides the required methodological basis in the teaching of reading to secondary students for candidates who are about to embark upon the student teaching practicum experience in secondary school settings. 30 hours of

related practicum experience is required.

Prerequisite: EDU 311, admission to the program; or permission of program director.

Prerequisites or Co-requisites: EDU 440.

EDU 448 Student Teaching in Secondary School (6)

This course is the final professional experience in the secondary education program and is a required field experience in a school classroom for a period of ten weeks under the supervision of the classroom teacher (cooperating teacher) and a University supervisor. During the course, the student will take responsibility for planning, teaching, and evaluating all aspects of the classroom program, including five days of full-time responsibility for the class. A required noncredit seminar is given weekly on campus for purposes of discussion of common problems and/or concerns and exchange of useful teaching experiences.

Prerequisite: An approved student teaching application and permission of the Program Director.

Co-requisite: EDU 494.

EDU 458 Student Teaching in K-12 Physical Education (9)

The course is the final professional experience in the K-12 Physical Education/Teacher Education Program and is a required field experience in two school placements for a period of at least seven weeks each under the supervision of the physical education teacher (cooperating teacher) and the University Supervisor. During the course, the student will take responsibility for planning, teaching, and evaluating all aspects of the physical education program, including at least five days of full-time responsibility for the class. A required seminar is held weekly on campus for purposes of sharing common problems and/or concerns, and exchange of useful teaching experiences.

Prerequisite: An approved student teaching application and permission of the Program Director.

Co-requisite: EDU 494.

EDU 470 Introduction to Education of the Exceptional Child (3)

This course introduces students to the needs of exceptional children and the specialized school programs and services needed to serve them. Students will become familiar with the major areas of exceptionality in terms of developmental needs, diagnosis assessment, educational programs, and classroom management, including the legal framework of special education.

Prerequisite: EDU 420 or 430 or 440, admission to the education program; or permission of the program director.

EDU 483 Methods of Teaching English (3)

Students will study curriculum trends in the teaching of English in the high school, including teaching techniques, evaluation methods, and unit development involving the fields of English language, various forms of expression, and literature.

Prerequisite: EDU 440, 441; or permission of the program director.

EDU 484 Methods of Teaching Health Education (3)

An introduction to the philosophy of health education and the methods of instructing children and youth in health. Access to films and other visual aids, printed materials, and other aids to learning in health are provided.

Prerequisite: EDU 440, 441; or permission of the program director.

EDU 485 Secondary School Teaching Methods in Math (3)

Students will learn about the methods and materials of teaching mathematics to high school students, including curriculum trends, learning experiences, evaluation, and unit development in teaching mathematics in secondary schools.

Prerequisite: EDU 440, 441; or permission of the program director.

EDU 486 Teaching Physical Education and Wellness in Secondary Schools (3)

This course is cross listed and is otherwise known as PED 486. An application of educational philosophy and principles of teaching, and the preparation of lesson and unit plans. The course includes methods for teaching on the middle school and high school levels. In addition to class participation and peer teaching, teaching high school and/or intermediate/middle school physical education classes are planned. Field trips to various schools are planned. Students will also have opportunities to evaluate their teaching and the teaching of others using various evaluative tools and measures.

Prerequisite: EDU 440, or PED 380; or permission of the instructor.

EDU 487 Secondary School Teaching Methods in Science (3)

Students will learn about trends in the teaching of science in high schools, including appropriate learning experiences, evaluation methods, and unit development involving the physical, life, and earth science areas.

Prerequisite: EDU 440, 441; or permission of the program director.

EDU 488 Secondary School Teaching Methods in Social Studies (3)

Students will study current curriculum trends in the high school social studies program, including methods of teaching, evaluation techniques, and unit development involving the fields of history, economics, geography, sociology, and government.

Prerequisite: EDU 440, 441; or permission of the program director.

EDU 493 Integrative Practicum and Seminar in Teaching (3)

In this course, the Undergraduate Education program students spend at least 36 hours serving and aiding teachers in a public school program. This course will address integrating content (Language Arts and Social Studies) and require students to apply what is learned in the previous coursework to practicum situations in school sites. Regular group seminars are held to discuss, analyze, and reflect on educational topics related to teaching. This course prepares students for a subsequent student teaching experience.

Prerequisite: An Approved Student Teaching Application and permission of the department.

EDU 494 Integrative Practicum and Seminar in Teaching II (3)

In this course, the Undergraduate Education program students spend at least 36 hours observing and aiding teachers in a public school program. The course will address integrating content (Science and Mathematics) and require students to apply what is learned in previous coursework to practicum situations in school sites. Regular group seminars are held to discuss, analyze, and reflect on educational topics related to teaching. This course prepares students for a subsequent student teaching experience.

Prerequisite: An Approved Student Teaching Application and permission of the department.

EDU 495 Special Topics (1-3)

Prerequisite: Senior standing (juniors with permission of their advisors) and permission of the instructor.

EDU 499 Independent Study (1-3)

Intensive supervised study and research on topics of the individual student's selection. The specific project, title, and the number of credits to be given must be mutually agreed upon by the student and instructor prior to registration.

Prerequisite: Senior standing and permission of the student's advisor, the instructor, and the department chair.

EDU 603 ASL/English Bilingual Ed. I :Language and Learning (3)

This course addresses the current research in bilingual and ESL education, culture, and the bilingual child, first and second language acquisition and learning, and language use. Participants reflect on the concepts of bilingualism presented as well as their own bilingual experiences. They apply their reflections and learning through on-line and group activities and assignments designed to promote the creation of optimum bilingual classrooms for diverse groups of deaf and hard-of-hearing children.

Prerequisite: Students must be admitted to the ED or Deaf Ed program and in good standing.

EDU 604 ASL/Bilingual Ed. II: Methodology and Application (3)

This course addresses the bilingual and ESL (English as Second Language) instructional methodology in the general literature and its applications to a diverse group of deaf and hard-of-hearing children. Students will apply various instructional strategies they learn during their practicum experiences reflect on these applications through on-line and group activities and assignments designed to promote the creation of optimum bilingual classrooms.

Prerequisite: Students must be admitted to the Masters of Arts in Teaching Program; EDU 603 and EDU 713.

EDU 605 ASL/English Bilingual Ed. III: Assessment: Language and Literacy (3)

This course will focus on the current research on and links between bilingual/ESL methodology and assessment in language and literacy instruction. Preservice teachers will apply various ASL and English assessment tools to explore ways of assessing diverse deaf and hard-of-hearing students' language and literacy acquisition and learning at home and at school. Based on the results of these assessments, the preservice teachers will reflect on and identify the bilingual methodology approaches to meet the ASL and English language and literacy needs of students. They will apply these strategies to lesson and unit planning, and within their practicum settings.

Prerequisite: EDU 604.

EDU 609 Home, School and Community Partnerships (3)

This course focuses on the dispositions, experiences, knowledge and skills necessary for home/school and interprofessional collaboration for young children and their families. Prepares students to use effective strategies and workable plans to support collaboration for providing integrative services to young children and their families. 20 hours of

related field experience is required.

Prerequisite: Admission to the program or permission of the program director.

EDU 665 Children's Literature (3)

An in-depth study of children's literature primarily for early childhood and secondary education majors. Focuses on the evaluation, selection, and sharing of children's and young adult books in instructional settings. Participants will read, respond to, and evaluate picture books and chapter books of various genres. Emphasizes the identification and teaching of literary elements in context, strategies for sharing books with children, and the importance of using authentic children's and young's adult literature in schools.

EDUCATIONAL FOUNDATIONS AND RESEARCH

edf.gallaudet.edu

Graduate School and Professional Studies

Dr. Barbara Gerner de Garcia, Chair
Fowler Hall, Room 410

No Undergraduate Majors or Minors are offered.

Educational Foundations and Research Courses Offered

EDF 323 Educational Psychology (3)

The course addresses the application of psychological principles to the educational setting. Topics include learning theory, cognition and memory, individualized instruction, human development, intelligence, creativity, exceptionality, motivation, discipline, and measurement and evaluation.

Prerequisite: Junior or senior standing and PSY 201.

EDF 495 Special Topics (1-3)

Advanced Topics. Topics will vary each semester as determined by the department.

Prerequisite: Permission of the instructor.

EDF 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

EDF 695 Special Topics (1-3)

Grading System: letter grades only.

EDF 699 Independent Study (1-3)

Grading System: letter grades only. Individualized course of study focusing on particular problem not covered in regular courses.

Prerequisite: Appropriate level of matriculation, permission of instructor and Special Independent Study Form.

ENGLISH

english.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Jane Nickerson, Chair
Hall Memorial Building, Room E-200E

The study of language and literature is the heart of a liberal arts education. The major program at Gallaudet provides not only an understanding of our rich literary heritage, but also offers an opportunity to develop the advanced reading and writing abilities necessary for anyone wishing to participate fully in modern society. A major in English provides a basis for secondary school teaching, journalism, and graduate school and can help in the preparation for a variety of professional careers.

Honors in English:

The English Department's Honors Major provides an opportunity for students with unusual academic ability and interest in English to devote extensive time and effort to a research project, or in the case of a creative writing specialization, a creative writing project. The Departmental Honors Program is not the same as the University's Honors Program; check under Honors Program for details about the latter. The University Honors Program has a specialization in creative writing. The requirements for Honors in English are the following:

- A grade point average of at least 3.0
- A grade of B or better in ENG 206H or 204.
- Note: The program usually takes three years. To finish the degree in a timely manner, students should finish ENG204 or 206H in the fall semester of their sophomore year.
- An essay explaining why the student wants an honors degree in English and what the student's interests, strengths, and weaknesses in English are (see the chair or major level advisor for more information).

To remain in the program, students must achieve a 3.3 average in English major-level courses.

Majors Offered

English

Minor Offered

English

Journalism

Writing

Declaring a Major

Admission to the English major/minor program

Curricular and Extracurricular Requirements

- A writing test score equivalent to a 4.0 or higher on the Gallaudet Writing Evaluation or its equivalent;
- A score of 80 or better on the Degrees of Reading Power (DRP) exam;
- A grade of C or better in ENG 208 or its equivalent;
- A grade of C+ or better in ENG 399;
- Two letters of recommendation from English instructors;
- A copy of the applicant's transcript;
- Two essays written for an English class numbered 399 and above. These are to be sent to the major/minor coordinator for inclusion in the application file;
- A letter of application; and
- An interview with the major/minor coordinator.

Admission to the major/minor is conditional upon acceptance by a Major Review Committee which will consider the above-mentioned criteria when determining which student may major/minor in English. Students who are not approved by the Major Review Committee may appeal to the department chair.

To continue in the program, English majors and minors must obtain a GPA average of "C" or better in their major/minor coursework.

Students who have not yet declared a major/minor in the English Department may take up to twelve credits of courses numbered 380 or above with permission of the English major/minor coordinator; thereafter, admission to the major/minor program is required.

B.A. in English

The study of language and literature is the heart of a liberal arts education. The major program at Gallaudet provides not only an understanding of our rich literary heritage, but also offers an opportunity to develop the advanced reading and writing abilities necessary for anyone wishing to participate fully in modern society. A major in English provides a basis for secondary school teaching, journalism, and graduate school and can help in the preparation for a variety of professional careers.

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	6-12
Major and Related	36
Free Elective	32-38
TOTAL	120

Requirements for a Major in English

To continue in the program, English majors and minors must obtain a GPA average of "C" or better in their major/minor coursework.

Required pre-major courses 6-12 hours

To be taken in freshman or sophomore years:

GSR 102 Critical Reading and Writing (3)

ENG 208 Introduction to Literature Studies for the Major (3)

Required English courses 21 hours

ENG 399 Introduction to Methods of Literary Study (3)

ENG 403 British Literature to the 19th Century (3)

ENG 404 British Literature from 19th Century to Present (3)

ENG 405 American Literature to 1865 (3)

ENG 406 American Literature from 1865 to Present (3)

ENG 408 Multicultural Literature and Perspectives (3)

ENG 493 Senior Seminar (3)

Elective English courses 15 hours

Choose one literature elective:

ENG 430 The History of the English Language (3)

ENG 433 Seminar in British Literature (3)

ENG 435 Seminar in American Literature (3)

ENG 441 Shakespeare (3)

ENG 442 Major Author (3)
 ENG 495 Special Topics [literature focus] (3)
 ENG 499 Independent Study [literature focus] (3)

Choose two writing electives:

ART 325 Scriptwriting (3)
 ENG 380 Writing for the Business and Professional World (3)
 ENG 381 Editing (3)
 ENG 385 Fundamentals of Journalism (3)
 ENG 390 Theories of Composition and Language Acquisition (3)
 ENG 392 Creative Writing (3)
 ENG 395 Advanced Composition (3)
 ENG 396 Technical and Managerial Writing (3)
 ENG 460 English Grammar for Writers and Future Teachers (3)
 ENG 495 Special Topics [writing focus] (3)
 ENG 499 Independent Study [writing focus] (3)
 THE 342 Playwriting (3)

Choose two English electives:

ART 325 Scriptwriting (3)
 ENG 375 Media Literacy (3)
 ENG 380 Writing for the Business and Professional World (3)
 ENG 381 Editing (3)
 ENG 385 Fundamentals of Journalism (3)
 ENG 390 Theories of Composition and Language Acquisition (3)
 ENG 392 Creative Writing (3)
 ENG 395 Advanced Composition (3)
 ENG 396 Technical and Managerial Writing (3)
 ENG 430 The History of the English Language (3)
 ENG 433 Seminar in British Literature (3)
 ENG 435 Seminar in American Literature (3)
 ENG 441 Shakespeare (3)
 ENG 442 Major Author (3)
 ENG 460 English Grammar for Writers and Future Teachers (3)
 ENG 495 Special Topics (3)
 ENG 499 Independent Study (3)
 THE 342 Playwriting (3)

Note: Students are free to choose from whatever upper level English electives are offered. Nevertheless, students with specific career goals or concentrations of study, such as education, are strongly encouraged to take courses such as

Theories of Composition and Language Acquisition in consultation with both departments. Students who wish more writing are free to use electives for those, and may also minor in writing and/or journalism. CAP 320 Field Experience (3) or a consortium course (3 credit hours) may substitute for one elective.

Minor in English

Requirements for a Minor in English

Students planning to minor in English must complete ENG 208 or equivalent.

Required course 3 hours

ENG 399 Introduction to Methods of Literary Study (3)

Elective English courses 12 hours

Choose two elective literature courses:

ENG 375 Media Literacy (3)
 ENG 403 British Literature to 19th Century (3)
 ENG 404 British Literature from 19th Century to Present (3)
 ENG 405 American Literature to 1865 (3)
 ENG 406 American Literature from 1865 to Present (3)
 ENG 408 Multicultural Literature and Perspectives (3)
 ENG 430 The History of the English Language (3)
 ENG 433 Seminar in British Literature (3)
 ENG 435 Seminar in American Literature (3)
 ENG 441 Shakespeare (3)
 ENG 442 Major Author (3)
 ENG 495 Special Topics [literature focus] (3)
 ENG 499 Independent Study [literature focus] (3)

Choose two elective literature and/or writing courses:

ART 325 Scriptwriting (3)
 ENG 380 Writing for the Business and Professional World (3)
 ENG 381 Editing (3)
 ENG 385 Fundamentals of Journalism (3)
 ENG 390 Theories of Composition and Language Acquisition (3)
 ENG 392 Creative Writing (3)
 ENG 395 Advanced Composition (3)
 ENG 396 Technical and Managerial Writing (3)
 ENG 403 British Literature to 19th Century (3)
 ENG 404 British Literature from 19th Century to Present (3)
 ENG 405 American Literature to 1865 (3)
 ENG 406 American Literature from 1865 to Present (3)
 ENG 408 Multicultural Literature and Perspectives (3)

ENG 430 The History of the English Language (3)
 ENG 433 Seminar in British Literature (3)

English Courses Offered

ENG 100 English Language Skills (1-3)

An individualized course designed to develop skill in using the English language. Both expressive and receptive skills are included, and programs meet the specific needs of each individual. May be taken for a maximum of 12 hours. This course is not intended to be taken in lieu of ENG 102, 102S, 103, 103S, 203, 203S, 204 or 204S.

Prerequisite: Passing performance on the English Placement Test or its equivalent.

Course Fee: Varies by section

ENG 102 College Reading and Critical Thinking (3)

This course emphasizes instruction in reading comprehension, including the practices of skilled readers and proven techniques for improving reading comprehension, managing vocabulary, drawing and testing inferences, predicting, and evaluating comprehension and interpretation. Intensive practice in comprehension techniques is balanced against sustained reading practice in and out of class.

Prerequisite: Attaining a score of 62 or higher on the Degrees of Reading Power (DRP) exam or the equivalent, and a score of 3 or higher on the Gallaudet Writing Evaluation or equivalent. May be taken concurrently with ENG 103 or ENG 103S.

ENG 102S College Reading and Critical Thinking: Alternative Approach (3)

This course emphasizes instruction in reading comprehension, including the practices of skilled readers and proven techniques for improving reading comprehension, managing vocabulary, drawing and testing inferences, predicting, and evaluating comprehension and interpretation. Intensive practice in comprehension techniques is balanced against sustained reading practice in and out of class. English 102S includes additional hours of instruction and practice to help students become more able readers and writers. Six hours of class work.

Prerequisite: Attaining a score of 56 or higher on the Degrees of Reading Power (DRP) exam or the equivalent, and a score of 3 or higher on the Gallaudet Writing Evaluation (GWE) or equivalent.

ENG 103 Essay Analysis and Composition I (3)

This course includes the study of the organization and development of ideas in short essays and other short writing assignments. It emphasizes the entire writing process, while reinforcing critical reading strategies and metacognitive skills. In order to pass this course, the student must demonstrate at least minimal competence in writing short essays.

Prerequisites or Co-requisites: ENG 102.

ENG 103S Essay Analysis and Composition I: Alternative Approach (3)

This course includes the study of the organization and development of ideas in short essays and other short writing assignments. It emphasizes the entire writing process, while reinforcing critical reading strategies and metacognitive skills. English 103S includes additional hours of instruction and practice focused on individual student needs with the

goal of increasing a student's ability to communicate effectively in written English. In order to pass this course, the student must demonstrate at least minimal competence in writing short essays. Six hours of class work.

Prerequisite: ENG 102 or 102S or the equivalent.

ENG 120 Accelerated College English I (3)

This course will integrate reading, writing, research, and critical thinking skills. Reading and writing assignments will be based on various academic content areas and real-world issues.

Prerequisite: Attaining a score of 70 or higher on the Degrees of Reading Power (DRP) exam or the equivalent, and a score of 4 or higher on the Gallaudet Writing Evaluation (GWE) or equivalent.

ENG 121 Accelerated College English II (3)

This course will integrate reading, writing, research, and critical thinking skills. Reading and writing assignments will be based on various academic content areas and real-world issues.

Prerequisite: ENG 120.

ENG 195 Special Topics [Topic to be Specific] (1-3)

Topic to be specified.

Prerequisite: GSR 102 or equivalent and permission of the instructor.

ENG 203 Essay Analysis and Composition II (3)

This course emphasizes the study of the organization and development of ideas in longer essays, including argumentative essays. Students will practice the use of library research for writing.

Prerequisite: ENG 103 or permission of the department

ENG 203S Essay Analysis and Composition II: Alternative Approach (3)

This course emphasizes the study of the organization and development of ideas in longer essays, including argumentative essays. Students will practice the use of library research for writing. English 203S includes additional hours of instruction and practice geared to individual student needs with the goal of increasing the ability to think critically and communicate effectively in written English. Six hours of class work.

Prerequisite: ENG 103 or 103S, or the equivalent.

ENG 204 Introduction to Literature (3)

This course emphasizes the study of representative examples of different forms of literature, and the writing of essays about literature.

Prerequisite: GSR 102 or equivalent.

ENG 204S Introduction to Literature: Alternative Approach (3)

This course emphasizes the study of representative examples of different forms of literature, and the writing of essays about literature. ENG204S includes additional hours of instruction and practice to help students become more able readers and writers. Six hours of class work.

Prerequisite: GSR 102S or the equivalent.

ENG 205H Honors English I (3)

The major focus throughout the course is on the essay and how ideas are communicated in the particular form of writing. Various samples of essays are used as models for the students to emulate, and other forms of short literature are used to show how those forms differ from the essay. Once the organization and method of essay writing have been explored, students write essays on their own modeled on the sample essays used in class. This course satisfies the first year of the English requirement.

Prerequisite: Permission of the English Honors coordinator.

ENG 206H Honors English II (3)

The major goals for the students are, first, to read literature with a more developed critical ability and, second, to be able to write a short research paper. (In both reading and writing, students are expected to do more than in 205H.) The students will read a number of different forms and genres of literature. This course satisfies the second year of English requirement.

Prerequisite: Permission of the English Honors coordinator.

ENG 208 Introduction to Literature Studies for the Major (3)

This course is intended to prepare students planning to major or minor in English for literary analysis through the study of representative examples of different genres of literature. Students will also develop their critical thinking, writing and research skills through multiple drafts of essays about literature.

Prerequisite: GSR 102 or the equivalent.

ENG 230 British Studies (1-5)

A survey, conducted in Great Britain, of its art, history, politics, literature, and contemporary society. Classroom instruction followed by guided visits to relevant museums, monuments, and other points of interest. Weekend excursions.

Prerequisite: Permission of the English Department.

ENG 295 Special Topics [Topic to be specified] (1-3)

Topic to be specified.

Prerequisite: GSR 150 or equivalent and permission of the instructor.

ENG 311 World Literature I (3)

This class is a survey of important and representative works of literature before the year 1600 with an emphasis on literatures other than British and American literature.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 312 World Literature II (3)

This class is a survey of important and representative works of literature after the year 1600 with an emphasis on literatures other than British and American literature.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 323 Literature and Film I (3)

This course is the study of narrative and dramatic works and captioned films with an emphasis on literature.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 324 Literature and Film II (3)

This course is the study of narrative and dramatic works with an emphasis on captioned films.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 325 Introduction to Deaf Literature (3)

This course primarily covers literary written by D/deaf authors.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 327 Masterpieces of American Literature (3)

This course is a study of selected masterpieces ranging from the Colonial period to the present. The emphasis of this course will be placed on the historical backgrounds and meanings of the works themselves.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 331H Honors Reading List (1)

This is an independent reading course that all English Honors students must take each semester up to five times while they are in the English Honors Program. Students must read 15 selections from the list during their time in the English Honors program; readings each semester will be determined in conference with the Honors coordinator. Students will take an exam at the end of the semester based on their readings. Courses may be 1 or 2 credits each and students are permitted to take up to five credits total. Course may be repeated as topics vary.

Prerequisite: ENG 206H and permission of the English Honors coordinator.

ENG 338 Masterpieces of English Literature (3)

This course is a study of selected masterpieces ranging from the Old English and Medieval periods to the present. The emphasis will be placed on the historical backgrounds and meanings of the works themselves.

Prerequisite: GSR 150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 350 Introduction to African American Literature (3)

This course is a survey of representative writers and literary forms that make up the African American literary tradition.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 355 Literature by Women (3)

The unifying theme of this course is the creative expression by women, in all genres and including journals, of their personal and cultural experiences. An introduction to feminist critical theory will be offered to provide a context for the works.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 373 Introduction to Hispanic-American Literature (3)

This course is a survey of representative writers and literary forms that make up the Hispanic-American literary tradition.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 375 Media Literacy (3)

This course provides students with an overview of media literacy. This course will focus on techniques and strategies used to analyze diverse media messages that inform, entertain, and sell. The course will survey diverse media messages included in advertisements, television, film, newspapers, magazines and the Internet.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 380 Writing for the Business and Professional World (3)

This course is designed for those students who are preparing for a professional career in fields that require practical writing. The emphasis of the course will be on specific types of writing, such as effective resumes, business letters, and short and long reports encountered in the business/professional setting.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 381 Editing (3)

This course is designed for students who are preparing for a professional career in fields that require practical writing. The emphasis in the course will be on those skills needed for final revision of documents such as proposals, reports, and longer texts. The course will focus on writing in the business and professional world but will also include some information on the editing of fiction. Multimedia and desktop publishing skills will also be taught here.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 385 Fundamentals of Journalism (3)

This course will deal with these features: news, feature, and editorial writing; copy reading; headline writing; and make-up. Also included will be a study of the ethics of journalism and the responsibilities of the press.

Prerequisite: GSR 150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 390 Theories of Composition and Language Acquisition (3)

This course is a survey of theories of composition and language acquisition, with the aim of providing a context for students interested in the profession. While this course is not primarily a history, the course will nevertheless provide background for the development of current cognitive studies of how people learn and use language. Students will write compositions following the different approaches discussed

in the course. This course is especially applicable for students planning to teach.

Prerequisite: GSR 150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 392 Creative Writing [Topic to be specified] (3)

This course gives practice in the writing of fiction, drama, poetry, and other forms. There will be analysis and critique of students' writings held in group and individual conferences. The emphasis on specific genre(s) may vary semester to semester according to the instructor's writing specialty. The course focus will be announced in advance of registration. This course may also be taken for a maximum of nine credit hours as long as the focus varies.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 395 Advanced Composition (3)

This course is an intensive application of the major principles of good writing, such as choosing a topic that is specific and has reader appeal, organizing, using specific detail to develop the topic, and writing clear, compact, and forceful sentences. Students are expected to produce eight to 10 essays of a type that fits their needs. There will be weekly or biweekly individual conferences.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 396 Technical and Managerial Writing (3)

This course is a study of the theory and practice of technical/managerial writing, with emphasis on adapting materials to various professional audiences and purposes. This course also offers practical experience in composing reports, proposals, manuals, and other formats using casebook studies and students' own and group writing projects, using multimedia if applicable.

Prerequisite: GSR150 or ENG 204 or the equivalent; or permission of the instructor.

ENG 399 Introduction to Methods of Literary Study (3)

This course examines the terminology and techniques of literary study, with an emphasis on in-depth methods pertaining to analytical and critical essay writing. Basic critical and theoretical methodologies required for the serious study of literature will be introduced. Documentation methods will also be covered.

Prerequisite: A grade of C or better in ENG 208 or equivalent, or by permission of the major/minor coordinator.

ENG 403 British Literature to 19th Century (3)

This course is a survey of poetry, drama, and prose of Anglo-Saxon, Medieval, Renaissance, Restoration, and Neoclassical periods.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 404 British Literature from 19th Century to Present (3)

This course is a survey of major English poets and prose writers (fiction and nonfiction) since the end of the 18th century.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 405 American Literature to 1865 (3)

This course is a survey of colonial journals, native American literature, biography, political writings of the Revolutionary and Federalist periods, and works of the American Renaissance.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 406 American Literature from 1865 to Present (3)

This course is a study of post-Civil War and 20th century poets, playwrights, and novelists.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 408 Multicultural Literature and Perspectives (3)

This course provides students with an overview of multicultural literature in conjunction with the historical and contemporary issues facing each culture. The texts discussed in this course may include Hispanic/Chicano/Chicana literature, African American literature, American Indian literature, Deaf literature, Gay/Lesbian literature, English from the former colonies/postcolonial literature, and others. The course will focus on the techniques and strategies implemented by the authors to undermine and question mainstream attitudes and values through an investigation of questions such as these: What is "minority?" How is identity formulated in the margins?

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 430 The History of the English Language (3)

This course is a study of the development of the English language from its beginning to the present; examines English in each of its major periods and discusses the ways that language changes and the reasons for these changes.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 433 British Literature Seminar [Topic to be specified] (3)

This specialized course provides majors with a more intensive study of British literature according to genre, within a specific time period, or with a specialized focus. Topics for this course will vary each semester and could include topics such as Medieval Women Writers, Gothic Literature of the 18th and 19th Centuries, and Romantic/Victorian Women Authors, among others.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 435 American Literature Seminar [Topic to be specified] (3)

This specialized course provides majors with a more intensive study of American Literature according to genre, within a specific time period, or with a specialized focus. Topics for this course will vary and may include topics such as Colonial Literature, Slave Narratives, Modern American Drama, American Biography, Works from the American Renaissance, and so forth.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 441 Shakespeare (3)

This course is an analysis of the poetic and dramatic structure of some of Shakespeare's major comedies, tragedies, romances, and history plays, with a consideration of the background of the plays.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 442 Major Author [Topic to be specified] (3)

This course is a study of the life and works of a major author writing in the English language, such as Chaucer or Milton. The author to be studied in any given semester will be announced at registration.

Prerequisites or Co-requisites: ENG 399 or permission of the instructor.

ENG 460 English Grammar for Writers and Future Teachers (3)

This course includes a thorough introduction to the principles of English grammar, structure, and usage. Classes are designed to reinforce students' cognitive knowledge of English grammar. In addition, readings, discussion, and exercises focus on how to apply the principles of grammar in one's own writing and in the teaching of writing.

Prerequisite: ENG 204 or 206.

ENG 493 Senior Seminar [Topic to be specified] (3)

This course is a seminar in an area chosen by the instructor; the chief work of the course will be the preparation of a seminar paper. Required of all senior English majors in their last semester before graduation.

Prerequisite: ENG 399.

ENG 495 Special Topics [Topic to be specified] (1-3)

Prerequisite: GSR 150 or equivalent and permission of the instructor.

ENG 498H Senior Project (3)

This course is required for all English Honors students and is usually taken in the senior year. Student must write a long, documented research paper, with the guidance of the instructor. The students will select their own topics and will spend most of the semester in independent research and writing.

Prerequisite: Permission of the English Honors coordinator.

ENG 499 Independent Study (1-3)

This course consists of individual work for juniors and seniors in an area of special interest; designed and carried out by the student in consultation with the instructor.

Prerequisite: Permission of the department.

ENG 670 Comparative Poetics: ASL and English (3)

This course studies comparative poetics using poems in ASL and English. ASL poems on videotape will be analyzed for their poetic devices and elements, and ASL poetry and English poetry will be compared. Guest lecturers will demonstrate related forms of expression, such as sign lore, signing for the stage, and nonverbal communication.

Prerequisite: Ability to understand ASL, though not necessarily to produce it, and ENG 204, 204S, or the equivalent, and permission of instructor.

FAMILY AND CHILD STUDIES

familychildstudies.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Deborah Kirchbaum, Chair
Hall Memorial Building, Room S-135

A major in Family and Child Studies with a specialization in Child Development prepares students to work with young children and their families. Graduates are qualified to work in various programs, agencies, and organizations, including child development centers, private preschools, after-school programs, and community services. In addition, the minor in Family Studies offers students the opportunity to expand their professional preparation or to satisfy a personal interest.

There are many career paths and job possibilities for students with a Child Development specialization, depending on whether they choose to move directly into a work setting or attend graduate school. Required courses provide the foundation for understanding how children develop, learn, and behave and develop the competence needed to effectively guide children and work with their families. Field experiences permit students to apply this knowledge base and develop their professional skills.

SWK 307 Human Behavior and the Social Environment I (3)

Total 15 hours**Family and Child Studies Courses Offered****FCS 251 Introduction to FCS (1)**

This course is designed for Family and Child Studies majors or students who are seriously considering becoming an FCS major. Because all FCS majors have a specialization in Child Development, students examine the careers and opportunities for professionals working in the Child Development field. A substantial portion of the course focuses on the field experience opportunities and requirements for FCS majors.

FCS 306 Contemporary Families (3)

This course focuses on present-day American families, comparing them to families throughout history and exploring implications for the future. Special attention is given to the racial and ethnic diversity of contemporary families and strengths and challenges these families confront. The impact families have on society along with the impact public policies have on families are examined throughout the course.

FCS 309 Marriages and Families: Diversity and Change (3)

Covering basic concepts and research in the areas of marriages, families, and intimate relationships, students address the challenges and opportunities individuals have in these areas as they move through the lifespan. Topics include family structures and functions, sex/gender roles, courtship and dating, cohabitation, unions and marriages, parenting, divorce, remarriage, and stepfamilies, with an emphasis on the diversity of today's relationships today and how they have changed from the past.

FCS 320 Infants and Toddlers (3)

This course explores the issues involved in providing infants and toddlers with environments that are nurturing and developmentally appropriate. Special attention will be given to

the principles involved in providing high quality programs and the characteristics of effective child-care professionals.

Prerequisite: Permission of the instructor.

FCS 321 Introductory Nutrition (3)

This course identifies the nutrients essential for good health and examines their role in the growth and development of the individual. Emphasis is placed on nutrient functions, food sources, recommended intake levels, and the physiological effects of inadequate or excessive amounts on health. Special attention is paid to the role of diet in selected diseases, such as diabetes, heart disease and cancer.

FCS 324 Child Nutrition and Safety (3)

This course focuses on the nutrition, health, and safety needs of children from birth to age eight and the role of child development centers and schools in satisfying those needs. Students learn to plan menus based on nutrition standards established for children's programs, to provide and maintain a safe environment for children in their care, and to teach and promote good eating, health, and safety practices among young children.

Prerequisite: Permission of the instructor.

FCS 333 Child, Family, and Community (3)

This course uses an ecological approach to understanding the interactions of the child in the family and the community. Special emphasis is given to the ways that the family, community, and society can work together to provide the best environment for the development of children.

FCS 334 Parent-Child Interactions (3)

This course explores the influence of parents on children and children on parents. Special attention is given to how their roles and relationships change. Important issues confronting parents and children today are addressed and students learn a variety of positive discipline techniques.

Prerequisite: Permission of the instructor.

FCS 350 Field Experience I (3)

In this course FCS majors work as interns in programs serving young children and/or families. Students work on-site under the supervision of professionals in the field. Students work ten or more hours each week during the semester and meet with the course instructor in a weekly seminar.

Prerequisite: Permission of the instructor.

FCS 361 Creative Activities for Children (3)

A study of the natural creative processes found in all children. Through hands-on experience, students learn to plan and conduct activities that are creative, safe and age-appropriate for young children from preschool and early elementary age through 5th grade.

Prerequisite: Permission of the instructor.

Course Fee: \$60

FCS 370 Preschool/Kindergarten Methods and Environments (3)

This course examines the principles involved in planning and implementing programs for children ages 3-5 years old. Developmentally appropriate guidance techniques are emphasized, along with sensitivity to individual needs and cultural diversity.

Prerequisite: Permission of the instructor.

FCS 383 Practices and Programs for Early Childhood Care and Education (3)

This course examines the organization and administrative practices in child care programs. Topics include planning, program development, leadership and supervision, enrollment, public relations, staff management, financial management, facilities, regulations, and parent relations. Students visit a variety of child development programs to see firsthand the practices and methods used.

Prerequisite: Permission of the instructor.

FCS 450 Field Experience II (4)

In this senior-level course FCS majors work as interns in program serving young children and/or their families. Students work on-site for at least two days each week and are supervised by professionals in the field. Students must work a minimum of 160 hours and meet with the course instructor in a weekly seminar.

Prerequisite: Prearrangement and permission of the instructor required.

FCS 495 Special Topics (1-6)

FCS 499 Independent Study (1-4)

Supervised study or project in an area of the student's special interest.

Prerequisite: Senior standing and permission of the department chair.

FIRST YEAR EXPERIENCE

fye.gallaudet.edu

Associate Provost's Office, Enrollment and Retention

Judith Termini, Director

Jordan Student Academic Center, Room 1220

The First Year Experience (FYE) program provides first-year students with a comprehensive learning experience that fosters transition to college and academic success. As part of the Center for Academic Programs and Student Services, FYE offers the First Year Seminar (FYS) course for all new students, as well as a seminar for upper-class students who serve as Teaching Assistants in all FYS classes. In addition to the course, the FYE program coordinates the Common Reading Program, Bridge Program, the New Student Convocation, and the Fantastic First Year Students recognition.

No Undergraduate Majors or Minors are offered.

First Year Experience Courses Offered

CAP 111 Introduction to Careers and Life Planning (2)

This course provides structured and individualized opportunities for students to gain theoretical knowledge of career development and to explore career options that relate to their particular personalities and aptitudes. From this base, students are guided to make informed choices about academic majors and university training. Following this process, students explore the current issues and trends in the workplace, including issues directly related to deafness, and relate this information to their own personal career choices. Finally, students are introduced to the beginning steps for obtaining work experience and actually entering the world of work.

Prerequisites or Co-requisites: ENG 102 or equivalent.

CAP 195 Special Topics (1-3)

An interdisciplinary study of special topics of interest; designed primarily for freshmen.

Prerequisite: Permission of the instructor.

CAP 295 Special Topics (1-3)

An interdisciplinary study of special topics of interest; designed primarily for sophomores.

Prerequisite: Permission of the instructor.

CAP 310 First Year Seminar Teaching Assistants (3)

This course is designed to prepare and support junior or senior students who are selected to be teaching assistants in First Year Seminar (FYS) classes. Content includes development of lesson plans and actual instruction, integration of theories and practices of problem-based learning, learning styles, critical thinking, and needs of first-year students. The course consists of a weekly seminar, weekly 3-hour FYS classes, and weekly appointments with the FYS lead instructor.

Prerequisite: ENG 103, GPA of 3.0 or higher, recommendation by a current or former instructor, junior class standing, and interview with FYS director.

CAP 320 Field Experience (1-12)

Students will go off campus to learning sites approved by the academic unit. The sites will be used as laboratories to investigate, evaluate, analyze, and apply classroom teachings. The course will include pre-established written learning objectives, strategies for meeting the objectives, and evaluation criteria formulated jointly by the faculty sponsor (instructor), student, and the supervisor at the learning site, where appropriate. An on-site supervisor will be designated in all cases. Criteria for receiving credit will include in each case a written analysis, research paper, or other appropriate document completed by the student. Substantial tangible evidence of achievement may supplement the written work. Up to three Career Center credit hours are allowed for approved on-campus work experiences. Prerequisites: (1) Students must have chosen their majors and (2) have a cumulative average of 3.0 or better (Employers prefer a GPA of 2.5 or higher). (3) Completion of all conditional English and/or math courses (4) Students must have previous courses or experience appropriate to their individual projects, including the development of a portfolio and learning contract, as determined by their faculty sponsors and/or Employment/Internship Advisors. Exceptions to prerequisites U and 2 may be made by concurrence of the student's faculty advisor, faculty sponsor, or Employment/Internship Advisor.

Prerequisite: (1) Students must have chosen their majors and (2) have a cumulative average of 2.0 or better (Employers prefer a GPA of 3.0 or higher); (3) Completion of all conditional English and/or math courses.

CAP 495 Special Topics (1-3)

An interdisciplinary study of special topics of interest; designed primarily for juniors and seniors.

Prerequisite: Permission of the instructor.

CAP 499 Independent Study (1-3)

Intensive supervised study and research on topics related to Center for Academic Programs and Student Services (CAPSS) programs.

Prerequisite: Junior or senior standing; permission of the Associate Dean.

FOREIGN LANGUAGES, LITERATURES, AND CULTURES

foreignlanguages.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Margaret Mullens, Chair
Hall Memorial Building, Room S233

We live in a global community that daily grows more interconnected. Studying the language and literature of another culture helps us understand and appreciate that culture's world view, as well as giving us new insights into our own culture.

The Department offers majors in French and Spanish, and minors in French, German, and Spanish. Through the Self-Directed Major Program, students have the option of working closely with the Department to design a unique major course of study with a foreign languages or cultures emphasis.

If you're interested in foreign languages and other areas, such as business or science, a double major in a foreign language combined with another discipline is not only possible, but is encouraged regardless of whether you want to pursue higher education or employment.

Phi Sigma Iota Honor Society

Gallaudet has a chapter of the national foreign language honor society, Phi Sigma Iota. To qualify for admission, students must have an overall degree grade average of "B" and an average of "B+" or higher in all foreign language courses. Students do not have to major in a foreign language but must have enrolled in at least two advanced courses using texts in the foreign language.

Majors Offered

Declaring a Major

Requirements for Admission to a Major in the Department of Foreign, Languages, Literatures and Cultures

The Department of Foreign Languages, Literatures and Cultures requires only the signature of the department chair.

B.A. in French

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	8
Major and Related	30
Free Elective	42
TOTAL	120

Requirements for a Major in French

Required pre-major courses 8 hours

FRE 111 Basic French I (4)

FRE 112 Basic French II (4)

Required internship or foreign study experience 1-5 hours

CAP 320 Field Experience (1-12)*

FLC 200 French Studies (1-5)

*A maximum of five hours count toward the requirements for the major

Required major courses 25-29 hours

A minimum of twenty-five hours from courses numbered 200 and beyond in the French field of study, to be chosen in consultation with the departmental advisor in addition to the internship/foreign study experience requirement.

Potential majors are encouraged to consider a second major in another department so as to enhance their marketability after graduation. Under the auspices of the Self-Directed Major program, a customized major course of study with a foreign languages emphasis may be requested.

B.A. in Spanish

Required major courses 25-29 hours

A minimum of twenty-five hours from courses numbered 200 and beyond in the Spanish field of study, to be chosen in consultation with the departmental advisor (in addition to the internship/foreign study experience requirement). A maximum of one Humanities literature in translation course offered by the department and in the major field may be counted toward the major as well as toward the humanities general studies requirement.

Potential majors are encouraged to consider a second major in another department so as to enhance their marketability after graduation. Under the auspices of the Self-Directed Major program, a customized major course of study with a foreign languages emphasis may be requested.

Minor in French, German, or Spanish

Requirements for a Minor in French, German, or Spanish

Minors are currently offered in French, German, and Spanish. A minimum of fifteen additional credits from courses numbered 200 and beyond are to be selected in consultation

with the department. A maximum of one humanities literature in translation course offered by the department and in the minor field may be counted toward the minor as well as toward the humanities general studies requirement.

Foreign Languages, Literatures and Cultures Courses Offered

FLC 113 English Words from Latin (3)

Learning the English meaning of Latin bases and affixes, followed by short exercises and the reading of English sentences in which these components appear in a meaningful context. Brief exposure to various aspects of vocabulary such as folk etymology, euphemism, doublets based on words of Latin derivation

FLC 114 English Words from Greek (3)

Learning the English meaning of Greek bases and affixes, followed by short exercises and the reading of English sentences in which these components appear in a meaningful context. Additional emphasis on Greek derived words commonly used in law, religion, the military, navigation, medicine, sports, art, and science.

FLC 200 French Studies (1-5)

A survey, conducted in France, any French-speaking city, or any other country where French is spoken, of its art, history, politics, literature, and contemporary society. Classroom instruction followed by guided visits to relevant museums, monuments, and other points of interest. Weekend excursions.

Prerequisite: Permission of the department.

FLC 210 Spanish Studies (1-5)

A survey, conducted in Spain or any Spanish-speaking country, of its art, history, politics, literature, and contemporary society. Classroom instruction followed by guided visits to relevant museums, monuments, and other points of interest. Weekend excursions.

Prerequisite: Permission of the department.

FLC 215 German Studies (1-5)

A survey, conducted in Germany, of its art, history, politics, literature, and contemporary society. Classroom instruction followed by guided visits to relevant museums, monuments, and other points of interest. Weekend excursions.

Prerequisite: Permission of the department.

FLC 220 Italian Studies (1-5)

A survey, conducted in Italy, of its art, history, politics, literature, and contemporary society. Classroom instruction followed by guided visits to relevant museums, monuments, and other points of interest. Weekend excursions. *Prerequisite:* Acceptance by Foreign Study Panel.

Prerequisite: Permission of the department.

FLC 225 Russian Studies (1-5)

A survey, conducted in Russia, of its art, history, politics, literature, and contemporary society. Classroom instruction followed by guided visits to relevant museums, monuments, and other points of interest. Weekend excursions.

Prerequisite: Permission of the department.

FLC 314 Topics in Language Diversity (3)

This course provides an introduction to the diversity of human language and the role of language in society. By studying the origins, the interrelationships, and the characteristics of several of the world's languages, students will gain an appreciation for language as an outgrowth of culture. Comparisons and contrasts will be drawn among several of the world's languages, with language-related issues studied from the perspective of different cultures.

FLC 351 Latin Literature in English Translation: The Republic (3)

This course examines Latin literature from its origins in mid-3rd c. BCE to the accession of emperor Augustus in late 1st c. BCE. Latin during this period developed from a language unaccustomed to literary applications into one of great creativity, flexibility, power, and nuance. Curriculum samples works in prose and verse, including drama; epic, lyric, and elegiac poetry; oratory; and narrative history. Authors may include Plautus, Terence, Lucretius, Cicero, Caesar, Tibullus, Catullus, and/or others.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 352 Latin Literature in English Translation: The Empire (3)

This course examines the development of Latin literature from late 1st c. BCE to the early 5th century CE, during the time Augustus established the imperial political regime, and the Roman Empire reached its maximum extent and experienced the rise of Christianity. Curriculum begins with the Aeneid of Vergil, and samples of other works of poetry, narrative history, natural history, the novel, satire, and early

Christian writing. Authors may include Horace, Ovid, Livy, Tacitus, Juvenal, Petronius, Apuleius, Augustine, and/or others.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 361 Masterpieces of French Literature in English Translation I (3)

An analysis of the changing trends in the development of French literature and culture from the 12th century to the contemporary age through the reading and discussion of selected French masterpieces in English translation. Satisfies the humanities literature requirement.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 362 Masterpieces of French Literature in English Translation II (3)

An analysis of the changing trends in the development of French literature and culture from the 12th century to the contemporary age through the reading and discussion of selected French masterpieces in English translation. Satisfies the humanities literature requirement.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 363 Quebec Literature and Film in English Translation (3)

This course introduces students to the diverse culture of Quebec through the study of significant works of literature and film. Literary works are read in English translation and films are viewed with English captions. Works studied are placed in the context of the social, economic and political challenges faced by the largest population in North America that uses French as a primary mode of communication. Special emphasis is given to the concepts of otherness and the quest for identity as they apply to the evolution of gender roles and the interaction between differing ethnic groups. Satisfies the humanities literature requirement.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 371 German Literature in English Translation I (3)

Readings from selected authors.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 372 German Literature in English Translation II (3)

Readings from selected authors.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 380 The Latino Presence in the United States (3)

Comparative study of three of the largest Latino communities in the United States: Chicanos, Cuban-Americans, and Puerto Ricans. Topics will include an exploration of the cultural identities of each of these communities, focusing notions of ethnicity, race, religion, as well as economic and social class distinctions. Taught in English.

FLC 381 Masterpieces of Spanish Literature in English Translation I (3)

This course covers readings from the Medieval and Renaissance periods to Spain's Golden Age plays, Cervantes' *Don Quixote*, and exemplary novels of the 17th century. This course satisfies the humanities literature requirement.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 382 Masterpieces of Span Literature in English Translation II (3)

This course covers readings from the 18th century to the modern works of the 20th century by Pardo Bazan, Perez Galdos, Blasco Ibanez, and Garcia Lorca. The course satisfies the humanities literature requirement.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 383 Spanish American Literature in English Translation I (3)

Readings from major writings of Argentina, Venezuela, Colombia, Mexico, Guatemala, Brazil, and Peru, among others. This course covers the Colonial period to 1950. The course satisfies the humanities literature requirement.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 384 Spanish American Literature English Translation II (3)

Readings from major writings of Argentina, Venezuela, Colombia, Mexico, Guatemala, Brazil, and Peru, among others. This course concentrates on the literature since 1950. The course satisfies the humanities literature requirement.

Prerequisite: ENG 204 or the equivalent, or permission of the department.

FLC 401 Methods, Technology and Research in Foreign Language Teaching (3)

Students will learn foreign language teaching and learning techniques and research methods for classroom application. In addition to acquiring knowledge of past language learning theories and principle methodologies, comparisons

and discussions of those theories will be applied to current best practices in foreign language teaching and research as guided by the discipline's National Standards for Foreign Language Learning developed by the national professional organization, the American Council on Foreign Languages. Learning outcomes include evaluation and assessment criteria, student review and the development of student-centered written class work through mentoring and collaboration with department faculty in the students' target language area.

Prerequisite: Open to students majoring in French or Spanish or minoring in French, German, or Spanish; permission of the department.

FLC 495 Special Topics (1-3)

Advanced Topics. Topics will vary each semester as determined by the department.

French Courses Offered

FRE 111 Basic French I (4)

This is the first part of a two-semester course sequence. Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While oral/aural skills are not normally taught, they may be incorporated optionally into the curriculum. Students will also be exposed to aspects of the target culture(s), including information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

FRE 112 Basic French II (4)

This is the second semester of a two-semester course sequence. Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While oral/aural skills are not normally taught, they may be incorporated optionally into the curriculum. Students will also be exposed to aspects of the target culture(s), including

information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

Prerequisite: FRE 111 and permission of the department if more than two semesters have elapsed since enrollment in FRE 111.

FRE 150 Conversational French (3)

Study of the spoken language, using dialogues and corrective drills. Students who can use speech are expected to do so, but speech skills are neither required for the course nor considered in grading.

Prerequisites or Co-requisites: FRE 111.

FRE 211 Communicating in French (3)

Continuing study to complement the linguistic and cultural knowledge acquired in Basic French. Ongoing review; practice with newly taught structural patterns will provide a more comprehensive grasp of the language from an interactive perspective and will allow the student to gain facility in written expression and increased global awareness. Practice sessions in the department's computer laboratory with regular use of computer-mediated conferencing will supplement classroom instruction.

Prerequisite: FRE 112.

FRE 212 Readings in French (3)

Students will apply the knowledge of vocabulary and syntax acquired in Basic French to a variety of printed, Web-based, or captioned video materials in French. Readings will be chosen for their cultural value, interest, and accessibility. Emphasis on grammar recognition rather than on production. Dictionary skills will be reinforced, allowing students to challenge themselves with texts of varying levels of complexity. Sessions in the department's computer laboratory will supplement classroom instruction as appropriate.

Prerequisite: FRE 112.

FRE 311 Advanced French I (3)

Composition and readings.

Prerequisite: FRE 211, 212, or the equivalent.

FRE 312 Advance French II (3)

Composition and readings.

Prerequisite: FRE 311.

FRE 402 Translation of French to English: Theory and Practice (3)

This course is an introduction to the theory and practice of translating texts from French to English. Materials will be drawn from a variety of disciplines. Students will receive training in the use of the correct technical terminology for translation work as well as practice in acquiring the necessary skills needed to perform translations that are both correct and idiomatic.

Prerequisite: FRE 312 or permission of the department; ENG 203.

FRE 403 French Literature to 1700 (3)

A survey of French literature of the Middle Ages, Renaissance, and Classical period.

Prerequisite: FRE 211,212, or the equivalent.

FRE 406 French Literature Since 1700 (3)

Prerequisite: FRE 211,212, or the equivalent.

FRE 437 French Civilization (3)

An introduction to the history, geography, art, and literature of France.

Prerequisite: FRE 211,212, or the equivalent.

FRE 438 Contemporary French Society (3)

A survey of important aspects of French society today, dealing with major political, economic, and social structures and their impact on the everyday life of the French people.

Prerequisite: FRE 211,212, or the equivalent.

FRE 495 Special Topics (1-3)**FRE 499 Independent Study (1-3)**

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the department.

German Courses Offered**GER 111 Basic German I (4)**

This is the first part of a two-semester course sequence. Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While oral/aural skills are not normally taught, they may be incorporated optionally

into the curriculum. Students will also be exposed to aspects of the target culture(s), including information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

GER 112 Basic German II (4)

This is the second part of a two-semester course sequence. Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While oral/aural skills are not normally taught, they may be incorporated optionally into the curriculum. Students will also be exposed to aspects of the target culture(s), including information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

Prerequisite: GER 111 and permission of the department if more than two semesters have elapsed since enrollment in GER 111.

GER 150 Conversational German (3)

Development of the ability to communicate in German by studying its pronunciation and practicing with expressions used in everyday conversation. Emphasis is on the ability to communicate readily and not the ability to reproduce sounds.

Prerequisite: GER 111 or concurrent enrollment.

GER 211 Communicating in German (3)

Continuing study to complement the linguistic and cultural knowledge acquired in Basic German. Ongoing review; practice with newly taught structural patterns will provide a more comprehensive grasp of the language from an interactive perspective and will allow the student to gain facility in written expression and increased global awareness. Practice sessions in the department's computer laboratory with regular use of computer-mediated conferencing will supplement classroom instruction.

Prerequisite: GER 112.

GER 212 Readings in German (3)

Students will apply the knowledge of vocabulary and syntax acquired in Basic German to a variety of printed, Web-

based, or captioned video materials in German. Readings will be chosen for their cultural value, interest, and accessibility. Emphasis on grammar recognition rather than on production. Dictionary skills will be reinforced, allowing students to challenge themselves with texts of varying levels of complexity. Sessions in the department's computer laboratory will supplement classroom instruction as appropriate.

Prerequisite: GER 112.

GER 311 Advanced Composition I (3)

Practice on translating and advanced exercises; original compositions.

Prerequisite: GER 211,212.

GER 312 Advanced Composition II (3)

Practice on translating and advanced exercises; original compositions.

Prerequisite: GER 311.

GER 403 Introduction to German Literature I (3)

Readings from the great writers, reports and outside reading.

Prerequisite: GER 211,212.

GER 404 Introduction to German Literature II (3)

Readings from the great writers, reports and outside reading.

Prerequisite: GER 403.

GER 437 German Civilization I (3)

An introduction to the history, geography, art, and literature of Germany.

GER 438 German Civilization II (3)

An introduction to the history, geography, art and literature of Germany.

Prerequisite: GER 437.

GER 495 Special Topics (1-3)

GER 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the department.

Italian Courses Offered

ITA 111 Basic Italian I (4)

This is the first part of a two-semester course sequence. Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of

English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While oral/aural skills are not normally taught, they may be incorporated optionally into the curriculum. Students will also be exposed to aspects of the target culture(s), including information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

ITA 112 Basic Italian II (4)

This is the second part of a two-semester course sequence.

Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. Latin Courses Offered

LAT 111 Basic Latin I (4)

This is the first part of a two-semester course sequence. Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While Oral/aural skills are not normally taught, they may be incorporated optionally into the curriculum. Students will also be exposed to aspects of the target culture(s), including information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

LAT 112 Basic Latin II (4)

This is the second part of a two-semester course sequence. Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While Oral/aural skills are not normally taught, they may be incorporated optionally into the curriculum. Students will also be exposed to aspects of the target culture(s), including information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

Prerequisite: LAT 111 and permission of the department if more than two semesters have elapsed since enrollment in LAT 111.

LAT 211 Readings in Roman Culture (3)

More advanced study to complement knowledge acquired in Basic Latin. Review of first-year material followed by the introduction of additional elements of grammar and syntax. Emphasis will be on reading Latin texts in the original language. Practice sessions in the department's computer laboratory will supplement classroom instruction.
Prerequisite: LAT 112.

LAT 212 Advanced Readings In Latin Literature (3)

Students will apply the knowledge of vocabulary and syntax acquired in LAT 211 to readings chosen for their cultural value and interest. Emphasis will be on in-depth reading and analysis. Dictionary skills will be reinforced, allowing students to challenge themselves with texts of varying levels of complexity. Practice sessions in the department's computer laboratory will supplement classroom instruction as appropriate.
Prerequisite: LAT 211 or permission of the instructor.

LAT 495 Special Topics (1-3)

Prerequisite: Permission of the department.

LAT 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.
Prerequisite: Permission of the department.

Spanish Courses Offered

SPA 111 Basic Spanish I (4)

This is the first part of a two-semester course sequence. Intensive study of the principles of grammar and usage of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While oral/aural skills are not normally taught, they may be incorporated optionally into the curriculum. Students will also be exposed to aspects of the target culture(s), including information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

SPA 112 Basic Spanish II (4)

This is the second part of a two-semester course sequence. Intensive study of the principles of grammar and usage

of the language. Basic vocabulary building, reading, composition, and translation of elementary texts. A contrastive grammar approach will be incorporated, drawing upon elements of English and ASL. Expressive use of the target language will be supported by real-time conferencing software and/or simple fingerspelling-based activities. While oral/aural skills are not normally taught, they may be incorporated optionally into the curriculum. Students will also be exposed to aspects of the target culture(s), including information on the deaf community abroad, where feasible. Four hours of classroom-based instruction will be supplemented by a required weekly session in the department's Learning Laboratory.

Prerequisite: SPA 111 and permission of the department if more than two semesters have elapsed since enrollment in SPA 111.

SPA 150 Conversational Spanish (3)

Study of the spoken language using dialogues and corrective drills. Students who can use speech are expected to do so, but speech skills are neither required for the course nor considered in grading.

Prerequisites or Co-requisites: SPA 111.

SPA 211 Communicating in Spanish (3)

Continuing study to complement the linguistic and cultural knowledge acquired in Basic Spanish. Ongoing review; practice with newly taught structural patterns will provide a more comprehensive grasp of the language from an interactive perspective and will allow the student to gain facility in written expression and increased global awareness. Practice sessions in the department's computer laboratory with regular use of computer-mediated conferencing will supplement classroom instruction

Prerequisite: SPA 112.

SPA 212 Readings in Spanish (3)

Students will apply the knowledge of vocabulary and syntax acquired in Basic Spanish to a variety of printed, Web-based, or captioned video materials in Spanish. Readings will be chosen for their cultural value, interest, and accessibility. Emphasis on grammar recognition rather than on production. Dictionary skills will be reinforced, allowing students to challenge themselves with texts of varying levels of complexity. Sessions in the department's computer laboratory will supplement classroom instruction as appropriate

Prerequisite: SPA 112.

SPA 311 Advanced Spanish I (3)

Composition and readings.

Prerequisite: SPA 211,212; or the equivalent.

SPA 312 Advanced Spanish II (3)

Composition and readings.

Prerequisite: SPA 311.

SPA 403 Spanish Literature to 1700 (3)

A survey of Spanish literature from the 12th century through the Golden Age.

Prerequisite: SPA 211,212; or the equivalent.

SPA 406 Spanish Literature since 1700 (3)

Prerequisite: SPA 211,212; or the equivalent.

SPA 437 Contemporary Latin American Society (3)

A survey of important aspects of Latin American society today, dealing with the major political, economic, and social structures of the various countries and areas and their impact on the everyday life of the people.

Prerequisite: SPA 211,212; or the equivalent.

SPA 438 Spanish Civilization (3)

An introduction to the history, geography, art, and literature of Spain.

Prerequisite: SPA 211,212; or the equivalent.

SPA 495 Special Topics (1-3)

SPA 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the department.

GENERAL STUDIES

generalstudies.gallaudet.edu

Associate Provost's Office, Enrollment and Retention

Ms. Kathryn Baldridge, Director
Jordan Student Academic Center, Room 1225

General Studies prepares students for successful learning in a complex world where traditional academic disciplines are interrelating, merging and overlapping. Instead of focusing on one subject or content area at a time, the General Studies Curriculum challenges students and faculty members to grapple with the complexities of an interdisciplinary academic setting that mirrors and prepares graduates for the complex world we live in -- a world where technology provides instant access to an ever-growing body of information that weaves together the arts, sciences, and humanities.

No Undergraduate Majors or Minors are offered.

General Studies Courses Offered

GSR 101 First Year Seminar (3)

The purpose of this course is to help new college students make a successful transition to the intellectual and personal demands of college. In this course, students will complete a wide variety of experiences that will help them address these essential questions: Who am I, and how did I get here? What is college all about? Where am I going, and how do I get there? This course is offered as part of a Learning Cluster which integrates GSR 101 (First Year Seminar), GSR 102 (Critical Reading and Writing) and GSR 103 (American Sign Language and Deaf Studies). The professors will work together to design reading, writing, ASL assignments that are meaningful and relevant to the students' lives as new college students.

Prerequisite: Qualifying performance on the English assessment or screening.

Course Fee: \$10

GSR 102 Critical Reading and Writing (3)

This course is offered as part of a Learning Cluster which integrates GSR 101 (First Year Seminar), GSR 102 (Critical Reading and Writing), and GSR 103 (American Sign Language and Deaf Studies). This course will focus on specific critical reading and writing skills that students need to succeed in their future coursework. Reading and writing activities and assignments will parallel First Year Seminar

learning experiences.

Prerequisite: Qualifying performance on the English assessment.

GSR 103 American Sign Language and Deaf Studies (3)

This course is offered as part of a Learning Cluster which integrates GSR 101 (First Year Seminar), GSR 102 (Critical Reading and Writing) and GSR 103 (American Sign Language and Deaf Studies). The purpose of the course is to prepare students to engage in critical, academic thinking through American Sign Language. Students will be introduced to historical, linguistic, literary and academic dimensions of American Sign Language. Students will learn the differences between formal and informal uses of language and gain experiences in critical analysis of American Sign Language texts. This course will also explore the theme of "Deaf Lives" and engage students in thinking about the complexities involved in identity construction and what it means to live Deaf lives today.

Prerequisite: Qualifying performance on the English assessment or screening and passing ASL screening.

GSR 104 Quantitative Reasoning Approach (3)

The Quantitative Reasoning Approach course is designed to achieve mathematical literacy among liberal arts students. It includes the mathematics, logic, problem-solving skills needed to make informed judgments in the contexts of science, technology, and society. Topics include number sense, statistics, probability, geometry, linear and exponential modeling, graphing, and data analysis. This is not a traditional abstract math class, but focuses on using mathematics and quantitative reasoning as valuable tools for comprehending the world in which we live.

Prerequisite: Qualifying performance on the English assessment or screening; passing ASL screening; high school algebra and passing the math screening test; or passing MAT 040.

GSR 150 Introduction to Integrated Learning (4)

This course is intended to help students transition from the basic skills courses of the first semester to the more challenging 200-level Integrated Learning Courses. This course will be team-taught by at least two faculty members from different disciplines and will focus on a central topic/question; topics/questions will vary from section to section and semester to semester. Whatever the topic, the goal will be to start building competency with regard to all five Undergraduate Learning Outcomes.

Prerequisite: GSR 101, 102.

Prerequisites or Co-requisites: GSR 103.

GSR 210 Comparing Multicultural Perspectives (4-6)

This is an Integrated Learning Course which emphasizes the third Undergraduate Learning Outcome: Identity and Culture. Thus, this course focuses enabling students to understand complex social identities, including deaf identities, and the interrelations within and among diverse cultures and groups. This course will be team-taught by at least two faculty members from different disciplines and will focus on a central topic; topics will vary from section to section and semester to semester.

Prerequisite: GSR 150.

GSR 211 Comparing Multicultural Perspectives with Services Learning (4-6)

This course is the same as GSR 210, but with Service Learning focus. Students will perform community service activities that reinforce and enhance the academic content of the course.

Prerequisite: GSR 150.

GSR 220 Methods of Multiples Disciplines (4-6)

This is an Intergrated Learning Course which emphasizes the fourth Undergraduate Learning Outcome: Knowledge and Inquiry. Thus, this course focuses enabling students to apply knowledge, modes of inquiry, and technological competence from a variety of disciplines in order to understand human experience and the natural world. This course will be team-taught by at least two faculty members from different disciplines and will focus on a central topic; topics will vary from section to section and semester to semester.

Prerequisite: GSR 150.

GSR 221 Methods of Multiples Disciplines with Service Learning (4-6)

This course is the same as GSR 220, but with a Service Learning focus. Students will perform community service activities that reinforce and enhance the academic content of the course.

Prerequisite: GSR 150.

GSR 230 Scientific and Quantitative Reasoning in Context (4-6)

This is an Intergrated Learning Course which emphasizes the fourth Undergraduate Learning Outcome: Knowledge and Inquiry, in particular scientific and quantitative approaches to understanding human experience and the natural world. This course will be team-taught by at least two faculty members from different disciplines and will focus on a central topic; topics will vary from section to section and semester to semester.

Prerequisite: GSR 104 or MAT 130, GSR 150.

GSR 231 Scientific and Quantitative Reasoning in Context with Service Learning (4-6)

This course is the same as GSR 230, but with a Service Learning focus. Students will perform community service activities that reinforce and enhance the academic content of the course.

Prerequisite: GSR 104 or MAT 130, GSR 150.

GSR 240 Ethical Evaluations and Actions (4-6)

This is an Intergrated Learning Course which emphasizes the fifth Undergraduate Learning Outcome: Ethics and Social Responsibility. Thus, this course focuses enabling students to make well-reasoned ethical judgments and to apply those judgments to promote social justice. This course will be team-taught by at least two faculty members from different disciplines and will focus on a central topic; topics will vary from section to section and semester to semester.

Prerequisite: GSR 150.

GSR 241 Ethical Evaluations and Actions with Service Learning (4-6)

This course is the same as GSR 240, but with a Service Learning focus. Students will perform community service activities that reinforce and enhance the academic content of the course.

Prerequisite: GSR 150.

GSR 300 General Studies Capstone (4)

This course is a culminating experience that ties together all of Undergraduate Learning Outcomes. Community groups, both local and more far-flung, will present us with problems/needs. Students from various majors will sign up for a specific problem, forming project teams, each of which will facilitated by a faculty member. Each project team will then devise and implement an innovative solution to their problem.

Prerequisite: Completion of all other General Studies requirements.

GOVERNMENT AND HISTORY

government.gallaudet.edu, history.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Barry Bergen, Chair
Hall Memorial Building, Room S235

This department houses two disciplines and majors: government and history.

Government: Government or political science in the broadest sense is the study of how governments work and how they affect people (and how people affect them) on the local, national, and international levels. Political scientists are concerned with the structures of governments, the decision-making process in governments, the policy governments make, and the cultures in which governments function. Some specific topics that can be studied at Gallaudet include political parties, the legislature, political theory, the presidency, interest groups, civil rights and liberties, the governments of Europe and developing nations, international relations, American foreign policy, and others. The department emphasizes both knowledge in the area of government and current events, and skills in research, communication, and critical thinking.

A government major is often seen as a useful preparation for law and teaching, journalism, federal government service, state and local government, and good citizenship. The skills and knowledge emphasized are useful in many other fields. Washington, D.C., is an ideal place to study politics, and students are helped and encouraged to make extensive use of the city's academic, cultural, and governmental resources. The department also uses the University's work-study program to find work placements that will broaden students classroom experience. Pre-law advising is offered to students who wish to attend law school.

History: The study of history helps students discover and interpret the innately complex and fascinating past. It broadens and enlightens minds and prepares students to become more active and effective participants in the future. Only an informed awareness of the past can provide the key to understanding what we are today and to influence what we will be tomorrow. Students majoring in history will find many fields open to them. Skills developed from this study,

such as organization of diverse facts and opinions, and a clear presentation of conclusions drawn from those facts and opinions, are of fundamental importance in many professions. Researchers, librarians, lawyers, teachers, and others all benefit from the skills acquired through using methods of historical study.

Majors Offered

Government, with specializations:
General Track
International concentration track
History

Minor Offered

Government, with specializations:
General Track
International concentration track
History
Women's Studies

Declaring a Major

The Department of Government and History requires only the signature of the department chair.

B.A. in Government with a General Track

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	3-6
Major and Related	30
Free Elective	44-47
TOTAL	120

Requirements for a Major in Government with a General Track

Required pre-major courses 3-6 hours

GOV 101 American Government and Contemporary Affairs I (3)
GOV 102 American Government and Contemporary Affairs II (3)
or
GOV 110 Basic American Government (3)

Required government courses 9 hours

GOV 301 Political Theory I (3)
GOV 410 Introduction to Research Methods in Political Science (3)
GOV 493 Senior Seminar (3)

Elective government courses 21 hours

A government major will be allowed to substitute one history course for a government elective in the major, and a history major will be allowed to substitute one government course for a history elective in the major. Such substitution must be done with the approval of academic advisors.

American Government Concentration

Choose two courses:

GOV 346 Political Parties (3)
GOV 335 American State and Local Politics (3)
GOV 348 Interest Group Politics (3)
GOV 351 American Constitutional Law: Powers and Checks (3)
GOV 352 Civil Liberties (3)
GOV 353 Civil Rights and Civil Rights Movements (3)
GOV 356 Legislative Process (3)
GOV 370 Human Rights (3)
GOV 384 American Foreign Policy (3)
GOV 401 The Presidency (3)

International Concentration

Choose two courses:

GOV 328 Comparative European Governments (3)
GOV 329 Comparative Governments of Asia, Africa and Latin America (3)
GOV 330 Introduction to the European Union (3)
GOV 387 Nationalism and Developing Nations (3)
GOV 391 International Relations (3)
GOV 395 International Law and Organization (3)
GOV 397 Democracy and Democratization (3)

And choose the remainder of the 21 credits in consultation with the department. Any elective course listed above or below may be taken.

Other elective government courses

GOV 495 Special Topics (1-3)
GOV 499 Independent Study (1-3)

B.A. in Government with an International Concentration Track

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	3-6
Major and Related	30
Free Elective	44-47
TOTAL	120

Requirements for a Major in Government with an International Concentration Track

Required pre-major courses 3-6 hours

GOV 101 American Government and Contemporary Affairs I (3)
GOV 102 American Government and Contemporary Affairs II (3)
or
GOV 110 Basic American Government (3)

Required core courses 18 hours

GOV 301 Political Theory I (3)
GOV 328 Comparative European Governments (3)
or
GOV 329 Comparative Governments of Asia, Africa and Latin America (3)
GOV 391 International Relations (3)
GOV 395 International Law and Organization (3)
GOV 410 Introduction to Research Methods in Political Science (3)
GOV 493 Senior Seminar (3)

Elective courses 12 hours

Choose 12 credits from the courses below or from appropriate special topics courses:

GOV 330 Introduction to the European Union (3)
GOV 370 Human Rights (3)
GOV 384 American Foreign Policy (3)
GOV 387 Nationalism and Developing Nations (3)
GOV 397 Democracy and Democratization (3)
HIS 300 Nazi Germany and World War II Through Film (3)
HIS 343 Modern Russia (3)
HIS 344 History of the Modern Middle East (3)
HIS 345 Nineteenth-Century Europe (3)

HIS 346 Twentieth-Century Europe (3)
 HIS 351 History of Africa (3)
 HIS 362 The Far East (3)
 HIS 430 History of Latin America

B.A. in History

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	12
Major and Related	24
Free Elective	44
TOTAL	120

Requirements for a Major in History

Required pre-major courses 12 hours

To be taken in the freshman or sophomore year:

HIS 101 World Civilization I (3)
 HIS 102 World Civilization II (3)
 HIS 111 American History I (3)
 HIS 112 American History II (3)

Required history courses 6 hours

HIS 287 Research Methods in History (3)
 HIS 493 Senior Seminar (3)

Elective history courses 18 hours

A history major will be allowed to substitute one government course for a history elective in the major. Such substitution must be done with the approval of academic advisors.

U.S. history courses

Choose one course:

HIS 331 History of the American Deaf Community (3)
 HIS 332 History of Mass Media and the Deaf Community (3)
 HIS 340 Nineteenth Century American Deaf History (3)
 HIS 377 The United States in the Twentieth Century (3)
 HIS 378 U.S. Women's History (3)
 HIS 400 Deaf Women's History (3)
 HIS 460 American Colonial History (3)

European history courses

Choose one course:

HIS 300 Nazi Germany and World War II Through Film (3)
 HIS 345 Nineteenth-Century Europe (3)
 HIS 346 Twentieth-Century Europe (3)
 HIS 380 The History of Sexuality (3)
 HIS 435 The Renaissance (3)
 HIS 440 The Era of the French Revolution and Napoleon (3)

Africa, Asia, Russia, Middle East, and Latin America

Choose one course:

HIS 343 Modern Russia (3)
 HIS 344 History of the Modern Middle East (3)
 HIS 351 History of Africa (3)
 HIS 362 The Far East (3)
 HIS 430 History of Latin America (3)

Choose the remainder of the 18 credits in consultation with the department. Any elective course listed above or below may be taken.

Other elective history courses

HIS 321 Introduction to Physical Geography (3)
 HIS 322 Cultural Geography (3)
 HIS 495 Special Topics (1-3)
 HIS 499 Independent Study (1-3)

Minor in Government with a General Track

Requirements for a Minor in Government with a General Track

Required pre-minor courses 6 hours

GOV 101 American Government and Contemporary Affairs I (3)
 GOV 102 American Government and Contemporary Affairs II (3)
 or
 GOV 110 Basic American Government (3)

Required government course 3 hours

GOV 301 Political Theory I (3)

Elective government courses 12 hours

Choose one of the following:

GOV 346 Political Parties (3)
 GOV 356 Legislative Process (3)
 GOV 401 The Presidency (3)

Choose one of the following:

- GOV 328 Comparative European Governments (3)
- GOV 329 Comparative Governments of Asia, Africa and Latin America (3)
- GOV 391 International Relations (3)

Of the remaining credits needed to satisfy the 21 credit hours needed for the minor, choose from any of the other required or elective courses above the 200 level.

Total 21 hours

Minor in Government with an International Concentration Track

Requirements for a Minor in Government with an International Concentration Track

Required pre-minor courses 6 hours

- GOV 101 American Government and Contemporary Affairs I (3)
- GOV 102 American Government and Contemporary Affairs II (3)
- or
- GOV 110 Basic American Government (3)

Required core courses 6 hours

- GOV 328 Comparative European Governments (3)
- or
- GOV 329 Comparative Governments of Asia, Africa and Latin America (3)
- GOV 391 International Relations (3)

Elective courses 9 hours

Of the remaining credits needed to satisfy the 21 credit hours needed for the minor, choose from any of the other required or elective courses included under the international major track, or from appropriate special topics courses.

Total 21 hours

Minor in History

Requirements for a Minor in History

Required pre-minor courses 6 hours

- HIS 101 World Civilization I (3)
- HIS 102 World Civilization II (3)
- or
- HIS 111 American History I (3)
- HIS 112 American History II (3)

Required history course 3 hours

- HIS 287 Research Methods in History (3)

Elective courses 9 hours

Choose any three history courses from any of the other required or elective courses under the history major track.

Total 18 hours

Minor in Women's Studies

A Women's Studies minor is an 18-credit interdisciplinary program to infuse feminist scholarship and perspectives into the curriculum and to examine and reinterpret knowledge about the social, political, economic, and cultural achievements of women. It will require students to integrate knowledge from several disciplines into their thinking, research and analytical skills. Women's Studies courses challenge students to question traditional knowledge about gender, while examining other issues of diversity related to class, race, ethnicity, ability, religion, age, or sexual orientation.

Requirements for a Minor in Women's Studies

Students may complete a minor in Women's Studies by successfully completing 18 credits, including 6 hours of core courses and 12 hours of electives.

Required minor courses 6 hours

- WMS 101 Introduction to Women's Studies (3)
- WMS 493 Capstone Seminar in Women's Studies (3)

Required elective courses 12 hours

Choose four courses:

ART 451 Women in Art (3)
 COM 430 Gender and Communication (3)
 DST 402 Deaf Women's Studies (3)
 ENG 355 Literature by Women (3)
 FCS 309 Marriage and Families: Diversity and Change (3)
 HIS 378 U.S. Women's History (3)
 HIS 380 History of Sexuality (3)
 SWK 200 Contemporary Gender Issues (3)

Note: Other courses are likely to be added to the curriculum that could be accepted as electives in women's studies. Likewise, special topics courses may be counted toward the minor. In both cases, permission of the director would be required.

Total: 18 hours

Government Courses Offered

GOV 101 American Government/Contemporary Affairs I (3)

The first of a two-semester sequence on American national politics, this course covers the origins of the political system, the Constitution, federalism, civil rights and civil liberties, and the institutions of Congress, the Presidency, the court system and the federal bureaucracy. Contemporary national and international political events are emphasized throughout.

GOV 102 American Government and Contemporary II (3)

The second of a two-semester sequence on American national politics, this course covers public opinion formation and measurement, political socialization, political parties, campaigns, voting and elections, the media, interest groups, and a variety of public policy issues. Contemporary national and international political events are emphasized throughout.

Prerequisite: GOV 101 or permission of the instructor.

GOV 110 Basic American Government (3)

This course covers discussion of the basic structures of American government (the Executive, Legislature and Judiciary), important processes such as elections and basic principles and theory of governance in the American system.

GOV 301 Political Theory I (3)

In this course, students will be introduced to the questions that traditionally concern political theorists. In light of these questions, students will examine democratic theories of classical liberalism, conservatism, socialism, and contemporary liberalism; fascism; Marxism; communism; and nationalism.

GOV 302 Political Theory II (3)

In this course, students will use their knowledge of ideologies studied in GOV 301 to explore American political theory, feminism, environmentalism, and radical religious libertarian philosophy and religious fundamentalism. Students will identify theories that are present in current national or world events and assess the relevance of the theories to their own thinking.

Prerequisite: GOV 301.

GOV 328 Comparative European Governments (3)

This course will focus on comparative political systems in Europe, with an emphasis on the democracies of western Europe, especially the United Kingdom, France and Germany, as well as a selection of topics on the countries of southern Europe, the Nordic countries, and the more successful of the former Communist Eastern European states.

GOV 329 Comparative Governments of Asia, Africa and Latin America (3)

This course will explore the diverse political systems of the non-western world. Study will include established democracies such as India and Japan, political systems in transition to democracy such as Brazil, Mexico, and South Africa, and more authoritarian systems such as China. Students will be introduced to both theory and practice in these areas.

GOV 330 Intro to the European Union (3)

This course will introduce students to the history, politics and legal structure of the European Union. Among the topics to be covered will be: EU institutions, social policy, CAP, EU expansion, the EURO, the single market, EU foreign policy, and immigration policy.

GOV 335 American State and Local Politics (3)

This course introduces students to the study of state and local government and politics. This course provides students with insight into the political processes that most affect Americans' lives: state and local politics. Many of the policy innovations made on the state and local levels affect policy of other states as well as the federal government. Students will be introduced to the structures and theories of governance at the state and local levels.

GOV 346 Political Parties (3)

A study of the major and minor parties in the United States, their history, composition, organization, leadership, resources, politics, distribution of power, and influence on the formation and execution of public policy. The role of pressure groups.

GOV 348 Interest Group Politics (3)

This course will cover the formation of interest groups; their interactions with government (lobbying, campaign donations, amicus briefs, protests, etc.); interest group theories; and their impact on the quality of democracy, policy and justice. Interest groups for specific categories of people, including Deaf people will be focused upon.

GOV 351 American Constitutional Law: Powers and Checks (3)

This course is an in-depth examination of the powers of government under the Constitution. Primary focus is upon Articles I through VII and topics such as judicial, legislative and executive powers; federalism; regulation of commerce and property rights; war powers.

GOV 352 Civil Liberties (3)

This course will provide an in-depth analysis of the Bill of Rights, as interpreted by the Supreme Court. Current controversies, such as the conflict between privacy and national security, abortion rights and the death penalty will be examined in more depth

GOV 353 Civil Rights and Civil Rights Movement (3)

This course will provide an in-depth look at equality in the US. Amendments 13, 14, 15 and 19 will be emphasized and the evolution of their interpretation in the Supreme Court will be studied. At the same time, the influence of movements for abolition, women's suffrage and women's rights, civil rights on the interpretation will be studied. In addition, current movement for equality in the disability and GLBT communities will be discussed.

GOV 356 Legislative Process (3)

A study of the formal and informal procedures of Congress and the relation between the legislature, the presidency, and the Supreme Court.

GOV 360 Public Policy (3)

An intensive examination of relationships among policy goals, policy strategies, and policy outcomes that lead to the allocation of societal resources (who gets what, when, where, and how). This course will identify the relationship between policy outcomes and the political institutions, political parties, interest groups, lobbyists, and the political environment.
Prerequisite: GOV 102.

GOV 370 Human Rights (3)

The diverse beliefs of nations and classes, world divisions, and the racial rivalry reflected in various systems of law and politics all give changing meaning to such phrases as human rights and fundamental freedoms. This course will look at these rights and freedoms within the different belief systems, world divisions, and racial rivalries. Special attention will be given to the deaf communities in United States and their struggle to achieve full human rights and freedom.

Prerequisite: GOV 102 and HIS 112.

GOV 384 American Foreign Policy (3)

An introduction to American foreign policy from 1778 to the present, its major forms, problems, and mutations. Special emphasis on the period since 1898, role of the United States as a world leader, and the future direction of U.S. foreign policy after the Cold War. Focus is put upon changing international circumstances and American capabilities and their implications for policy.

Prerequisite: GOV 102, 302.

GOV 387 Nationalism and Developing Nations (3)

A study of the historical development and present role of nationalism and nation-state in both theory and practice. The course deals with the growth of nationalist conceptions and movements in the 19th century, the transition from liberal to totalitarian nationalism, the principle of self-determination, and Marxist treatment of the national problem.

Prerequisite: GOV 102, 302.

GOV 391 International Relations (3)

An introduction to the basic factors, concepts, and theory of international relations. The objectives, methods, and capabilities of modern states and other international actors will be surveyed. A study will be made of the institutional forms of international relations, ideological orientations, and objectives. Emphasis will be on the trends and transformation of the international system during and after the Cold War.

Prerequisite: GOV 102, 302.

GOV 395 International Law and Organization (3)

This course is a basic introduction to international law and organization. Students will learn how international law is different from municipal law, how international law is made, the role of international law in domestic legal systems, specific rules of international law regarding sovereignty, rec-

ognition, nationality, human rights, war, and the law of the sea. The role of international organizations relating to the making of international law, the uniqueness of the European Union as a law-making body, and a brief introduction to the role of the UN, generally in the international system, will be discussed.

GOV 397 Democracy and Democratization (3)

This course addresses the theoretical and practical aspects of democracy. What does democracy mean? What are its advantages and disadvantages as a form of government and what alternatives are available? How have countries become democracies in recent years and what kinds of challenges have they faced? Is there a formula for successful democratization?

GOV 401 The Presidency (3)

To be offered every other year. During a nonelection year this course will focus on the presidency and constitutional development along with historical perspectives. During an election year it will focus on the major facets of presidential elections, the nominating process, general election activities, and campaigns.

Prerequisite: GOV 102 or HIS 112

GOV 410 Introduction to Research Methods in Political Science (3)

A course that introduces majors to methods and techniques of research in political science. Topics covered will include: the scientific method, comparative analysis, types of research and papers, library, and Internet resources, and emphasis on statistical methods and survey design.

Prerequisite: GOV 102; majors only or by permission of the instructor.

GOV 493 Senior Seminar (3)

This course will require government majors to integrate the skills and knowledge developed in their major courses. The thematic focus of the course will vary, but discussion will be centered on the major choices presented to political systems and political actors. A substantial research component of the course will enable students to produce an appropriate literature survey, research proposal, and research thesis.

Prerequisite: Permission of the instructor.

GOV 495 Special Topics (1-3)

Advanced or special topics in government or the law depending on the needs and interests of students. May be repeated for different content areas.

Prerequisite: Permission of the instructor.

GOV 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the department chair.

History Courses Offered

HIS 101 World Civilization I (3)

A survey of the history of world civilizations from pre-History to approximately 1500. Topics usually include the ancient civilizations of Mesopotamia and the Near East, Persia, Egypt, India, and China; pre-modern Africa; ancient Greece and Rome; the development of Christianity; the development of Islam; Byzantium; Medieval China and Southeast Asia; Medieval Europe; the European Renaissance and Reformation.

HIS 102 World Civilization II (3)

A survey of the history of world civilizations from approximately 1500 to the present. Topics usually include the European Age of Exploration; early-modern Europe; the Scientific Revolution and the Enlightenment; the Agricultural and Industrial Revolutions; early-modern Asia and Southeast Asia; the early-modern Muslim Empires; early-modern Africa; democratic and liberal revolutions of the 18th century; the ideologies (Liberalism, Conservatism, Socialism); late 19th century Imperialism; Latin American in the 19th century; the First World War and Russian Revolution; 20th century Asia; 20th century dictatorships and the Second World War; post-war America and Europe; contemporary Asia and Africa; the emergence of the Third World.

Prerequisite: HIS 101 or permission of the instructor.

HIS 111 American History I (3)

This general survey of American history examines the colonial period through the end of the Civil War. Issues covered include: slavery, Native American experiences, women's history, and westward expansion. Students will examine America's change from a colony into an independent nation and the factors leading to America's Civil War.

HIS 112 American History II (3)

This is a general survey of American history since the Civil War. Topics in this course include; Reconstruction, foreign policy, political reforms, women's history, technological and economic growth, immigration, civil rights, and America's complex identity in the 20th century.

Prerequisite: HIS 111 or permission of the instructor.

HIS 287 Research Methods in History (3)

An introduction to the principles of historical research, with an emphasis on the use of research tools and source materials. Several supervised written assignments will be required; most will be based on American source materials.

HIS 300 Nazi Germany and World War II Through Film (3)

This course combines traditional book learning with the study of documentary and dramatic films. Three major topics will be covered: Hitler's rise to power and domestic policies, Hitler's foreign policy and the war, the Holocaust.

Prerequisite: Two semesters of history or permission of the instructor.

HIS 321 Introduction to Physical Geography (3)

Physical geography introduces the major systems of the earth. Lectures include the atmosphere, the structure of the earth, the hydrosphere, climate zones, and the processes of change in all of the systems. Special attention is given to the influence of the environment upon people and the impact of people upon that environment.

HIS 322 Cultural Geography (3)

A survey of the way in which the physical environment influenced the development of cultures in the major regions of the world. Special stress will be given to the varieties of land use, current environmental threats, and cultural adaptations to modern world problems.

HIS 331 History of the American Deaf Community (3)

An examination of the people and the historical processes that brought together deaf individuals to form a cohesive community in the United States.

Prerequisite: HIS 112; or permission of the instructor.

HIS 332 History of Mass Media and the Deaf Community (3)

A survey of the mass media (print, film, and television) as sources and interpreters of deafness and deaf people within the context of U.S. social and cultural history. The class will also examine historical changes in the products of mass media within the deaf community.

Prerequisite: HIS 112; or permission of the instructor.

HIS 340 Nineteenth Century American Deaf History (3)

This course offers a close study of the birth and early evolution of America's Deaf community, with particular attention to historical context. Incorporating recent scholarship in the field, this course will examine central topics, including education, organizations, regional identities, class, and eugenics. This class also will closely study several subcultures

in addition to general American Deaf history, including African American, European American, and Native American experiences. Economic, social, religious, and cultural factors also will be addressed.

Prerequisite: HIS 331; or permission of the instructor.

HIS 343 Modern Russia (3)

A history of Russia since Peter the Great, with special emphasis on Communist Russia.

Prerequisite: HIS 102.

HIS 344 History of the Modern Middle East (3)

An examination of the major forces that have influenced the development of the Middle East since 1800. Emphasis will be on Islamic society's response to the challenges of modernization, the modernization of Egypt, the Arab-Israeli conflict, and the role of the Middle East in the contemporary world.

HIS 345 Nineteenth-Century Europe (3)

This course explores the major developments in European social, political, and economic history in the 19th century. Topics include liberalism, conservatism, nationalism, revolutions, industrialization, socialism, suffrage, national unification, women's rights, and imperialism.

Prerequisite: HIS 102.

HIS 346 Twentieth Century Europe (3)

This course explores the major developments in European social, political, and economic history in the 20th century. Topics include the world wars, the Russian Revolution, the Depression, fascism, and Nazism, the Holocaust, the Cold War, the European Community, Eurocommunism, the Welfare State, and the fall of communism.

Prerequisite: HIS 102.

HIS 351 History of Africa (3)

A survey of the history of African civilizations from earliest times to the present. The course emphasizes political, social, economic, and cultural developments within sub-Saharan Africa, particularly during the modern period.

HIS 362 The Far East (3)

A survey of the history of the Far East from ancient to present times, covering India and the countries of East Asia and Southeast Asia. The course emphasizes political, social, economic, and cultural developments, especially in the modern period.

HIS 377 The United States in the Twentieth Century (3)

A study of the social, economic, and political changes in America since 1890, with emphasis on the relationship of these changes to present-day conditions.

Prerequisite: HIS 112.

HIS 378 U.S. Women's History (3)

An examination of the role of women in American history from colonial times to the present. Emphasis will be placed on the role of race, gender, class, disability, and deafness in the historical experiences of American women.

HIS 380 The History of Sexuality (3)

This course will explore the history of sexuality in Europe and America in the modern era. Topics may include: essentialist and constructionist views of sexuality and sexual identity, changing social norms of sexuality, changing patterns of courtship and marriage, the development of homosexuality and heterosexuality, prostitution, transvestism, hermaphroditism, pornography, the sexual revolutions of the 20th century.

HIS 382 American Intellectual History (3)

A historical evolution of the most influential thinkers, theorists, and publicists from the Colonial period to the present.

Prerequisite: HIS 112; or permission of the instructor.

HIS 400 Deaf Women's History (3)

By studying Deaf women's history, students will enhance their understanding of this minority group, as well as the broader fields of Deaf history and women's history. Students will be introduced to recent scholarship that directly examines this topic. In order to place such works in a broader context, students also will be exposed to vital works in related historical fields. This class will include close study of multiple minority groups, including Deaf Americans, European Americans, African Americans, and Native Americans. The important role of economic, social, religious, and cultural factors be considered throughout this course. This class emphasizes various historical methods of study, building analytical skills and critical thinking. Exploring the changing meaning of gender and deafness in history will provide students with tools for independent research. Ultimately, this focused study of identity challenges students to reconsider traditional notions of gender, disability, cultural Deaf identity, beauty, normalcy, citizenship, and status.

Prerequisite: DST 402, HIS 378, WMS 101; or permission of instructor.

HIS 430 History of Latin America (3)

A survey of the history of Latin America from the Indian and Iberian background. Though the 1970s. Emphasis will be placed on the national histories of the region's traditionally dominant countries Mexico, Chile, Argentina, Brazil, and Latin America's relationship to and contracts with the United States.

Prerequisite: HIS 102.

HIS 435 The Renaissance (3)

European civilization from the High Middle Ages to the Reformation.

Prerequisite: HIS 101 or permission of the instructor.

HIS 440 The Era of the French Revolution and Napoleon (3)

France on the eve of 1789, the revolution, the empire of Napoleon, the peace settlements of 1814-1815. Internal developments and international repercussions.

Prerequisite: HIS 101 or permission of the instructor.

HIS 460 American Colonial History (3)

A history of the English colonies in America and the American Revolution.

HIS 493 Senior Seminar (3)

The seminar will be devoted to a topic determined by the department for each term. Students will cover various aspects of different interpretations of the topic. Application of historical methods by discussion, extensive reading, and writing. One seminar is given each term; no more than two seminars are to be counted for major credit.

Prerequisite: HIS 287 Research Methods (3) or permission of the instructor.

HIS 495 Special Topics (1-3)**HIS 499 Independent Study (1-3)**

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the department chair.

Women's Studies Courses Offered**WMS 101 Introduction to Women's Studies (3)**

Women's studies scholars and activists in women's issues have made it their work to examine the genesis, development, and impact of assumptions about women's nature. These assumptions underlie the belief systems and institutional practices of all cultures and have justified oppressions of women that interact in complex ways with class, racial

and other oppressions. This interdisciplinary course is designed to open the field of Women's Studies to introductory level students. It will demonstrate how addressing questions from an interdisciplinary perspective can lead to complex understanding of the place of women in contemporary society.

WMS 493 Capstone Seminar in Women's Studies (3)

While the subject may change to mirror the interdisciplinary nature of the program, the course will require a research project and public presentation. This will be an opportunity for students to integrate their knowledge and demonstrate familiarity with Women's Studies theory and its application in research. Students will be expected to understand and apply theories from several disciplines to each of the sub-topics explored in order to construct an interdisciplinary understanding of the major topic.

Prerequisite: WMS 101 and 12 hours of electives, or permission of the director.

WMS 495 Special Topics (1-3)

Advanced or special topics in Women's Studies, depending on the needs and interests of the students. May be repeated for different content areas.

Prerequisite: Permission of the director.

WMS 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the director and the instructor.

HEARING, SPEECH AND LANGUAGE SCIENCES

hsls.gallaudet.edu

Graduate School and Professional Studies

Dr. Steven Ackley, Chair

Sorenson Language and Communication Center, Room 2200

Department of Hearing, Speech and Language Sciences offers a number of undergraduate courses. The curricula are designed to develop understanding and skills in the areas of personal and interpersonal communication. Cultural and consumer considerations are integrated into the course content to help students meet current and future social and vocational communication needs. The laboratory courses are appropriate for all students who wish to improve their communication skills but will especially benefit those who anticipate working in multicultural or hearing environments.

No Undergraduate Majors or Minors are offered.

Hearing, Speech, and Language Sciences Courses Offered

HSL 101 Communication, Culture, and Consumerism (3)

This course will introduce students to the interrelated aspects of communication, culture, and consumerism. Cultural and medical-legal perspectives on communication and communication-related issues will be compared. To empower students, consumer issues related to use of communication professionals, interpreting, assistive technology, and related laws will be explored.

HSL 120 Communication Science and Deafness (1)

Fundamental information required to understand aspects of hearing impairment and its effect on the communication process; a study of the nature of communication and the role of the communicator.

HSL 210 Speechreading and Communication Strategies (1)

This laboratory course is designed for both oral/aural students and those who use sign as a primary mode. Students will gain an understanding of the principles and techniques

of speechreading and have the opportunity to improve their receptive communication skills. The course explores analytical and synthetic approaches to speechreading, effective communication approaches, and strategies used to maximize receptive communication abilities.

HSL 211 Pronunciation Skills (1)

This laboratory course is designed for students for whom oral communication is a primary mode and for culturally deaf students for whom oral communication functions as a second language. Course content explores the complexities of the English sound system (phonemes) relative to the graphemic system. Students learn about evolution of pronunciation rules that govern the changes from the written word to speech. A joint curriculum with NTID is used.

HSL 213 Communication Technology (1)

This laboratory course is designed for students who are interested in increasing their knowledge of communication technologies. A consumer approach to surveying, selecting, and using communication technologies is employed. Technology areas include auditory, visual, and tactile alerting devices; telecommunication systems; and personal and group amplification systems. The controversial topic of cochlear implants is explored. Finally, students will examine the rights and responsibilities of consumers when using legal support (ADA and PL 504) for the acquisition of communication technologies.

Prerequisite: HSL 120.

HSL 330 Implication of Hearing Impairment (3)

An advanced course dealing with the effects of varying levels of hearing loss on communication. This includes consideration of the anatomy and physiology of the auditory mechanism and the measurement of hearing. Medical, psychological, educational, and social aspects of deafness are explored. Observations and demonstrations are included.

Prerequisite: HSL 120.

HSL 420 Introduction to Communication Disorders (3)

Study of the speech and hearing mechanisms, the normal process of speech and language development, and the nature and causes of communication disorders.

Prerequisite: HSL 120.

HSL 495 Special Topics (1-3)

HSL 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

HSL 690 Introduction to Cued Speech (2)

This course covers the history and development of Cued Speech (CS) with a focus on learning the CS system. Topics include: CS interpreting; application of CS to various populations; compatibility of CS with methodologies designed for deaf and hard of hearing people; benefits of CS to speechreading, pre-reading skills, auditory training techniques, and oral language development.

HONORS PROGRAM

honors.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Shirley Shultz Myers, Director
Jordan Student Academic Center, Room 1226

Mission

The Gallaudet University Honors Program is a learning community of students, faculty and staff focused on fostering the success of the most academically capable and motivated students. In keeping with the national mission of honors programs and with trends in higher education, the Honors Program integrates in-depth, rigorous, and innovative curricular offerings with dynamic co-curricular offerings. These innovations may be replicated for all students. University Honors graduates possess the solid skills, knowledge, disposition, and values conducive to life long learning and advancement in their professional lives.

For Information on the requirements for Admission to the Honors Program, see the catalog section on Honors Admissions. Additional details are available on the Honors Program web site: honors.gallaudet.edu/HonorsAdmission.xml.

Honors Requirements

Good Standing

The Gallaudet Honors Program is a learning community for the most academically capable and motivated students. The overall goal is to foster skills, work habits, and attitudes conducive to future achievement and lifelong learning. To this end, the program currently focuses on rigorous, challenging, and innovative interdisciplinary curricular offerings as well as connections between curricular and co-curricular activities such as service learning and civic life. The successes of the program's innovations may be replicated for all students. Students are considered in good standing in the Honors Program if they have a cumulative GPA of 3.2 or greater or a semester GPA of 3.2 or greater for those returning to good standing. A student also must have completed all Honors courses with a grade of B or above.

A Two-Tier University Honors Program

General Studies Honors

To complete General Studies Honors, students must take the fall learning community of GSR 101/102 for Honors (6 hours) plus three of the four to six 200-level courses (12 hours, 14 hours if one involves service learning) plus the General Studies Capstone course (4 hours) for a total minimum of 24 Honors GSR credits. Those entering Honors after the first semester of the fall learning community, must take a mix of four 200-level Honors sections of GSR integrative courses totaling 24 credits.

Note: Those completing these requirements will have "General Studies Honors" noted on their transcripts.

Capstone Honors

To graduate with University Capstone Honors, students must have a minimum cumulative GPA of 3.4 and a grade of B or better in the following courses:

- Three upper-level Honors courses (9 credits) chosen from either upper-level interdisciplinary seminars, Honors Options in major courses, cross-listed graduate courses, Consortium courses, or independent study courses.
- HON 487 (3 credits) (during spring of junior year)
- HON 488 (1 credit) (during fall of senior year)
- HON 489 (2 credits) (during spring of senior year)

Total: 15 credits

Note: Students graduating with University Capstone Honors will also be expected to give a presentation to the campus community on their Capstone project. Those students who have met the requirements will also have "University Capstone Honors" noted on their transcripts.

Honors Program Courses Offered

HON 200 Self and Nature (5)

This course is an interdisciplinary alternative to two current General Studies requirements. It involves a natural science course and one other course, either from another natural science discipline or from the humanities or the social sciences, and focuses on a topic, issue, or problem with the dimension of real world complexity.

Prerequisite: Permission of Honors Director.

HON 300 Honors Multidisciplinary Seminar (2-3)

A multidisciplinary study of a given topic. A variety of academic disciplines and/or professions contribute to an examination of a single but complex topic in order to gain a broader perspective than is possible through the lens of one discipline. Although one professor will coordinate the course, there will be frequent guest lecturers from other disciplines or specialties and field trips where appropriate. Topics vary each semester.

Prerequisite: Permission of the Honors Director. Additional prerequisites may be required for given topics.

HON 487 Preparation for Senior Honors Project (3)

Intensive development of an approved idea for a project conducted under the supervision of a project director. While the prime example of a project is a thesis, other projects include a creative work, technical innovation, or other work of originality, depth, and rigor that prepares the student for graduate or professional work. Successful completion of the course requires submission of a project proposal acceptable to the project director, a second advisor, and the Honors Council. May count toward requirements for the major with permission of the department.

Prerequisite: Good standing in the University Capstone Honors Program, junior/senior status, permission of appropriate department(s), and permission of the Honors Council.

HON 488 Honors Capstone Seminar Project (1)

Continue work on project proposed in HON487. Modification of the project may be made with the consent of the project director, a second advisor, the Capstone Coordinator, and the Honors Council. Successful completion of the course requires approval by the project director, a second advisor, the Capstone Coordinator, and the Honors Council. May count toward requirements for the major with permission of the department.

Prerequisite: Good standing in University Capstone Honors, senior status, permission of appropriate departments, permission of the Honors Council, and successful completion of HON 487, and permission of the instructor.

HON 489 Honors Capstone Completion Course (2)

Completion of project proposed in HON 487. Modification of the project may be made with the consent of the project director, a second advisor, the Capstone Coordinator, and the Honors Council. Successful completion of the course requires approval by the Honors Council, the project director, and a second advisor, the Capstone Coordinator, and

the Honors Council. May count toward requirements for the major with permission of the department.

Prerequisite: Good standing in University Capstone Honors Program, senior status, permission of appropriate departments, permission of the Honors Council, successful completion of HON 487 and HON 488, and permission of the instructor.

HON 495 Special Topics (1-5)

In-depth study on special topics, current issues, or areas of interest not included in other courses and not necessarily interdisciplinary as Honors Seminars are.

Prerequisite: Permission of Honors Director. Additional prerequisites may be required for given topics.

.

HON 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the Honors Director. Additional prerequisites may be required for given topics.

INTERPRETATION

interpretation.gallaudet.edu

Graduate School and Professional Studies

Dr. Steven Collins, Chair

Kellogg Conference Hotel, Room 3101

The Department of Interpretation offers undergraduate and graduate programs in interpretation to educate Deaf, hard of hearing, and hearing students in the field of interpretation and prepare them for interpreting work in a variety of settings. Settings include medical, educational, business, mental health, and legal interactions where there may be direct, relay and/or Deaf/Blind interpretation. The department prepares graduates to interact and interpret effectively with Deaf, hard of hearing, deaf-blind, and hearing people, with an appreciation of diversity in a variety of communities in which they will work.

The department faculty are highly qualified and experienced with national and international reputations in the fields of interpretation and interpreter education. Publications and presentations based on faculty research and development work contribute to the advancement of knowledge in interpretation and interpreter education and of quality interpreting services in deaf and hearing communities. These endeavors also contribute to the advancement of knowledge in the fields of signed language and spoken language interpretation, translation, linguistics and sociolinguistics.

The BA in Interpretation (BAI) and MA in Interpretation (MAI) programs provide an interdisciplinary approach to interpretation, accompanied by a state-of-the-art interpreting laboratory and extensive fieldwork. The BA program focuses on face-to-face, interactive, community interpreting, and thus a dialogic approach to interpreting. The MA program focuses on both interactive and monologic approaches to interpreting with an increased emphasis on theory and research. Seven experienced full-time faculty members with national and international reputations teach and advise students in the program.

Majors Offered

Interpretation

Declaring a Major

Requirements for Admission to a Major in Interpretation

Students apply for admission to the B.A. in Interpretation major as freshmen or after acceptance to Gallaudet University as a transfer student. Criteria considered for admission in the B.A. in Interpretation include:

1. Submission of a minimum of two letters of recommendation by current and former teachers/professors/employers. One letter should cite sign language skills.

On-campus ASL and English interviews with the program faculty.

B.A. in Interpretation

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	26
Major and Related	48
Free Elective	6
TOTAL	120

Requirements for a Major in Interpretation

Students apply for admission to the BA in Interpretation major as freshmen or after acceptance to Gallaudet University as a transfer student. Criteria considered for admission in the BA in Interpretation include:

1. Submission of a minimum of two letters of recommendation by current and former teachers/ professors/ employers. One letter should cite sign language skills.
2. On-campus ASL and English interviews with the program faculty.

Required pre-major courses 26 hours

BIO 101 Introduction to Human Biology (4)

BIO 233 Human Anatomy and Physiology for Human Service Majors (4)

BUS 211 Management and Organizational Behavior (3)

COM 290 Public Speaking (3)

DST 101 Introduction to Deaf Studies (3)

EDU 250 Introduction to Education and Teaching (3)

PSY 201 Introduction to Psychology (3)

SOC 151 Introduction to Criminal Justice System (3)

Required major courses 30 hours

INT 101 Introduction to Interpreting (3)
 INT 223 Interactive Discourse Analysis (3)
 INT 325 Fundamentals of Interpreting (3)
 INT 342 Interpreting Interaction: Legal (3)
 INT 346 Discourse and Field Applications I (3)
 INT 443 Interpreting Interaction: Education (3)
 INT 453 Interpreting Interaction: Business - Government (3)
 INT 455 Discourse and Field Applications II (3)
 INT 462 Interpreting Interaction: Medical (3)
 INT 494 Senior Seminar (3)

Required related courses 18 hours

ASL 301 ASL and English: Comparative Analysis (3)
 ASL 303 Classifiers: Theory and Applications (3)
 COM 340 Business and Professional Communication (3)
 DST 201 Deaf Culture (3)
 DST 311 Dynamics of Oppression (3)
 LIN 263 Introduction to the Structure of American Sign Language (3)

Interpretation Courses Offered**INT 101 Intro to Interpreting (3)**

This course focuses on the historical progression of the emerging professional and academic field of interpreting. Beginning with early perceptions of interpreters in both signed and spoken languages, the course includes topics such as the impact of translation research and practice on interpretation, issues of equivalency and accuracy, definitions, approaches to research, professional organizations, working conditions, international perspectives, and working with oppressed groups of people.

INT 223 Interactive Discourse Analysis (3)

This course focuses on the analysis of discourse in dialogic genres of English and American Sign Language (ASL) so that interpreting students become explicitly aware of the features of language use in everyday life. Students transcribe and analyze interaction discourse features of conversations, explanations, interviews, discussions, and other types of dialogue genres while reading and discussing theoretical notions underlying language use.

Prerequisite: ENG 203 or the equivalent, INT 101; or permission of instructor.

INT 325 Fundamentals of Interpreting (3)

This course focuses on the foundation skills required for effective translation and interpretation. The course includes critical analysis and application 1) for systematically analyzing interactions and texts in order to ascertain where meaning lies, and 2) of understanding and developing the cognitive skills for translating and interpreting. Students will be introduced to and practice intralingual translation and interpretation text analysis techniques through main point abstraction, summarization, paraphrasing and restructuring a message while retaining its meaning. Discussions will address theoretical aspects of translating and interpreting techniques as well as specific issues related to interpreting skills. This class focuses specifically on analysis and restructuring in interactive settings e.g., ASL-spoken English interaction, ASL-TASL interaction, Intermediary interpreting teams. This course will help students increase their range of proficiency, comprehension and production of the ASL language, and use of contact signing for interpretation and shadowing techniques.

Prerequisite: ASL 301, COM 290, INT 223; permission of instructor.

INT 342 Interpreting Interaction: Legal (3)

The course focuses on interpreting in one-on-one and small group interaction in legal settings. Students will explore the legal system including conventions, expectations, and protocol within which legal events occur. The course includes a critical analysis of the discourse strategies that guide the legal process, the social structure surrounding legal events, and the unique responsibilities inherent in interpreting in a legal setting. Students will apply text analysis skills to the translation, consecutive interpretation and simultaneous interpretation of texts geared to legal interaction.

Prerequisite: INT 325.

INT 346 Discourse and Field Applications I (3)

Directed observation of interactive legal encounters in varied settings such as out-of-court-legal interactions, educational interactions, and medical interactions in English-only, ASL-only, and interpreted situations as possible. These observations will be supplemented by in-class discussions related to logistical and environmental factors as well as discourse-based and ethically constrained decision-making issues common to these types of encounters. Students will learn to follow a framework for predicting what happens in these interactions, observing what happens, and then read-

ing current literature about what they observe followed by discussion, analysis and application of what happens in these types of encounters.

Prerequisite: INT 325.

INT 443 Interpreting Interaction: Education (3)

The course focuses on interpreting one-on-one and small group interaction in educational settings. Students will explore the perspectives, goals, history, political, and social influences that contribute to educational culture. The course includes a critical analysis of the structure and content of educational discourse, the ways in which language attitudes and language policy affect participants in the educational setting, and issues of appropriate ethical behavior. Students will apply text analysis skills to the translation, consecutive interpretation and simultaneous interpretation of texts geared to educational interaction.

Prerequisite: INT 342 and INT 346.

INT 453 Interpreting Interaction: Business-Government (3)

The course focuses on interpreting one-on-one and small group interaction in business and government settings. Students will explore the perspective, goals, and social dynamics that contribute to business and government organizational culture. The course includes a critical analysis of the structure and content of business and government discourse, the ways in which power asymmetries, gender, and other social factors affect participants in business and government settings, and issues common to these settings such as the use of acronyms, telephone extension sequencing, and other-related socio-political and technical considerations. Students will apply text analysis skills to the translation, consecutive interpretation and simultaneous interpretation of texts geared to business and government encounters.

Prerequisite: INT 342 and INT 346.

INT 455 Discourse and Field Observations II (2)

This course is a sequel to INT 346, Discourse and Field Applications I, and emphasizes the continued development of ethical behavior and the ability to analyze situations in accordance with principled reasoning. These observations will be supplemented by in-class discussions related to logistical and environmental factors as well as discourse-based and ethically constrained decision-making issues common to these types of encounters. Students will learn to follow a framework for predicting what happens in these interactions, observing what happens, and then reading current

literature about what they observe followed by discussion, analysis and application of what happens in these types of encounters.

Prerequisite: INT 342 and INT 346.

INT 462 Interpreting Interaction: Medical (3)

This course focuses on interpreting on one-on-one and small group interaction in medical settings. Students will explore the U.S. healthcare system and its participants, characteristics of the healthcare setting, and biomedical culture. The course includes a critical analysis of medical discourse, such as doctor-patient communication and medical terminology with an emphasis on common medical conditions, treatments, and procedures. Students will apply text analysis skills to the translation, consecutive interpretation and simultaneous interpretation of texts geared to medical encounters.

Prerequisite: INT 443, INT 453 and INT 455.

INT 494 Senior Seminar (3)

This seminar enables interpretation majors to integrate, broaden and apply the skills and knowledge developed in their major courses. The course mainly will consist of an interpreting internship, field experience in an approved setting provides students with supervised experience at an introductory level. Students will be placed with deaf professionals in any of the five setting areas studied and engage in both observations and interactive interpretation of phone calls, one-on-one interactions and small group encounters. This is a field-based experience for students to expand their interpreting skills with a consumer-based perspective. The course includes assigned readings and discussion of advanced topics in interpretation. Students will develop portfolios of their interpreting skills for prospective employers. Minimum of 15 hours of interpreting internship per credit hour.

Prerequisite: INT 443, INT 453 and INT 455.

INT 495 Special Topics (1-3)

Advanced in-depth of special topics, current issues, or area of interest not included in other courses offered by the department. May be repeated with different content areas.

Prerequisite: Permission of the instructor.

INT 499 Independent Study (1-3)

Reading, research, discussion, laboratory work or other project according to the interests and/or needs of the students.

Prerequisite: Permission of the instructor.

INT 600 English Skills for Interpreters (1)

This course is designed for interpreters or future interpreters who have a good command of English and would like to further develop their English skills. Understanding the source message when it is in English is a crucial skill, often overlooked in interpreter education. The exercises deal with English only. Topics include finding the main point, outlining, abstracting, prediction skills, cloze skills, finding key words and propositions and text analysis. Also included will be exercises on figurative language, metaphors, and similes. This course is not included in the major.

INT 605 The U.S. Deaf-Blind Community (1)

This is an introductory course designed for deaf-blind people, parents, educators, interpreters, and other interested people who would like to learn about deaf-blind individuals and the U.S. Deaf-Blind community. This course may be taken for (1) no credit, (2) undergraduate credit, or (3) graduate credit.

INT 660 Practical Skills for Interpreter Educators (1)

This course is designed for interpreter educators who would like to develop or enhance their skills in teaching interpreting. Basic approaches to learning theory will be introduced. The emphasis of this course is on development of specific skills used in teaching the cognitive tasks associated with interpreting and the evaluation of those skills.

INT 661 ASL Intralingual Skills for Interpreters (1)

This course is designed for interpreters or future interpreters who would like to develop their American Sign Language (ASL) skills. Understanding the source message when it is in ASL is a crucial skill often overlooked in interpreter education. The exercises deal with ASL only. Topics include finding the main point, abstracting, prediction skills, finding key signs, rephrasing, and text analysis. Also included will be exercises on simple and complex ASL utterances.

INT 662 Introduction to Translation (1)

The practical and theoretical applications of translation to the development of sign language interpreters is explored. Methods for creating translations to ASL and to English are demonstrated. Approaches to evaluating a translation are included. Practical experience in translations is an integral part of the course. Students will work in small groups and individually to prepare translations.

Prerequisite: Fluency in ASL and English at levels which permit full comprehension of source texts in either language. Also, students must have expressive language abilities which are commensurate with their current level of receptive skill.

INT 663 Introduction to Processing Skills for Interpreting (1)

This course presents provides information on the importance of rapid and efficient cognitive processing in English and ASL. Exercises in ASL and English are provided. They include; shadowing, decalage, dual tasking, memory development and digit processing.

INT 664 Introduction to Consecutive Interpretation (1)

This course is designed for interpreters who would like to develop consecutive interpretation skills. Consecutive interpretation can be used as a professional tool or as a training exercise. Consecutive interpretation of the message begins after the source message has paused or stopped. Development of consecutive interpretation skills enhances memory development, both visual and auditory. The development of this skill enhances self-confidence in interpreters, and it allows for the development of cognitive control of processes central to interpretation. Component skills are also addressed, such as abstraction, note taking, expansion, cloze, and prediction.

Prerequisite: Fluency in ASL, English, and translation skills.

INT 665 Introduction to Simultaneous Interpretation of ASL Monologues (1)

This is an introductory course dealing with interpretation of ASL to English monologues. Emphasis is placed on comprehension of ASL prior to interpretation into English. Course topics include effort in interpretation, restructuring, coping skills, simultaneity, and repair strategies.

Prerequisite: Fluency in ASL and English at levels which permit full comprehension of source text in either language.

INT 667 Introduction to Simultaneous Interpretation of English Monologues (1)

This is an introductory course dealing with interpretation of English to ASL monologues. Emphasis is placed on comprehension of English prior to interpretation into ASL. Course topics include effort in interpretation, restructuring, coping skills, simultaneity and repair strategies.

Prerequisite: Fluency in ASL and English at levels which permit full comprehension of source text in either language.

INT 668 Introduction to Deaf-Blind Interpretation (1)

This is an introductory course designed for interpreters or future interpreters who have a good command of English and American Sign Language and would like to develop deaf-blind interpreting skills. This course may be taken for: (1) no credit, (2) undergraduate credit, and (3) graduate credit.

Prerequisite: INT 605, fluency in ASL and English, and permission of the instructor.

INT 680 Introduction to Interpreting in Legal Settings, Part I (1)

This is an introductory course designed for interpreters who are interested in or are already working in the legal system. This course covers: pre-requisite skills and knowledge for legal interpreters; roles and protocol for legal interpreters; positioning of legal interpreters; roles of legal personnel; and ethics and the court code of conduct. All of the information is applicable for both deaf and hearing interpreters and for working in deaf/hearing interpreter teams. This course may be taken for (1) no credit, (2) undergraduate credit, or (3) graduate credit.

Prerequisite: Hearing interpreters must hold national certifications (RID CSC, CI or CI/CT or NAD level V). Deaf interpreters do not have to hold certification. The completion of pre-reading packet is required.

INT 681 Introduction to Interpreting in Legal Settings, Part II (1)

This is a continuation of the course, Introduction to Interpreting in Legal Settings, Part I. This course covers: preparation for legal assignments; text analysis of a commonly encountered legal text; qualifying and testifying as an expert; and continued professional development resources. All of the information is applicable for both deaf and hearing interpreters and for working in deaf/hearing interpreter teams. This course may be taken for (1) no credit, (2) undergraduate credit, or (3) graduate credit.

Prerequisite: INT 680.

INT 691 Fingerspelled Word Recognition for Interpreters (1)

This graduate-level course is designed for interpreters who already have experience in interpreting from ASL to English and from English-based signing into English and who can usually understand most of the message but frequently miss the fingerspelled word on the first try. Experiences will be provided that are designed to improve fingerspelled word recognition on the first try. Fingerspelled words will be

studied in context and in isolation. This course also has a theoretical component in that the underlying cognitive processes associated with fingerspelled word recognition will be explained and discussed. The theoretical aspects form the basis for the practical applications.

INT 695 Special Topics (1-3)

Grading System: letter grades or pass/fail at the option of the instructor.

INT 699 Independent Study (1-3)

Grading System: letter grades or pass/fail at the option of the instructor. Individualized course of study focusing on particular problem not covered in regular courses.

Prerequisite: Appropriate level of matriculation, permission of instructor and Special Independent Study Form.

ITALIAN

Please see Italian course listing under the Foreign Languages, Literatures, and Cultures Department.

LATIN

Please see Latin course listing under the Foreign Languages, Literatures, and Cultures Department.

LINGUISTICS

linguistics.gallaudet.edu

Graduate School and Professional Studies

Dr. Deborah Chen-Pichler, Chair
Sorenson Language and Communication Center, Room 3200

The Department of Linguistics offers both a minor in Linguistics as well as a masters-level and doctoral programs. The minor in Linguistics offers undergraduate students in many departments, including American Sign Language and Deaf Studies, Education, Foreign Languages, Literatures, and Cultures, English and Hearing, Speech and Language Sciences, to acquire a basic foundation in Linguistics and to explore a variety of topics in linguistics of direct relevance to their chosen fields of study.

Minor Offered
Linguistics

Minor in Linguistics

Students and faculty in the Department of Linguistics share an abiding interest in the study of American Sign Language (ASL). The ongoing, innovative research carried out by the linguistics faculty and students is contributing substantially to what is known about the structure and use of sign languages. ASL is not only the subject of faculty and student research, but also the language of communication in the classroom.

The Minor in Linguistics offers undergraduate students in any major a basic foundation in linguistics and a structured exploration of a variety of topics in linguistics that are of direct relevance to their chosen fields of study.

Requirements for a Minor in Linguistics

To apply for the minor, submit your letter of interest and a copy of your transcript to the Department of Linguistics. Must receive a grade of B or better in the pre-minor courses for acceptance into the minor.

Required pre-minor courses 6 hours

LIN 101 Sign Language and Sign Systems (3)
LIN 263 Introduction to ASL Structure (3)

Required core courses 9 hours LIN 301 Introduction to Phonology and Morphology (3)

LIN 302 Introduction to Syntax and Discourse (3)

LIN 480 Linguistics Research experience (3)

One elective course 3 hours Choose one course from the following:

LIN 510 Introduction to 1st and 2nd Language Acquisition (3)

LIN 521 Introduction to Cognitive Linguistics (3)

LIN 522 Psycholinguistics of Sign Languages (3)

LIN 543 Bilingualism (3)

LIN 541 Introduction to Sociolinguistics (3)

LIN 585 Linguistics of non-manual signals in ASL (3)

Total 18 hours

Linguistics Courses Offered

LIN 101 Sign Language and Sign Systems (3)

An introduction to the major features of languages and to the structure, use, and variation in the sign languages and sign systems commonly used in the United States. The course will cover four major topics: (1) Language: The nature and definition of languages, the uniqueness of language, and contrasts between language and other forms of communication; (2) Language and Culture: The role of language in human society, with special focus on language acquisition, language identity, and bilingualism; (3) American Sign Language Structure: A survey of the major features of the linguistic structure of ASL. Topics are: Phonology: the structure of the physical signals; Morphology: the basic structure and composition of meaningful units of ASL; Syntax: word order and nonmanual syntactic signals in ASL sentences; (4) Language Variation: Language variation and language contact in the deaf community, including discussions of contact varieties of signing and systems for representing English.

Course Fee: \$18

LIN 260 Structure of English (3)

An introduction to the linguistic study of English, including phonology, morphology, syntax, semantics, and discourse structure. The course emphasizes a practical, hands-on approach in which students are guided to discover patterns on their own; theoretical concepts will be introduced after the practical foundation has been laid. English structures that

tend to be problematic for Deaf learners will be pursued in detail.

Prerequisite: LIN 101; ENG 204 or equivalent; or permission of instructor.

LIN 263 Introduction to the Structure of American Sign Language (3)

An introduction to the "phonology," grammar, and semantics of American Sign Language, including studies of variations in structure related to factors of region, social class, ethnicity, age, and sex; studies of child language acquisition of American Sign Language; and studies of short-term memory processing in American Sign Language. Some comparisons with English and other languages will be offered.

Prerequisite: ENG 204 or the equivalent, or permission of the instructor.

LIN 301 Introduction to Phonology and Morphology (3)

This course provides a broad introduction to the principles of the linguistic structure and analysis of the phonetics, phonology, and morphology of ASL, English and other languages, with a focus on the analysis and solution of linguistic problems. The course will cover a number of topics in phonology, such as phonological contrast, phonotactics, phonological processes, and several topics in morphology, such as inflection, derivation and lexicalization.

Prerequisite: LIN 101 and 263.

LIN 302 Introduction to Syntax and Discourse (3)

This course introduces students to theories and methods of two areas of study in linguistics: Syntax and Discourse. Syntax is concerned with the sentence as the unit of language, combining descriptions of events with communicative intentions, and grounding this into the reality of the here and now. The study of language in text and context is known in Linguistics as "discourse analysis." This course provides an introduction to approaches to discourse analysis as well as tools used in the analysis of discourse.

Prerequisite: LIN 101 and 263.

LIN 480 Linguistics Research Experience (3)

This course will cover the different research traditions in linguistics, as well as the methodological issues involved in doing linguistic research. Students will learn how to access and summarize scholarly publications and how research findings are disseminated. Students will conduct a research project based on library resources or publicly available data, write up and present their findings. Students will also learn about the ethical conduct of research.

Prerequisite: LIN 301, 302.

LIN 495 Special Topics (1-3)

Special topics in linguistics depending on the needs and interests of the students. May be repeated for different topics.

LIN 499 Independent Study (1-3)

Supervised study or research project in an area of the student's special interest. Title indicating the content must be available at registration.

Prerequisite: Independent study form and permission of the department.

LIN 510 Introduction to First and Second Language Acquisition (3)

This course introduces students to the acquisition of a native language by young children (L1 acquisition) and acquisition of a second language after childhood (L2 acquisition). The first part of the course covers the important milestones of normal L1 development in phonology, morphology, syntax and pragmatics for both spoken and signed languages. The course then explores how delays in exposure affect the acquisition process, leading to the main topics of the second part of the course: critical period effects and L2 acquisition. Readings and discussion throughout the course will reflect the perspective that acquisition studies on a broad variety of languages, both signed and spoken, are crucial for developing accurate theories of language structure and use. Application of concepts from lectures and discussion is encouraged through student collection and analysis of L1 and L2 data.

Prerequisite: For UG students: LIN 101, 263, 301, 302; for Grad students: Permission of Instructor.

LIN 521 Intro to Cognitive Linguistics (3)

This course is an introduction to the cognitivist approach to linguistics, in which language and thought are taken to be grounded in basic human experiences and to grow out of the nature of the physical brain and body. Unlike some linguistic approaches, cognitive linguistics treats form and meaning as interrelated on all levels of linguistic structure. Topics include conceptual blending, metaphor, frame semantics, prototypes and human categorization, mental spaces, and cognitive/construction grammar.

Prerequisite: For UG students: LIN 101, 263, 301, 302; for Grad students: Permission of Instructor.

LIN 522 Psycholinguistics of Sign Languages (3)

Deaf and hearing people around the world acquire, produce and perceive sign languages. This course takes an in-depth look at how they acquire, produce and perceive sign languages. Psycholinguistics generally covers three domains:

acquisition, use (perception and production) and brain studies. This course focuses on perception and production, as well as brain studies (aka neurolinguistics). With respect to production, we will examine studies that focus on "slips of the hands", both spontaneous and induced. With respect to perception, we will look at both online and offline cases. For brain studies, we will discuss both behavioral and imaging studies.

Prerequisite: For UG students: LIN 101, 263, 301, 302; for Grad students: Permission of Instructor.

LIN 541 Introduction to Sociolinguistics (3)

Sociolinguistics is the discipline that studies the interaction of language and social life. This course will examine the major areas of sociolinguistics, including multilingualism, language contact, variation, language policy and planning and language attitudes. Methodological issues pertaining to the collection of sociolinguistic data will also be examined. The application of sociolinguistics to education, the law, medicine and sign language interpretation will be covered. All issues will be considered as they pertain to both spoken and signed languages.

Prerequisite: For UG students: LIN 101, 263, 301, 302; for Grad students: Permission of Instructor.

LIN 543 Bilingualism (3)

This course explores bilingualism, with a special emphasis on bilingualism in the Gallaudet community. We will examine the place of bilingualism and multilingualism in the world, both historically and currently; the linguistic structure and features of bilingualism; social constructions of bilingualism; the acquisition of bilinguality, from the perspectives of both first- and second language acquisition; and we will explore the functions and meanings of bilingualism in communities. For each topic, we will examine the current state of the field, first from the perspective of spoken language bilingualism and then from the perspective of signed language (mixed modality) bilingualism, with special emphasis on the situation at Gallaudet University.

Prerequisite: For UG students: LIN 101, 263, 301, 302; for Grad students: Permission of Instructor.

LIN 585 Linguistics of Non-manual Signals in ASL (3)

This course introduces students to the theories and methods of analyzing non-manual signals (NMS) in American Sign Language. These signals refer to aspects of American Sign Language that are not expressed on the hands' e.g., facial movements and body posture. This course introduces students to the theories and methods of analyzing nonmanual

signals (NMS) in American Sign Language. Students will identify linguistic components of NMS and discuss how they contribute to ASL morphology, phonology, syntax, discourse analysis, semantics, and language acquisition.

Prerequisite: For UG students: LIN 101, 263, 301, 302; for Grad students: Permission of Instructor.

LIN 661 Brief Introduction to the Structure of American Sign Language (1)

A survey of the major features of the linguistics structure and social uses of American Sign Language. The course will cover four major topics: (1) Phonology: The Study of the Raw Materials of Signs, an examination of the structure of the physical signals of ASL, the customary patterns for combining them, and influence of signs on one another in connected discourse; (2) Morphology; Building and Storing Words, the study of the basic meaningful units of ASL, including discussions of word creation, compounding, borrowing, affixation, and numeral incorporation. A discussion of the use of space in ASL, including an examination of verbs with subject and object agreement and of spatial-locative verbs; (3) Syntax: Building Sentences, the word order of ASL sentences, nonmanual syntactic signals, and discourse structures; and (4) Sociolinguistic Applications, a discussion of language variation and language contact in the deaf community.

LIN 662 Survey of American Sign Language Phonology (1)

This course has four parts. Part one covers basic phonetic notation and includes practice in the phonetic description of lexical signs of ASL. This will include an examination of hand configurations, placements, orientations, nonmanual signals, and two-hand relationships. Part two deals with phonological processes, including movement epenthesis, hold deletion, metathesis, assimilation, location neutralization, and weak hand deletion. Part three examines phonotactic patterns within the lexicon of ASL, focusing on permissible combinations of phonetic elements. Part four considers the nature of phonological change and historical shifts in the structure of the lexicon.

LIN 663 Morphology of ASL Verbs (1)

This course will focus on the use of space and the behavior of verbs that use space in meaningful ways in American Sign Language. Major topics will include an examination of the signing space and the four functions of a locus, syntactic versus topographical space, mental representations of space,

identity shift, a detailed examination of indicating verbs, locative verbs, classifier predicates (including discussions of imagery, verb roots, categories of classifier handshapes, and types of representations), and aspectual inflections that operate by changing the movement of verbs in space.

LIN 664 Survey of American Sign Language Syntax (1)

This course begins by examining the various roles of non-manual signals within ASL grammar and ASL discourse. This leads to the role of nonmanual signs in helping to determine the structure of ASL sentences. Next, the course examines the order of constituents within ASL sentences, including topics and topicalization, subject pronoun copy, deletion of subjects and objects, and the placement of tense markers. The next section of the course focuses on the use of space in ASL discourse, verb classes based on how space is used, verb agreement, and conceptual mapping. The course concludes by examining subordination and specific types of ASL syntactic structures including relative clauses, conditional clauses, and related constructions.

LIN 665 Sociolinguistics of the Deaf Community (1)

This course provides an overview of the major areas of sociolinguistics and of current sociolinguistic thinking, with a focus on the Deaf community. It begins with an introduction to the field, followed by a look at bilingualism and language contact phenomena, including lexical borrowing, code-switching, code-mixing, diglossia, pidgins, and creoles. Following this look at intralanguage phenomena, the focus turns to the internal and external constraints upon them. Discourse analysis is then examined, with a focus on language and social interaction and the structure of conversations. Language attitudes are then discussed, followed by a look at language policy and planning.

LIN 670 Introduction to First Language Acquisition by Children (1)

This course introduces students to the processes by which children acquire their first language, focusing on the major milestones of phonological and syntactic development. Children everywhere accomplish the task of learning their native language by the age of 5. They succeed despite the cognitive limitations of their age and follow the same general patterns of development regardless of what language they are learning. The efficiency with which children acquire language suggests some degree of innate linguistic knowledge, or a "language instinct." This course will overview some of the major research discoveries of how children combine this

language instinct with information provided by the environment to acquire their native language. Course topics will include babbling and early phonetic development by infants, acquisition of word order, questions, and word meanings. A final segment of the course will explore the acquisition of sign languages and the ways in which deaf children's signing development parallels that of spoken language in hearing children.

LIN 671 Introduction to Acquisition of Sign Language (1)

Modern linguistic theory, traditionally based on research conducted on spoken languages, has benefited greatly from recent linguistic investigation of sign languages. Findings of similarities between spoken and sign languages reaffirm their equivalent status as fully natural languages, while differences point to areas where existing theory must be expanded. This course introduces students to the acquisition of ASL as a first language by deaf children and the unique contributions this research makes to general theories of language development. As background preparation, we will begin with a broad overview of important milestones in the acquisition of spoken language by hearing children. This will be followed by a short discussion on the effects of modality (oral/aural vs. gestural/visual) on the acquisition process. The remaining two-thirds of the class will be devoted to language development in the gestural/visual modality. Readings and lectures will center on the acquisition of phonology and selected syntactic phenomena, including nonmanuals and questions. The course will end with a discussion of delayed exposure to sign language and its effects on acquisition, a topic of great importance to the field of Deaf education.

Prerequisite: LIN 670.

LIN 695 Special Topics (1-3)

Grading System: letter grades or pass/fail at the option of the instructor.

LIN 699 Independent Study (1-3)

Grading System: letter grades or pass/fail at the option of the instructor. Individualized course of study focusing on particular problem not covered in regular courses.

Prerequisite: Permission of the instructor.

MATHEMATICS AND COMPUTER SCIENCE

mathematics.gallaudet.edu, computerscience.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. James Nickerson, Chair

Hall Memorial Building, Room S340F

The Department of Mathematics and Computer Science offers courses and majors in two disciplines, mathematics and computer science.

The department recognizes that computers have become more and more pervasive in all aspects of human life and that knowledge of mathematics is desirable and necessary in many disciplines. For that reason a variety of service courses in both mathematics and computer science directed toward the needs of non-majors who will use computers or mathematics as tools in their chosen career areas are offered. Students may pursue either a bachelor of art or a bachelor of science degree in mathematics or computer science. Students who are thinking of a major in either area must begin their preparation as early as possible, preferably during their freshman year.

The department maintains a computer laboratory with personal computers and several high-performance workstations.

Computer Science

Computer science is the study of the application of computers to people's needs. Computer science involves problem-solving methods and processes that manipulate and transform information. It is the study of the theory, analysis, design, development, and application of computer programs as well as computer systems. Computer science is an interdisciplinary field with roots in mathematics and engineering with applications in many other academic disciplines such as business, science, and art.

The computer science major at Gallaudet offers a student several options. The major is made up of nine core computer science courses that are required of all majors and two computer science electives. The major also requires that the student pick a concentration from mathematics, business, art, psychology, or science. The concentration will depend on a student's needs and interests. However, with the math-

ematics concentration, the major most closely matches the recommendations of the Association of Computing Machinery (ACM) and the Institute of Electrical and Electronics Engineers (IEEE) Computer Society and provides the student with the broadest range of opportunities and the best possibility of entering graduate programs in computer science.

Graduates of this program can obtain employment as programmers/analysts, and as scientific or business applications programmers in government or industry. They may also pursue further graduate study and research. Opportunities for computer science students to obtain summer internships are widely available.

Mathematics

One of the oldest academic subjects, mathematics plays an indispensable role in many fields, and new applications of mathematics are continuously being developed. A strong background in mathematics is a requirement for advancement in a large and increasing number of jobs and will give students more flexibility in choosing their careers. A major in mathematics may lead to opportunities in many diverse fields, such as the sciences, engineering, finance, insurance, and education. Opportunities for mathematics majors to obtain summer internships are widely available.

Majors Offered

- Computer Science with a B.A. Degree
- Computer Science with a B.S. Degree
- Mathematics with a B.A. Degree
- Mathematics with a B.S. Degree

Minor Offered

- Computer Science
- Mathematics

Declaring a Major

Requirements for Admission to a Major in Mathematics or Computer Science

Students must complete or demonstrate the following before declaring a major in Mathematics or Computer Science:

1. A letter of interest sent to the Department Chair.
2. A cumulative grade point average of 2.5 or higher.
3. A grade of C or higher in either MAT 205 Calculus II (Mathematics) or CSC 150 Computer Programming II (Computer Science).

B.A. in Computer Science

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	3
Major and Related	51
Free Elective	26
TOTAL	120

Requirements for a Major in Computer Science with a B.A. Degree

Students must complete or demonstrate the following before declaring a major in Computer Science:

- A letter of interest sent to the Department Chair.
- A grade of C or higher in CSC 150 Computer Programming II.
- A cumulative grade point average of 2.5 or higher.

Required pre-major course 3 hours

MAT 140 Discrete Structures (3)

Required computer science courses 30 hours

CSC 130 Computer Programming I (3)
 CSC 150 Computer Programming II (3)
 CSC 201 Introduction to Computer Organization (3)
 CSC 315 Data Structures and Algorithm Analysis (3)
 CSC 326 Operating Systems and Computer Architecture (3)
 CSC 336 Organization of Programming Languages (3)
 CSC 341 Software Engineering (3)

CSC 403 Computer Networking (3)
 CSC 406 Object Oriented Programming (3)
 CSC 407 Database Design (3)

Elective computer science courses 6 hours

Choose two courses:

CSC 202 Assembly Language Programming (3)
 CSC 305 Introduction to File Processing (3)
 CSC 352 Computer Graphics (3)
 CSC 401 Analysis of Algorithms (3)
 CSC 402 Artificial Intelligence (3)
 CSC 409 Parallel Processing (3)
 CSC 495 Special Topics (3)

Required related courses

Students are required to select a minor. If a minor is not listed, take 15 credits from one other department based on students' needs and interests and consultation of the department.

Recommended coursework 17-23 hours

One or two years of a foreign, preferably German or French (6-12 credits)
 One year of Science with Laboratory (8 credits)
 One course in Computer programming (3 credits)

B.S. in Computer Science

- MAT 445 Introduction to Complex Analysis (3)
- MAT 455 Advanced Calculus I (3)
- MAT 456 Advanced Calculus II (3)
- MAT 495 Special Topics (1-3)

Total 18 hours**Mathematics Courses Offered****MAT 011 Basic Mathematics (4)**

This course is a review of arithmetic concepts and skills in basic operations, absolute value, integer exponents, order of operations, prime factors. Problem solving includes geometrical, statistical, and financial applications involving percent, ratio, and proportion. Signed numbers and equations in one variable are introduced. Basic concepts of geometry include length and perimeter, area, volume, triangles, and angles.

MAT 012 Elementary Algebra (4)

This course covers basic operations with algebraic expressions, solving equations in one variable, linear equations and their graphs, linear inequalities, exponents, multiplying, and dividing polynomials and factoring polynomials. Applications are included throughout. A graphing calculator is required.

Prerequisite: MAT 011 or equivalent.

MAT 013 Intermediate Algebra (4)

This course covers rational expressions, systems of linear equations in two variables, radicals and complex numbers, quadratic equations, graphs of quadratic functions, exponential and logarithmic functions. Applications are included throughout. A graphing calculator is required.

Prerequisite: MAT 012 or equivalent.

MAT 040 Pre-College Mathematics (4)

This course is designed to promote mathematical literacy among liberal arts students and to prepare students for GSR 104. The approach in this course helps students increase their knowledge of mathematics, sharpen their problem-solving skills, and enhance their ability to learn and communicate mathematics. Technology is integrated throughout

to help students interpret real-life data algebraically, numerically, symbolically, and graphically. Topics include calculator skills, number sense, basic algebraic manipulation, solving linear equations, graphing of linear equations, and their applications.

MAT 100 Basic Study Skills for Math and Science (1)

This course is designed to help students learn the strategies and skills that can be used to help them succeed in math. The course will focus on strategies for reading math books, test-taking preparation and strategies, increasing learning while doing homework assignments and more. The course will also emphasize the need for understanding math language as well as providing essential vocabulary to the students. In addition, students will be exposed to some of the latest tools and technology available to aid their studying and understanding.

MAT 101 Introductory Mathematical Applications (3)

Linear, quadratic, exponential, and logarithmic functions. Ratios, percentages, matrices, and linear programming emphasizing applications to various branches of the sciences, social studies, and management. Credit will not be allowed if student has passed Math 130. This course will not be counted toward a major in the department.

Prerequisite: MAT 013 or equivalent.

MAT 102 Introductory Probability and Statistics (3)

Basic concepts of probability and statistics, and applications to the sciences, social sciences, and management. Probability, conditional probability, Bayes Formula, Bernoulli trials, expected value, frequency distributions, and measures of central tendency. Credit will not be allowed for MAT 102 if student has previously passed MAT 130; 102 will not be counted toward a major in the department.

Prerequisite: MAT 013 or equivalent.

MAT 125 College Algebra (3)

This course provides an survey of the algebra topics necessary for Calculus. Topics covered include the analysis of graphs of basic functions, transformations of graphs, composition of functions, inverse functions, quadratic functions and their graphs, polynomial and rational inequalities, absolute value inequalities, radicals and fractional exponents, exponential and logarithmic functions and equations, exponential growth and decay problems, and the analysis of circles, parabolas, ellipses, and hyperbolas.

Prerequisite: MAT 013 or equivalent.

MAT 126 Trigonometry (3)

This course covers the basic trigonometry needed for Calculus. Topics covered include angles, radian and degree measure, terminal points, coterminal angles, trigonometric functions and graphs, including phase shifts and vertical shifts of graphs, right triangle trigonometry, arc length, trigonometric identities, addition, subtraction, double-angle identities, Laws of Sines and Cosines, inverse trigonometric functions, and the trigonometric forms of complex numbers.

Prerequisite: MAT 125 or equivalent.

MAT 130 Precalculus (4)

This course emphasizes the meaning and application of the concepts of functions. It covers polynomial, rational, exponential, logarithmic and trigonometric functions and their graphs, trigonometric identities, and sequences and series.

Prerequisite: MAT 013 or equivalent.

MAT 140 Discrete Structures (3)

Number systems, set theory, functions, combinatorics, algorithms and complexity, and graph theory. Applications to computer science are emphasized.

Prerequisite: MAT 013 or equivalent.

MAT 145 Calculus for Business and Social Sciences (3)

This course emphasizes the applications of the following topics in Business and Social Sciences: Functions and their graphs, exponential and logarithmic functions, limits and continuity, and differentiation's and integrations in one and several variables. Credit will not be allowed if student has passed MAT 150. This course will not be counted toward a major in the department.

Prerequisite: MAT 130 or the equivalent.

MAT 150 Calculus I (4)

Limit processes, including the concepts of limits, continuity, differentiation, and integration of functions. Applications to physical problems will be discussed.

Prerequisite: A grade of C or better in either MAT 126 or MAT 130.

MAT 171 Basic Concepts of Mathematics for Elementary School Teachers I (3)

This course is the first part of a two-semester course sequence with MAT 172. This course is designed for prospective preschool and elementary school teachers. The contents of this course are concepts and theories underlying

elementary school mathematics. The students will explore the "why" behind the mathematical concepts, ideas, and procedures. Topics include problem solving, whole numbers and numeration, whole numbers operations and properties, number theory, fractions, decimals, ratio and proportion, and integers.

Prerequisite: MAT 013 or the equivalent. This course is not open to mathematics majors.

MAT 172 Basic Concepts of Mathematics for Elementary School Teachers II (3)

This course is the second part of a two-semester course sequence with MAT 171. This course is designed for prospective preschool and elementary school teachers. The contents of this course are concepts and theories underlying elementary school mathematics. The students will explore the "why" behind the mathematical concepts, ideas, and procedures. Topics include rational and real numbers, introduction to algebra, Euclidean and solid geometry, statistics, and probability.

Prerequisite: MAT 171. This course is not open to mathematics majors.

MAT 205 Calculus II (4)

Applications of integration, inverse functions, the natural logarithm and exponential functions, and hyperbolic functions. Techniques of integration, sequences, series of numbers and functions, and Taylor series.

Prerequisite: A grade of C or better in MAT 150.

MAT 206 Calculus III (4)

Vectors, partial derivatives, multiple integrals, line integrals, Green's Theorem, the Divergence Theorem, and Stokes Theorem. Applications to physical problems will be given.

Prerequisite: MAT 205.

MAT 210 Mathematical Proofs (3)

A study of functional principles and proof techniques. Topics will include statements, consequence, proof, sufficient and necessary conditions, contraposition, induction, sets, relations, functions, cardinality, divisibility, prime numbers, congruence, Fermat's Theorem, counting principles, permutations, variations, combinations, binomial coefficients, graphs, planar and directed graphs, and graph coloring.

Prerequisite: A grade of C or better in MAT 150.

MAT 295 Special Topics I (1-3)

Topics in mathematics depending on the interests of the student.

Prerequisite: Permission of the instructor.

MAT 307 Linear Algebra (3)

This course covers the fundamental concepts of vector spaces, linear transformations, systems of linear equations, and matrix algebra from a theoretical and a practical point of view. Results will be illustrated by mathematical and physical examples. Important algebraic (e.g., determinants and eigenvalues), geometric (e.g., orthogonality and the Spectral Theorem), and computational (e.g., Gauss elimination and matrix factorization) aspects will be studied.

Prerequisite: MAT 205 or permission of department chair.

MAT 313 Probability and Statistics I (3)

This course is the first part of a two-semester course sequence with MAT 314. This course covers probability, continuous and discrete random variables, distribution and density functions, jointly distributed random variables, sampling, statistical inference, least squares, and regression theory.

Prerequisite: MAT 150.

MAT 314 Probability and Statistics II (3)

This course is the second part of a two-semester course sequence with MAT 313. This course covers probability, continuous and discrete random variables, distribution and density functions, jointly distributed random variables, sampling, statistical inference, least squares, and regression theory.

Prerequisite: MAT 313.

MAT 320 History of Mathematics (3)

A survey of the history of mathematics from antiquity through modern times.

Prerequisite: MAT 205.

MAT 328 Differential Equations (3)

Ordinary differential equations of first-order and first-degree, high order linear ordinary differential equations with constant coefficients, and properties of solutions.

Prerequisite: MAT 206, 307.

MAT 340 Introduction to Number Theory (3)

A study of properties of integer numbers. Divisibility of integers, primes and greatest common divisors, congruencies, Euclidean algorithm, Euler Phi-function, quadratic reciprocity and integer solutions to basic equations, Diophantine equations, and applications to cryptography and primality testing.

Prerequisite: MAT 210.

MAT 361 Numerical Analysis (3)

Numerical differentiation, integration, interpolation, approximation of data, approximation of functions, iterative methods of solving nonlinear equations, and numerical solutions of ordinary and partial differential equations.

Prerequisite: CSC 130 or the equivalent; MAT 206; or permission of the department chair.

MAT 410 Foundations of Geometry (3)

A survey of Euclidean, non-Euclidean, and other geometries. The emphasis will be on formal axiomatic systems.

Prerequisite: MAT 150, 210; or permission of the instructor.

MAT 434 Abstract Algebra (3)

An axiomatic treatment of groups, rings, and fields that bridges the gap between concrete examples and abstraction of concepts to general cases.

Prerequisite: MAT 206, 210, 307, or permission of the department chair.

MAT 445 Introduction to Complex Analysis (3)

This is an introductory course in complex analysis. The algebra of complex numbers, analytic functions, contour integration, Cauchy integral formula, theory of residues and poles, and Taylor and Laurent series.

Prerequisite: MAT 206 and MAT 210, or permission of the instructor.

MAT 455 Advanced Calculus I (3)

This course is the first part of a two-semester course sequence with MAT 456. This course covers a theoretical approach to calculus of functions of one and several variables. Limits, continuity, differentiability, Riemann integrability, sequences, series, and contour integration.

Prerequisite: MAT 206, 210, 307.

MAT 456 Advanced Calculus II (3)

This course is the second part of a two-semester course sequence with MAT 455. This course covers a theoretical approach to calculus of functions of one and several variables. Limits, continuity, differentiability, Riemann integrability, sequences, series, and contour integration.

Prerequisite: MAT 455.

MAT 495 Special Topics (1-3)

Advanced topics in mathematics depending on the interests of the student.

MAT 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Computer Science Courses Offered

CSC 100 Computer Literacy (3)

Introduction to computers, computer use, and computers impact on society. Hands-on introduction to a text editor, document processor, and BASIC.

Prerequisite: MAT 013 or the equivalent, and ENG 102.

CSC 110 Introduction to Programming with C (3)

This course covers basic computing concepts in programming with C, data types, operators, expressions, and control structures and the design and development of computer applications.

Prerequisite: MAT 013 or equivalent.

CSC 130 Computer Programming (3)

This course will introduce problem-solving methods, a text editor and algorithm development, a high-level programming language, and techniques to design, code, and debug document programs.

Prerequisite: MAT 013 or equivalent.

CSC 150 Computer Programming II (3)

This course will continue the development of discipline in program design, in style and expression, and in debugging and testing, especially for larger programs. It will also introduce algorithms analysis and basic aspects of string processing, recursion, internal search/sort methods, and simple data structures.

Prerequisite: A grade of C or better in CSC 130.

CSC 201 Introduction to Computer Organization (3)

This course gives the organization and structuring of the major hardware components of computers. It provides the fundamentals of logic design and the mechanics of information transfer and control within a digital computer system.

Prerequisite: CSC 102; MAT 140 recommended.

CSC 202 Assembly Language Programming (3)

This course will provide basic concepts of programming systems, introduce computer architecture, and introduce an assembly language.

Prerequisite: CSC 150; MAT 140.

CSC 295 Special Topics (1-3)

Topics in computer science depending on the needs and interests of the student.

Prerequisite: Permission of the instructor.

CSC 305 Introduction to File Processing (3)

This course will introduce concepts and techniques of structuring data on bulk storage devices, provide experience in the use of bulk storage devices, and provide the foundation for applications of data structures and file processing techniques.

Prerequisite: CSC 150; MAT 140.

CSC 315 Data Structure and Algorithm Analysis (3)

This course will apply analysis and design techniques to nonnumeric algorithms that act on data structures. It will also use algorithmic analysis and design criteria in the selection of methods for data manipulation in the environment of a database management system.

Prerequisite: CSC 150; MAT 140; CSC 305 recommended

CSC 326 Operating Systems and Computer Architecture (3)

The course will introduce the major concept areas of operating systems principles, develop an understanding of both the organization and architecture of computer systems at the register-transfer and programming levels of system description, and study interrelationships between the operating system and the architecture of computer systems.

Prerequisite: CSC 150, CSC 315; MAT 140; CSC 202 recommended.

CSC 336 Organization of Programming Languages (3)

This course will develop an understanding of the organization of programming languages, especially the run time behavior of programs. It will also introduce the formal study of programming language specification and analysis and will continue the development of problem solution and programming skills introduced in the elementary level material.

Prerequisite: CSC 150, CSC 315; MAT 140; CSC 202, CSC 305 recommended.

CSC 341 Software Engineering (3)

This course will present a formal approach to state-of-the-art techniques in software design and development. It will expose students to the entire software life cycle, which includes feasibility studies, the problem specification, the software requirements, the program design, the coding phase, debugging, testing and verification, benchmarking, documentation, and maintenance. An integral part of the course will be involvement of students working in teams in the development of a large scale software project.

Prerequisite: CSC 150; MAT 140.

CSC 352 Computer Graphics (3)

Windowing environments and graphical user interfaces will be discussed. Experience will be provided with programming graphical interfaces. Transformations including windowing, clipping, geometrics, and perspectives. Computer graphics applications.

Prerequisite: CSC 150.

CSC 401 Analysis of Algorithms (3)

Fundamental data structures and algorithms are reviewed: arrays, pointers, trees, and recursion. Sorting techniques such as quicksort, radix sort, heapsort, and mergesort are analyzed in relation to their computational complexity and memory requirements. Searching methods, including binary, balanced trees, hashing, radix, and external are analyzed for computational complexity and memory requirements. String processing, pattern matching, cryptology, simple closed path, convex, hall, depth-first and breadth-first searches, connectivity, polynomial, Gaussian, and curve fitting algorithms will be applied to basic data sets.

Prerequisite: CSC 150.

CSC 402 Artificial Intelligence (3)

Artificial intelligence studies ways of making computers do intelligent tasks. These tasks include playing games, expertly solving problems, understanding natural language, and proving theorems. The theoretical background of artificial intelligence, artificial intelligence programming paradigms, and some applications of artificial intelligence are introduced.

Prerequisite: CSC 150.

CSC 403 Computer Networking (3)

The fundamental principles of computer communications. The Open Systems Interconnection Model is used to provide a framework for organizing computer communications. Local area and wide area networks are discussed. The principles of Internetworking are introduced. Communications software is used to illustrate the principles of the course.

Prerequisite: CSC 150.

CSC 406 Object Oriented Programming (3)

This course will cover all of the major features of a selected Object Oriented programming language as well as Object Oriented design principles such as: reusability of code, data abstraction, encapsulation, and inheritance.

Prerequisite: CSC 150.

CSC 407 Database Design (3)

Fundamentals of database systems. Database models and languages, database design, and system implementation techniques. Current trends in database systems and several examples of commercial database systems.

Prerequisite: CSC 315.

CSC 409 Parallel Processing (3)

Parallel processing systems and supercomputers. A combination of theory and practice using supercomputers and parallel processors available on the Internet. Emphasis on parallel algorithms, parallel language constructs, message passing libraries, and high-level tools for creating parallel programs from serial programs.

Prerequisite: CSC 150.

CSC 495 Special Topics (1-3)

Advanced topics in computer science depending on the needs and interests of the student.

CSC 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

PHILOSOPHY AND RELIGION

philosophy.gallaudet.edu, religion.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Jane Hurst, Chair (Fall 2009); Dr. Barbara Stock, Chair (Spring 2010)

Hall Memorial Building, Room S134

The department offers a major in philosophy and minors in ethics, philosophy, and religion. The major is 30 hours, each minor is 15 hours

Whether concentrating in ethics, philosophy or religion, students in the department develop: (1) the ability to think critically, especially with respect to problem solving and analyzing arguments; (2) the ability to express themselves clearly and persuasively in signed and written form; and (3) knowledge of the literature, major figures, and issues of the discipline. Students completing a major in philosophy are expected to know the major problems, concepts, terms, writings, and movements in the history of Western philosophy. The program concentrates on the major subdivisions of philosophy - logic, ethics, theory of knowledge, and metaphysics - and on major figures in the history of philosophy (Plato, Aristotle, Descartes, Kant, etc.), as well as on problems arising in contemporary movements, such as analytic philosophy. At the senior level students will take a capstone research-intensive course in which they will do creative work on a philosophical problem using the research and critical skills developed in the program.

Students who minor in ethics, philosophy, or religion will take five courses which will be chosen in consultation with a departmental advisor, based on the interest and objectives of the student. The fundamental goal of the minor will be to develop the student's critical and expressive abilities in conjunction with a basic knowledge of the literature, major figures, and issues of the discipline. Philosophy majors and philosophy minors may add a minor in ethics, consulting with the department chair to choose additional ethics coursework that complements their philosophy major/minor coursework.

Majors Offered

Philosophy

Minor Offered

Ethics
Philosophy
Religion

Declaring a Major

Requirements for Admission to a Major in Philosophy

The Department of Philosophy and Religion requires only the signature of the department chair.

B.A. in Philosophy

Summary of Requirements

	2009-2010
General Studies	40
Major and Related	30
Free Elective	50
TOTAL	120

Requirements for a Major in Philosophy

Required philosophy courses 12 hours

PHI 201 Introduction to Logic (3)
PHI 311 History of Ancient and Medieval Philosophy (3)
PHI 312 History of Renaissance and Early Modern Philosophy (3)
PHI 313 History of Late Modern and Contemporary Philosophy (3)

Elective philosophy courses 15 hours

Choose fifteen credit hours:
PHI 150 Introduction to Philosophy (3)
PHI 257 Moral Philosophy (3)
PHI 290 Ethics and Health Care (3)
PHI 302 Logic and Scientific Method (3)
PHI 310 Topics in Philosophy (3)
PHI 320 Topics in Ethics (3)
PHI 318 Social and Political Philosophy (3)
PHI 325 Philosophy of Religion (3)
PHI 400 Knowledge and Reality (3)
PHI 410 American Philosophy (3)

PHI 415 Great Thinkers in Philosophy (3)
PHI 495 Special Topics (3)
PHI 499 Independent Study (1-3)

Required Capstone course 3 hours

Choose one course:
PHI 493 Senior Research Paper (3)
PHI 494 Senior Thesis (3)

Minor in Ethics

Completing this minor will give students a solid understanding of the principles and methods of ethical evaluation, which will be helpful in their personal and professional decision making.

An ethics minor will complement majors that prepare students for careers in human services or public policy (e.g., social work, education, business, government) and will benefit students who plan go on to law school or to other endeavors which involve wrestling with questions of right and wrong.

A minor in ethics would also benefit students with natural or social science majors. Current trends in scientific education emphasize awareness of the ethical, legal, and social implications of one's work. An ethics minor would demonstrate that one has the training to deal with such matters.

Requirements for a Minor in Ethics

Students who minor in ethics will choose from an array of philosophy and other related disciplinary courses that apply critical thinking skills to issues of right and wrong.

Required philosophy course 3 hours

PHI 257 Moral Philosophy (3)

Elective philosophy courses 9 hours

Choose three courses:
PHI 290 Ethics and Health Care (3)
PHI 318 Social and Political Philosophy (3)
PHI 320 Topics in Ethics (3)
PHI 341 Business Ethics (3)
PHI 359 Philosophy of Punishment (3)

Required related course 3 hours

One course that focuses on ethics/values from another discipline or one additional philosophy course, to be approved by the Philosophy and Religion Department.

Total: 15 hours

Minor in Philosophy

Requirements for a Minor in Philosophy

Required minor courses 6 hours Choose one philosophical methods course:

PHI 150 Introduction to Philosophy (3)

PHI 201 Introduction to Logic (3)

Choose one history of philosophy course:

PHI 311 History of Ancient and Medieval Philosophy (3)

PHI 312 History of Renaissance and Early Modern Philosophy (3)

PHI 313 History of Late Modern and Contemporary Philosophy (3)

Elective philosophy courses 9 hours

Choose three philosophy courses:

Any philosophy course may be counted as an elective toward the philosophy minor.

Total 15 hours

Minor in Religion

Requirements for a Minor in Religion

A minor in Religion consists of a minimum of 15 hours of religion courses.

Philosophy Courses Offered

PHI 104 Critical Reasoning (3)

The purpose of this course is to help students learn how to analyze, critique, and construct arguments. It will enhance the student's ability to read, reason, and write clearly. In this course we will look at visual media, including TV news, newspapers, and short essays by philosophers and analyze them according to what constitutes a well-reasoned argument and what does not.

PHI 150 Introduction to Philosophy (3)

Introductory study of the principal areas and problems of philosophy, including the nature and methods of philosophical analysis, mind and matter, meaning and knowledge, appearance and reality, the existence of God, and moral responsibility.

Prerequisites or Co-requisites: GSR 150 or the equivalent.

PHI 201 Introduction to Logic (3)

Introductory study of the basic concepts of logic, the rules of valid inference, formal and informal fallacies, and basic symbolic logic.

Prerequisites or Co-requisites: GSR 150 or the equivalent.

PHI 257 Moral Philosophy (3)

Introductory study of the principles and methods of moral reasoning, with application to selected moral problems.

Prerequisites or Co-requisites: GSR 150 or the equivalent.

PHI 290 Ethics and Health Care (3)

This course is an introduction to the field of medical ethics and the kinds of decisions individuals and families make about health care and treatment options. Students will look at current issues such as kinds of treatment and their effects, allocation of health care resources, ethical issues of health care professionals, managed care decisions, and end of life decisions. Students will apply philosophical theories of ethics to these issues and develop perspectives on health care decision making.

Prerequisite: GSR 150 or the equivalent.

PHI 302 Logic and the Scientific Method (3)

Study of the principles of induction and scientific method, the structure and function of scientific theories, confirmation of scientific hypotheses, probability, and the appraisal of evidential adequacy. This course may be taken to satisfy the philosophy requirement. It is recommended for students majoring in the natural and social sciences.

Prerequisite: GSR 150 or the equivalent.

PHI 310 Topics in Philosophy (3)

Study of topics in philosophy that are not covered in the regular departmental course offerings.

Prerequisite: GSR 150 or equivalent, and one course in philosophy; or permission of instructor.

PHI 311 History of Ancient and Medieval Philosophy (3)

Survey of Western philosophical thought from the pre-Socratics to Thomas Aquinas.

Prerequisite: GSR 150 or equivalent, and one course in philosophy; or permission of instructor.

PHI 312 History of Renaissance and Early Modern Philosophy (3)

Survey of Western philosophical thought from Bacon to Kant.

Prerequisite: GSR 150 or equivalent, and one course in philosophy; or permission of instructor.

PHI 313 History of Late Modern and Contemporary Philosophy (3)

A survey of Western philosophical thought from Hegel to Wittgenstein.

Prerequisite: GSR 150 or equivalent, and one course in philosophy; or permission of instructor.

PHI 318 Social and Political Philosophy (3)

Study of major social and political philosophies, including explanation and discussion of the principal ideas of Plato, Aristotle, Augustine, Thomas Aquinas, Machiavelli, Hobbes, Locke, Hegel, Marx, and the Founding Fathers.

Prerequisite: GSR 150 or the equivalent.

PHI 320 Topics in Ethics (3)

The study of topics relating to ethics that are not covered in depth in the regular departmental course offerings. Topics may include moral theory, moral psychology, applied ethics, and controversial social issues.

Prerequisite: GSR 150 or the equivalent; one course in philosophy; or permission of the instructor.

PHI 325 Philosophy of Religion (3)

Study of the nature of religious knowledge, grounds for belief in God, immortality, the problem of evil, and morality and religion.

Prerequisite: GSR 150 or the equivalent; one course in philosophy.

PHI 341 Business Ethics (3)

This course is cross-listed and is otherwise known as PHI 341. It introduces the student to the normative theories of moral philosophy as they apply to free enterprise market systems, corporations and other organizations. Students use case studies and current events to critically assess how to resolve moral issues commonly faced by managers, employees, marketers, and consumers.

Prerequisite: ENG 102 or the equivalent.

PHI 359 Philosophy of Punishment: Moral and Legal Aspects (3)

A study of the major theories of punishment (i.e., retribution, deterrence, compensation or restitution, and reform) and the arguments surrounding the question of justifying the punishment of criminals. Issues will be viewed from the diverse perspectives of psychology, sociology, criminal law, and philosophy, with guest speakers from these fields being featured when available. Emphasis will be on critical reading, expository writing, discussion, and debate.

Prerequisite: GSR 150 or the equivalent; one course in philosophy.

PHI 400 Knowledge and Reality (3)

Study of the nature of knowledge, evidential judgment, appearance and reality, theories of human nature, and the nature of truth.

Prerequisite: GSR 150 or the equivalent; one course in philosophy.

PHI 410 American Philosophy (3)

Survey of American philosophy, including basic ideas of Edwards, the Founding Fathers, Emerson, Thoreau, Peirce, James, Dewey, Whitehead, and representatives of contemporary thought.

Prerequisite: GSR 150 or the equivalent.

PHI 415 Great Thinkers in Philosophy (3)

An in-depth study of one or two related major philosophers. The philosophical thinkers will vary by semester. This course will include analyzing the philosopher's own works as well as commentaries and criticisms by others.

Prerequisite: PHI 311 or 312 or 313; or permission of the instructor.

PHI 493 Senior Research Paper (3)

Students will research and write a high quality formal philosophy paper, approximately 20 - 25 pages in length, on a topic determined in consultation with the instructor. The thesis shall be reviewed by, and defended before, a committee of at least three members of the faculty, including the instructor.

Prerequisite: Philosophy majors only; 15 credit hours in philosophy, senior standing and permission of the department chair.

PHI 494 Senior Thesis (3)

A course of intensified research and the writing of a thesis, approximately 50 pages in length, on a topic determined in consultation with the instructor. The thesis shall be reviewed by, and defended before, a committee of at least three members of the faculty, including the instructor.

Prerequisite: Philosophy majors only; 15 credit hours in philosophy, senior standing, PHI 499, and permission of the department chair.

PHI 495 Special Topics (1-3)

This course deals with subject matter not covered under regular department offerings. Topics will vary each semester as determined by the department.

Prerequisite: Permission of the instructor.

PHI 499 Independent Study (1-3)

Study of special problems in philosophy through extensive reading, independent research, and writing. Problems to be considered and materials to be covered will be determined in consultation with the instructor.

Prerequisite: 12 hours of philosophy and permission of the department chair.

Religion Courses Offered

REL 200 Introduction to Religion (3)

A survey of major ways to study religion. The survey includes the approaches of history of religions, religion in relation to culture, the study of sacred texts, and religion as individual experience.

REL 210 Religion and Literature (3)

A study of the religious elements of various kinds of literature, including scripture, drama, poetry, essays, inspirational writing, and the novel. Students will be expected both to analyze the literature they read and to think about it from their own point of view.

REL 300 Comparative Religion (3)

The study of the world's great living religions. Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, and Confucianism will be presented and discussed in their historical and sociocultural perspectives.

REL 303 Early Hebrew Bible: The Torah (3)

An introductory study of the first five books of the Hebrew Bible focusing on historical context, authorship, the Bible as literature, and the influence of these books on both Jewish and Christian life and thought.

REL 304 Later Hebrew Bible: The Prophets and Writings (3)

A study of the Hebrew Bible from the formation of Ancient Israel to the Maccabean era focusing on historical context, authorship, the Bible as literature, and the influence of these works on both Jewish and Christian life and thought.

REL 310 Native American Religion and Culture (3)

When the Europeans arrived, Native Americans were living in 500 tribal groups and spoke more than 20 major languages. Native American Religion and Culture is a study of the complexity of the religious way of life on Turtle Island (North America) and its implications in every aspect of culture. Special emphasis will be placed on the issue of the European contact with Native American cultures and the mutual influence they have had on one another. To this end, we will look at Europe at the time of contact, the ways European and African influences have affected Native American culture, and vice versa.

Course Fee: \$25

REL 321 Life of Jesus (3)

A study of the life and teachings of Jesus based mainly on the synoptic gospels. Considerable attention is given to how the gospels were written and chosen for inclusion in the New Testament. Gnostic gospels, non-Christian sources and archeological research about the historical Jesus are also reviewed.

REL 328 History and Literature of the New Testament (other than the Gospels) (3)

A study of the origins of the early church and the circumstances that caused the writing of the New Testament; an analysis of the content of each book. Particular emphasis is placed upon the life and contributions of the Apostle Paul.

REL 355 Religion and Society (3)

Religion and Society looks at religion as a social phenomenon that provides meaning, belonging, hope, personal ethics, and social cohesion. Questions of whether or not religion is true are not the issue; rather, in this course the impact of religion on special social issues such as culture contact, religion and politics, black religion, women and religion, new religious movements, and secularization are explored.

REL 400 Religion and Psychology (3)

This course will use the viewpoints of religion and of psychology to look at the basic issues of human existence, love, death, guilt, evil, suffering, healing, the meaning of life, and the possibility of personal transformation. Through knowledge of various theories on these issues, students will be encouraged to develop their own personal informed understanding of them.

REL 495 Special Topics (1-3)

This course deals with the study of subject matter not covered under regular department offerings. Topics will vary each semester as determined by the department.

Prerequisite: Permission of the instructor.

REL 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the department chair.

PHYSICAL EDUCATION AND RECREATION

perec.gallaudet.edu

Graduate School and Professional Studies

Dr. Ronald Dreher, Chair
Field House, Room 102

Gallaudet offers majors in both Physical Education and Recreation at the undergraduate level. Both of these majors prepare students for entry level positions in their respective fields as well as for continuation of study at the graduate level.

The Physical Education major program offers a curriculum of study with two areas of emphasis. Students may choose a Physical Education major with an emphasis in Physical Education Teaching or an emphasis in Personal Training. The Physical Education Teaching emphasis is designed to prepare students to lead physical activities and to pursue professional teacher preparation coursework and state teacher certification requirements. The emphasis in Physical Education Teaching is accredited by the National Council on Accreditation of Teacher Education/National Association for Sport and Physical Education (NCATE/NASPE). Alternatively, students may choose a Physical Education major with an emphasis in Personal Training. A personal training career entails planning and leading strength and exercise programs in the health and fitness industry.

The Recreation and Leisure Studies majors prepares students for leading recreation programs for people of all ages and abilities in different environments. The Recreation and Leisure Studies program is accredited by the National Recreation and Park Association/American Association of Leisure and Recreation (NRPA/AALR) Council on Accreditation.

Students interested in pursuing a major should consult with the department as early as possible, preferably during their freshman year, for developing their program of study. The majors follow a specific and progressive course sequence which is necessary to prepare students for success in advanced coursework. Planning course sequencing is best accomplished with a departmental faculty member's assistance. Students who intend to prepare for a career in teaching physical education, and pursue teacher certification should also consult with the Gallaudet Department of

Education (education.gallaudet.edu) as early as possible to become familiar with admission and coursework requirements.

Majors Offered

Recreation and Sports Programming
Physical Education with emphasis areas:

Recreation

Declaring a Major

General Requirements for Admission to a Major in the Department of Physical Education and Recreation

Students interested in majoring in physical education should consult the department as early as possible, preferably during their freshman year, for developing their program of study. The Physical Education Major follows a specific and progressive course sequence which is necessary to prepare students for success in upper level Physical Education Major Courses. Students wishing to acquire a teaching certificate in regular physical education should also consult with the Department of Education as early as possible to become familiar with the Education Department's requirements.

Requirements for admission to a Major in Physical Education

Students must apply for admission in order to pursue either the Physical Education Teaching or the Personal Training major. Applicants must:

1. complete PED 121 with a grade of "C" or better
2. submit an Application for Physical Education Major form to the Department of Physical Education and Recreation
3. submit three recommendations from current or former professors (one of these recommendations must be from the professor teaching PED 121)
4. possess a cumulative grade point average of 2.0 or better
5. participate in an interview with the department faculty member.

Applications are reviewed once each semester, two weeks before mid-semester. After an application is reviewed and accepted, an interview is scheduled. Students are notified of admission decisions at mid-semester. Students not admitted to the major may apply in the next semester.

Students who intend to prepare for a career leading strength and fitness exercise programs should follow the Personal Training emphasis curriculum.

Students who intend to prepare for a career in teaching Physical Education, must follow the Physical Education Teaching emphasis curriculum. In addition, to the Physical Education Teaching emphasis curriculum, it will be necessary for students who want to prepare for teacher certification, to pursue either the Gallaudet Undergraduate Teacher Education Program or plan on enrolling in an accredited teacher preparation undergraduate or graduate school program.

Students who intend to prepare for teacher certification by pursuing the Physical Education Teaching emphasis curriculum and also pursue the Gallaudet Undergraduate Major in Education with a Specialization in K-12 Physical Education Teacher Education (P.E.T.E.) must also apply for admission to the Undergraduate Teacher Education Program in the Department of Education. To obtain information on the requirements for admission to the Teacher Education Program, look under the Department of Education section of the catalog.

Note: For physical education K-12 teacher education majors, PED 417 may substitute for EDU 470; EDU 486 must substitute for PED 486.

Requirements for admission to a Major in Recreation and Sports Programming

Students who are interested in majoring in Recreation and Sports Programming must be currently enrolled in or pass GSR 102 or the equivalent prior to registering for REC 101 or 202.

B.S. in Recreation and Sports Programming

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	14
Major and Related	59
Free Elective	7

Requirements for Admission to the Recreation and Sports Programming Major

Students who are interested in majoring in recreation and sports programming must be currently enrolled in or pass GSR 102 or the equivalent prior to registering for REC 101 or 202. For continuation in the program, a student majoring in recreation must obtain a grade of "C" or better in each required major course. Students not receiving a "C" or better in a required recreation course must repeat that course. Students must maintain a minimum cumulative grade point average of 2.2 to register for either REC 275 Sophomore Internship or REC 491 Senior Internship.

Required pre-major courses 14 hours

BIO 105 Introduction to Human Biology (4)
COM 290 Public Speaking (3)
PED 185 Wellness (3)
PED 222A Personal Discovery (1)
PSY 201 Introduction to Psychology (3)

Required major courses 36 hours

REC 101 Introduction to Recreation and Sports (3)
REC 202 Leisure Across the Lifespan (3)
REC 211 Introduction to Leading Recreation and Sports Activities (3)
REC 275 Sophomore Internship (3)
REC 307 Recreation and Sports for Individuals with Special Needs (3)
REC 321 Planning and Event Management (3)
REC 420 Law and Liability in Recreation and Sports (3)
REC 430 Measurement and Evaluation in Recreation and Sports (3)
REC 431 Recreation and Sports Administration (3)
REC 490 Senior Capstone in Recreation and Sports Programming (3)
REC 491 Senior Internship (6)

Required-related course 3 hours

Choose one:

PED 239 Professional Rescuer CPR/AED and First Aid (3)
or
PED 250 Sport Safety Training for Coaches (3)

Elective physical education and recreation courses 20 hours

Choose twenty hours:

PED 121 Foundations in Physical Education and Wellness (3)
PED 125 Map and Compass (3)
PED 195 Learning through Discovery (3)
PED 200 Introduction to Leading Physical Activity (3)
PED 201 Outdoor/Experiential Learning in Physical Education (2)
PED 202 Fundamental Movement, Rhythms, and Gymnastics (2)
PED 203 Concepts and Skills of Racquet Sports (2)
PED 204 Concepts and Skills of Physical Fitness (2)
PED 205 Concepts and Skills of Invasion Games (2)
PED 206 Concepts and Skills of Non-Invasion Games (2)
PED 230 Introduction to and Pedagogical Foundations of Athletic Coaching (3)
PED 232 Motor Learning (3)
PED 235 Lifeguard Training (3)
PED 238 Methods of Water Safety Instruction (3)
PED 240 Psychosocial Aspects of Physical Education (3)
PED 242 Advanced Weight Training (3)
PED 341 Kinesiology (3)
PED 345 Care and Prevention of Athletic Injuries (3)
PED 368 Physiology of Exercise (3)
PED 370 Personal Training and Exercise Leadership (3)
PED 383 Intramurals and Officiating (3)
PED 401 Introduction to Dance Therapy (3)
PED 410 Organization and Administration of Physical Education and Wellness (3)
PED 415 History and Philosophy of Dance (3)
PED 417 Teaching Adapted Physical Education (3)
PED 430 Athletic Coaching (3)
PED 431 Sacred Dance (3)
REC 212 Park Design and Maintenance (3)
REC 220 Introduction to Therapeutic Recreation (3)
REC 230 Outdoor Recreation (3)

Minor in Athletic Coaching*Requirements for a Minor in Athletic Coaching*

The program meets the curriculum guidelines established by the National Association of Sports and Physical Education (NASPE), for Athletic Coaching minor programs. The minor program provides students with the basic competencies to coach in youth sport environments and at the interscholastic level.

Students must enroll in PED 230 and attain a grade of "C" or better to continue in the program.

Required physical education courses 21 hours

PED 230 Introduction to and Pedagogical Foundations of Athletic Coaching (3)
 PED 232 Motor Learning (3)
 PED 240 Psychosocial Aspects of Physical Education (3)
 PED 250 Sport Safety Training for Coaches (3)
 PED 330 Scientific Foundations of Athletic Performance (3)
 PED 430 Athletic Coaching (3)
 PED 460 Practicum in Athletic Coaching (3)

Total 21 hours

Minor in Dance*Requirements for a Minor in Dance*

The minor in dance consists of a minimum of 15 credit hours. The first two years of the dance minor consist of four credits chosen from four dance or related activity courses. A student can meet this requirement with the same four activity courses required for graduation in the general requirements if the activity credits are in dance or a related activity course. The second two years of the dance minor consist of a minimum of nine credits from core courses (PED 401, 415, and 425), and two credits from an electives list.

Required pre-minor dance course 4 hours

To be taken during the freshman or sophomore year:
 PED 224 Activities (1, 1, 1, 1)*

*Tap dance, beginning ballet, modern dance, folk dance, ballroom dance, yoga, aerobic exercise, karate, gymnastics, body awareness, Swing dance, and Latin dance.

Required dance courses 9 hours

To be taken during the junior and senior years:

- PED 401 Introduction to Dance Therapy (3)
- PED 415 History and Philosophy of Dance (3)
- PED 425 Choreography (3)

Elective physical education courses 2 hours

Choose two hours:

- PED 202 Fundamental Movement, Rhythms, and Gymnastics (2)
- PED 353 Rhythmic Forms and Analysis (2)
- PED 356 Methods and Techniques of Teaching Dance in Elementary and Secondary Schools (3)
- PED 431 Sacred Dance (3)
- PED 450 Field Experience in Dance (2)

Total 15 hours

Minor in Recreation and Sports Programming

Requirements for a Minor in Recreation and Sports Programming

The minor program provides the student with the basic competencies to plan, implement and lead recreation and sports programs in a variety of settings. Students who enroll in the minor must enroll in REC 101 as an introductory course, and they must receive a grade of "C" or above to continue in the minor program.

Required recreation courses 9 hours

- REC 101 Introduction to Recreation and Sports (3)
- REC 202 Leisure Across the Lifespan (3)
- REC 211 Introduction to Leading Recreation and Sports Activities (3)

Elective recreation courses 6 hours

Choose two courses:

- REC 307 Recreation and Sports for Individuals with Special Needs (3)
- REC 321 Planning and Event Management (3)
- REC 420 Law and Liability in Recreation and Sports (3)
- REC 430 Measurement and Evaluation in Recreation and Sports (3)
- REC 431 Recreation and Sports Administration (3)

Total 15 hours

Physical Education Courses Offered

PED 121 Foundations of Physical Education and Wellness (3)

A study of the historical and philosophical bases of physical education and wellness. Provides the knowledge and understanding of physical education and sport from a historical perspective and the knowledge of various philosophies of physical education, including philosophies of well-known physical educators, and their implications and consequences for the individual and society.

PED 125 Map and Compass (3)

The course is designed to give students the opportunity to gain the knowledge and skills necessary to read and interpret topographic maps, compensate for magnetic declination, and determine and follow compass bearings for the purpose of accurately navigating outdoor environments. Topic covered include: longitude, latitude, magnetism, contour, elevation, map and personal orientation, grade, scale, map symbols, compass, and map bearings, types of compasses, magnetic declination, triangulation, and the sport of orienteering.

Course Fee: \$45

PED 185 Wellness (3)

A study of the quality of life to assist students in realizing their maximal personal potential and taking responsibility for maintaining and improving that quality of life through their life span. The course emphasizes both the acquisition of knowledge involving social, emotional, mental, and other considerations and the practical application through participation in a program of planned physical activity for the development of a healthy lifestyle.

PED 195 Learning Through Discovery (3)

This course is a study of how people use knowledge and resources to solve problems, make choices, and make adaptations; and of recognizing individual and group potential. Mental and physical activities are used to help individuals understand themselves, their personal values, and the members of the class.

PED 200 Introduction to Leading Physical Activity (3)

An introductory course focusing on the basic principles, concepts, and skills of leading physical activities for children, adolescents, and adults. The domains of learning (e.g. cognitive, affective, and psychomotor) are applied within the teaching/leading learning process.

Prerequisite: PED 121, GSR 102 or equivalent; or permission of instructor.

PED 201 Outdoor/Experiential Learning in Physical Education (2)

This course is designed to introduce physical education majors to the theories of experiential learning, challenge and adventure education through experiencing new games, outdoor initiatives and challenges, field trips (which include camping, canoeing, and rock climbing), creative development, leading groups, discussions, sharing quotes and stories, and personal and group writings. This class is designed to help each student personally learn about the gifts he/she brings to a group, improve his/her awareness of how to interact with people in a group; learn how to follow as well as to lead; learn the importance of taking educated risks in personal and group development; learn the importance of creating a safe environment; learn the importance of having diversity within a group and sharing the gifts brought by each so the group can become empowered; understand the values of competitive and noncompetitive activities; understand the importance of being involved with nature and the out-of-doors; and learn the importance and value of getting involved. Upon the completion of the course, the student will be able to infuse this knowledge and skill into a physical education curriculum program.

Course Fee: \$45

PED 202 Fundamental Movement, Rhythms, and Gymnastics (2)

A theoretical and practical course designed for physical education majors to prepare them to teach fundamental motor skills in the areas of creative movement, folk dance, aerobics, and educational gymnastics either at the elementary or secondary level. Emphasis will be placed on a non-traditional approach to teaching dance and gymnastics by linking fundamental motor skills into routines so that students, with diverse learning needs, can have a positive and successful experience. Upon completion of the course, the student will be able to incorporate appropriate teaching methodologies and have the opportunity to teach and assess skills.

PED 203 Concepts and Skills of Racquet Sports (2)

Tactics of racquet sports is a comprehensive introduction to the concepts, techniques, and skills inherent in tennis, badminton, pickle ball, table tennis, racquetball and handball. The course focuses on skills, strategies, and conceptual similarities and differences of the various racket sports. Students will develop an intermediate skill level; and will begin to utilize developmentally appropriate learning progressions, teaching cues, and assessment techniques.

PED 204 Concepts and Skills of Physical Fitness (2)

The physical fitness class provides the prospective physical education teacher with the skill development, knowledge and understanding of the basic principles of physical fitness as applied to a school or community setting. This course will also focus on technique for assessing and integrating Physical Fitness throughout a variety of activity programs.

Co-requisite: Current Professional Rescuer CPR/AED and First Aid certifications are required by the completion of this course.

PED 205 Concepts and Skills of Invasion Games (2)

Tactics of Invasion Games is a comprehensive introduction to the concepts, techniques, and skills inherent in a variety of invasion activities. The course is designed for physical education majors to prepare them to teach at the elementary through secondary level. The course will focus on teaching basic skills, strategies, and conceptual commonalities of basketball, soccer, speed-a-way, floor hockey, and team handball; and then explore the differences. Students will develop a minimum of intermediate skill level, have the opportunity to teach and assess skills, and analyze performance.

PED 206 Concepts and Skills of Non-Invasion Games (2)

Tactics of Non-Invasion Games is a comprehensive introduction to the concepts, techniques, and skills inherent in a variety of non-invasion activities. The course is designed for physical education majors to prepare them to teach at either the elementary or secondary level. The course will focus on teaching basic skills, strategies, and conceptual commonalities of softball, volleyball, wallyball, and track and field and then explore the differences. Students will develop a minimum of intermediate skill level, have the opportunity to teach and assess skills, and analyze performance.

PED 221 Sports Activities (1)

Activities offered include team sports and individual sports. Not more than six hours of credit in physical education activities may be counted toward the requirements for a bachelor's degree.

Course Fee: Varies by sections

PED 222 Outdoor Activities (1)

Activities offered include rock climbing, discovery, the camping. Not more than six hours of credit in physical education activities may be counted toward the requirements for a bachelor's degree.

Course Fee: Varies by sections

PED 223 Aquatic Activities (1)

Activities offered include aquatic activities. Not more than six hours of credit in physical education activities may be counted toward the requirements for a bachelor's degree.

Course Fee: Varies by sections.

PED 224 Activities (1)

Activities offered include dance and gymnastics. Not more than six hours of credit in physical education activities may be counted toward the requirements for a bachelor's degree.

Course Fee: Varies by sections.

PED 230 Introduction to and Pedagogical Foundation of Athletic Coaching (3)

This course is designed to introduce the student to the essential competencies required for effective Athletic Coaching and the Athletic Coaching profession. This information is a synthesis of the athletic coaching knowledge base related to the science and art of athletic coaching. Pedagogical knowledge and skill competencies related to developing a "photographic eye," developing skills analysis proficiency, sport specific teaching methods, and constructing daily coaching and season plans will be gained.

Prerequisite: GSR 150 or the equivalent.

PED 232 Motor Learning (3)

The study of three central factors making up the learning situation in physical education: the learning process, the learner, and the task. Topics include basic concepts of motor learning, development of motor responses, the nature of motor learning, feedback, timing, information processing, transfer, perception, personality and performance, motivation, and practice conditions. For each major topic, guiding principles for the physical education teacher are presented.

Prerequisite: PED 121, PSY 201, and acceptance into the major; or permission of the instructor.

PED 235 Lifeguard Training (3)

A comprehensive course focusing on the knowledge and skills necessary for an individual to effectively assume the responsibilities of a lifeguard at a swimming pool or protected open water beach. Topics include: overall patron safety, aquatic management responsibilities, physical conditioning, and rescue techniques.

Prerequisite: 500 yard continuous swim, and permission of instructor.

Co-requisite: Current Professional Rescuer CPR/AED, and First Aid Certifications are required by the completion of the course.

PED 236 Community CPR and First Aid (3)

A course that provides knowledge and skill in adult, child, and infant CPR as well as first aid. Upon successful completion, the student will attain American Red Cross Certifications in Community CPR and First Aid and Safety.

Course Fee: \$15

PED 237 Principles of Health (3)

A course designed to introduce the students to the principles of health and to provide a comprehensive look at a wide range of health-related subjects. The health areas to be covered are mental and emotional health, drugs, physical and emotional aspects of sex, cardiovascular diseases, cancer, physical fitness/nutrition, weight control, communicable diseases, common physical and mental exceptionalities and degenerative diseases, the senses, functions of the body, and consumer health.

PED 238 Methods of Water Safety Instruction (3)

A comprehensive course designed to train water safety instructors to teach American Red Cross swimming and water safety courses. The course focuses on swimming skill development; methods of teaching; water safety techniques; and planning, conducting, and evaluating swimming and water safety courses.

Prerequisite: PED 235 or PED 223F or permission of the instructor.

PED 239 Professional Rescuer CPR/AED and First Aid (3)

A course designed to prepare the professional rescuer, e.g., lifeguards, athletic trainers, and emergency services personnel, with the knowledge and skills necessary to help sustain life in an emergency. Students will learn to recognize and care for life-threatening emergencies such as respiratory or cardiac problems; sudden illness; or injuries to infants, children, or adults. Upon successful completion, the student will attain American Red Cross certification in CPR/AED for the Professional Rescuer, and First Aid.

Course Fee: \$35

PED 240 Psychosocial Aspects of Physical Education (3)

Study of the psychosocial aspects of physical education relevant to programs in the schools.

Prerequisite: PED 121, GSR 102 or the equivalent, and acceptance into the major; or permission of the instructor.

PED 242 Advanced Weight Training (3)

This course provides content knowledge, and practical experiences for students interested in learning how to assess

present levels of physical fitness, and to design and provide instruction in appropriate weight training programs for healthy adults and those with special needs. This course helps students acquire knowledge and develop skills for participation in advanced strength development, through progressive resistance exercise programs, for the purpose of improving strength and power while also enhancing self-image and sport performance. This course meets the standards of Advanced Weight Training through the American Council on Exercise (ACE).

Prerequisite: PED 221X; PED 200; PED 204.

PED 250 Sport Safety Training for Coaches (3)

This course is concerned with acquisition of knowledge and techniques employed to maintain the safety of and provide immediate or temporary first aid care to athletes participating in sport activities.

Course Fee: \$30

PED 286 Health in America: A Multicultural Perspective (3)

The course examines current health/wellness issues and focuses on the problems that ethnic minority populations face in the United States. The four ethnic groups studied include: African Americans, Native Americans, Hispanic Americans, and Asian and Pacific Islander Americans. The course is designed to help the student pursue a wellness lifestyle, to help make informed, responsible decisions affecting wellness, and to identify behavioral changes that can easily be incorporated into his/her lifestyle.

PED 330 Scientific Foundations of Athletic Performance (3)

This course presents information from the fields of human anatomy and physiology, kinesiology, exercise physiology, nutrition, and principles of physical training and conditioning of athletes. This information is a synthesis of scientific theory and knowledge as applied to athletic coaching principles and practices.

Prerequisite: PED 121; PSY 201; and BIO 233.

PED 341 Kinesiology (3)

A study of the movement potential of the human body, with sound anatomical and mechanical principles. Emphasis is given to the action of the joints and muscles, the basic mechanics of human motion, the analysis of movement, the major types of motor skills, and the application of kinesiology to sport and daily life activities.

Prerequisite: PED 185, BIO 233.

PED 345 Care and Prevention of Athletic Injuries (3)

A course designed to combine theoretical and practical knowledge related to the care and prevention of athletic injuries. The purposes of this course are to develop a safety-conscious attitude when participating in or conducting sports activities; to develop knowledge and basic skills related to the care and prevention of common sports-related injuries, including immediate and follow-up care and rehabilitative techniques; and to develop basic knowledge and skills related to the administration of a high school training room.

Prerequisite: GSR 102 or the equivalent and Certification in ARC Standard First Aid and Community CPR (BIO233 strongly recommended).

PED 348 Measurement and Evaluation in Physical Education and Wellness (3)

This course is designed to present the basic purposes and procedures used to measure and evaluate learning in the areas of physical education and wellness. Included will be the selection, construction, and administration of tests for both skill and knowledge evaluation and statistical techniques used to analyze and interpret data and methods of grading.

Prerequisite: PED 204, GSR 104 or the equivalent, and acceptance into the major; or permission of the instructor.

PED 353 Rhythmic Forms and Analysis (2)

A study of basic rhythmic patterns and the exploration of suitable accompaniment.

PED 356 Methods and Techniques of Teaching Dance in Elementary and Secondary Schools (3)

A study of the application of various dance forms to meet the needs and interests of students in elementary and secondary schools.

PED 368 Physiology of Exercise (3)

A study of the immediate and long-range effects of physical activity on the functions of the human body. Special attention is focused on physical fitness, metabolism, training and conditioning, nutrition, environment, athletic aids, and the sex of the athlete.

Prerequisite: PED 204, BIO 233.

PED 370 Personal Training and Exercise Leadership (3)

This course provides content knowledge, and practical experiences for students interested in learning how to assess present levels of physical fitness, and to design and provide instruction in appropriate weight training programs for healthy adults and those with special needs. This course

helps students acquire knowledge and develop skills for participation in advanced strength development, through progressive resistance exercise programs, for the purpose of improving strength and power while also enhancing self-image and sport performance. This course meets the standards of Advanced Weight Training through the American Council on Exercise (ACE).

Prerequisite: PED 242, 341, 368; ENG 102.

PED 382 Theory to Practice in Personal Training (3)

This course will provide a field experience in personal training exercise science and health promotion. Knowledge and skill will be obtained in core course work will be applied in an exercise setting. Students will become familiar with the operational and procedural aspects of a clinically-based health promotion facility.

Prerequisite: PED 370.

PED 383 Intramurals and Officiating (3)

This course is designed to introduce the students to the theoretical and practical aspects of intramural programming and officiating.

Prerequisite: GSR 102 or the equivalent

PED 386 Teaching Physical Education and Wellness in the Elementary School (3)

A course focusing on the basic theory and techniques of teaching physical education, health, and wellness to elementary school children. Emphasis is placed upon principles involved in planning curricular activities for an elementary physical education and wellness program. Movement themes and concepts related to fundamental skills/motor development, fitness and wellness, movement education, games of low organization, adapted physical education activities, rhythmic activities, and lead-up games to more advanced games and activities are studied. Effective elementary physical education teaching strategies are identified and students have an opportunity to apply these principles in teaching-learning environments.

Prerequisite: PED 200, 202, 204, 205 or 206, 232; or permission of instructor.

PED 401 Introduction to Dance Therapy (3)

A basic survey course designed to provide the student with a theoretical and practical knowledge of dance therapy. Particular emphasis will be given to developing the student's repertoire of movement techniques that can be used with various disabled adults and children in hospitals, halfway houses, or recreational settings.

PED 410 Organization and Administration of Physical Education and Wellness (3)

The study of administration and management related to school Physical Education and Wellness Programs.

Prerequisite: PED 121 or REC 201.

PED 415 History and Philosophy of Dance (3)

The evolution of western theatrical dance from antiquity to the present, with emphasis on the 16th through the 19th centuries.

PED 417 Teaching Adapted Physical Education (3)

A course designed to familiarize students with the knowledge, scientific principles, and teaching methodology necessary for the modification of physical education programs, sport, or recreational activities, to meet the developmental needs and capabilities of students with diverse abilities. Emphasis is given to the principles of motor development; assessment techniques; developmental needs; psychomotor, cognitive, psychological, and social characteristics of individuals with various disabilities; legal educational requirements; resources for participation in community sport and recreation programs; and developing appropriate instructional and behavioral strategies for an inclusive or adapted physical education learning environment.

Prerequisite: PED 200, 232, 341; or permission of the instructor.

PED 425 Choreography (3)

Introduction to the techniques of choreography. Students will be required to choreograph one major dance piece.

PED 430 Athletic Coaching (3)

This course is an introduction to the full spectrum and experience of athletic coaching. This course will focus on the techniques of coaching; the psychological aspects of coaching; the growth, development, and learning of athletes; and the medical-legal aspects of coaching. In addition, it will provide the students with the practical application of these components in simulated and actual coaching situations.

Prerequisite: PED 232, GSR 150 or the equivalent; or permission of the instructor.

PED 431 Sacred Dance (3)

A historical and theological investigation of the image and role of dance from a cross-cultural perspective. Liturgical dances will be examined, compared, and performed.

PED 450 Field Experience in Dance (2)

A practical field experience for students minoring in dance. The course requires a successful completion of 37 hours of a professional dance experience. The practicum is divided into 30 hours of voluntary or paid field experience. A list of possible practicum opportunities will be provided to interested students.

PED 460 Practicum in Athletic Coaching (3)

The course offers physical field experience in athletic coaching in an organized athletic program. The student will receive 3.0 credits for a minimum of 120 hours of practical field work and the analysis of that experience. The course is required of all athletic coaching minor students. This practicum is one of the most important steps a student takes in preparing to become an athletic coach. This experience in an organized athletic venue is essential for students to develop the leadership and appropriate knowledge essential to successful athletic coaching.

PED 462 Practicum in Personal Training (3)

This course offers practical field experiences in a health promoted/ personal fitness training program/ or corporate related fitness program. The student will receive 3.0 credits for a minimum of 120 hours of practical field work. These experiences will have to be recorded in an on-going journal. The format for doing these writings will be handed out to students at the beginning of the semester. The course is required for all Physical Education majors with a personal training emphasis. This practicum is one of the critical steps a student takes in preparing to become a personal trainer. This experience is essential for students for applying the acquired knowledge and skills learned in class and in a college setting to a "real world" scenario.

Prerequisite: Complete all coursework for the Physical Education major curriculum with emphasis in Personal Training.

PED 486 Teaching Physical Education and Wellness in Secondary Schools (3)

An application of educational philosophy and principles of teaching, and the preparation of lesson and unit plans. The course includes methods for teaching on the middle school and secondary levels. In addition to class participation and peer teaching, teaching high school and/or intermediate/ middle school physical education classes are planned. Field trips to various schools are planned. Students will also have

opportunities to evaluate their teaching and the teaching of others using various evaluative tools and measures.

Prerequisite: EDU 440 or PED 386, or permission of the instructor.

PED 490 Applying Physical Activity Theory into Practice (3)

This course combines the science of physical education skill performance with the art of teaching to develop the Physical Education Major's ability to teach physical activity concepts and skills relating them to the NASPE National Standards for K-12 Physical Education and using "Best Practices." The course interweaves the knowledge from previous physical education theory classes, and activity classes into an integrated whole. At the completion of this course, the student will be able to plan and deliver physical education activity content that results in a "physically educated person."

Prerequisite: PED/EDU 486 or permission of the instructor.

PED 495 Special Topics (1-3)

This course deals with the study of and preparation in a specific skill or subject matter area that is not provided under the regular department course offerings.

Prerequisite: Permission of the instructor.

Course Fee: \$20

PED 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the department chair.

Recreation Courses Offered**REC 201 Introduction to Recreation and Sports (3)**

The course familiarizes the student with the professional field of recreation and sport programming while addressing the diverse opportunities within the field. Students will investigate a self-analysis of individual student interest, limitations, and capabilities in light of the professional specifications and demands. The role of deaf individuals and their impact on recreation and sports will be explored, as well as their leisure patterns.

Prerequisites or Co-requisites: GSR 102 or the equivalent.

REC 202 Leisure Across the Lifespan (3)

This course is an introduction to human development from birth through death and its relationship to leisure. The course will address the physical, intellectual, social, emotional and moral development and how these affect one's

participation in recreation and sports programs. There will be a special focus on the relationship to current developmental theories and their application to individuals who are deaf and hard of hearing.

Prerequisites or Co-requisites: GSR 102 or the equivalent.

REC 211 Introduction to Leading Recreation and Sports Activities (3)

An introductory course focusing on the basic principles, concepts, and skills of leading recreational and sports activities for children, adolescents, and adults. The psychomotor, social, cognitive, affective, and learning domains will be addressed as students learn to utilize a task analysis model to choose and then lead appropriate recreation and sports activities that contribute to an improved quality of life for leisure participants.

Prerequisites or Co-requisites: GSR 102; REC 101 or 202; or permission of the instructor or coordinator.

REC 212 Park Design and Maintenance (3)

A study of the basic principles of planning, design, development, and maintenance of community recreation areas and facilities. The course will investigate the process of designing community recreational facilities from the initial tasks of gathering community input, determining goals, and securing architectural alternatives through the design process. Includes an actual site stakeout. Principles and methods of recreation facility maintenance will also be analyzed and practical exercises incorporated. This course uses experiential techniques for learning the components of park planning, design and maintenance.

Prerequisites or Co-requisites: REC 201 or 202; or permission of the instructor or coordinator.

REC 220 Introduction to Therapeutic Recreation (3)

This course focuses upon ethical issues in dealing with individuals with disabilities using recreation as a medium to enable them to function within as normative an environment as possible. Primary considerations will be placed upon philosophy, awareness, and understanding of disabilities; societal and environmental barriers confronting individuals with disabilities; and current trends and issues in disability rights.

Prerequisite: REC 101 or 202, or permission of the instructor or coordinator.

REC 230 Outdoor Recreation (3)

A survey of the relationships between land, leisure, and people in American civilization. The course covers the mainstream of thoughts, methods, and policies on resource-based recreation, with special attention to the history of conservation and the significance of wilderness.

Prerequisites or Co-requisites: ENG 102 or the equivalent, or permission of the instructor or coordinator.

REC 275 Sophomore Internship (3)

This course offers practical field experience in developing recreation and sport activity leadership skills and experience in a recreation or sports agency. The student will receive three credits for the successful completion of 200 hours of practical fieldwork and the analysis of that experience.

Prerequisite: REC 201 or 202, and permission of the instructor or coordinator; demonstrate proof of current Professional Rescuer CPR/AED and First Aid certifications prior to start of internship.

REC 301 Systems Approach to Therapeutic Recreation (3)

This course is designed to equip the student to systematically assess clients develop treatment plans, design program plans, and evaluate all components of therapeutic recreation services. It extends basic recreation program planning skills by developing student competencies in using systems planning approaches, individual and group assess techniques, formative program evaluation procedures, and documentation strategies and processes within both clinical and community settings.

Prerequisites or Co-requisites: REC 201 or 202; or permission of the instructor or coordinator.

REC 303 Principles and Practices in Therapeutic (3)

This course is a professional skills and issues course designed to equip the students with contemporary competencies and knowledge related to current practices in therapeutic recreation. Included in the course content are professional organization, credentialing and accreditation standards, legislative and legal issues related to services for people with disabilities, multidisciplinary approaches, health care systems, interagency referral procedures, professional ethics, and major issues facing the field.

Prerequisites or Co-requisites: REC 201 or 202; or permission of the instructor or coordinator.

REC 307 Recreation and Sports for Individuals with Special Needs (3)

This course focuses on helping students gain an understanding of recreation and sports agencies, and the development of programming and intervention strategies appropriate for people who have physical or sensory impairments or individuals who have developmental disabilities or demonstrate maladaptive behaviors related to mental disorders.

Prerequisites or Co-requisites: REC 201 or 202; or permission of the instructor or coordinator.

REC 309 Leisure in Later Life (3)

This course explores the role of leisure in adult development, with specific focus on the aging process, leisure needs, leisure demand, and leisure services. Basic concepts associated with leisure, aging, targeting leisure services, research, and public policy are presented.

Prerequisites or Co-requisites: REC 201 or 202; or permission of the instructor or coordinator.

REC 310 Leadership and Group Dynamics (3)

A study of leadership definitions, theories, and philosophies. Theories of group dynamics will be explored. Leadership study will encompass the fields of management and social and recreational settings. The essence of leadership will also be explored. An experiential approach to learning is the basis of this course. The group work approach is emphasized.

Prerequisites or Co-requisites: REC 201 or 202; or permission of the instructor or coordinator.

REC 311 Leisure Education and Analysis (3)

This course focuses on concepts related to leisure education, activity analysis, and group and individual facilitation techniques. The models and techniques presented are applicable to a variety of both general and special population groups.

Prerequisites or Co-requisites: REC 201 or 202; or permission of the instructor or coordinator.

REC 312 Leisure in America: A Multicultural Analysis (3)

This course examines leisure involvements from a cultural perspective. It examines how different cultures perceive and influence the choosing of leisure activities. Students will develop an understanding of how humans perceive their own needs and particularly how they seek to fulfill these needs in their leisure time. The course provides significant focus on the leisure needs and involvements of deaf people (past and present). In addition, students will come to appreciate the critical role individual and collective leisure choices play in

the development of communities and whole societies.

Prerequisite: DST 101, ENG 103 or the equivalent, or permission of the instructor or coordinator.

REC 321 Planning and Event Management (3)

This course is designed to enhance students' familiarity with the program planning process as it is customarily conceptualized and applied by recreation and sports programming professionals. As such, the course includes assessment of needs, development of goals and objectives, appropriate involvement of stakeholders, awareness of and ability to develop and adhere to timelines in all logistical areas, awareness and ability to provide exceptional and beneficial customer service, and evaluation of results and outcomes. Emphasis is placed on experiential learning through the actual planning and execution of a community-based event within the Gallaudet or the greater Deaf Community, similar to a service-learning course.

Prerequisites or Co-requisites: REC 201 or 202; or permission of the instructor or coordinator.

REC 372 Outdoor Environmental Education (3)

Students are to be actively involved in a progression of field experiences that are designed for hands-on-experience with our natural world. These adventure-oriented activities are designed to provide an emotional setting in which students become personally involved. Through lab and field experiences the students will develop an appreciation and feeling for the world and human impact on the natural environment. Ultimately the students will learn to design and conduct a variety of mini field experiences for small student groups.

Prerequisite: ENG103 or the equivalent; or permission of the instructor.

REC 420 Law and Liability in Recreation and Sports (3)

This course introduces the student to three major areas of legal concerns: (1) Laws and Legislation, (2) Liability and Litigation, and (3) Risk Management and Accident Prevention. Specific issues to be addressed include: (a) tort negligence in sports, playground programs, and aquatics; (b) major pieces of legislation that have made an impact on recreation and sports agencies; (c) constitutional rights as they apply to recreation and sports agencies; and (d) general legal principles.

Prerequisite: REC 275 or permission of the instructor or coordinator.

REC 430 Measurement and Evaluation in Recreation and Sports (3)

This course provides opportunities for recreation and sports programming majors to develop appropriate language, knowledge, and skills for application of evaluation and measurement methods in actual service practice. This course will focus on measurement, evaluation, and statistics in the recreation and sports programming profession.

Prerequisite: REC 275 or permission of the instructor or coordinator.

REC 431 Recreation and Sports Administration (3)

This course focuses on recreation and sports programs in various types of communities as reflected in administrative activities including personnel management and budgeting. Students will become familiar with the principles and practices of recreation/facility, and sports administration. Skills related to supervision in the urban and recreation delivery service system will also be addressed. Skills in group problem solving, along with a simulated model of conducting an advisory board meeting are included in this course. Techniques for supervision and analysis of work performance are included.

Prerequisite: REC 275 or permission of the instructor or coordinator.

REC 490 Senior Capstone in Recreation and Sports Programming (3)

This course guides students to synthesize the information they have learned in the recreation and sports programming professional field. Guest lectures and readings of various disciplines will provide opportunities for discussion of current issues and challenges in society that are related to the professional field. Students will prepare a paper and a presentation that elucidates comprehensively the various disciplines involved in recreation and sports.

Prerequisite: Senior standing and permission of the instructor or coordinator.

REC 491 Senior Internship (6)

The student will complete a minimum of 400 clock hours in a 10- to 15-week period at an approved cooperating field-work agency. The field experience may require direct face-to-face leadership, routine administrative responsibilities, and extramural activities.

Prerequisite: REC 275 or permission of the instructor or coordinator; completion of 24 hours of course work in recreation; demonstrate proof of current Professional Rescuer CPR/AED, and First Aid certifications prior to start of internship.

REC 495 Special Topics (1-3)

Advanced Topics. Topics will vary each semester as determined by the department.

Prerequisite: Permission of the department chair.

REC 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Permission of the department chair.

PHYSICS

Please see Physics course listing under the Chemistry and Physics Department.

PSYCHOLOGY

psychology.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Irene Leigh, Chair
Hall Memorial Building, Room W312

Psychology is a scientific field concerned primarily with human behavior and related sensory, motor, cognitive, and physiological processes. The Department of Psychology at Gallaudet University has existed for more than 40 years, originally teaching aspects of this field to undergraduate students. In 1978, a graduate program in school psychology was established to train psychologists interested in working in educational settings with deaf and hard of hearing students (as well as with hearing students). In 1990, a doctoral program in clinical psychology began to train graduate students in clinical and research skills applicable to hearing and deaf populations, but with a focus on deaf and hard of hearing individuals.

The department offers graduate degrees in school psychology and clinical psychology. The clinical psychology program offers a doctoral degree (Ph.D.), which includes a master's degree (M.A.); the school psychology program offers a specialist degree (Psy.S.) in school psychology, which includes a master's degree (M.A.) in developmental psychology.

The department currently has 15 full-time faculty plus several adjunct and part-time faculty members. Faculty are active in graduate and undergraduate teaching, research, and various professional and service activities. Students and faculty often engage in collaborative research efforts with other academic departments and with the Gallaudet Research Institute.

Honors in Psychology:

The department offers a special honors program for majors that provides an opportunity for academically qualified students to graduate with distinction in psychology. The program consists of:

- At least three Honors Option courses in which the student does a special honors project in a regular course.
- A Senior Honors Seminar, and
- An independent research project under the supervision of a faculty member.

The honors program is open to students with junior class standing, an overall GPA of at least 3.3, and a GPA of 3.5 in psychology courses.

Psi Chi Honor Society:

Psychology majors and minors are eligible to apply for membership in Psi Chi, the national honor society in psychology. A chapter of Psi Chi was established at Gallaudet in 1997. The purpose of Psi Chi is to encourage, stimulate, and maintain excellence in scholarship in all fields, particularly in psychology, and to advance the science of psychology. To receive the honor of Psi Chi membership, students must:

- Have a GPA of at least 3.0 in psychology courses as well as in their overall cumulative GPA, and be in the upper 35% of their class in general scholarship;
- Have completed at least three semesters of the college curriculum;
- Have completed nine semester hours of psychology courses;
- Have high standards of personal behavior;
- Have a two-thirds affirmative vote of those present at a regular meeting of the Psi Chi Chapter.

Major and Minor Offered

Psychology

Declaring a Major

Requirements for Admission to a Major in Psychology

Prospective majors meet first with the Undergraduate Program Chair to determine that they have satisfied the academic requirements and to complete the form for declaring a major in psychology. During this initial contact, the student receives written information about psychology course requirements for graduation. Additionally, the student may select a major advisor or request that one be assigned by the Program Director.

B.A. in Psychology

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	3-6
Major and Related	49
Free Elective	25-28
TOTAL	120

Requirements for a Major in Psychology

Students must complete all pre-major and major courses with a "C" or better.

Required pre-major courses 6-7 hours*

ENG 103 Essay Analysis and Composition I (3)

or

GSR 150 Introduction to Integrated Learning (4)*

PSY 201 Introduction to Psychology (3)

*Four hours count toward general studies requirement.

Required courses 31 hours

BIO 101 Introduction to Biology I (3)

BIO 103 Introduction to Biology Laboratory I (1)

or

BIO 105 Introduction to Human Biology (4)

PSY 311 Development I: Child Psychology (3)

PSY 321 Abnormal Psychology (3)

PSY 324 Cognition (3)

PSY 331 Statistics for the Behavioral Sciences (3)

PSY 332 Research Methods for the Behavioral Sciences (3)

PSY 410 Psychology and Deaf People (3)

PSY 450 Internship Seminar (3)

PSY 451 Internship I (3)

PSY 458 Social Psychology (3)

Elective Psychology courses 18 hours

Choose six courses:

COU 330 Introduction to Careers in Counseling

PSY 313 Development II Adolescence (3)

PSY 315 Development III Adulthood and Aging (3)

PSY 317 The Psychology of Adjustment (3)

PSY 319 Psychology of Exceptional Children (3)

PSY 351 Perception (3)

PSY 362 Motivation (3)

PSY 411 Psychology of Personality (3)

PSY 424 Neuropsychology (3)

PSY 434 Methods of Therapy (3)

PSY 441 Learning Theories and Applications (3)

PSY 445 Field and Observational Studies of Human and Animal Behavior (3)

PSY 452 Psychology Internship II (3)

PSY 453 Psychology Internship III (3)

PSY 454 Psychology Internship IV (3)

PSY 447 Psychological Tests and Measurements (3)

PSY 448 Psycholinguistics (3)

PSY 457 Psychology of Human Sexuality (3)

PSY 459 Psychology of Crime and Punishment (3)

PSY 481H History and Systems in Psychology (3)

PSY 486H Honors Seminar: Current Issues in Psychology (3)

PSY 495 Special Topics (1-3)

PSY 499 Independent Study (1-3)

Minor in Psychology

Requirements for a Minor in Psychology

Students must complete all pre-minor and minor courses with a "C" or better.

Required pre-minor courses 6-7 hours*

ENG 103 Essay Analysis and Composition I (3)

or

GSR 150 Introduction to Integrated Learning (4)*

PSY 201 Introduction to Psychology (3)

*Four hours count toward general studies requirement.

Required psychology courses* 9 hours

PSY 311 Development I: Child Psychology (3)

PSY 321 Abnormal Psychology (3)

PSY 410 Psychology and Deaf People (3)

Elective psychology courses 9 hours

Choose any three psychology courses in consultation with the department. Total 21-24 hours

Psychology Courses Offered

PSY 201 Introduction to Psychology (3)

An introduction to the scientific study of human behavior, providing an overview of the major problems, methods, and contributions of psychology. Content areas include development, language, learning, cognition, physiological psychology, motivation and emotion, perception, psychometrics, personality, and abnormal and social psychology. The course can be taken in one of two formats: traditional lecture or individualized instruction.

Prerequisite: GSR 102 or the equivalent

PSY 311 Development I: Child Psychology (3)

The study of physical, psychological, social, and cognitive development from conception to the end of childhood. It will include discussion of the interaction of genetic and environmental factors in the shaping of personality. It will describe language development and social and emotional adjustment of the child.

Prerequisite: PSY 201.

PSY 313 Development II: The Psychology of Adolescence (3)

A study of developmental processes in adolescence. Included is the study of puberty and the intellectual, social, moral, emotional, religious, sexual, personality, and family transitions occurring during this period. Emphasis is given to the influence of the above changes on personal identity and current problems of the adolescent in American society. Also included is a discussion of levels of aspiration and vocational choice.

Prerequisite: PSY 311 or the equivalent.

PSY 315 Development III: Adulthood and Aging (3)

A study of the developmental process from adulthood until death. Includes the establishment of identity, vocational choices, marriage and the family, crisis of middle adulthood, problems of the aged, death, and bereavement.

Prerequisite: PSY311 or the equivalent.

PSY 317 The Psychology of Adjustment (3)

Discussion of the various techniques people use when confronted with the problems of daily living, e.g., aggression, defense mechanisms, etc. Although there will be some discussion of maladjustment, the emphasis will be on "healthy" people and how these patterns of behavior are learned. The course includes motivation, frustration, conflict, fear, anxiety, aggression, withdrawal, defense mechanisms, learning behavior, personality, and healthy and unwholesome therapy.

Prerequisite: PSY 201.

PSY 319 The Psychology of Exceptional Children (3)

A study of methods of identification, diagnosis, and remediation of physical, psychological, and learning problems of exceptional children. The course will include discussion of the characteristics of exceptionality and indicate how these characteristics affect the total adjustment of the developing individual.

Prerequisite: PSY311 or the equivalent.

PSY 321 Abnormal Psychology (3)

This course serves as an introduction to psychopathology in adults and children. Students will be introduced to the classification used by psychologists, the Diagnostic Statistical Manual. Disorders such as anxiety disorders, mood disorders, schizophrenia, cognitive disorders, personality disorders and sexual and gender-identity disorders will be covered. Historical background, causes, and some treatment approaches will also be included.

Prerequisite: PSY 201.

PSY 324 Cognition (3)

This course will provide an overview of various components of human cognition, including learning, memory, perception, and higher-level functions. In addition, this course will introduce experimental techniques used to advance our understanding of human cognition.

Prerequisite: PSY 201.

PSY 331 Statistics for Behavioral Sciences (3)

This course covers an introduction to statistical procedures for psychological research. Topics include distributions and graphs, measures of central tendency and variation, z-scores, probability, hypothesis testing, t-tests, Anova, correlation and regression, and Chi square. Students are introduced to the use of SPSS (or a similar program) for analysis and interpretation of data.

Prerequisite: PSY 201 and MAT 013 or GSR 104 or the equivalent; or permission of the instructor.

PSY 332 Research Methods for the Behavioral Sciences (3)

This course covers an introduction research methods. Topics include developing research question, ethical issues in research, reliability and validity, describing variables, using tables and graphs, experimental and non-experimental designs, and APA style. The students will read research reports, design and conduct a research project, use statistical procedures and SPSS (or a similar program) introduced in PSY 331 for analysis and interpretation of their data and will write up the results using APA style.

Prerequisite: A minimum grade of C in PSY 331.

PSY 351 Perception (3)

The characteristics and principles of the sensory and perceptual systems will be described and explained, with emphasis on vision. The course will include a consideration of the major theories of perception and the neurophysiology of vision. Topics to be covered will include sensory psychophysics, color vision, visual illusions, binocular depth perception, size and shape constancy, perceptual organization, stimulus determinants of perception, and perceptual learning and development. These topics will be explored in greater depth than the introductions provided in general and experimental psychology.

Prerequisite: Junior and senior standing (or consent of instructor) and PSY 201.

PSY 362 Motivation (3)

The course will consider the biological drives and learned motives that have a determining influence on human behavior. This will include explanation and discussion of instinct and the neurophysiological processes in motivation, psychosocial needs, arousal, incentive, reinforcement, fear, anxiety, and achievement motivation. The course objective is to provide the student with a deeper understanding of the psychological, biological, and social forces involved in the determination of behavior.

Prerequisite: PSY 201.

PSY 410 Psychology and Deaf People (3)

The course will consider the psychological development and psychosocial issues of Deaf people. Topics covered will include cognitive, linguistic, and personality development, mental health, and interpersonal behavior.

Prerequisite: A minimum grade of C in PSY 201 and PSY 311.

PSY 411 Psychology of Personality (3)

A study of human personality from the standpoint of factors and influences that shape its development. Consideration will be given to current explanatory theories, current research approaches, and exemplary personality tests.

Prerequisite: PSY 201 and one additional psychology course.

PSY 424 Neuropsychology (3)

The study of neurological and physiological processes that affect behavior, emotions, thinking, perception, and learning. The course will indicate how psychological factors are related to neuroanatomy and neurophysiology.

Prerequisite: BIO 105 and PSY 201.

PSY 434 Methods of Therapy Emotional Disturbance (3)

This course will involve discussions of the various techniques of therapy used with people with emotional problems. Topics will include the case history interview, professional ethics in therapy, behavior modification, eclectic therapy, psychosurgery, encounter groups, the school as a therapeutic community.

Prerequisite: PSY 321, and six additional hours in psychology.

PSY 441 Learning Theories and Applications (3)

The major principles and theories of learning will be introduced and explained from a historical perspective to show how experimental research and theories in this area have evolved to the present time. The course will emphasize the applications of learning research to education and educational technology.

Prerequisite: PSY 201 and senior standing or permission of the instructor.

PSY 445 Field and Observational Studies of Human and Animal Behavior (3)

Techniques of field observation will be taught and used in analyzing the behavior of humans and animals. Lecture topics will include human and animal ethology and child behavior. There will be regular trips to schools, zoos, hospitals, museums, and other public places for the purposes of using techniques learned in class.

Prerequisite: PSY 311,331.

PSY 447 Psychological Tests and Measurements (3)

A survey of the construction, content, uses, abuses, and problems of psychological tests. Students will be exposed to a wide variety of tests including intelligence, achievement, interest, aptitude, and personality. In addition, students will practice writing essay and objective test questions.

Prerequisite: PSY 321,331.

PSY 448 Psycholinguistics (3)

The psychological aspects of speech and language. An attempt to clarify the role of speech and language in human behavior, and how speech differs from language. The acquisition of language by children, the relationship between language and thought, and the biological basis of language. A linguistic introduction to sign language.

Prerequisite: PSY 201.

PSY 450 Internship Seminar (3)

The course will prepare the student for the psychology internship experience. Topics covered include general issues in fieldwork in human services, agency systems and policies, general foundations of the helping process, diversity issues in human services settings, ethical and legal issues, interpersonal and professional relationships in psychology work settings, applications of psychological principles in applied settings, resume construction for internship applications, interviews with professionals in the field of psychology and orientation to the psychology internship.

Prerequisite: Psychology major or minor and permission of the instructor.

PSY 451 Internship I (3)

A one semester psychology internship in which the student works 10-15 or more hours per week in an applied psychological setting such as a mental health program or an educational setting under the supervision and guidance of the psychology course instructor and on-site mental health professionals in the field.

Prerequisite: Psychology major or minor, PSY450, and permission of the instructor.

PSY 452 Internship II (3)

This course is an additional, follow-up psychology internship for students who have successfully completed PSY 451 Internship I. The student works 10-15 or more hours per week in an applied psychological setting such as a mental health program or an educational setting under the supervision and guidance of the psychology course instructor and on-site mental health professionals in the field.

Prerequisite: PSY451 and permission of the instructor.

PSY 453 Internship III (3)

A one semester, advanced psychology internship in which the student works 10-20 or more hours per week (fall and spring semesters: 10 hours or more; summer session: 20 hours or more) in a variety of human services, research, psycho-educational, or professional association settings under the supervision of on-site professionals and with guidance and supervision from the psychology course instructor. Additionally, students are required to formally tie advanced psychological theories to current internship placement issues in a written format.

Prerequisite: PSY 452; permission of the instructor.

PSY 454 Internship IV (3)

A one semester, advanced psychology internship in which the student works 10-20 or more hours per week (fall and

spring semesters: 10 hours or more; summer session: 20 hours or more) in a variety of human services, research, psycho-educational, or professional association settings under the supervision of on-site professionals and with guidance and supervision from the psychology course instructor. Additionally, students are required to formally tie advanced psychological theories to current internship placement issues in a written format.

Prerequisite: PSY 453; permission of the instructor.

PSY 457 Psychology of Human Sexuality (3)

A course on the developmental aspects of human sexuality in the context of human relationships. The course will include the social and learned influences on the development of gender identity and sexual orientation, a review of the anatomy and physiology of the reproductive system, human sexual response, modes of sexual expression, values clarification, sexual responsibility, human sexual dysfunction, and sexual adjustment during pregnancy, illness, and aging.

Prerequisite: PSY 201 and one of the following: PSY 311, PSY 313, or PSY 315.

PSY 458 Social Psychology (3)

Study of the influence of groups on the behavior of the individual both within the American Culture and across other world cultures. Both theoretical and experimental approaches are presented. Topics include altruism, aggression, health, attitudes, personal space, jury behavior, prejudice, conformity and environmental issues.

Prerequisite: PSY201 and one additional psychology course in consultation with the department.

PSY 459 Crime and Punishment (3)

A psychological view of the legal system is presented with emphasis on personality and environmental characteristics of criminals. In addition, such topics as victimization, jury and judge characteristics, the psychology of persuasion, the psychologist as a witness, mental illness and crime and hypnosis as a memory enhancement technique are discussed. Experts in the field share their views and theories with students.

Prerequisite: PSY 201 or SOC 101.

PSY 481H History and Systems of Psychology (3)

A study of the origins and development of modern psychological thought. The lives and contributions of leaders in psychology will be reviewed.

Prerequisite: PSY 201, admission to psychology honors program, and permission of the department.

PSY 486H Honors Seminar: Current Issues in Psychology (3)

The course will consist of assigned readings and discussion of current topics in psychology, e.g., sensory deprivation, sleep and dreams, sex roles, effects of overcrowding, the psychological implications of death, influence of mass media on behavior, etc. Content will vary from term to term depending on what topics are of current interest at the time. Seminar will include student papers, class presentations, and preparation of a proposal for research to be conducted in Independent Study during the following semester.

Prerequisite: Admission to the Psychology Honors Program and permission of the department.

PSY 495 Special Topics (1-3)

Advanced, in-depth study on special topics, current issues, or areas of interest not included in other courses offered by the Department of Psychology.

PSY 499 Independent Study (1-3)

Under supervision of a faculty member, a student will prepare a paper on a special topic or conduct a research project involving the collection of data and preparation of a report.

Prerequisite: Senior standing and permission of the instructor.

RECREATION

Please see Recreation and Sports Programming major information and course listing under the Physical Education and Recreation Department.

RELIGION

Please see Religion course listing under the Philosophy and Religion Department.

SELF-DIRECTED MAJOR

College of Liberal Arts, Sciences, and Technologies

Dr. Sharon Pajka-West, Coordinator
Hall Memorial Building, Room S-337D

Any student may design a self-directed major if no other major or double major is offered at Gallaudet University that satisfies the student's academic interests. The student's process in selecting and justifying the major will follow a series of rigorous steps. Faculty advisors will monitor the academic direction and quality of work and effort with the major. The major will require between 30 and 45 credit hours, of which at least one-half must be from 300- and 400-level courses taken at Gallaudet University. No more than six hours may be independent study.

SOCIAL WORK

socialwork.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Teresa Mason, Chair

Hall Memorial Building, Room S335

The purpose of the social work major is to provide professional education and training to prepare graduates for employment as entry-level generalist social work practitioners. Students in the major acquire generalist social work practice knowledge and skills for work with individuals, families, groups, organizations, and communities. An important aspect of the social work major is its emphasis on application of knowledge, theory, and skills during internships in community programs and agencies. The Social Work Department develops internships that are designed to be responsive to students interests, abilities, and educational needs.

The Gallaudet social work major also prepares students for admission to graduate school in social work and related human service fields.

The undergraduate program in social work has been accredited by the Council on Social Work Education since 1976. The social work sequence consists of 47 credits in the major, which includes coursework and field practicum (internships). Prior to the major, students take supporting courses in sociology, psychology, economics, biology, and American government. The field practicum requirement consists of a two-semester internship in the senior year in a selected agency under professional social work supervision.

The Phi Alpha Pi National Honor Society in Social Work

Mu Pi Chapter

Gallaudet University became a charter member of this national honor society in social work in 2005, with the initiation of 10 undergraduate students. In 2006 the first group of MSW students was initiated into membership. The Gallaudet University chapter is named Mu Pi. Undergraduate social work majors must have a 3.5 cumulative GPA and recommended by the faculty into the honor society; MSW students much achieve a 3.7 GPA after their first full time semester of required social work courses.

The history of a national honor society for social work students began in the 1960's at the University of Michigan. Now over 360 chapters of Phi Alpha have been established. The national office is located at East Tennessee State University. Phi Alpha's slogan is "Through Knowledge--the Challenge to Serve."

Membership into Mu Pi recognizes students for their academic excellence, contributions to the social work program and adherence to an ethic of service, social change and social justice. Members of Mu Pi at Gallaudet University demonstrate a commitment to social work values and ethics and improving the lives of individuals, families, groups, communities, organizations, and society at large, with a special commitment to deaf and hard of hearing people.

Mu Pi members believe in the ideal of service and "giving back to the community" and have become involved in several service learning projects. They have raised funds for deaf tsunami victims in Sri Lanka, for victims of Hurricane Katrina, and participated in fund raising efforts for such local organizations as Deaf REACH, Washington Urban League, and Deaf Abused Women's Network (DAWN). Recently, they have volunteered to build homes with Habitat for Humanity and plan to continue in partnership with DC Habitat.

Majors Offered

Social Work

Declaring a Major

Requirements for Admission to a Major in Social Work

1. A cumulative grade point average of at least 2.00
2. Two letters of reference that provide information about the applicant's character, maturity, stability, achievements, interactional skills and special qualities that would make the applicant a good candidate for social work. The letters may be from teachers, employers, academic advisors, or other professionals.
 - An admissions essay that is 1-2 pages in length. The essay should address the following:
 - the reason for selecting social work as a major,
 - career goals,
 - personal assets,
 - the contribution that will be made to the Social Work Program,

- the contribution that will be made to the profession of social work, and 6) a discussion of a plan to meet the Program's requirements.
- 3. Meet with the BA Program Director.
- 4. Most recent copy of your transcript.
- 5. Completion of the admissions application located in the Appendix I.

Each applicant is evaluated based on the strengths of the letters of recommendation, and the merits of the admissions essay.

Individuals who are accepted into the social work major must sign the Student Code of Conduct Contract (Handbook Appendix II) and the University's Major Declaration Form. They are also given a Student Handbook, the NASW Code of Ethics and other printed material from NASW that offers information related to careers in social work, and assigned an academic advisor. If admission to the social work major is denied, a letter providing the reasons is written by the BA Program Director and given to the applicant.

Deadline for submission of two letters of recommendation, transcript, essay and the completed admissions application are from September 08, 2007 to October 31, 2007 for acceptance in January 2008. Admission materials must be submitted between February 5, 2008 and April 30, 2008 in order to be considered for acceptance in the fall 2008. All of the admission materials must be received by the stated deadlines in order to be considered for acceptance to the social work program.

B.A. in Social Work

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	22
Major and Related	47
Free Elective	11
TOTAL	120

Requirements to for a Major in Social Work

For continuation in the major, a student must earn a grade of C or better in courses requiring mastery of principles, methodology, and practice and demonstration of professional values and ethics considered necessary for satisfactory performance in the profession (SWK 335, 337, 436, 482, 484, 486, and 494). Internships may be repeated only with permission of the department. In major courses, students must also demonstrate English language skills commensurate with professional requirements.

In major courses, students must also demonstrate English language skills commensurate with professional requirements. Students are encouraged to have completed ENG 103 or the equivalent before beginning the major and during the major are advised to use the services of the English Works!

Required pre-major courses 22 hours

To be taken during freshman or sophomore year:

- BIO 105 Introduction to Human Biology (4)
- ECO 205 Economics for Social Workers (3)
- GOV 101 American Government and Contemporary Affairs I (3)
- GOV 102 American Government and Contemporary Affairs II (3)
- MAT 102 Introductory Probability and Statistics (3)
- PSY 201 Introduction to Psychology (3)
- SOC 101 Introduction to Sociology (3)

Required social work courses 44 hours

- SWK 203 The Field of Social Work (3)
- SWK 304 Development of the American Social Welfare System (3)
- SWK 307 Human Behavior and the Social Environment I (3)
- SWK 308 Human Behavior and the Social Environment II (3)
- SWK 318 Human Diversity (3)
- SWK 335 Social Work Practice I: Individuals (3)
- SWK 337 Case Management (3)
- SWK 436 Social Work Practice II: Families and Groups (3)
- SWK 441 Research Methods in Social Work I (3)
- SWK 442 Research Methods in Social Work II Data Analysis (3)
- SWK 482 Social Work Practice III: Organizations and Communities (3)
- SWK 484 Social Work Practicum I: Internship (4)
- SWK 486 Social Work Practicum II: Internship (4)
- SWK 494 Senior Seminar (3)

Elective social work courses 3 hours

Choose three hours:

SWK 200 Contemporary Gender Issues (3)

SWK 201 Social Work Practice and AIDS (3)

SWK 202 Adoptive Family Systems (3)

SWK 265 Child Welfare (3)

SWK 267 Alcohol and Drug Addictions: Intervention Strategies (3)

SWK 495 Special Topics (1-3)

SWK 499 Independent Study (1-3)

Social Work Courses Offered**SWK 200 Contemporary Gender Issues (3)**

The course is an elective that examines topics related to gender discrimination, and the traditional as well as the non-traditional roles assigned to females and males. Differences in communication patterns among women and men are also examined in terms of their expressions of emotions, closeness, intimacy, and autonomy. The course provides an opportunity for students to critically evaluate evidence for and against society's long held beliefs about acceptable behaviors and choices based on gender. More specifically, the variations in gender roles among Asian-American, Hispanic, Native American and African-American women and men are examined. A variety of writing assignment are included. Students complete weekly summaries of readings, critically evaluate contrasting perspectives on gender issues, and make presentations using handouts and overheads to convey their ideas about differences in values, coping styles, and communication patterns among female and males.

Prerequisite: Sophomore standing.

SWK 201 Social Work Practice and AIDS (3)

This course is an elective that examines topics related to understanding the psychosocial issues associated with HIV/AIDS and the various roles human service professionals assume for the delivery of services. The course provides an opportunity for students to explore personal and societal values related to HIV/AIDS and to gain a beginning knowledge of the types of assistance available to persons living with the illness. Particular attention is given to the impact of HIV/AIDS upon families and care givers in the context of coping strategies and the human service delivery system's response to their needs.

Prerequisite: Sophomore standing.

SWK 202 Adoptive Family Systems (3)

The course explores the strengths and challenges of adoptive family life from a systems perspective and introduces current theory and research that informs social work practice in the field of adoption. The course addresses from a developmental perspective the life long impact of adoption on the adoption triad: birth parents, adoptive parents, and adopted children. Topics discussed include emotional processes involved with infertility and the decision to adopt, adoption and developmental stages, issues related to open adoption, and transracial adoptions.

Prerequisite: Sophomore standing.

SWK 203 The Field of Social Work (3)

This course is an introduction to the profession of social work. It is the required first course for social work majors and is also open to students exploring the field of social work as a possible career. The course traces the historical development of the social work profession within the context of the social welfare system, introduces the generalist model of social work practice, surveys the major field of practice and populations served by social workers, and addresses the role of evaluation and research in the profession. Guest speakers from the community and field trips to community agencies provide exposure to programs and services and the roles of social workers.

Prerequisite: Sophomore standing.

SWK 265 Child Welfare (3)

This course introduces the student to the fields of child welfare with an emphasis on child maltreatment. It looks at child abuse and neglect in all its forms (physical, sexual, emotional) in an ecological context (individual, familial, social, and cultural forces that interact with one another to cause abuse). Students are introduced to the historical context of child maltreatment, the current social policies that are in place that affect the protection of children, and the role of the social worker in child protection. Also covered are the procedures for child abuse investigation and reporting, interviewing the child and family, and the role of the court system. Controversial issues and opposing viewpoints are considered such as imprisonment of abusers, effectiveness of prevention programs, foster care, and proposed policy changes designed to reduce violence and harm to children.

Prerequisite: Sophomore standing.

SWK 267 Alcohol and Drug Addictions: Intervention Strategies (3)

This course prepares the student in one of the helping professions to understand the primary issues related to the use and abuse of alcohol and other drugs, including narcotics, depressants, stimulants, hallucinogens, and marijuana. The impact of drug use on the individual, the family, and society will be examined, including the psychological ramifications of children of alcoholics and drug abusers. Emphasis will be on the development of intervention skills and identifying the person who is abusing chemicals. Knowledge of community resources and programs, with attention given to accessibility to deaf substance abusers, will be covered.

SWK 304 Development of the American Social Welfare System (3)

This course explores the history and values of the social work profession in relation to the development of the social welfare system as well as traditional American values involved in the evolution of the current system. It also considers various conceptions of social welfare, their application in social welfare programs, and their implications in practice. Issues and policies that affect diverse populations who have experienced oppression and discrimination are examined.

Prerequisite: SWK 203.

Prerequisites or Co-requisites: ECO 203; GOV 101,102 or HIS 111, 112.

SWK 307 Human Behavior and the Social Environment I (3)

The course examines human behavior from conception through very old age. Throughout the course, the physical, intellectual, social, and emotional growth of individuals and families (micro systems) are studied. Each aspect of development is examined in the context of the environment's influence upon optimal growth. Additionally, attention is given to the interplay among culture, socioeconomic status, and ethnicity upon human behavior through the life course.

Prerequisite: Junior standing or permission of the department.

SWK 308 Human Behavior and the Social Environment II (3)

The course explores human behavior in communities, organizations and groups (macro systems). An overarching ecosystems perspective is emphasized for understanding how each macro system can enhance people's optimal health and well-being. Aspects of diversity are incorporated throughout the course in the form of issues that affect human behavior.

Throughout the course, content about the macro social environment is directly related to generalist social work practice using case material.

Prerequisite: SWK 307; Junior standing or permission of the department.

SWK 318 Human Diversity (3)

This course provides students an opportunity for examination of personal attitudes, stereotypes, biases, and misconceptions that affect ethnic-competent professional practice. Attention is given to increasing students' knowledge, understanding, appreciation, and sensitivity to diversity, oppression, and racism, and the implications of each for social work and other human services. While the course addresses the cognitive and conceptual aspects of learning, primary emphasis is on the affective process. In addition to learning about racism, discrimination, power/powerlessness, and ethnocentrism, students participate in experiential groups and role play. These exercises provide opportunities to explore new ways of thinking, feeling, and responding to people who experience discrimination or oppression because of their race, ethnic background, gender, age, disability, or sexual orientation, or because they are deaf or hard of hearing.

Prerequisite: Junior standing.

SWK 335 Social Work Practice I: Individuals (3)

This is the first course in the social work practice sequence and emphasizes the generalist model as the framework for all social work practice using a problem-solving approach. A major focus of the course is on the development of skills for practice with individuals within the context of social work values and ethics. Cross-cultural considerations and other differences between social worker and client are addressed throughout the semester. The course includes a weekly lab that provides opportunities for learning interviewing skills through the use of videotapes and role play.

Prerequisites or Co-requisites: SWK 203, 307; open to social work majors only.

SWK 337 Case Management (3)

Case Management is a required course in the practice sequence. It introduces students to case management and the various methods of intervention used with the process. Among the case management processes discussed are assessment, intake interviews, and documentation. Specialized practice skills used by case managers are also discussed. Students are taught methods for determining benefit eligibility, learn the rules and principles for referral making, and acquire knowledge related to the major income and

maintenance and support programs. Ethical and legal issues surrounding case management in the context of client autonomy, informed consent, and confidentiality are discussed and applied to case material. The course includes a pre-field experience that requires weekly visits to a human services organization for the purpose of observing the case management process. The course is open to social work majors only.
Prerequisite: Grade of C or better in SWK 203,307,335.

SWK 436 Social Work Practice II: Families and Groups (3)

This course focuses on the development of knowledge and skills for social work practice with families and groups. Particular attention is given to families in which one or more members is deaf or hard of hearing, to other minority families, and to practice issues with groups of deaf people and groups of other minority people.

Prerequisite: Grade of C or better in SWK 335, 337.

Co-requisite: SWK 484.

SWK 441 Research Methods in Social Work I (3)

The focus of this course is on the development of knowledge and skills for systematically monitoring and evaluating social work practice. The course covers quantitative and qualitative methods, ethical issues in research, special considerations in cross-cultural research, the value of single subject designs for evaluation of practice, critical analysis of research studies, and use of research findings in professional practice.

Prerequisite: SWK 335.

SWK 442 Research Methods in Social Work II-Data Analysis (3)

This course focuses on statistical and qualitative methods of data analysis that provide tools for social workers to evaluate their own practice and programs. Included are descriptive statistics, inferential statistics, content analysis of case studies, and inductive analysis of informant interviews and focus groups. The course also introduces students to the use of the computer in data analysis and provides hands-on experience with the Statistical Package for the Social Sciences and with the Ethnograph software package for qualitative data analysis.

Prerequisite: SWK 441.

SWK 482 Social Work Practice III: Organizations and Communities (3)

This course focuses on the development of skills for planned change in organizations and communities. The problem-solving process learned in previous social work practice courses is applied to problem analysis, goal formulation, and implementation of change within organizations and communities. Field practicum agencies, human service organizations, and other programs and services in the community are assessed, needs and problems are identified, and strategies for planned change are developed. Specific attention is given to strategies for change that will benefit traditionally underserved populations such as deaf and hard of hearing people, racial and ethnic minorities, women, people with disabilities, gays and lesbians, and older people.

Prerequisite: Grade of C or better in SWK 436.

SWK 484 Social Work Practicum I: Internship (4)

This course is part of a sequence with SWK486. During this course, students spend two full days (16 hours) per week within a practicum agency carefully selected to provide educationally sound experiences supervised by professional social workers. During the internship, students develop skills working with individuals, families, groups, organizations, and communities. Students have approximately 250 hours of practicum during this first semester.

Prerequisite: Grade of C or better in SWK 335, 337.

Co-requisite: SWK 436 and permission of the department.

SWK 486 Social Work Practicum II: Internship (4)

During this second semester, students remain in the same practicum agency to ensure that there is sufficient time to develop plans and implement interventions at all levels in the attainment of skills for generalist social work practice. There are again approximately 250 hours of internship.

Prerequisite: SWK 484; Grade of C or better in SWK 436.

SWK 494 Senior Seminar (3)

This course taken in the final semester of the major focuses on furthering the process of integrating social work knowledge, values, and skills. Students draw upon and apply knowledge of generalist social work practice and the specific knowledge, values, and skills required for work with individuals, families, groups, organizations, and communities.

The objective of this course is to enhance the students' ability to practice social work in the internship and to be prepared as beginning professional level generalist social workers upon completion of the program.

Prerequisite: Grade of C or better in SWK 436 and SWK 484.

Co-requisite: SWK 486.

SWK 495 Special Topics (1-3)

Special topics in the field of social work.

SWK 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Independent study form, permission of the department.

SOCIOLOGY

sociology.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Dr. Sharon Barnartt, Chair
Hall Memorial Building, Room S134

The Department of Sociology provides a variety of courses to meet the needs of students majoring in sociology as well as students seeking to satisfy their general studies requirements. Sociology is an important part of a liberal arts education, and students interested in elective courses to complete their degree requirements will find many upper-division sociology courses that complement courses offered in other departments.

Sociology is a social science that is concerned primarily with studying social behavior and human groups. Among other things, sociology looks at how groups influence individual behavior, how groups cooperate or conflict with one another, and how societies are established and change. Sociologists are also concerned with social problems that occur in societies such as crime, discrimination, poverty, and inadequate health care. Sociology emphasizes how society (rather than bad people) contribute to problems such as these.

The department offers a general major in sociology as well as a major in sociology with a concentration in criminology. Minors are available in sociology and criminology. A major in sociology provides a basis for graduate study in sociology, law, criminology, and related fields. Undergraduate training in sociology is also valuable for students interested in social work, secondary school teaching, business careers, and careers in public service.

Alpha Kappa Delta International Sociology Honor Society:

Founded in 1920, the name Alpha Kappa Delta was chosen because the letters represent the first letters of the three classical Greek words that embody the function of the society. They are anthropos, meaning mankind; katamanthano, meaning to examine more closely or acquire knowledge, and diakoneo meaning to do service. Thus, the motto of AKD is "To investigate humanity for the purpose of service." To be initiated into AKD a student majoring in sociology must be junior or senior, have completed at least four sociology courses, have a 3.0 overall GPA, be in the top 35% of their class, and have a 3.0 GPA in their sociology courses.

Total 18 hours

Sociology Courses Offered

SOC 101 Introduction to Sociology (3)

Sociology attempts to understand how societies function.

The course explores how social forces influence our lives and our chances for success. It also examines social groups, the relationships among social groups, and the ways groups get and maintain power.

Prerequisite: GSR 102 or the equivalent

SOC 150 Saloshin Justice Seminar (3)

This course is an experiential seminar. Students learn about the criminal justice system through a combination of weekly field trips, discussions with guest lecturers, and classroom discussions. Highly recommended as a first course in criminology for students who are considering working in the criminal justice system, as well as for students who would

just like an insider's view of police departments, courts, and correctional institutions in the United States.

Prerequisite: Permission of the instructor.

SOC 151 Introduction to the Criminal Justice System (3)

The course will examine each of the different parts of the American criminal justice system (policing, courts, and corrections), the procedural laws governing the system, and the ways the various parts of the system are interrelated and interdependent. The interaction between the Deaf community and the criminal justice system will be used as a special case, and students will learn about their rights as deaf individuals and how to protect those rights.

Prerequisite: GSR 102 or the equivalent

SOC 210 Sociology of Death and Dying (3)

While our responses to death and dying would seem to be very personal and therefore individually determined, they are, in fact, greatly influenced by the beliefs of society. Therefore, this course will not only examine the physiology of death and dying, but will primarily emphasize the sociology of death and dying. Focus will be on social factors related to causes of death and routines and rituals related to dying, death, funeral and burial practices, and grieving.

SOC 211 Race and Ethnic Relations (3)

A study of racial and ethnic relations in the United States. The course focuses on the characteristics of various American racial and ethnic groups, some of the causes of racial/ethnic group oppression, and racial/ethnic group responses to oppression.

SOC 225 Sociology of Deafness and Deaf People (3)

A survey of selected sociological topics related to deafness and deaf people. Socialization, education, inequality, diversity, and disability-related issues are among the topics discussed in this course.

SOC 243 Sociology of Deviance (3)

This course examines the social construction of deviance. That is, it examines how society makes rules for behavior, how those rules change over time, and who tends to benefit (and who tends to be limited) because of society's rules. The question of whether deviance is "good" or "bad" for society will also be examined. Finally, the course will consider what happens to people who break society's rules, both in terms of how society views rule-breakers and how they view themselves.

SOC 268 Cultural Anthropology (3)

A study of the problems of human origin, the nature of race, the social structure of preliterate societies, and the development of social institutions.

SOC 295 Special Topics (3)

Prerequisite: SOC 101.

SOC 313 Work and Globalization (3)

This course examines how work is related to societal and technological changes. Topics include long-term trends in the nature of work and the differences in work among major segments of the labor force, including differences by race, gender and disability. The course also examines how globalization is affecting work and workers in the United States as well as in selected other countries.

SOC 318 Medical Sociology (3)

The course considers social structure, cultural, and demographic components of physical and mental illness. Stages of illness behavior, from prevalence of symptoms and recognition of them to recovery or death, will be identified, and the social and cultural determinants of each stage will be discussed. The health care system and problems in health care delivery will be considered.

Prerequisite: SOC 101.

SOC 334 Introduction to Methods of Social Research (3)

Problems of research planning; collection, analysis, and presentation of research data. Significant studies from various fields of sociology and related disciplines exemplifying different research approaches will be analyzed.

Prerequisite: SOC 101.

SOC 351 Juvenile Delinquency (3)

This course examines how society treats young people who break the law, the social causes of juvenile delinquency, and rates of juvenile delinquency.

SOC 375 Statistics I (3)

An introduction to descriptive statistics and methods of organizing, presenting, and interpreting data. Covers measures of central tendency, measures of association for two variables, and some multivariate analyses. Includes computer analysis of real data.

Prerequisite: MAT 012 or the equivalent, SOC 334 or permission of the instructor.

SOC 376 Statistics II (3)

Covers inferential statistics, hypothesis testing, and advanced topics in data analysis. Includes computer analysis of real data and emphasizes appropriate usage, presentation, and interpretation of results.

Prerequisite: SOC 375.

SOC 395 Special Topics (3)

Prerequisite: SOC 101.

SOC 405 Current Issues in Criminology [Topic to be specified] (3)

This course will examine a specific issue that poses current problems in the criminal justice system. Examples include: the exploding prison population, the challenges of policing post-9/11, and deaf people in the criminal justice system.

This course may be repeated as topics change.

Prerequisite: SOC 101.

SOC 407 Social Problems (3)

This course will analyze the causes and consequences of major social problems of our time. Applying sociological theories, problems such as group conflict, family disorganization. Poverty, violence, and hunger are examined.

SOC 423 Social Theory (3)

This course will cover major sociological and criminological theories, both from classical and contemporary writers. It will then consider whether these theories can help us better understand controversial social situations, such as union organizing, the pro-choice/pro-life movement, and gang rape.

Prerequisite: SOC 101 and two additional sociology courses.

SOC 436 Social Inequality: Race, Class and Gender (3)

A study of gender and social class inequality. The course emphasizes theoretical and conceptual issues related to inequality, characteristics of various social stratification systems, and minority group responses to social inequality.

Prerequisite: SOC 101.

SOC 491 Senior Capstone Seminar I (3)

This course is designed to encourage students to integrate previous course-work into a conception of sociology as an approach to inquiry and a useful tool. This is the first half of a year-long course. Students will develop a topic, discuss relevant theories, do a literature review, and write a brief proposal which includes discussion of hypotheses, variables, methods, and sampling techniques.

Prerequisite: SOC 334, 375, 423.

SOC 492 Senior Capstone Seminar II (3)

This course continues the work of SOC 491. Students will collect data, do qualitative and quantitative analyses, and write a project report. Students will also present their results to their classmates.

Prerequisite: SOC 491.

SOC 495 Special Topics (3)

Prerequisite: SOC 101.

SOC 499 Independent Study (1-3)

Intensive supervised study and research on topics of the student's selection.

Prerequisite: Senior standing in the department.

SPANISH

Please see Spanish major and course listing under the Foreign Languages, Literatures, and Cultures Department.

STUDY ABROAD

cips.gallaudet.edu

College of Professional Studies and Outreach

Dr. Asiah Mason, Director
Hall Memorial Building, E253

Gallaudet offers the Study Abroad Program to students who are interested in traveling overseas to study the cultures, languages, and other areas in the humanities. The Center for International Programs and Services (CIPS) collaborates with individual academic departments in designing each program related to their classes and cultural studies.

Participants usually spend three to six weeks studying and traveling. Some of the countries visited by students on previous tours include China, Costa Rica, Cuba, the Czech Republic/Germany/Poland, India, Indonesia, Italy and Kenya.

Departments that have offered study abroad in the last several years include: Business, Counseling, Education, Educational Foundations and Research, English, History, Social Work, and Foreign Languages, Literatures, and Cultures. Foreign language courses offered in French, Spanish, German, and Italian are offered by the Department of Foreign Languages, Literatures, and Cultures.

Students interested in Study Abroad should consult with CIPS and the appropriate academic department. For information on Foreign Language courses offered, please see the Department of Foreign Languages, Literatures and Cultures section of this catalog.

THEATRE ARTS

theatrearts.gallaudet.edu

College of Liberal Arts, Sciences, and Technologies

Mr. Willy Conley, Chair
Elstad Annex, Room 120

The Theatre Arts Department offers two majors covering a wide range of disciplines within theatre arts. The production/performance major prepares students in acting, design, and technical theatre and at the same time provides historical and theoretical perspectives of theatre. Students apply their developing skills in a production program that includes major productions and children's theatre. The developmental drama major prepares students to integrate drama techniques, such as role play, improvisation, puppetry, and storytelling into educational, recreational, and social settings involving children. The major includes courses from the department as well as allied courses in psychology and education.

Majors Offered

Theatre Arts with specializations in:
Educational Drama
Production/Performance

Minor Offered

Educational Drama
Production/Performance

Declaring a Major

Requirements for Admission to a Major in Theatre Arts

The Department of Theatre Arts requires only the signature of the department chair.

B.A. in Theatre Arts: Educational Drama

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	6
Major and Related	45-48
Free Elective	26-29
TOTAL	120

Requirements for a Major in Theatre Arts with a Specialization in Educational Drama

Required pre-major courses 6 hours

PSY 201 Introduction to Psychology (3)
THE 110 Introduction to Theatre (3)

Required theatre courses 18 hours

THE 101 Visual Gestural Communication (3)
THE 470 Creative Movement and Drama, Preschool Kindergarten (3)
THE 472 Educational Drama - Grades 1-6 (3)
THE 474 Educational Drama - Grades 6-12 (3)
THE 476 Theatre for Youth (3)
THE 480 Practicum in Educational Drama (3)

Required related courses 12-15 hours

CAP 320 Field Experience (3-6)
EDF 323 Educational Psychology (3)
EDU 250 Introduction to Education and Teaching (3)
PSY 311 Development I: Child Psychology (3)

Elective courses 15 hours

Choose fifteen hours in consultation with the department:
EDU 665 Children's Literature (3)
PSY 313 Development II: The Psychology of Adolescence (3)
THE 201 Fundamentals of Body Movement (3)
THE 281 Theatre Practicum (1-3)*
THE 341 Sign Language Translation for the Theatre (3)
THE 342 Introduction to Playwriting (3)
THE 348 Theatre History (3)
THE 353 Fundamentals of Acting (3)
THE 478 Fundamentals of Directing (3)
THE 495 Special Topics in Theatre Arts (3)
THE 499 Independent Study (1-3)

*Repeat as necessary for 3 credits.

B.A. in Theatre Arts: Production/Performance

Summary of Requirements

	2009-2010
General Studies	40
Pre-Major Courses	6
Major and Related	36-39-48
Free Elective	35-38
TOTAL	120

Requirements for a Major in Theatre Arts with a Specialization in Production/Performance

Required pre-major courses 6 hours

THE 101 Visual Gestural Communication (3)
THE 110 Introduction to Theatre (3)

Required theatre and related courses 27-30 hours

CAP 320 Field Experience (3-6)
ENG 441 Shakespeare (3)
THE 281 Theatre Practicum (1-3)*
THE 341 Sign Language Translation for the Theatre (3)
THE 348 Theatre History (3)
THE 350 Script Reading and Analysis (3)
THE 351 Contemporary Drama (3)
THE 353 Fundamentals of Acting (3)
THE 373 Theatre Production and Management (3)
*Repeat as necessary for a minimum of 6 credits.

Elective theatre courses 9 hours

Choose nine hours:
THE 201 Fundamentals of Body Movement (3)
THE 336 Mime (3)
THE 342 Introduction to Playwriting (3)
THE 361 Fundamentals of Stagecraft (3)
THE 405 Fundamentals of Stage Lighting (3)
THE 461 History of Costume (3)
THE 464 Costume Design for the Theatre (3)
THE 466 Scenographic Techniques (3)
THE 470 Creative Movement and Drama, Preschool Kindergarten (3)
THE 472 Educational Drama - Grades 1-6 (3)
THE 474 Educational Drama - Grades 6-12 (3)
THE 476 Theatre for Youth (3)

THE 478 Fundamentals of Directing (3)
 THE 480 Practicum in Educational Drama (3)
 THE 499 Independent Study (1-3)

Minor in Theatre Arts: Educational Drama

Requirements for a Minor in Educational Drama

Required courses 15 hours

THE 470 Creative Movement and Drama, Preschool - Kindergarten (3)
 THE 472 Educational Drama - Grades 1-6 (3)
 THE 474 Educational Drama - Grades 6-12 (3)
 THE 476 Theatre for Youth (3)
 THE 480 Practicum in Educational Drama (3)

Elective courses 6 hours

Choose two three-hour elective from Theatre Arts in consultation with the department.

Total 21 hours

Minor in Theatre Arts: Production/Performance

Requirements for a Minor in Production/Performance

Required courses 15 hours

THE 110 Introduction to Theatre (3)
 THE 281 Theatre Practicum (1-3)*
 THE 350 Script Reading and Analysis (3)
 THE 373 Theatre Production and Management (3)

*Repeat as necessary for a minimum of 6 credits.

Elective courses 6 hours

Choose two three-hour electives from Theatre Arts in consultation with the department.

Total 21 hours

Theatre Arts Courses Offered

THE 101 Visual Gestural Communication (3)

A study of gestures as a form of communication and as a basis for visual language. Concentration on the ability to think in pictures and to develop expressive and receptive communication skills in gestures. This course develops artistic sign language translation skills and leads to better understanding of the basic structures of American Sign Language.

THE 110 Introduction to Theatre (3)

A survey of and introduction to the contemporary theatre; drama, dance, music, and film. This course is a basis for all drama courses and is required prior to declaring a major in theatre arts: production/performance. Lab hours required.

THE 201 Fundamentals of Body Movement (3)

This introductory course familiarizes students with theories of body movement and trains students in the use of physical space, rhythm, and balance for the purpose of creating mood and character through body movement within a theatrical context.

THE 281 Theatre Practicum (1-3)

A laboratory course designed to permit students to earn credit while participating in Theatre Arts Department activities. Students may select a practicum from the areas of acting, directing, technical theatre, costuming, design, or management.

Prerequisite: Permission of the instructor.

THE 336 Mime (3)

A lecture/performance course focusing on varieties of mime ranging from traditional pantomime to modern mime and the relationship of mime to sign language.

Prerequisite: THE 201 or permission of the instructor.

THE 341 Sign Language Translation for the Theatre (3)

This course covers creative work in different styles of signing, composed and selected from prose, poetry, and drama.

Prerequisite: THE 101 or permission of the instructor.

THE 342 Introduction to Playwriting (3)

An introduction to the basic principles of creating plays for the stage. Various ways of making a play will be explored through writing, improvisations, collaboration with other writers and/or actors, videotapes, and adaptations of other literary forms (poetry, fiction, nonfiction) into dramatic forms.

Prerequisite: THE 101 or permission of the instructor.

THE 348 Theatre History (3)

This course covers the development of theatre from its beginnings to the latest contemporary movements. Through lectures, demonstrations, discussions, and required attendance at theatre performances on and off campus, students will explore the contributions, characteristics, purposes, and influences of theatre as developed by a range of cultures in nonverbal, written, and signed forms.

Prerequisite: THE 110.

THE 350 Script Reading and Analysis (3)

Whether written or videotaped, a script is the basis for the work of theatre directors, actors, designers, production managers, and publicists. During this course, students will read scripts representative of different historical periods, styles, and cultures. Students will also analyze these scripts as they relate to the functions of directors, actors, designers, production managers, and publicists.

Prerequisite: THE 110.

THE 351 Contemporary Drama (3)

A study of the aesthetics inherent in a representative sampling of contemporary (20th century) drama: plays and current trends.

Prerequisite: THE 110 or permission of the instructor.

THE 353 Fundamentals of Acting (3)

Study of pantomime and acting exercises; introduction to basic principles and techniques of acting; performance of laboratory scenes, readings, and exercises. Participation in an experimental production.

Prerequisite: THE 101, and THE 201, or permission of the instructor.

THE 361 Fundamentals of Stagecraft (3)

A comprehensive practical course in scenery construction and painting, its properties, scenery storage, and use of backstage equipment. Production duties are assigned. Class and laboratory work required.

THE 373 Theatre Production and Management (3)

A comprehensive course designed to provide the student with a working knowledge of theatrical production practices and management skills required for successful theatre production. This course includes an in-depth study of the various theatre personnel, their related responsibilities, both in nonprofit and profit theatre organizations. Additionally, specific consideration is given to conventions pertinent to deaf theatre.

Prerequisite: THE 110 or permission of the instructor.

THE 405 Fundamentals of Stage Lighting (3)

A comprehensive, practical course designed to acquaint the student with the basic theory, equipment, and use of stage lighting. Class and laboratory work required.

THE 461 History of Costume (3)

This course is designed to acquaint the student with major styles and periods of dress from Egyptian to pre-World War I European as a basis of later work in costume design. Viewed through slides, photographs, and actual historical documentation, a flow of design and change is seen.

THE 464 Costume Design for the Theatre (3)

A course aimed primarily at the beginning skills of the costumer through practical design experience, development of sound research habits, and basic patterning to create the desired period style. Work on production assigned.

Prerequisite: THE 461; or permission of the instructor.

THE 466 Scenographic Techniques (3)

Practical work on basic principles and techniques of graphic communication for the stage. Included are methods of drafting, painting, and rendering the design concept. Materials supplied by the student; production crew work assigned.

Prerequisite: Junior or senior standing in the department, THE 361, or permission of the instructor.

THE 470 Creative Movement and Drama, Preschool - Kindergarten (3)

This course will focus on methodology and practice of creative movement and drama for children ages 3 to 6 (preschool and kindergarten). Students will become familiar with the use of creative movement, mime, improvisation, story dramatization, storytelling, puppetry and use of multi-sensory stimuli and learn how to adapt activities for children with special needs. Emphasis will be on the application of these techniques to language development, social learning, concept formation, emotional development, and creativity. Resources will include multiethnic themes, stories, and folklore.

Prerequisite: Junior or senior standing.

THE 472 Educational Drama Grades 1-6 (3)

This course focuses on methodology and practice of educational drama applied to multidisciplinary learning within the first through sixth grade curricula. Students will be introduced to theme and story based improvisation, story dramatization, role play, and teacher-in-role strategies, and learn how to adapt activities for children with special needs. Curricular areas include language arts, social stud-

ies, science, and math, with additional focus on examining emotional development, and creativity. Current trends in assessment of drama will also be explored. Resources will include multiethnic themes, stories, and folklore.

Prerequisite: Junior or senior standing.

THE 474 Educational Drama - Grades 6-12 (3)

This course focuses on methodology and practice of educational drama applied to multidisciplinary learning within the sixth through twelfth grade curricula. Students explore the use of theme and literature based improvisation, role play, and teacher-in-role strategies applied primarily to language arts and social studies, including sociology, history, government, and current events. Additional emphasis will be placed on examining emotional development and creativity. Resources will include multiethnic themes, stories, and folklore.

Prerequisite: Junior or senior standing.

THE 476 Theatre for Youth (3)

This course will begin with a review of the history, influences, and development of theatre for young audiences in the twentieth century. Particular emphasis will be placed on examining current trends in theatre for youth including: standards for professional theatre, standards for in-school theatre programs, dramatic literature, and theatre-in-education. In addition to readings from text: *Children's Theatre, Children and Youth* by Jed H. Davis and Mary Jane Evans, students will read selected plays from *Dramatic Literature for Children: A century in Review* by Roger L. Bedard, and *Spit in One Hand, Wish in the Other: Six Plays* by Suzan Zeder for Youth Audiences, by Susan Pearson-Davis. Student will attend theatre performances in the Washington, D.C. area.

Prerequisite: THE 110.

THE 478 Fundamentals of Directing (3)

Theory and practice for the beginning director.

Prerequisite: Senior standing and permission of the department.

THE 480 Practicum in Educational Drama (3)

This follow-up course to THE 470, 472 and 474 is designed to give students professional on-site experience and training with deaf and hard of hearing children and children who have special educational needs. Students will meet with classroom teachers and prepare age appropriate drama

lessons that support classroom long and short term objectives. Students will work in at least two different classrooms during the semester.

Prerequisite: THE 470, 472, 474; permission of the instructor.

THE 495 Special Topics (1-3)

Special topics in theatre arts depending on the needs and interests of Gallaudet students.

Prerequisite: Permission of the instructor.

THE 499 Independent Study (1-3)

A project in the field of the student's special interest, involving reading, research, discussion, and/or lab work. Title indicating content must be available at registration.

Prerequisite: Permission of the instructor.

UNDERGRADUATE CONTINUOUS ENROLLMENT

registrar.gallaudet.edu

Office of the Registrar

Mr. Randy Prezioso, Registrar
Chapel Hall, Room 101

UCE 499 Continuous Enrollment (0)

This course provides continuous enrollment for undergraduate students who are not on leave of absence and are not currently enrolled in a Gallaudet course. Please see the Registrar's Office to enroll in this course.

Course Fee: \$100

WOMEN'S STUDIES

Please see Women's Studies course listing under the Government and History Department.

Services and Activities

A guide to offices that students often need to contact is online at aaguide.gallaudet.edu. Using AAguide, students and families can find office locations, web sites, office email addresses, and phone numbers. A people directory, where you can find staff names, email addresses, phone numbers, and locations, is also online at people.gallaudet.edu.

Gallaudet University offers a variety of services and activities to support students in their academic and personal development.

ACADEMIC SERVICES

Academic Advising and Tutoring

Academic Advising

Jordan Student Academic Center, Room 2220

Web: advising.gallaudet.edu

Email: advising@gallaudet.edu

The Academic Advising Office supports and facilitates undergraduate students' transition and integration into college by assisting in the development of appropriate educational plans consistent with academic, career, and personal goals. Academic advisors promote the personal growth of students by respecting and appreciating various communication and cultural backgrounds.

Advisors provide academic and career advising for pre-major students and walk-in service for any other students. Upon arrival at Gallaudet University during New Student Orientation, each student is assigned to a professional advisor in the Academic Advising Office. Pre-major academic and career advising includes individual and group advising for new students, course registration, new student interviews, academic planning meetings, interest and personality testing (Self-Directed Search and the Myers-Briggs Type Indicator), computerized career guidance programs (Career Cruising), and assistance in selecting an academic major

that best matches the student's values, interests, personality, and skills (VIPS). A student will remain with the same advisor until he/she declares a major. At that time, the student transfers to a faculty academic advisor within the department of the major. Academic/Career Advisors work extensively with academic departments on academic policies, procedures, and curriculum. Advisors are available to faculty, parents, vocational rehabilitation counselors, and professionals on and off campus for information sharing and other academic and career advising concerns.

Tutorial and Instructional Programs

Jordan Student Academic Center, Room 1221

Web: tip.gallaudet.edu

Email: tip@gallaudet.edu

Tutorial and Instructional Programs (TIP) at Gallaudet University provides an open and safe learning environment for students who request tutorial assistance and also serves as a resource to the campus community. Through bilingual instruction and a variety of tutoring techniques by qualified tutors, students learn diverse skills and strategies necessary for academic success contributing to student retention.

TIP provides free tutoring, language advice and instructional support services for all undergraduate and graduate students. TIP is accredited by the College Reading and Learning Association's (CRLA). All tutors are trained and certified by CRLA's International Tutor Certification Program. The following services are provided by TIP:

- One-on-One Tutoring
- ASL Tutoring
- English One-on-One Tutoring
- [English Works!](http://tip.gallaudet.edu/EnglishWorks.xml) (tip.gallaudet.edu/EnglishWorks.xml)
- Group Tutoring
- Math Walk-in
- Math Works!
- Paper Feedback
- Study Table
- Supplemental Instruction

Academic Technology

*Merrill Learning Center, Room 1120
Hall Memorial Building, Room W121*

Web: academictech.gallaudet.edu

Email: acadtech.office@gallaudet.edu;
helpdesk@gallaudet.edu from campus email addresses only,
otherwise: techhelp.guest@gallaudet.edu

Academic Technology (AT) provides instructional and technical support for Gallaudet's online learning and academic systems and is dedicated to enhancing the Gallaudet community's academic success through uses of technology and video. AT promotes both technological competence and information literacy.

Academic Technology manages the GDOC (Gallaudet Dynamic Online Collaboration) online learning system (my.gallaudet.edu), provides technology training and support, provides media equipment delivery and loan services (media.gallaudet.edu), manages the Technology Help Desk system (helpdesk.gallaudet.edu) where requests for all campus technology services can be entered, maintains the Gallaudet Television system, produces original video programming and captioning for the campus community, and provides technical support for centralized computer labs, classrooms, and academic servers. Academic Technology also provides technology orientation in First Year Seminar courses and manages year-round e-Curriculum training for faculty.

My.Gallaudet.edu serves as the academic portal for new and current students, providing them access to information, course materials, and interactions with the Gallaudet community. VideoCatalog.gallaudet.edu is an online portal to a collection of deaf-related videos, including the award-winning Deaf Mosaic TV shows from 1985-1995.

Academic Technology has five offices: Director's Office; e-Learning; Help Desk, Media, and Classroom Technology; Video Services; and Web Programming and Video Systems Support.

Resources for students include two computer labs: one in HMB W121 and the other in the Jordan Student Academic Center, Room 1100. Schedules for these labs are posted at acadtech.gallaudet.edu/computerlab.xml. The HMB W121 lab contains 12 PCs.

The JSAC 1100 Lab, the Harkin Digital Learning Center, is open days, evenings, and weekends. During exam periods, it is open 24-hours. The Harkin Center is an interactive learning space with:

- 98 PC computers
- 8 Mac computers
- 10 Mac/PC computers
- a student collaboration room (JSAC 1103) with a large plasma screen and 6 Mac/PC laptops for shared projects
- a dedicated room for low-vision students (JSAC 1109)
- four video editing suites (JSAC 1104-1108) for video recording, editing, and digitizing. The video suites include high-end PC/Mac computers, cameras, and DVD recorders.

The Technology Help Desk (helpdesk.gallaudet.edu) is a one-stop site for technology-related requests. Working collaboratively with Information Technology Services (ITS) and other technology units on campus, Academic Technology supports a broad range of student technology needs.

All residence hall rooms are Internet-accessible and have cable TV connections. The channel lineup for Gallaudet Television is online at tv.gallaudet.edu.

Students may also download Gallaudet-licensed and free software from Academic Technology's software web site, software.gallaudet.edu. Students are encouraged to download free anti-virus software to protect their computers. Gallaudet participates in the Microsoft campus agreement (www.microsoft.com/Education/CampusAgreement.mspx), meaning that students may install Microsoft Office and install upgrades to Microsoft Operating Systems on their personal computers. Details of how registered students can get these software installed is provided at software.gallaudet.edu/licensed.xml. University-level student technology services are provided by two units: Academic Technology and Information Technology Services (ITS).

American Sign Language (ASL) Instructional Programs

Hall Memorial Building, Room E-111

Web: aslprograms.gallaudet.edu

Email: aslprograms@gallaudet.edu

Non-degree credit American Sign Language classes are offered through the College of Professional Studies and Outreach (CPSO) for professional studies (PST) credit. The ASL I-VI course sequence, Fingerspelling and Visual Gestural Communication classes are usually offered each semester, as are ASL Special Topics courses (e.g., classifiers, numbers, non-manual signals).

These classes are open to current graduate, undergraduate, and visiting students. Although all of the courses are non-degree credit at Gallaudet, they may meet foreign language requirements at some other post-secondary institutions. Classes are also offered to businesses, organizations, and other on-site locations upon request.

All students must register for classes through CPSO. Registration procedures can be found online by following the semester schedule at aslprogram.gallaudet.edu.

ASL Diagnostic and Evaluation Services

Merrill Learning Center, Room 2200

WEB: asldes.gallaudet.edu

Email: DxAssessment@gallaudet.edu

ASL Diagnostic and Evaluation Services (ASL-DES) provides training, consultation and comprehensive measures of American Sign Language (ASL) proficiency and communicative competence. The data and information generated by ASL Diagnostic and Evaluation Services benefits not only individual language learning, but is also essential to Gallaudet University, institutions and governing bodies nationwide. Information pertaining to ASL proficiency is provided to ensure individuals have requisite language skills for (but not limited to):

- Admission into academic programs
- Core curriculum, practicum, internship and graduation
- Professional opportunities and advancements

ASL Assessment

Diagnostic Assessment of ASL is housed in ASL Diagnostic and Evaluation Services (ASL-DES), a unit in the ATLAS Learning Services group. Diagnostic Assessment services offer individuals feedback on the use of ASL, language discourse and communication aspects appropriate for various settings and purposes. Diagnostic Assessments identify strengths and areas needing improvement in an array of formats. Recommendations for improvement are also provided. At the conclusion of each format, the individual receives a digital report (DVD) for long-term referencing and continued learning. Diagnostic Assessment is offered in a variety of formats:

- **1:1 Sessions** diagnose specific aspects of the language. This includes phonology, morphology, syntax, semantics and pragmatics. The diagnostician engages the individual in a conversational exchange and elicits a language sample using a variety of tasks and stimuli. Individuals will review ASL video instructions prior to completing tasks and responding to stimuli. Typically, this format requires two one-hour sessions.
- **Classroom Observations** capture not only aspects of ASL, but also discourse techniques/pragmatics, heuristic functions, and whether the environment is visually optimized. A classroom-based assessment would also note students' comprehension of the instructor, and the instructor's comprehension of the students. ASL-DES staff video record the faculty while s/he teaches in the classroom and then analyze the video recording to identify signing and classroom discourse strengths and areas needing improvement.
- **Presentations** are used to diagnose ways of communicating ideas and information to a group. The individual will be video recorded presenting on a specific topic. The video recording is analyzed and feedback is provided. The individual is provided with suggestions on how to advance presentation skills using actual video footage from the presentation.
- **Work Site Observations** capture language use, communication techniques and strategies and whether the environment is visually optimized for the work site. This assessment format would also examine appropriate register for various settings (e.g., 1:1 meetings, small group dynamics, large group presentations).

To schedule a Diagnostic Assessment, complete the online form located in the *Scheduling* section of the web site asldes.gallaudet.edu/DxAssessment.xml.

American Sign Language Proficiency Interview (ASLPI)

Web: asldes.gallaudet.edu/aslpi.xml

Email: ASLPI@Gallaudet.edu

The American Sign Language Proficiency Interview (ASLPI) at Gallaudet University is housed in ASL Diagnostic and Evaluation Services (ASL-DES), a unit within ATLAS Learning Services.

The precept in this type of evaluation is to find out, through a face-to-face interview, what an individual can do with the target language at a given point in time. The ASLPI involves an interactive process between an interviewer and the individual being evaluated. This process is video recorded and holistically scored by a team of raters. The raters assign a proficiency level by considering the examinee's performance in five areas: grammar, vocabulary, production/accents, fluency and comprehension. Proficiency levels awarded range from 0-5. Except for level 5, the scoring process sometimes results in the assignment of a plus value (+). This does not represent a midway point between two levels, but may be inferred to indicate that the examinee exceeds the requirements for a particular level but does not satisfy in all respects the requirements of the next higher level.

Scheduling for Gallaudet University students, faculty and staff occurs for a limited time (typically two weeks) at the beginning of the spring, summer and fall semesters. Once the scheduling period has ended for a given semester, additional interviews for Gallaudet students, faculty and staff will not be added to the schedule unless extraordinary circumstances exist. The ASLPI is also being offered via videophone for those individuals who are not in the Washington, D. C. metropolitan area. Requirements for a VP-ASLPI are outlined on this web site asldes.gallaudet.edu/vpaslpi.xml.

The ASLPI is offered free of charge to full-time Gallaudet students, faculty and staff. Fees may be imposed for cancellations made less than 48 hours of the interview date and time, and for no shows. Prospective students applying for admission to Gallaudet and prospective faculty and staff who are required to take the ASLPI as part of an interview process for a position must pay a fee for the ASLPI. Please check the ASLPI web site for current fee information.

Captioning Services

Hall Memorial Building, W121

Web: helpdesk.gallaudet.edu

Email: helpdesk@gallaudet.edu

Real-time captioning services provide a text translation of the spoken content of a classroom or meeting event. The text is displayed on a computer or large screen display. A transcript file can be provided after the event.

Academic Technology is the campus provider of real-time captioning for classes, meetings and special events. To submit a request for real-time captioning:

- go to the Help Desk: helpdesk.gallaudet.edu
- under services select Media Reservation (University)
- under "Type", select Meeting Meeting Set-up
- under "Options" select Real-Time Captioning Set-up
- under "Comments," provide as much information as possible about locations and times
- click Submit.

There are no charges for real-time captioning for classes when requested by students or faculty. Charges may apply for other events.

If you have additional questions about real-time captioning, please contact the Help Desk at 202-651-5044 VP/TTY/Voice.

Career Center

Jordan Student Academic Center, Room 2221

Web: careercenter.gallaudet.edu

Email: career.center@gallaudet.edu

The Career Center's mission is to assist students in reaching their career goals by integrating liberal education with experience in the marketplace. We educate and empower students to practice lifelong career management skills, make effective career decisions, and achieve professional success.

The Career Center provides a variety of services to assist students in developing effective career management skills including: individual advising, workshops and seminars, Career Library (information resources such as job listings, internet access, occupational information, student employ-

ment listings for on-campus work-study, part-time and full-time jobs), internship orientation, mock interviews, resume feedback, on-campus recruiting (where employers visit campus to interview students for internships and full-time positions), opportunities to network with alumni, internship and job fairs, and more.

The Career Center offers a robust internship program that enables students to connect liberal learning with success in the professional world. Recent internship sites include Sidwell Friends School, David Letterman Show, Booz Allen Hamilton, Stanford University, Merrill Lynch, Smithsonian Institution, National Association of the Deaf, National Institutes of Health, Tufts University, Danish Deaf Youth Association, NASA, U.S. Department of Defense, Deaf Culture Centre, Office of Senator Tom Harkin, National Zoo, Arizona School for the Deaf, and many more.

Financial Aid

Chapel Hall, Room G02

Web: financialaid.gallaudet.edu

Email: financial.aid@gallaudet.edu

Gallaudet University makes every effort to provide financial aid to students who are able to demonstrate that they are in need of assistance to continue their education on a postsecondary level.

For specific information about Financial Aid programs and policies, see the Tuition, Fees and Aid chapter of this catalog or visit the Financial Aid web site.

Gallaudet University Regional Centers (GURC)

Kellogg Conference Hotel, Room 3305

Web: gurc.gallaudet.edu

Email: GURC@gallaudet.edu

Through partnerships with host colleges, five Gallaudet University Regional Centers (GURCs) help Gallaudet and the Laurent Clerc National Deaf Education Center bring the resources and expertise of Gallaudet University to sites across the country via the provision of extension courses, training programs, workshops, conferences, enrichment programs, and technical assistance. The GURCs also host the regional high school Academic Bowl competitions that culminate in

the national Academic Bowl held at Gallaudet University each year. The GURCs are coordinated by the [College of Professional Studies and Outreach \(cpso.gallaudet.edu\)](http://College of Professional Studies and Outreach (cpso.gallaudet.edu)) and are located at the following host institutions:

- Flagler College, Florida
- Gallaudet University, Washington, DC
- Johnson County Community College, Kansas
- Kapiolani Community College, Hawaii
- Northern Essex Community College, Massachusetts
- Ohlone College, California

Graduate Orientation Programs

Graduate Student Orientation (GSO) is a required program offered for all new degree-seeking students during the week before the fall semester begins. GSO provides an opportunity for new graduate students to become acquainted with other new and returning graduate students and to meet with their department advisors and faculty. During GSO, new graduate students will be welcomed by key administrative, staff, and faculty members and they will receive an introduction to campus services, acquire information about academic standards, and participate in culture and language activities. Graduate special students are welcome to attend the opening orientation meeting on Tuesday morning and to meet with the Assistant Dean for Curriculum, Policy, and Operations on Wednesday morning to receive advising.

Graduate School Admissions

Kendall Hall, 1st Floor

Web: gspp.gallaudet.edu/gradadmissions.xml

Email: graduate.school@gallaudet.edu

The role of the Graduate School Enrollment Office is to engage in activities and support services for prospective Gallaudet graduate students in coordination and collaboration with the Dean, the CGE and the academic departments. This effort will include the systematization, standardization and coordination of the admissions process across graduate and degree programs.

Mission Statement:

The Graduate School Enrollment Office maintains as its mission and purpose to provide accurate and current information to prospective students and the university community regarding graduate programs and the application process for graduate studies; to facilitate the effective and efficient

processing of graduate applications; and to provide open communication between programs and graduate admission. We strive to be a student-centered team, committed to quality customer service and continuous improvement provided in a welcoming, supportive, and accessible bilingual learning environment.

What We Do:

Graduate admission to Gallaudet University is a collaborative process involving the Graduate School and the graduate faculty of the University. The role of the Graduate School Enrollment Office is to engage in activities and support services for prospective Gallaudet graduate students in coordination and collaboration with the Dean, the Council on Graduate Education (CGE), and the academic departments. This effort will include the systematization, standardization and coordination of the admissions process across graduate and degree programs.

Core Values:

- Efficient and friendly service to our current and prospective graduate students
- Quality service to our graduate faculty and administrators in the enrollment process
- Welcoming atmosphere in the Graduate School Enrollment Office for students, faculty and staff alike.

Graduate Student Support Services

Classroom Notetaking Services

Upon request from a registered graduate student, the Graduate School will provide a student notetaker for on-campus, face-to-face, graduate credit courses. Students who wish to have a notetaker in a class should inform the instructor, who will attempt to solicit a notetaker from among the other students. Once a notetaker is identified, the requesting student will fill out a request form, available from each departmental office and bring it to the office of the Graduate Program Specialist in FH 202A. Notetakers then distribute a copy of their notes to those students who want them. Notetakers are reimbursed by the Graduate School for their service. In order to receive maximum compensation, students wishing to serve as a notetaker in their classes should complete the free notetaker training course, offered before fall classes begin. For more information, contact Katherine Spiegel, Graduate Program Specialist in room 202A, Fowler Hall or by email at katherine.spiegel@gallaudet.edu, or by VideoPhone at 202-250-2472.

Online Professional Writing Course for Graduate Students

The Graduate School and Professional Programs offers an online professional writing course, available to graduate students. It focuses on the organization and structure of writing at the graduate and professional level.

Institutional Review Board (IRB)

Kendall Hall Room 102A; Fowler Hall, Room 214

Web: irb.gallaudet.edu

Email: irb@gallaudet.edu

The Gallaudet Institutional Review Board is a committee designated to review, approve, and conduct periodic review of research involving human subjects. The primary purpose of the review is to assure the protection of the rights and welfare of the human subjects. The IRB's role at Gallaudet extends to all research involving human subjects whether conducted by faculty, staff, graduate students, undergraduate students, or non-Gallaudet researchers. The IRB must also review all projects seeking to use Gallaudet faculty, staff, students and alumni as research participants. The IRB acts as an advocate for the research subject. This means that the IRB, during its review of a research project and the informed consent, has the right and responsibility to ensure that the research subject is fully informed of the procedures involved in the study as well as the risks. Information and instructions on the IRB Application and IRB Sponsorship can be found at our web site.

International Student Programs and Services

Hall Memorial Building, Room E-253

Web: cips.gallaudet.edu

Email: cips@gallaudet.edu

The [Center for International Programs and Services](http://cips.gallaudet.edu) (CIPS), a unit within the College of Professional Studies and Outreach, is Gallaudet University's one-stop office for all things international. It is comprised of four units:

- [Global Education and Scholar Services](http://cips.gallaudet.edu/GlobalEducation.xml) (cips.gallaudet.edu/GlobalEducation.xml) offers a broad range of services and activities for students, faculty, and professionals at Gallaudet seeking to enhance their learning and expertise through qualitative opportunities to apply their knowledge internationally, and to provide short-

and long-term programs for visiting students, scholars, researchers, and professionals who are interested in coming to Gallaudet.

- [English Language Institute \(eli.gallaudet.edu\)](http://eli.gallaudet.edu) provides comprehensive immersion programs in English as a Second Language to mostly international students, as well as ASL and cultural studies courses, to enable students to gain proficiency in English and ASL in order to qualify for admission to Gallaudet or other U.S. universities, and to thrive in their studies and increase their employment potential.
- [International Student Services \(cips.gallaudet.edu/InternationalStudentServices.xml\)](http://cips.gallaudet.edu/InternationalStudentServices.xml) works in cooperation with other departments and units of the University to ensure that all international students and scholars are in compliance with current immigration regulations.
- International Outreach (cips.gallaudet.edu/InternationalOutreach.xml) helps further global competence, understanding, partnership in leadership and education for deaf people by facilitating faculty and staff participation in projects or training that improve education for deaf and hard of hearing people.

[Global Education and Scholar Services](#) offers a broad range of services and activities for students, faculty, and professionals at Gallaudet and provides programs for visiting students, scholars, researchers, and professionals who are interested in coming to Gallaudet. Operating under College of Professional Studies and Outreach's Center for International Programs and Services are the following programs:

Global Internship Program

The Global Internship Program gives students opportunities to gain practical experiences and be involved in world affairs. It allows Gallaudet undergraduate and graduate students to do internships overseas, where they have the opportunity to work with deaf, hard of hearing, and/or hearing populations for various period of time, up to one full semester.

Global Partnership Program

The Global Partnership Program fosters international partnerships between the Gallaudet University community and Deaf and Hard of Hearing communities or organizations in other countries. The Global Partnership Program Provides educational preparation and in-service programs, technical assistance, international placement for students, and opportunities for cultural exchange.

International Visiting Scholar Program

The International Visiting Scholar Program is designed for international school personnel, researchers, professionals, and students from other countries who are not pursuing an academic degree at Gallaudet University. The program is individually designed to meet the needs of each scholar, in which participants can audit courses, gain practical experience by being exposed to what is happening at Gallaudet, visit schools, organizations, and agencies. There are great opportunities to do intensive data collection in acquiring specific information and skills relating to deafness. This is a one- or two-semester, non-degree program. Areas of interest include the education of deaf children, teacher training, social work, career education, leadership development, sign language, linguistics, and Deaf studies.

Leadership Training Program

The Leadership Training Program provides Gallaudet's international in-coming and out-going students with a series of leadership training seminars on campus to help them to become future leaders. In addition, CIPS provides seminars or training to both deaf and hearing people in countries around the world.

Study Abroad

Gallaudet offers the Study Abroad Program to students who are interested in traveling overseas to study the cultures, languages, and other areas in the humanities. The Center for International Programs and Services (CIPS) collaborates with individual academic departments in designing each program related to their classes and cultural studies.

Participants usually spend three to six weeks studying and traveling. Some of the countries visited by students on previous tours include China, Costa Rica, Cuba, the Czech Republic/Germany/Poland, India, Indonesia, Italy and Kenya.

Departments that have offered study abroad in the last several years include: Business, Counseling, Education, Educational Foundations and Research, English, History, Social Work, and Foreign Languages, Literatures, and Cultures. Foreign language courses offered in French, Spanish, German, and Italian are offered by the Department of Foreign Languages, Literatures, and Cultures.

Students interested in Study Abroad should consult with CIPS and the appropriate academic department. For information on Foreign Language courses offered, please see the Department of Foreign Languages, Literatures and Cultures section of this catalog.

Visiting Researcher Program

The Visiting Researcher/Scholar Program at Gallaudet University was established to accommodate a limited number of researchers and scholars who wish to use the facilities of Gallaudet University each academic year. The Center for Global Education works closely with academic departments and faculty members to extend its resources on selective basis in the spirit of institutional collegiality; fostering knowledge and exchange of information.

Fulbright Scholarship Program

The Fulbright Program aims to increase mutual understanding between the people of the United States and other countries, through the exchange of persons, knowledge, and skills. The U.S. Student Fulbright Program is designed to give masters and doctoral candidates and recent B.S./B.A. graduates or graduating seniors opportunities for personal development, academic enrichment and international experience. Opportunities for faculty to participate in Fulbright Scholar Program or other international scholar exchange activities are also available.

International Student Services

Hall Memorial Building, Room E252C

Web: cips.gallaudet.edu

Email: cips@gallaudet.edu

The [International Student Services](http://cips.gallaudet.edu) office under the Center for International Programs and Services (CIPS) provides immigration and visa regulatory services and resources to international students as well as visa advice to U.S. students, faculty and staff planning foreign travel in their educational pursuits. The office also assists with academic advising, conflict resolution, and assistance in planning cultural events.

Library and Archive Services

Merrill Learning Center, Library Service Desk, Room 1000

Web: library.gallaudet.edu

Email: library.help@gallaudet.edu; archives@gallaudet.edu

The Gallaudet University Library serves students, faculty, staff, and other researchers from around the world. The Library provides instructional, reference, and library collection services for the Gallaudet community, supporting uses of information resources and the development and enhancement of information literacy. The Library builds, maintains, and organizes the world's largest collection of deaf materi-

als, as well as a collection of general materials, to support academic programs. Library hours are posted on the Library web site.

Community members can access the Library catalog from the Library web site or directly at aladin.wrlc.org and can create bibliographies and reference lists online using RefWorks, also accessible from the Library's web site. The Library web site offers many online guides to help students and visitors start research in Deaf and other disciplines. Librarians are available to answer questions and help students with research in person, through video phone (866-957-4416) or voice (x5217), through email (library.help@gallaudet.edu), and through real-time chat accessible on the Library web site. Computers are available in several locations for student use.

Through Gallaudet's participation in the Washington Research Library Consortium (www.wrlc.org), the Gallaudet community has full access to the Library collections at seven additional area universities, including the rights to borrow materials from those libraries. The shared catalog for the WRLC libraries includes more than 7 million volumes. New members of the Gallaudet community should stop by the Library to get a Library bar code added to their ID cards.

The Library has two units: Library Public Services (library.gallaudet.edu) and Deaf Library Collections and Archives (archives.gallaudet.edu). Together, the units provide services related to the deaf and general collections of books, manuscripts, journals, videos, and online resources, including full-text access to many journals and e-books. In addition to the many academic resources available, the Library also maintains a small collection of popular videos and books for students' pleasure viewing and reading.

The Deaf Library Study Center in MLC provides a space for scholars and students to view deaf-related videos and work individually and in small groups on research topics. Group private study rooms and individual study carrels are also available on the basement level of the Library. Library maps are available online at mlc.gallaudet.edu.

Licensure

Hall Memorial Building, Room 494B

Web: quality.gallaudet.edu

Email: quality@gallaudet.edu

Programs that are approved for state license work closely with undergraduate and graduate students to guide them through the process of obtaining their state license. The Licensure and Accreditation Unit in the Office of Academic Quality provides additional information and support to students when they apply for their D.C. license, and, if they need verification of licensing credentials following graduation.

Office for Students with Disabilities

Jordan Student Academic Center, Room 1022

Web: oswd.gallaudet.edu

Email: oswd@gallaudet.edu

The Office for Students with Disabilities (OSWD) provides individually tailored, comprehensive support services and programs for students with disabilities. OSWD empowers eligible students to succeed in their pursuit of higher education by striving to assure equal opportunity and access to curricular and extra-curricular activities. Faculty and staff, administrators, alumni, paraprofessionals, and parents and families also benefit from services and programs. Programs and services that are offered by OSWD include: adaptive technology assessment and training, Braille/large print services, faculty development seminars, scholarships, public service and outreach, support groups and advisory boards, and compensatory/study skills training.

Support services that are provided and/or coordinated with other on- or off-campus offices/agencies include: psycho-educational and psychological evaluations, individualized support service plan development, support service counseling/advising, advocacy training, academic advising, career development, interpreting, note taking, specialized testing, study lab, orientation and mobility training, reader/scribe services, and accessibility consultation. Information and referral services offer assistance in attendant care, wheelchair repair, Seeing Eye dog training, tutoring, mental health care, medical services, and legal advice. Students who use OSWD services are protected from discrimination under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act, which include confidential treatment of disability related information and records.

Office of Diversity and Equity for Students

Hall Memorial Building, East 150

Web: odes.gallaudet.edu

Email: odesstaff@gallaudet.edu

The mission of the Office of Diversity and Equity for Students (ODES) is to advocate and empower multicultural students of all backgrounds and differences to achieve academic, career, and personal success. ODES will achieve its mission by offering programs which foster self-awareness, cultural growth, intellectual curiosity, academic support, and a stimulating learning environment.

ODES is composed of two units: Keeping the Promise (KTP) and the Office of Multicultural Student Affairs (OMSA). KTP focuses on the education of Black Deaf Males and Latino students. The KTP program model will be applied to other multicultural student groups. The Office of Multicultural Student Affairs consists of three programs: Multicultural Student Programs, Peer Mentoring, and Intergroup Dialogues.

Our programs provide multicultural education and guidance to enrich the college experience of all Gallaudet students. ODES focuses primarily on the unique needs of multicultural students and strives to facilitate a campus climate that supports their academic success. ODES encourages academic excellence for all students and is fortunate to have staff of the highest caliber to serve Gallaudet students. Through our services and programs, students find a gateway into the diverse richness of today's interconnected global reality.

Keeping the Promise

Hall Memorial Building, Room E-150

Web: odes.gallaudet.edu/ktp.xml

Keeping the Promise of Educating Black Deaf Males

Keeping the Promise of Educating Black Deaf Males (KTP) provides avenues for increasing, encouraging, and supporting the inclusion and educational success of Black Deaf Males. The men of KTP are engaged in designing career plans, developing academic success skills, and participating in cultural awareness activities, progressive leadership training, and advocacy programming. Gallaudet's academic community and volunteer Life Coaches come together to support Black Deaf Males in their quest for a degree from Gallaudet University.

Keeping the Promise of Educating Latino Students

Keeping the Promise of Educating Latino Students (KPTL) program is designed especially for Deaf Latino students. KPTL is an academic program that supports Latino students in achieving their academic, career, personal, and lifelong goals. Members of KPTL develop skills necessary for their academic success, interact with other Latino students, develop leadership and advocacy skills, and become more knowledgeable about themselves through cultural awareness programs.

Multicultural Student Programs

Hall Memorial Building, East 151

Web: odes.gallaudet.edu/msp.xml

Multicultural Student Programs (MSP) is a cultural advocacy and resource unit under the Office of Multicultural Student Programs. It provides support to racial and ethnic minority students and their organizations. The MSP Resource Room includes educational books, videotapes, and magazines focusing on race, culture and diversity. MSP also strives to educate the Gallaudet community through programs offered by student paraprofessionals.

MSP supports Gallaudet in its effort to value and nurture the wealth of cultural, linguistic and ethnic diversity that enriches our community. Those who want to expand their intellectual horizons beyond the classroom can attend a variety of programs that celebrate culture, present diverse viewpoints, and foster diversity awareness.

Office of the Ombuds

Ely Center 113

Web: ombuds.gallaudet.edu

Email: ombuds@gallaudet.edu

Are you seeking help to resolve a problem that is interfering with your ability to study or to succeed with your academic endeavors? The ombuds is here to be an informal, confidential, independent, and neutral conflict management resource for students and their families to address concerns and conflicts which stem from University policies, procedures, practices and relationships. The Office of the Ombuds is a safe place to go where concerns can be discussed confidentially and informally in an "off-the-record" fashion. There is no wrong reason to visit the ombuds if you have a concern. Examples of concerns can include academic difficulties (e.g. problems with courses), administrative concerns (e.g.,

financial aid or housing), harassment and mistreatment (such as bias-related actions based on race, religion, creed, gender, age, ethnicity, national origin, disability, or sexual orientation), and any other concerns hindering the ability to succeed in school. To make an appointment, please contact the ombuds at ombuds@gallaudet.edu.

Registrar's Office

Chapel Hall, Room 101

Web: registrar.gallaudet.edu

Email: registrar@gallaudet.edu

The Registrar's Office ensures the proper maintenance of academic records from the first student contact to graduation from the University. The Registrar's Office handles registration, scheduling of classes, grades, transcripts, degrees, room reservations, and final exam scheduling. The Office is also responsible for transfer credits, readmissions, second degree processing for returning students, and student withdrawal (WD) and leave of absence (LOA) processing. It also provides certification and enrollment verification; maintains records related to entrance conditions; implements academic suspensions and probations; manages progress toward graduation, declaration of major, and diplomas/graduation applications; helps prepare commencement program book and provides commencement support services; furnishes full support for summer programs and extensions; and administers registration for courses available through the Consortium of Universities of the Washington Metropolitan Area. The office ensures effective liaison with other departments and divisions of the University and with Information Technology Services, interprets and applies academic rules and regulations, maintains a master course file, prepares the official University calendar, and prepares reports on degrees and matriculation.

Student Programs and Services

Community Service Programs

Ely Center, Room 103

Web: csp.gallaudet.edu

Email: csp@gallaudet.edu

Community Service Programs (CSP) oversees the University's community service requirements, which applies to undergraduate students who enrolled in the University prior to the Fall 2007 semester as well as transfer students who are completing their degree requirements under the old curriculum. To this end, CSP advertises volunteering opportunities in a variety of areas (e.g., the environment, education, social justice, poverty) to the campus community and maintains student service records. In addition, CSP works closely with the General Studies department to develop and assess service-learning projects, which are a required component of the University's new curriculum.

Health and Wellness Programs

Ely Center, Room 103

Web: hwp.gallaudet.edu

Email: pha@gallaudet.edu

Health and Wellness Programs (HWP) is a unit of Student Affairs that seeks to enhance the well-being of Gallaudet University students by empowering them to make informed health and lifestyle choices in accordance with their own values and belief systems. By supporting students on behavior and lifestyle change via the dimensions of wellness—physical, mental, emotional, spiritual, social, and environmental—HWP helps students become more successful members of the academic community.

Outreach to the campus community is achieved through several different programs:

Peer Health Advocates (PHAs)

The Coordinator of HWP trains students as Peer Health Advocates (PHAs) in collaboration with on- and off-campus departments and organizations to educate their peers about current health issues through individual, group, and community initiatives.

Health Promotion Events and Resources

Health Promotion Events and Resources include a variety of educational workshops, awareness weeks, health booths, dramatic performances, role-plays, activities, health fairs,

flyers, banners, bulletin boards, bathroom tips, brochures, publications, materials, health assessments, one-on-one sessions, and referrals to on- and off-campus health resources and services that are available free to the campus community.

E-Mail Health

E-Mail Health is a service available to individuals who need answers to health and wellness-related questions via pha@gallaudet.edu.

Sexual Misconduct Response

The Coordinator of HWP serves as the central source of information and referral for students who may have experienced sexual misconduct on campus and for faculty and staff who desire assistance in helping a student who has come to them.

Alcohol and Drug Education

HWP provides alcohol and drug online courses, workshops, follow-up one-on-one sessions, and other educational activities for students who may need assistance with prevention or behavior-change strategies.

Office of Student Conduct

Ely Center, Room 103

Web: osc.gallaudet.edu

Email: student.conduct@gallaudet.edu

As members of the University community, students have certain responsibilities and obligations, including satisfactory academic performance and responsible social behavior. The Office of Student Conduct handles alleged policy violations by students of the established standards of behavior set forth in the Student Code of Conduct and other University policies and procedures, through appropriate disciplinary processes. It is the intent of the Student Conduct program that the University, in handling disciplinary issues, will continue the use of discussion, counseling, mediation, and other existing procedures, as long as such measures are appropriate and prove to be effective in maximizing the educational experience of the student(s) involved. More information about the Student Conduct Program and the disciplinary processes can be found in the Gallaudet University [Student Handbook](http://sa.gallaudet.edu/studenthandbook.xml) (sa.gallaudet.edu/studenthandbook.xml).

Summer Programs

Hall Memorial Building (HMB) S-141

Web: summer.gallaudet.edu

Email: summer@gallaudet.edu

Summer Programs at Gallaudet is coordinated through the College of Professional Studies and Outreach (CPSO), and provides current and visiting students, professionals, high school youth, and other interested individuals an array of academic and enrichment programs and courses. Credit and non-credit offerings include graduate and undergraduate classes, professional studies courses and programs, ASL immersion and interpreter education, scholar and sports camps for youth, and various other special events. All visiting students register through CPSO. Graduate and undergraduate students currently enrolled in degree programs courses register through CPSO for PST-prefixed courses only.

Undergraduate Admissions

Chapel Hall 102

Web: admissions.gallaudet.edu

Email: admissions.office@gallaudet.edu

Deaf, hard of hearing, or hearing students are invited to apply for admissions to the baccalaureate program at Gallaudet University.

Gallaudet recommends that high school students take as many college preparatory classes as possible, including English, social science, science, algebra, and geometry, as well as taking the American College Test (ACT) in their sophomore, junior, and senior years. Admissions staff evaluate prospective students based on their profile of academic, professional, and personal achievements. They also evaluate educational and career goals.

Mission Statement:

The Gallaudet University Office of Undergraduate Admissions leads and supports the University in meeting its enrollment goals. It ensures the delivery of the university's quality, educational programs to Deaf, Hard of Hearing and a limited number of hearing undergraduate (HUG) students, by identifying prospective students, informing them, their families, and professionals working with them about the excellent educational and co-curricular programs at Gallaudet, by guiding these students through the application and admissions processes and supporting their initial enrollment. The Gallaudet University Admissions Office is committed to the recruitment and enrollment of a qualified and diverse group of students for the purpose of providing a quality collegiate education and providing preparation for careers, professions, participation as a global citizen, and for advanced graduate level studies.

Undergraduate Orientation Programs

Jordan Student Academic Center, Room 2239

Web: orientation.gallaudet.edu

Every college journey begins with the first step of arriving on campus. This Student Affairs unit coordinates New Student Orientation (NSO) programs for all new students. Family members are invited to attend Family Orientation for a nominal fee.

New Student Orientation

New Student Orientation is a required program for all new students enrolling at Gallaudet University for the first time. This includes freshmen, transfer students, visiting students, and international students. During NSO, new students meet their academic advisors, learn about academic expectations, Gallaudet's history and traditions, campus policies, and participate in social activities. English and mathematics placement tests are offered to determine appropriate course placement. New students involved in NSO will not participate in any activities other than those stated in the official NSO schedule.

International Students

International students for the fall semester participate in a three-day pre-orientation in addition to NSO.

Visiting Students

Visiting students from other universities also participate in a three-day orientation, and should have registered for courses prior to arrival. The Office of Admissions contacts visiting students to assist in course selection for the semester.

Students with Disabilities

Students with visual, mobility, learning, or other special needs should submit disability documentation as early as possible directly to the Office of Students with Disabilities (OSWD). OSWD staff will help to accommodate students with special needs during NSO and throughout their college years.

New Signers Program (NSP)

The New Signers Program offers freshmen and transfer students a four-week immersion program in American Sign Language. The NSP aims to teach new students basic signing skills by the beginning of fall classes to help them communicate with other Gallaudet students, staff, and faculty and make the best use of campus services. During NSP, new students attend concentrated instruction in sign classes that provide information about Gallaudet's history and traditions, deaf awareness, Deaf culture, the history of the education of deaf people, and related topics. In addition to sign classes, students participate in Learning Through Discovery, an adventure-based outdoor activities course that focuses on developing teamwork, decision-making, and conflict resolution skills. Upon successful completion of the program, NSP

students receive three credit hours for ASL 101 (American Sign Language) and one credit hour for PED 222 (Learning Through Discovery).

Family Orientation Program

The Family Orientation Program is designed to help students and their families learn about Gallaudet together and ease the transition from family to university life. Two Family Orientation Programs are offered, one in July during the Jump Start Program and one in August during the New Student Orientation. During these orientations, families learn about the University's programs and services, especially in relation to their student's life on campus, academic progress, and resources available. Among the most popular events is a panel of current students who share their experiences and perceptions of college life.

Program Cost/Registration

There will be a registration fee per family member, which includes meals at the University Dining Hall. Program information and registration procedures are sent to families in a mailing separate from that sent to new students.

Undergraduate Student Success Programs

Jordan Student Academic Center, Room 1220

Web: fye.gallaudet.edu

JumpStart Program

New students who are accepted through the Admissions Review Committee are required to attend this 4-week summer program prior to their first semester. These students will have intense academic preparation for college and participate in classes, workshops, and intentional outings designed to introduce them to academic expectations. Classes in English and Quantitative Reasoning align with the General Studies learning outcomes. Students receive supplemental instruction as well as classroom instruction. With their peers in the New Signers track of JumpStart, students also participate in a Personal Discovery program daily, for team-building, decision-making, conflict resolution, and physical challenge activities.

Visit firstyearexperience.gallaudet.edu/jumpstartslideshow.xml to see a slideshow of JumpStart 2008.

Performance Learning for Undergraduate Students (PLUS)

The PLUS program provides students with access to academic services and promotes student success and retention. First year students identified through the admissions process or placement testing participate in PLUS. Students receive tutoring for academics or American Sign Language skills. They are required to attend university workshops, regular study tables, individual tutoring, PLUS meetings, and to have good standing in their classes.

CAMPUS SERVICES

Bookstore - Bison Shop

I. King Jordan Student Union Building

Web: gallaudet.edu/af/bisonshop.xml

Email: bookstore@gallaudet.edu

The Bison Shop is owned and operated by Gallaudet University and is an official bookstore and retailer of Gallaudet University apparel. The Bison Shop maintains and provides textbooks along with campus and academic supplies in order to promote the educational and economic welfare of the University's students, faculty, staff, and visitors.

The Bison Shop is open regularly Monday - Friday, 9 a.m. - 4:30 p.m.

Child Care

Kendall Demonstration Elementary School, Third Floor

Web: gallaudet.edu/af/cdc.xml

The Gallaudet University Child Development Center (CDC) serves children from 19 months through 4.5 years of age, whose families work and study at Gallaudet, alumni parents, the deaf community, and the general metropolitan area community. CDC is a licensed 12-month program which is inspired by the Reggio Emilia philosophy of education. Each classroom has a deaf and hearing teaching team, who use American Sign Language and spoken and written English with the children.

Department of Public Safety

Carlin Hall, Ground Floor

Web: dps.gallaudet.edu

Email: dps.office@gallaudet.edu

Emergency Lines

(202) 651-5444 (TTY)

(202) 651-5555 (Voice)

gallydps@att.blackberry.net (Pager)

The mission of the Department of Public Safety is to promote individual responsibility, community commitment, and involvement through dynamic crime prevention initiatives to create a safe, secure, and informed campus community. By the timely communication of current incidents on

and about the campus, the community is enabled to make knowledgeable decisions and strategies to protect life and property. Officers are on duty 24 hours each day, 365 days a year, and patrol the campus on foot, on bicycles, on Segways and in marked and unmarked vehicles. Gallaudet's public safety officers are considered "special police officers" and are commissioned by the District of Columbia. The Department of Public Safety emphasizes "community policing," which means that the department works collaboratively with the community to prevent, identify, and resolve problems and causes of crime and disorder.

The Department of Public Safety offers a variety of services to assist the community such as escort service after dark, personal safety checks when students or employees are studying or working late, photos for passports, fingerprinting for job applications, Operation Identification, vehicle battery jumps, bicycle registration, and a lost and found.

Identification/Access Cards

Identification cards, which also serve as access cards to many buildings and residence halls, are prepared by the Department of Public Safety.

Facilities

Central Utilities Building, Room 301

Web: gallaudet.edu/af/facilities.xml

Email: facilities@gallaudet.edu

Dormitory maintenance is provided by the Facilities Department. Custodial Services maintains the common areas and rest room facilities. Students are responsible for maintaining their own rooms. Students may submit work order requests online at tma.gallaudet.edu (available on-campus only).

Food Services

Web: www.cafebonappetit.com/gallaudet/

The University's food services are provided by Bon Appetit Management Company. All students who live on campus are required to participate in the University Meal Program. Students who live off campus may participate in the Meal Program if they wish. There are five different meal plans that include options at the student dining hall (Cafe Bon Appetit), and the food court (Market Place) and Rathskellar pub in the Student Union Building. Residents may sign up for a particular meal plan during business registration.

Students will also be able to sign up for meal plans on line beginning this Fall. Students who do not sign up during business registration will be billed for the "100 Block Plan" meal plan. Special dietary plans can usually be arranged for those students who need them by contacting the Food Service Manager.

Commuter students wishing to dine on campus can sign up for "Dining Dollars" to be used at the Market Place, Rathskellar, Cafe Bon Appetit, Starbucks and the Bistro. A minimum deposit of \$150 is required to start (an additional 15% is added on by food services). Dining Dollars carry over from the Fall semester to the Spring semester only and are non-refundable.

Weekly menus and schedules are posted on our web site.

Hearing and Speech Center

Sorenson Language and Communication Center, Room 2200

Web: hsc.gallaudet.edu

Email: info.hsls@gallaudet.edu

Students, faculty, and staff are provided a full range of audiological services, communication therapy services, and speech-language services at no cost.

Audiological services include hearing assessment, hearing aid evaluations and checks, central auditory tests, counseling and assistive devices consultations/ demonstrations/ evaluations. The HSC offers cochlear implant services that include mapping, troubleshooting and repairs. Hearing aids and molds may also be purchased. The HSC conducts walk-in service for hearing aid troubleshooting, ear mold fitting/adjustment, hearing aid repairs, and loaner hearing aids.

Aural rehabilitation/communication therapy services are offered to students who want to improve their communication skills in one or more of the following areas: speech, voice, understanding English idioms/vocabulary, writing for communication, auditory training for cochlear implants/hearing aids, speech reading and communication strategies training. Services are offered in individual sessions (small group services are available on a limited basis).

The HSC also provides a full range of speech-language pathology services to hearing adults and children including assessment and treatment in the areas of articulation, stuttering, language delay/disorders, adult neurologic, voice, spoken language development of children with hearing loss, spoken language of bilingual children, including CODAs.

Information Technology

Edward Miner Gallaudet Building, Room B-01

Web: its.gallaudet.edu

Email: infotech.services@gallaudet.edu

Information Technology Services (ITS) is a campus-wide resource supporting both the academic and administrative computing and telecommunications needs of the University. Important services include voice and data communications, wired and wireless networks, Internet access, electronic mail, and hardware maintenance for university-owned equipment. ITS operates the university's business computing systems using PeopleSoft applications. ITS has taken several steps to safeguard the integrity and security of its communications and computing infrastructure.

The Bison Unit is responsible for Bison (PeopleSoft Student Administration) and PeopleSoft Financials. The unit provides the campus community with a Web-based system that manages its student information, records, academic advisement, and admissions data. Moreover, the unit provides and maintains the university's Financial Management System. These systems enable a collaborative campus by bringing all of the constituents together, including students, faculty, and staff.

The Computer Support Services (CSS) Unit is responsible for managing and troubleshooting computers, printers and software installations for university owned computer equipment. University owned computers that are on Gallaudet's domain will receive technical support from CSS and regular updates to the operating systems, software, and virus definitions. The CSS team also supports Gallaudet students by educating them on industry best practices for computer set-up, maintenance, repair, installations and troubleshooting procedures. The CSS team provides computer support to both the Apple and Windows community. The team is composed of highly qualified employees that have a certification with Dell and/or Apple support.

The Data Center Unit's primary role is to ensure smooth and efficient operations of all servers in the computer room which consists of web servers, network servers, and database servers. This unit is responsible for ensuring that all currently enrolled students, employees, Board of Trustees members, and other individuals approved by the University Administration, in keeping with the rules of the University Administration and Operations Manual, are granted ap-

propriate electronic accounts while affiliated with Gallaudet. Electronic accounts include an email account and a campus domain account. The campus domain account allows users to access a variety of services on campus, such as Bison, PeopleSoft and network systems.

The Network Operations and Telecommunications (NetOps and Telecom) Unit is responsible for operating the Gallaudet wired and wireless network system, network security, Internet connectivity, Telephones services (including long distance services), central switchboard services. The network security team is to support the mission of the university. This is accomplished by assuring that the data transmission infrastructure is secure from: 1) Unauthorized access, 2) Illegal or dangerous activities, and 3) Traffic that may harm the network or devices connected to it.

All computers accessing the Gallaudet network must be running a supported operating system with the latest security updates and current anti-virus software. Students may download Symantec anti-virus software at software.gallaudet.edu. For detailed information about network access requirements, see the ITS Cisco Clean Access instructions, gallaudet.edu/af/its_services_cca.xml

Interpreting Services

Fay House, Ballard House

Web: gis.gallaudet.edu

Email: gis@gallaudet.edu

The mission of GIS is to provide comprehensive information access through exemplary interpreting services. The highest commitment of GIS is to meet the interpreting needs of the Gallaudet University community. Additionally, GIS is committed to being a model of interpreting excellence both locally and nationwide.

We provide professional interpreting services, including close-vision and tactile interpreting services, to students, faculty, staff and teachers for Gallaudet-sponsored events as requested. Although GIS is primarily a campus resource, it provides interpreters to the community, including services to students attending the Washington area consortium of universities, for internships, and for other activities in the immediate Washington metropolitan area.

GIS provides workshops on a variety of topics and provides mentoring, training, and supervision to practicum and intern interpreting students and freelance interpreters.

GIS, in partnership with Sorenson VRS, also provides video relay service (VRS) to members of the deaf and hard of hearing community. Although VRS services are available 24/7/365, the GIS VRS center operates between 8:00 AM - 9:00 PM daily.

If you want to request an interpreter through GIS, please check with the relevant campus department to make this request. We also welcome your direct feedback and preferences regarding your interpreting service on campus.

The GIS offices are open Monday through Friday, 8:00 a.m. to 4:30 p.m.

Mental Health Center

Kellogg Conference Hotel, Room 3202

Web: mhc.gallaudet.edu

Email: mh.center@gallaudet.edu

The college experience offers students challenges and opportunities that lead to personal and academic development. The Mental Health Center (MHC), a unit of Student Affairs, offers an array of support and services in a confidential setting that helps students meet these challenges and be successful in college. The MHC offers individual and group counseling, assessment services, crisis counseling, psychiatric services, and workshops. Licensed and supervised staff and supervised trainees, who communicate in American Sign Language and other modes of communication used by deaf and hard of hearing people, provide services. The MHC also is a training center where students train to become medical doctors, mental health counselors, psychologists, psychiatrists, and social workers who will work with the deaf and hard of hearing community. The Mental Health Center is open from 9:00 a.m. to 5:00 p.m. on Mondays, Wednesdays, and Fridays, and from 9:00 a.m. to 8:00 p.m. on Tuesdays and Thursdays.

Postal Services

I. King Jordan Student Union Building

Web: gallaudet.edu/af/postalservices.xml

The Post Office is responsible for all incoming and outgoing U.S. mail. Services include certified or registered mail, meter mail, bulk mail, stamps, airmail, parcels, money orders, express mail, and UPS service. The Post Office is committed to assuring that mail is picked up and delivered in a timely manner. Mail is never left in the Post Office for longer than one business day.

An individual mailbox is provided to each registered full- or part-time Gallaudet undergraduate or graduate student. Mailboxes are assigned for the academic year. To receive a box and its combination, students must go to the Post Office and show their current Gallaudet identification card.

Hours of operation are Monday through Friday, 8:30 a.m. to 5 p.m. Arrangements for money orders, express mail and registered mail must be made by 3 p.m. The Post Office is closed on Saturday and Sunday. Cash is required for all sales transactions.

Residence Life

The Office of Residence Life and Housing

Ely Hall, Room 132

Web: reslife.gallaudet.edu

Email: campus.housing@gallaudet.edu

The Office of Residence Life and Housing, a unit of Student Affairs, has the primary responsibility for the management of facilities and programs in the six residence halls and the Kendall apartment family complex. Residence Life provides quality programming, ensures the safety and security of the residents, proper referrals to available services on- and off-campus, maintains discipline in the residence halls and Kendall Apartments, and runs several paraprofessional programs in and out of the residence halls. Residence Life and Housing also provides a fee-based incoming and outgoing fax service in the main office for students.

Residence Halls

Students are not required to live on campus; however, living in one of the University's six residence halls offers students a unique opportunity to become an integral part of a campus community. While living in the residence halls, opportunities for social, mental, and emotional growth are greatly enhanced. Gallaudet encourages an appreciation of diversity, and residence life offers real-life opportunities to increase understanding and interactions with students from a variety of cultural, geographical, educational, and communication backgrounds.

Residents are also offered the opportunity to participate in theme floors, designed for students who want to develop a community based on similar interests or academic discipline. Theme floor communities establish their own rules, hold meetings, create community bulletin boards, and are responsible for the stability of their community. Students can apply to participate in theme floors at the Office of Residence Life and Housing.

Residence halls are staffed by teams of professional staff, graduate student paraprofessionals, and undergraduate student paraprofessionals. Eligibility criteria for on-campus housing are: students must have a full-time course load in an academic program [defined as twelve (12) credits for undergraduate students or nine (9) credits for graduate students per academic semester] in order to live on campus. Anyone carrying less than this number of credits must have permission from the Office of Residence Life and Housing in order to live on campus.

Housing for Students with Children and Married Students without Children

Housing is available on a limited basis in unfurnished apartments located on the upper level of the Kendall Demonstration Elementary School for those students who have children. To reside in an apartment with a child, a parent must be a full-time student. Also, space permitting, special arrangements may be made in the fall/spring semester to provide residence hall housing for a limited number of married students without dependent children. In order to qualify for such housing, at least one of the partners must carry a full academic load. Double occupancy rooms with regular residence hall furniture and a private bath may be assigned.

Children **may not** live with parent(s) who are students residing in the residence halls.

Shuttle-Parking

Transportation Services

Appleby Building

Web: transportation.gallaudet.edu

Email: transportation@gallaudet.edu

The Transportation Department offers free daily shuttle bus service to both the Union Station and New York Avenue/Florida Avenue/Gallaudet University metro stations. Students, faculty, and staff are entitled to use the shuttle bus upon presentation of a Gallaudet University identification card. Visitors and family members of students are also invited to use the shuttle service. A temporary pass must be secured from the Transportation Department.

[Shuttle service schedules](#), as well as web links to other metro transportation services, can be found on the Transportation Department web site.

Parking

Carlin Hall, Ground Floor

Web: [gallaudet.edu/af/](http://gallaudet.edu/af/publicsafety_parkingandtrafficinformation.xml)

[publicsafety_parkingandtrafficinformation.xml](http://gallaudet.edu/af/publicsafety_parkingandtrafficinformation.xml)

Email: dps.parking@gallaudet.edu

Vehicle Registration

The Department of Public Safety is responsible for issuing parking permits. Full- or part-time employees or students must register their vehicle and display a parking permit. Visitors must obtain a short-term parking permit prior to parking on campus. There is a charge for parking on campus. Parking rate information is online.

Student Financial Services

College Hall, Room B-04

Web: gallaudet.edu/af/studentfinancialservices.xml

Email: student.accounts@gallaudet.edu

The Student Financial Services Office is the main point of contact for all inquiries concerning students' accounts. There, students may check their current account balance, the status of third-party payments, pick up Tuition and Fees schedules, and obtain information about their accounts. Account balances can also be checked electronically using Gallaudet's Bison system. The Office coordinates paperwork related to Vocational Rehabilitation authorizations, tuition and fees calculations, and student billings.

Student Financial Services are managed by the Office of Finance. Hours of operation are 8:30 a.m. to 4:30 p.m. Monday through Friday.

Services provided to students include:

- Managing business registration
- Processing vocational rehabilitation authorizations
- Maintaining student account records
- Explaining accounting procedures
- Processing student loans
- Issuing student refunds

Services provided to parents include:

- Responding to inquiries

Student Health Service

Peter J. Fine Building

Web: gallaudet.edu/af/shs.xml

Email: shs@gallaudet.edu

The Gallaudet University Student Health Services (SHS) is committed to providing students with high quality and efficient health care. In addition to treatment, the medical staff will help students understand the causes of their medical conditions or injuries and how they may be avoided in the future.

Services are provided Monday through Friday from 8 a.m. to 4:30 p.m. Student Health Services is closed weekends and University holidays. The student health fee entitles students to a number of basic health services without charge such as unlimited medical visits, most immunizations, referrals to specialists, and health education materials.

The immunization laws for the District of Columbia requires all students to provide proof of immunizations. Students will not be permitted to register for classes without the required immunizations. All full time students are required to have health insurance that provides coverage in the District of Columbia metropolitan area. Student must either waive or purchase the health insurance online through their bison account. For more information concerning requirements for immunizations and how to waive or purchase the health insurance, please visit the Student Health Services web site.

TV Services

Merrill Learning Center, Room B-130

Web: tv.gallaudet.edu

Email: helpdesk@gallaudet.edu

Gallaudet University Television provides educational and entertainment content on 103 standard definition and 19 high definition channels. High definition channels are available on digital televisions only. Students may bring either digital or analog televisions for their dormitory rooms and are responsible for bringing their own connecting cable. TVs can be directly connected - no cable set-top boxes are required.

The TV guide is available on Channel 10, and campus content is broadcast on Channels 2, 3, 11, 12, and 13. The student production, BISON TV, is also available as a live internet feed at bisontv.gallaudet.edu.

All requests for support of Cable TV in the dormitories should be submitted online to the Gallaudet Technology Help Desk (helpdesk@gallaudet.edu).

STUDENT ACTIVITIES

Athletics and Intramural Sports

Field House, Room 102

Web: athletics.gallaudet.edu

Gallaudet University's students have a grand tradition of athletic competition, participating in intercollegiate sports since 1883. The Bison athletic department consists of 14 varsity programs and two club teams. GU competes in men's and women's basketball, men's and women's cross country, men's and women's soccer, men's and women's swimming, men's and women's track and field along with baseball, softball and women's volleyball in the Capital Athletic Conference. Gallaudet's cheerleading and wrestling teams are club while Bison football remains in the Eastern Collegiate Football Conference.

Intramurals

The Athletics department also offers an intramural sports program including: men's and women's flag football, men's and women's volleyball, men's and women's basketball, men's and women's team handball, men's and women's indoor soccer, men's and women's wall dodgeball, coed wallyball, badminton, chess, ping pong, racquetball, wrestling, and more.

Campus Activities

Jordan Student Academic Center, Room 1000

Web: sa.gallaudet.edu/CampusActivities.xml

Campus Activities serves as a resource center to provide student, faculty, staff and visitors with a wide range of services to meet the need of the community. Campus Activities provides support for student organizations and makes reservations for use of rooms in the Jordan Student Academic Center. Campus Activities' core value is to offer opportunities to foster leadership, character, citizenship, social responsibility and civility for the students and campus community.

Movie Nights and Gallaudet Movie TV Channel

Campus Activities will show two new release films on Fridays and Saturdays night at 8:00 P.M., and 10:30 P.M. in Multimedia Theatre, SAC 1011. Free Admissions! Campus Activities will also show movies on Channel 3 of Gallaudet TV.

Honor Societies

A University-wide Honor Society, Phi Alpha Pi, is the scholastic honor society of Gallaudet University. Seniors (with academic degree averages of 3.3 or above and at least 3.0 for their freshman and sophomore years) are nominated for membership. Not more than 10 percent of the senior class may be elected to membership. Juniors (one student in a class of 100 or fewer and not more than 1 percent of a larger class) may be elected if their academic records are clearly superior (a degree average of 3.5 or more). Honorary members may also be elected from alumni, faculty, and staff.

The following academic Honor Societies are available to undergraduate students whose work excels in specific disciplines:

- Alpha Kappa Delta International Sociology Honor Society
- Lambda Pi Eta National Honor Society in Communication Studies
- Phi Alpha, Mu Chapter National Honor Society in Social Work.
- Phi Sigma Iota, National Foreign Language Honor Society
- Psi Chi National Honor Society in Psychology

Please see the the appropriate section for each Department for details.

Performing Arts

Gallaudet Dance Company

Field House, Room 110

Web: dance.gallaudet.edu

The Gallaudet Dance Company is a performing group of approximately 15 dancers, all undergraduate or graduate students at Gallaudet. Each dancer's background is different in terms of hearing loss, preferred communication mode, secondary school education, and current major field of study as a University student. Regardless of background and experience, all the dancers are excellent communicators.

They rely on their vision as their primary mode of communication and communicate through their dancing in a range of styles, including dance that uses American Sign Language as its foundation.

Performing Arts

Elstad Auditorium

Web: theatre.gallaudet.edu

Gallaudet's Theatre Arts Department is well-known for its unique productions and the opportunities it provides for students to participate in the performing arts.

Student Media

Ely Center, Rooms 119-125

Buff and Blue

Web: org.gallaudet.edu/bnb

The Buff and Blue is an independent campus newspaper published by University students from September to May. Students interested in reporting, writing, or editing can become members of the Buff and Blue staff.

Tower Clock

The Tower Clock is a student run organization responsible for creating an annual yearbook and offers opportunities for students who are interested in layout, photography, or editing.

Bison TV

Web: bisontv.gallaudet.edu

Bison Television Productions is a student media organization whose goal is to entertain, sponsor, and to encourage Gallaudet students and organizations to produce media projects for the Gallaudet community by broadcasting through the Gallaudet student television channel and the Internet.

Student Organizations

The Campus Activities office within Student Affairs supports a variety of student organizations including student government, student newspaper and year book, fraternities and sororities, and other organizations of students with similar interests or backgrounds.

A complete list of active organizations is provided online at sa.gallaudet.edu/studentorganizations.

Student Body Government (SBG)

Ely Center, Room 222

Web: sbg.gallaudet.edu

The Student Body Government (SBG) is the major organization through which the students govern themselves, plan activities for the campus, and work with the faculty and administration on matters of general interest to the student body. Full-time students automatically become members of the SBG when they enroll at the University. SBG's executive officers are chosen annually in a campus-wide election. The SBG has an executive, a legislative, and a judicial branch. The SBG president, with approval of the Student Congress, appoints directors for different departments within the executive Branch of the SBG. Through SBG's efforts, students serve as active members with full voting privileges on several faculty committees.

Graduate Student Association (GSA)

Kendall Hall, Room 104

Web: aaweb.gallaudet.edu/GSPP_GSA.xml

The Graduate Student Association (GSA) is a student organization representing all graduate students at Gallaudet University. Their purpose is to promote academic excellence, provide a forum for the expression of opinion by graduate students, facilitate communications and joint activities within the various departments of Graduate School, and to promote the graduate school culture.

Fraternities and Sororities

Ely Center, Third Floor

There are eight registered Greek organizations on campus. Each stresses the importance of scholarship, leadership, and fellowship in selecting new members. All the Greek organizations endorse and must be in compliance with the University's Hazing Policy which prohibits hazing. All Greek organizations are members of the Greek Council. In order of date founded on campus, the Greek organizations are:

- Phi Kappa Zeta Sorority, 1892;
- Kappa Gamma Fraternity, 1901;
- Alpha Sigma Pi Fraternity, 1947;
- Delta Epsilon Sorority, 1953;
- Kappa Sigma Fraternity, 1982 (formerly Theta Nu Tau);
- Delta Sigma Phi Fraternity, 1989;
- Alpha Sigma Theta Sorority, 1990
- Delta Zeta Sorority, 1993.

The University Community

The Gallaudet University community is composed of students, alumni, faculty, staff, administrators, and the Board of Trustees. Many friends of Gallaudet - from all corners of the world - also consider themselves part of the Gallaudet community.

The following directories, guides, and resources are available:

- Gallaudet Employee Directory: people.gallaudet.edu
- Academic Affairs Guide: aaguide.gallaudet.edu
- Faculty and Staff Profiles: academicaffairs.gallaudet.edu/faculty-staff.xml
- Alumni Relations: alumni.gallaudet.edu

GALLAUDET UNIVERSITY ORGANIZATION

Gallaudet operates under the direction of a president appointed by the Gallaudet Board of Trustees as the chief executive officer of the campus. The president develops campus policy through broadly based consultative procedures that include students, faculty, staff, and administrators in decision making.

The Gallaudet Faculty Senate and its Executive Committee, made up of elected representatives of the faculty, recommend academic policy to the president through a shared-governance process.

The university divides its operations into administrative divisions, each under the direction of a vice president. Information about the current Gallaudet leadership team of president and vice presidents is available at president.gallaudet.edu.

A full list of administrators is provided in this catalog. Contact information for University administrators is available at people.gallaudet.edu.

The University Organizational Chart is available online at catalog.gallaudet.edu/documents/Institutional/GallaudetUniversity-OrganizationalChart.pdf and in the printed catalog.

ACADEMIC ORGANIZATION

Academic Affairs operates under the direction of the Provost as the Chief Academic Officer. The Faculty Senate works collaboratively with the Provost in shared governance processes. Information about the current Academic Affairs leadership team of the provost, associate provost, deans, and executive directors is available at academicaffairs.gallaudet.edu.

The Academic Affairs organizational chart at Gallaudet University is online at provost.gallaudet.edu/documents/provost/AcademicAffairs-GallaudetU-OrgChart-2009.pdf.

Contact information for Academic Affairs administrators and offices is available at people.gallaudet.edu and aaguide.gallaudet.edu.

Kathryn A. Baldridge, *Associate Professor of Physical Education and Recreation*; B.S., Indiana University; M.A., California State University, Northridge

Thomas F. Baldridge, *Professor of Business*; A.B., Harvard University; M.B.A., J.D., University of California, Berkeley; M.F.A., University of Southern California

Scott J. Bally, *Professor of Hearing, Speech, and Language Sciences*; B.S., Truman State University; M.S., Colorado State University; M.S.W. Gallaudet University; Ph.D., Union Institute and University

David A. Barclay, *Associate Professor of Social Work*; B.A., University of Maryland; M.S., Gallaudet University; Ph.D., The Catholic University of America

Sharon Barnartt, *Professor of Sociology*; B.A., Brandeis University; M.A., University of Pittsburgh; Ph.D., University of Chicago

Christi Batamula, *Instructor of Education*; B.A., Geneva College; M.A., Gallaudet University

H-Dirksen L. Bauman, *Professor of American Sign Language and Deaf Studies*; B.A., Colorado College; M.A., University of Northern Colorado; Ph.D., State University of New York, Binghamton

Roger L. Beach, *Professor of Counseling*; B.A., University of Northern Colorado; M.S., University of Arizona; Ed.D., University of Maryland

Beth Sonnenstrahl Benedict, *Professor of Communication Studies*; B.A., Gallaudet University; M.A., New York University; Ph.D., Gallaudet University

Cristina Berdichevsky, *Professor of Foreign Languages, Literatures, and Cultures*; B.A., Universidad del Salvador; M.A., McMaster University; Ph.D., Rutgers University

Barry H. Bergen, *Professor of Government and History*; B.A., University of Rochester; M.A., Ph.D., University of Pennsylvania

Jean S. Berube, *Assistant Professor of Physical Education and Recreation*; B.S., M.S., University of Maryland

Beth Gwinn Betman, *Instructor of Social Work*; B.A., University of Houston; M.S.W., New York University

Martina J. Bienvenu, *Associate Professor of American Sign Language and Deaf Studies*; B.A., M.A., Gallaudet University; Ph.D., Union Institute and University

Lynne Blennerhassett, *Professor of Psychology*; B.A., University of Connecticut; M.Ed., Ed.D., University of Cincinnati

Jill M. Bradbury, *Associate Professor of English*; B.A., University of California, Irvine; M.A., Ph.D., Brown University

Derek C. Braun, *Professor of Biology*; B.A., Gallaudet University; M.A., Ph.D., University of Maryland

Patrick J. Brice, *Professor of Psychology*; B.A., M.A., Ph.D., University of Illinois, Chicago

Andrew T. Brinks, *Associate Professor of Physical Education and Recreation*; B.S., Gallaudet University; M.A., McDaniel College; Ph.D., Gallaudet University

Marquessa V. Brown, *Professor of Social Work*; B.A., West Virginia State University; M.S.W., Howard University; Ph.D., The Catholic University of America

Jeffrey Brune, *Assistant Professor of Government and History*; B.A., Colorado College; M.A., Ph.D., University of Washington

Jeremy L. Brunson, *Assistant Professor of Sociology*; B.A., M.S. Arizona State University; M.A., Ph.D., Syracuse University

Lindsay A. Buckho, *Instructor of Mathematics and Computer Science*; B.S., M.S., Rochester Institute of Technology

Teresa Blankmeyer Burke, *Instructor of Philosophy and Religion*; B.A., Mills College; M.A., University of New Mexico

Sarah B. Burton-Doleac, *Assistant Professor of Physical Education and Recreation*; B.A., Gallaudet University; M.Ed., McDaniel College

Robbie Jane Carmichael, *Assistant Professor of Physical Education and Recreation*; B.S., M.A., Gallaudet University

Scott M. Carollo, *Associate Professor of Art*; B.A., Gallaudet University; M.F.A., Savannah College of Art and Design

Stephen B. Chaikind, *Professor of Business*; B.B.A., Baruch College of the City University of New York; M.A., City College of New York; Ph.D., City University of New York

John B. Christiansen, *Professor of Sociology*; B.S., Carroll College; M.A.T., Antioch University; M.A., University of Wisconsin; Ph.D., University of California, Riverside

Emilia Chukwuma, *CPA, Associate Professor of Business*; B.A., Gallaudet University; M.S., University of Baltimore

M. Diane Clark, *Professor of Educational Foundations and Research*; B.A., Shippensburg University; M.A., Marshall University; Ph.D., University of North Carolina

Carol B. Cohen, *Associate Professor of Social Work*; B.S., Cornell University; M.A., M.S.W., University of Wisconsin; D.S.W., Smith College

Steven D. Collins, *Assistant Professor of Interpretation*; B.A., M.A., Gallaudet University; Ph.D., Union Institute and University

Cynthia Compton Conley, *Professor of Hearing, Speech, and Language Sciences*; B.A., Rutgers University; M.S., Vanderbilt University; Ph.D., City University of New York

Willy Conley, *Professor of Theatre Arts*; B.S., Rochester Institute of Technology; M.A., Boston University; R.B.P., University of Texas, Galveston; M.F.A., Towson University

Carolyn A. Corbett, *Associate Professor of Psychology*; A.B., Brown University; M.S., San Francisco State University; M.S., Ph.D., Pennsylvania State University

Jane R. Dillehay, *Professor of Biology*; B.S., Allegheny College; Ph.D., Carnegie Mellon University

Valerie L. Dively, *Professor of Interpretation*; B.A., M.A., Gallaudet University; Ph.D. Union Institute and University

Alok Doshi, *Instructor of Business*; B.S., M.B.A., University of Maryland

E. Ronald Dreher, *Professor of Physical Education and Recreation*; B.A., Western State College of Colorado; M.S., Arizona State University; Ph.D., University of Utah

Paul G. Dudis, *Associate Professor of Linguistics*; Hunter College of the City University of New York; M.A., Gallaudet University; Ph.D., University of California, Berkeley

Francis M. Duffy, *Professor of Administration and Supervision*; B.S., Mansfield University; M.A.S., The Johns Hopkins University; M.Ed., Ph.D., University of Pittsburgh

Cynthia Edwards, *Associate Professor of English*; B.S., State University of New York, Geneseo; M.A., Ed.S., Gallaudet University; Ph.D., University of Maryland

William T. Ennis III, *Instructor of Government and History*; B.A., Gallaudet University; M.A., University of Iowa

Carol J. Erting, *Professor of Education*; B.S., M.A., Northwestern University; Ph.D., American University

Julie Fennell, *Assistant Professor of Sociology*; B.A., University of North Carolina, Asheville; M.A., Ph.D., Brown University

Patricia C. Foley, *Associate Professor of Communication Studies*; B.G.S., University System of New Hampshire; M.A., Dartmouth College; M.A., Ph.D., University of Massachusetts

Audrey Frank, *President's Fellow, Social Work*; B.S.W., Rochester Institute of Technology; M.S.W., University of Maryland

Paige E. Franklin, *Assistant Professor of English*, B.A., M.A., Gallaudet University; M.A.T.E.S.O.L., American University

Dennis B. Galvan, *Professor of Psychology*; A.B., University of California, Davis; M.A., Ph.D., University of California, Berkeley

Maribel Gárate, *Assistant Professor of Education*; A.A., Texas Southmost College; B.S., University of Texas, Austin; M.A., M.A., Ph.D., Gallaudet University

Karen G. S. Garrido-Nag, *Instructor of Hearing, Speech, and Language Sciences*; B.S., University of the Philippines; M.S., Gallaudet University, M.Phil., City University of New York

Barbara Gerner de Garcia, *Professor of Educational Foundations and Research*; B.A., Carnegie Mellon University; Ed.M., Ed.D., Boston University

Reed Gershwind, *Instructor of Business*; B.S., California State University, Northridge; M.B.A., Rochester Institute of Technology

Beth Gibbins, *Assistant Professor of Psychology*; B.A., State University of New York; M.S., Ph.D., Temple University

Marguerite A. Glass, *Professor of Art*; B.A., Baldwin-Wallace College; M.A. Ph.D., University of Maryland

Ann E. Graziadei, *Professor of Physical Education and Recreation*; B.S.E., State University of New York, Cortland; M.S., Indiana University; Ed.S., University of Georgia; Ph.D., University of Maryland

Brian H. Greenwald, *Associate Professor of Government and History*; B.A., Gallaudet University; M.A., Ph.D., The George Washington University

Johnston B. Grindstaff, *Professor of Art*; B.A., M.S., Gallaudet University; M.F.A., The George Washington University

Simon Guteng, *Associate Professor of Education*; B.A., M.A., Gallaudet University; Ph.D., University of Arizona

Jan Hafer, *Professor of Education*; B.A., Shepherd College; M.Ed., McDaniel College; Ed.D., University of Maryland

Barbara D. Hardaway, *Professor of English*; B.A., American International College; M.A., Emerson College; Ph.D., Howard University

Judith E. Harkins, *Professor of Communication Studies*; B.A., M.Ed., McDaniel College; M.A., California State University, Northridge; Ph.D., Gallaudet University

Kristen C. Harmon, *Professor of English*; B.A., Culver-Stockton College; M.A., Ph.D., University of Missouri, Columbia

Raychelle L. Harris, *Instructor of American Sign Language and Deaf Studies*; B.A., Gallaudet University; M.S., McDaniel College

Robert D. Harrison, *Professor of Communication Studies*; B.S., Northwestern University; M.A.C.T., University of Tennessee; Ph.D., Pennsylvania State University

Rachel M. Hartig, *Professor of Foreign Languages, Literatures, and Cultures*; B.A., Brooklyn College; M.A., Rutgers University; Ph.D., The Catholic University of America

Roberto Herrera, *Assistant Professor of Foreign Languages, Literatures, and Cultures*; Licenciatura en Idioma Ingles, Universidad Veracruzana; Maestria en Ensenanza del Espanol y el Ingles como Segunda Lengua, Universidad de las Americas, Pueblo; Ph.D., University of Texas at Austin

Christopher Jon Heuer, *Assistant Professor of Applied Literacy*; B.A., M.A., University of Wisconsin, Milwaukee

Amy E. Hile, *Assistant Professor of Education*; B.A., Gallaudet University; M.S., McDaniel College; Ph.D., University of Colorado

Amanda Holzrichter, *Assistant Professor of Foreign Languages, Literatures, and Cultures*; B.A., Wichita State University; M.S., Ph.D., University of Texas, Austin

Diane Hottendorf, *Professor of Physical Education and Recreation*; B.A., California State University, Northridge; M.S., Ph.D., University of Southern California

Patricia L. Hulsebosch, *Professor of Education*; B.A., M.A., University of South Florida; Ph.D., University of Illinois, Chicago

Jane D. Hurst, *Professor of Philosophy and Religion*; B.A., Smith College; M.A., Ph.D., Temple University

Joseph J. Innes, *Professor of Education*; B.A., M.Ed., University of Massachusetts; Ph.D., Gallaudet University

E. Lynn Jacobowitz, *Associate Professor of American Sign Language and Deaf Studies*; B.A., Gallaudet University; M.Ed., University of Maryland; Ph.D., Gallaudet University

Robert E. Johnson, *Professor of Linguistics*; B.A., Stanford University; Ph.D., Washington State University

Paul Johnston, *Professor of Art*; B.F.A., Rochester Institute of Technology; M.S., Ph.D., Pennsylvania State University

Max Kazemzadeh, *Assistant Professor of Art*; B.F.A., University of North Texas; Post-B.F.A., Hunter College of the City University of New York; M.F.A., The New School

Arlene Blumenthal Kelly, *Associate Professor of American Sign Language and Deaf Studies*; B.A., M.A., Gallaudet University; Ph.D., University of Maryland

Paul Kelly, *CPA, Professor of Business*; B.S., University of Massachusetts; M.B.A., Babson College; J.D., George Washington University

Cynthia M. King, *Professor of Educational Foundations and Research*; B.A., University of Delaware; M.Ed., McDaniel College; Ph.D., University of Illinois, Urbana-Champaign

Joseph G. Kinner, *Associate Professor of Government and History*; B.A., M.A., California State University, Northridge; Ph.D., University of California, Los Angeles

Thomas N. Kluwin, *Professor of Educational Foundations and Research*; B.A., Marquette University; M.A., University of Wisconsin; Ph.D., Stanford University

Sara A. Konkell, *President's Fellow, Biology*; B.A., California State University, Northridge; M.S., Hood College

Daniel S. Koo, *Assistant Professor of Psychology*; B.A., University of Maryland; M.A., Gallaudet University; M.A., Ph.D., University of Rochester

Deborah A. Krichbaum, *Associate Professor of Family and Child Studies*; B.S., M.S., University of Tennessee; Ph.D., University of Maryland

Brenda L. Kruse-McConville, *Instructor of Education*; B.A., M.A., Gallaudet University

Fat C. Lam, *Professor of Mathematics and Computer Science*; B.A., Gallaudet University; M.A., The George Washington University; Ph.D., University of Montana

Carol J. LaSasso, *Professor of Hearing, Speech, and Language Sciences*; B.S., University of Colorado; M.A., University of Denver; Ph.D., University of Maryland

Irene W. Leigh, *Professor of Psychology*; B.S., Northwestern University; M.A., Ph.D., New York University

Jeffrey W. Lewis, *Professor of Counseling*; B.A., Gallaudet University; Ph.D., New York University

Ellen Loughran, *Professor of Foreign Languages, Literatures, and Cultures*; A.B., Chestnut Hill College; M.A., Ph.D., University of Virginia

Ceil Lucas, *Professor of Linguistics*; B.A., Whitman College; M.A., University of Texas, Austin; M.S., Ph.D., Georgetown University

Daniel J. Lundberg, *Assistant Professor of Chemistry and Physics*; B.S., Gallaudet University; Ph.D., University of Minnesota

Cheryl L. Lundquist, *Assistant Professor of Theatre Arts*; B.A., Gallaudet University; M.A., M.F.A., California State University, Northridge

Linda Risser Lytle, *Associate Professor of Counseling*; B.A., Gallaudet University; M.A., Ph.D., The Catholic University of America

Richard R. Lytle, *Professor of Education*; B.A., University of California, San Diego; M.Ed., Ph.D., University of Maryland

Fred R. Mangrubang, *Professor of Education*; A.A.S, Rochester Institute of Technology; B.S., M.A., East Carolina University; Ph.D., University of Maryland

Herbert G. Mapes, *Associate Professor of Mathematics and Computer Science*; B.A., M.A.T., Gallaudet University

Anita Marie Marchitelli, *Associate Professor of Physical Education and Recreation*; B.S., M.A., University of Maryland; Ed.S., Gallaudet University

Frances Marquez, *Assistant Professor of Government and History*; B.A., University of California, Los Angeles; M.A., Ph.D., Claremont Graduate University

William J. A. Marshall, *Professor of Administration and Supervision*; A.B., Stonehill College; M.S., Gallaudet University; Ed.D., University of Illinois

Teresa V. Mason, *Associate Professor of Social Work*; B.S.W., University of Maryland; M.S.W., Gallaudet University; Ph.D., University of Maryland

Susan M. Mather, *Professor of Linguistics*; B.A., M.A., Gallaudet University; Ph.D., Georgetown University

Gaurav Mathur, *Assistant Professor of Linguistics*; A.B., Princeton University; Ph.D., Massachusetts Institute of Technology

Eileen T. Matthews, *Assistant Professor of English*; B.A., M.A., Howard University

Philip J. Mattiacci, *President's Fellow, Government and History*; B.A., Gallaudet University; M.A., The George Washington University

Michelle McAuliffe, *Assistant Professor of Art*; B.A., Gallaudet University; M.F.A., The George Washington University

Carolyn D. McCaskill, *Associate Professor of American Sign Language and Deaf Studies*; B.A., M.A., Ph.D., Gallaudet University

Deborah Maxwell McCaw, *Associate Professor of Psychology*; B.A., College of St. Benedict; M.A., Gallaudet University; Ph.D., The George Washington University

Ruth Sandra McLennon, *Assistant Professor of Physical Education and Recreation*; B.S., Gallaudet University; M.Ed., McDaniel College; M.Ed., Temple University

Raymond C. Merritt, Jr., *Assistant Professor of Biology*; B.A., Gallaudet University; M.S., The George Washington University

Donna M. Mertens, *Professor of Educational Foundations and Research*; B.A., Thomas More College; M.S., Ph.D., University of Kentucky

Melanie Metzger, *Professor of Interpretation*; B.S., University of Maryland; M.A., Gallaudet University; Ph.D., Georgetown University

Bryan D. Miller, *Associate Professor of Psychology*; B.A., Stetson University; M.S., Bucknell University; Ph.D., Temple University

Margery S. Miller, *Professor of Psychology*; B.A., Elmira College; M.A., New York University; M.S., State University of New York, Albany; M.A., Towson State University; Ph.D., Georgetown University

Eugene R. Mirus, *Assistant Professor of American Sign Language and Deaf Studies*; B.A., M.A., Ph.D., University of Texas, Austin

Janice D. M. Mitchell, *Professor of Foreign Languages, Literatures, and Cultures*; A.B., Lycoming College; M.S., Georgetown University; Ed.D., University of Southern California

Julie Cantrell Mitchiner, *Instructor of Education*; B.A., M.A., Gallaudet University

Elizabeth A. Moore, *Assistant Professor of Social Work*; B.A., M.S.W., Gallaudet University

Michael L. Moore, *Professor of Chemistry and Physics*; B.A., Gallaudet University; M.S., Southern Methodist University; Ph.D., North Texas State University

Donna A. Morere, *Professor of Psychology*; B.S., M.S., University of South Alabama; M.A., Ph.D., University of Alabama, Birmingham

Ava P. Morrow, *Associate Professor of Biology*, B.S., Morgan State University; M.S., Ph.D., Howard University

MaryJune F. Moseley, *Professor of Hearing, Speech, and Language Sciences*; B.S., Phillips University; M.A., Ph.D., Kent State University

Margaret E. Mullens, *Professor of Foreign Languages, Literatures, and Cultures*; B.A., Michigan State University; M.A., Ohio State University; Ph.D., University of Maryland

Kristin Jean Mulrooney, *Assistant Professor of Linguistics*; B.A., Brown University; M.A., Ph.D., Gallaudet University

Joseph J. Murray, *Assistant Professor of American Sign Language and Deaf Studies*, B.A., Northeastern University; M.A., Ph.D., University of Iowa

Jennifer Nelson, *Professor of English*; B.A., The George Washington University; M.A., Ph.D., University of California, Berkeley

James A. Nickerson, Jr., *Professor of Mathematics and Computer Science*; B.A., Gallaudet University; M.S., University of Tennessee; Ph.D., University of Maryland

Jane F. Nickerson, *Professor of English*; B.A., MacMurray College; M.A., Gallaudet University; Ph.D., University of Maryland

Jane Norman, *Professor of Communication Studies*; B.A., Gallaudet University; M.A., New York University; Ph.D., Howard University

Regina L. Nuzzo, *Assistant Professor of Mathematics and Computer Science*; B.S., University of South Florida; Ph.D., Stanford University

Mohammad Ahmad Diab Obiedat, *Professor of Mathematics and Computer Science*; B.S., M.S., Yarmouk University, Jordan; Ph.D., Middle East Technical University

Diane D. O'Connor, *Professor of English*; B.A., Le Moyne College; M.A., Ph.D., Syracuse University

Marie S. Ogork, *Instructor of Business*; B.S., Gallaudet University; M.B.A., University of Phoenix

Adebowale Ogunjirin, *President's Fellow, Biology*; B.Pharm, University of Lagos; M.Pharm, University of Ibadan

Gina A. Oliva, *Professor of Physical Education and Recreation*; B.A., Washington College; M.A., Gallaudet University; Ph.D., University of Maryland

Sharon L. Pajka-West, *Assistant Professor of Applied Literacy*; B.A., Virginia Commonwealth University; M.A., Gallaudet University; Ph.D., University of Virginia

CarieLyn Palmer, *Associate Professor of Applied Literacy*; B.A., University of Wisconsin, Milwaukee; M.A., Ph.D., Gallaudet University

David W. Pancost, *Professor of English*; A.B., Wabash College; A.M., Ph.D., Duke University

Raylene M. Paludneviciene, *Assistant Professor of Psychology*; B.A., M.A., Ph.D., Gallaudet University

David R. Penna, *Professor of Government and History*; B.A., M.A., Duquesne University; Ph.D., J.D., University of Denver

Cynthia L. Pettie, *Professor of English*; B.A., M.A., Gallaudet University; M.A., University of Maryland; Ph.D., The George Washington University

Caroline Kobek Pezzarossi, *Assistant Professor of Psychology*; B.A., Lenoir-Rhyne College; M.S., University of Arkansas; M.A., Ph.D., Gallaudet University

Deborah Chen Pichler, *Associate Professor of Linguistics*; B.A., B.S., Pennsylvania State University; Ph.D., University of Connecticut

Lawrence H. Pick, *Associate Professor of Psychology*; B.A., University of Massachusetts; M.S., Queens College of the City University of New York; Ph.D., City University of New York

Pilar Piñar, *Associate Professor of Foreign Languages, Literatures, and Cultures*; B.A., University of Granada; M.A., University of Montana; M.A., Ph.D., University of Arizona

Barbara N. Pomeroy, *Associate Professor of Physical Education and Recreation*; B.S., West Chester State College; M.S., Pennsylvania State University

Ann Davidson Powell, *Professor of Biology*; B.S., Virginia State College; M.S., Ph.D., Howard University

Leslie A. Rach, *Associate Professor of English*; B.A., University of Florida; M.A., Gallaudet University; Ph.D., University of Maryland

Lillie S. Ransom, *Associate Professor of Communication Studies*; B.A., Oberlin College; M.A., Gallaudet University; Ph.D., University of Maryland

Khadijat K. Rashid, *Professor of Business*; B.S., Gallaudet University; M.B.A., University of Maryland; Ph.D., American University

Rosalinda Macaraig Ricasa, *Instructor of Applied Literacy*; B.S., Pamantasan Ng Lungsod Ng Maynila; M.A., Gallaudet University

Carol Cutler Riddick, *Professor of Physical Education and Recreation*; B.A., M.S., Florida State University; Ph.D., Pennsylvania State University

Ilia R. Rivera, *President's Fellow, Sociology*; B.S., B.S., M.A., M.A., University of Houston

Cynthia B. Roy, *Professor of Interpretation*; B.S., Southwest Texas State University; M.A., Gallaudet University; Ph.D., Georgetown University

Donna F. Ryan, *Professor of Government and History*; B.A., Wheaton College; M.A., Ph.D., Georgetown University

Paul S. Sabila, *Assistant Professor of Chemistry and Physics*; B.Sc., University of Nairobi; Ph.D., University of Connecticut

Tracey Salaway, *Professor of Art*; B.F.A., M.F.A., Rochester Institute of Technology

Robert Sanchez, *Assistant Professor of Government and History*; B.A., M.A., California State University, Los Angeles; Ph.D., University of Illinois, Urbana-Champaign

Marilyn A. Sass-Lehrer, *Professor of Education*; B.A., Queens College of the City University of New York; M.A., New York University; Ph.D., University of Maryland

Edna Edith Sayers, *Professor of English*; B.A., Pennsylvania State University; M.A., St. Bonaventure University; Ph.D., State University of New York, Buffalo

James A. Schiller, *Instructor of Social Work*; B.A., University of Southern California; M.S.W., Adelphi University

Brenda Chafin Seal, *Professor of Hearing, Speech, and Language Sciences*; B.S., M.A., Appalachian State University; Ph.D., University of Virginia

Vicki Jo Shank, *Professor of Mathematics and Computer Science*; B.A., Gallaudet University; M.Ed., McDaniel College; Ph.D., George Mason University

Risa S. Shaw, *Associate Professor of Interpretation*; A.A., Gallaudet University; B.I.S., George Mason University; M.S., McDaniel College; Ph.D., Union Institute and University

Martha A. Sheridan, *Professor of Social Work*; B.A., Gallaudet University; M.S.W., University of Maryland; Ph.D., Ohio State University

Shirley E. Shultz Myers, *Professor of English*; B.A., University of Pittsburgh; M.A., Ph.D., Emory University

Laurene E. Simms, *Professor of Education*; B.S., University of Nebraska; M.Ed., McDaniel College; Ph.D., University of Arizona

Anne Simonsen, *Professor of Physical Education and Recreation*; B.A., University of Iowa; M.A., The George Washington University; Ph.D., University of Maryland

Ethan M. Sinnott, *Assistant Professor of Theatre Arts*; B.F.A., Rochester Institute of Technology; M.F.A., Boston University

William P. Sloboda, *CDP, CPA, Associate Professor of Business*; B.S., Gallaudet University; M.B.A., The George Washington University

Christen Smith, *Associate Professor of Physical Education and Recreation*; B.S., North Dakota State University; M.A., University of Northern Colorado; Ph.D., Texas Women's University

Kendra L. Smith, *Assistant Professor of Counseling*; B.S., California Coast University; M.A., Gallaudet University; Ph.D., Union Institute and University

H. David Snyder, *Professor of Chemistry and Physics*; B.S., Boston College; M.A., M.Phil., Ph.D., Columbia University

Caroline Miller Solomon, *Associate Professor of Biology*; B.A., Harvard University; M.S., University of Washington; Ph.D., University of Maryland

Charlene C. Sorensen, *Professor of Chemistry and Physics*; B.S., St. Andrews Presbyterian College; Ph.D., University of Tennessee

Brendan Udkovich Stern, *President's Fellow, Government and History*; B.A., Gallaudet University; M.A., American University

Amy Stevens, *Associate Professor of Art*; B.A., M.A., Wichita State University; M.F.A., Howard University

Barbara A. Stock, *Associate Professor of Philosophy and Religion*; B.S. State University of New York, Geneseo; Ph.D., Syracuse University

Tonya Stremlau, *Professor of English*; B.A., Oral Roberts University; M.A., University of Nebraska; Ph.D., Louisiana State University

Ian M. Sutherland, *Associate Professor of Foreign Languages, Literatures, and Cultures*; B.A., The Johns Hopkins University; Ph.D., Duke University

Pia S. Taavila, *Professor of English*; B.A., M.A., Eastern Michigan University; Ph.D., Michigan State University

Judith W. Termini, *Associate Professor of Communication Studies*; B.S., Pennsylvania State University; M.A., The George Washington University

Tania N. Thomas-Presswood, *Associate Professor of Psychology*; B.A., Long Island University; M.A., Ph.D., Hofstra University

Linda Thompson, *Assistant Professor of Foreign Languages, Literatures, and Cultures*; B.A., State University of New York, Oswego; M.A., Middlebury College

Helen R. Thumann, *Associate Professor of Education*; B.S., University of Texas, Austin; M.A., Gallaudet University; Ph.D., University of California, Berkeley/San Francisco State University

Mary A. Thumann, *Instructor of Interpretation*; B.S., University of Texas; M.A., University of New Mexico; M.A., Gallaudet University

Franklin C. Torres, *Instructor of Applied Literacy*; B.A., M.A., Gallaudet University

Tsui-hsia Irene Tseng, *Associate Professor of Mathematics and Computer Science*; B.A., Chen Kung University; M.A., M.S., Ohio University

Kirk A. VanGilder, *President's Fellow, Philosophy and Religion*; B.S., Ball State University; M.Div., Iliff School of Theology

Madan M. Vasishta, *Associate Professor of Administration and Supervision*; B.A., M.A., Ph.D., Gallaudet University

Mairin Leigh Siobhan Veith, *Instructor of Government and History*; B.A., Gallaudet University; M.A., University of Limerick

Miako N. Villanueva, *Instructor of Linguistics*; B.A., Colorado College; M.A., Ph.D., Gallaudet University

Florence C. Vold, *Assistant Professor of Education*; B.A., Gallaudet University; M.A., California State University, Northridge

Marta Vrbetic, *Assistant Professor of Government and History*; B.A., University of Zagreb; M.A., College of Europe; M.A., Ph.D., Tufts University

Qi Wang, *Associate Professor of Business*; B.A., Yunnan University; M.B.A., Pennsylvania State University; Ph.D., Nova Southeastern University

Maria T. Waters, *Associate Professor of Physical Education and Recreation*; B.S., James Madison University; M.A., University of Maryland

Samuel L. Weber, *Instructor of Family and Child Studies*; B.S., M.A., Gallaudet University

Mark S. Weinberg, *Associate Professor of Foreign Languages, Literatures, and Cultures*; C.E.L.G., Universite de Montpellier; B.A., Queens College of the City University of New York; M. Phil., Yale University

Stephen F. Weiner, *Associate Professor of Communication Studies*; B.A., M.A., Gallaudet University; Ed.D., American University

Mary T. Weiner, *Professor of Psychology*; B.A. Lenoir-Rhyne College; M.A., CAGS/Ed.S., Gallaudet University; Ph.D., University of Maryland

Barbara J. White, *Professor of Social Work*; B.A., Gallaudet University; M.S.W., University of Maryland; Ph.D., The Catholic University of America

LaShaun A. Williams, *Assistant Professor of Counseling*; B.A., Stanford University; Psy.D., California School of Professional Psychology

Amy T. Wilson, *Associate Professor of Educational Foundations and Research*; B.A., Illinois State University; Ed.M., University of Illinois; Ph.D., Gallaudet University

Kathleen M. Wood, *Professor of English*; B.S., Ball State University; M.A., Indiana University; Ph.D., Georgetown University

Cheryl L. Wu, *Associate Professor of Counseling*; B.A., Brown University; M.A., Gallaudet University; Psy.D., California School of Professional Psychology

Christina M. Yuknis, *Instructor of Education*; B.S., State University of New York, Buffalo; M.A., Gallaudet University

Frank R. Zieziula, *Professor of Counseling*; B.A., St. John Fisher College; M.S., State University of New York, Albany; Ph.D., New York University

FACULTY AND ADMINISTRATOR EMERITI

Emeritus status is an honor conferred on retired faculty members whose scholarly, teaching, service, or administrative record has been meritorious. Status is recommended by members of the University Faculty and approved by the Board of Trustees.

Yerker J. Andersson, *Professor Emeritus*; B.A., Gallaudet University; M.A., Teachers College, Columbia University; Ph.D., University of Maryland

Kurt Beermann, *Professor Emeritus*; A.B., A.M., Ph.D., New York University

Marcia B. Bordman, *Professor Emerita*; B.A., University of Missouri; M.A., Wayne State University; Ph.D., University of Maryland

Harry Bornstein, *Professor Emeritus*; A.B., Rutgers University; M.A., Fordham University; Ph.D. American University

James J. Fernandes, *Professor Emeritus*; B.A., Allegheny College; M.A., Ph.D., University of Michigan

J. Philip Goldberg, *Professor Emeritus*; B.A., M.A., Ph.D., University of Maryland

Harvey Goodstein, *Professor Emeritus*; B.A., Gallaudet University; M.S., The Catholic University of America; Ph.D., American University

Virginia A. Gutman, *Professor Emerita*; A.B., Stetson University; Ph.D., Duke University

Doin E. Hicks, *Professor Emeritus*; B.A., Arkansas College; M.S., Ph.D., University of Arkansas

I. King Jordan, *President Emeritus*; B.A., Gallaudet University; Ph.D., University of Tennessee

Nancy Evans Kensicki, *Professor Emerita*; B.A., M.A., Gallaudet University; D.A., The Catholic University of America

Willard J. Madsen, *Professor Emeritus*; B.A., Gallaudet College; M.Ed., Louisiana State University

James J. Mahshie, *Professor Emeritus*; B.S. LeMoyne College; M.S., Ph.D., Syracuse University

Harry Markowicz, *Professor Emeritus*; B.A., University of Washington; M.S., Simon Fraser University

David S. Martin, *Dean/Professor Emeritus*; B.A., Yale University; Ed.M., C.A.S., Harvard University; Ph.D., Boston College

William P. McCrone, *Professor Emeritus*; B.A., Canisius College; M.A., The Catholic University of America; Ed.D., University of Arizona; J.D., Georgetown University

Kathryn P. Meadow-Orlans, *Professor Emerita*; B.A., Denison University; M.A., University of Chicago; Ph.D., University of California, Berkeley

Richard W. Meisegeier, *Professor Emeritus*; B.A., St. Olaf College; M.A., Gallaudet University; Ph.D., University of Maryland

Deborah Meranski, *Professor Emerita*; B.A., Gallaudet University; M.A., The Catholic University of America; Ph.D., New York University

Constantina T. Mitchell, *Professor Emerita*; B.A., George Washington University; Licence en lettres, M.A., Middlebury Graduate School of French; Ph.D., McGill University

Ronald E. Nomeland, *Professor Emeritus*; B.S., Gallaudet University; M.Ed., University of Maryland; M.A., California State University, Northridge; Ph.D., Syracuse University

H. Neil Reynolds, *Professor Emeritus*; B.S., Tufts University; M.A., Ph.D., Cornell University

John S. Schuchman, *Professor Emeritus*; A.B., Butler University; M.A., Indiana University; J.D., Georgetown University; Ph.D., Indiana University

Ausma Smits, *Professor Emerita*; B.A., Gallaudet University; M.A., Georgetown University

Anne Spragins-Harmuth, *Professor Emerita*; B.A., Agnes Scott College; M.A., Ph.D., University of South Carolina

Shirley P. Stein, *Professor Emerita*; B.A., Hunter College of the City University of New York; M.A., Columbia University

Ronald E. Sutcliffe, *Dean Emeritus*; B.S., Gallaudet University; M.A., Ph.D., University of Maryland

Louis F. Townsley, *Professor Emeritus*; B.A., M.A., University of Florida; Ph.D., University of Maryland

John Vickrey Van Cleve, *Professor Emeritus*; B.A., Western State College; M.A., Ph.D., University of California, Irvine

AWARDS AND SCHOLARSHIPS

Awards and scholarships are given annually to students for their academic and leadership accomplishments. Many academic departments also honor students for their high level of achievement in their disciplines. Consult with individual departments for details.

This is a representative list of the recognitions given to undergraduate students at the annual Gallaudet University Undergraduate Awards Ceremony, which is held every Spring.

Agatha T. Hanson Service Award: Conferred annually upon the woman in the senior class who during the year has shown the greatest promise of high character and leadership.

Algernon Sydney Sullivan Award: Given to a student who has demonstrated a high degree of spiritual qualities, which he or she has applied in daily life on the campus, thereby aiding others and making Gallaudet a better place.

Alice M. Teegarden Memorial Award: Presented by the Department of Communication Studies to two outstanding junior and senior majors in the department who have demonstrated high academic achievement, effective interpersonal skills, and leadership.

Alpha Sigma Pi Fraternity Scholarships: Awarded to deserving undergraduate students for scholastic standing, leadership, and demonstrated financial need. The funds for these scholarships are raised through endeavors such as the annual ASP carnival.

Alumni Athletic Awards: Winners of the Alumni Athletic Awards are selected by members of the Gallaudet University Alumni Association. Recipients must be seniors who have made outstanding contributions to the sports program while at Gallaudet. The awards consist of gold (first), silver (second), and bronze (third) medallions.

Art Department Awards: The Joseph L. Mattivi Memorial Scholarship Fund awards graphic design students for excellence in their field. Additionally, the Art Department presents awards for outstanding achievement to students majoring or minoring in the specialized areas offered by the department.

Alpha Sigma Pi Fraternity Scholarships: Awarded to deserving undergraduate students for scholastic standing, leadership, and demonstrated financial need. The funds for these scholarships are raised through endeavors such as the annual ASP carnival.

Athlete-Scholar Award: This award, a \$25 government bond, is given to a senior who excels in both athletics and academic work. This award was established by Gallaudet's graduating class of 1966.

Buff and Blue Merit Key Awards: Awarded for services to and outstanding support of essential matters pertaining to the success of the Buff and Blue.

Career Center Hall of Fame: This appointment is based on the student's motivation, attitude, professional growth, and achievement during his or her co-op internship through Academic Advising and Career Center. Awardees' names will be engraved on a plaque displayed in the Career Center.

Charles R. Ely Chemistry Award: A monetary award presented to a senior for excellence in chemistry.

Charles R. Ely Scholarship Award for Women: An annual monetary prize established by the family of Charles R. Ely given for general scholarship.

Daughters of Union Veterans of Civil War History Essay Award: Made in recognition of excellent work on an original paper written by a Gallaudet student on any topic related to American history.

Delta Epsilon Sorority Ideal Student Awards: Designed to give recognition to two serious students whom the members of the sorority have found to exemplify the ideal balance between academic pursuit and service to fellow students.

Department of Business Award: Given annually to the most outstanding business major who is graduating. It recognizes the student's achievements in school, at work, and in the campus community.

Dorothy Hamberg Memorial Award: Presented by the Department of Physical Education and Recreation to the outstanding student in the department who demonstrates high levels of academic achievement and provides professional services to the community while exemplifying the qualities of Dorothy Hamberg, former professor of physical education.

Dorothy P. Polakoff Award for Academic Excellence: Awarded to the senior social work major with the highest academic achievement as measured by GPA in social work courses and performance in the social work internship.

Drama Awards: Best Actress, Best Actor, Best Supporting Actor, Most Versatile Performer, Most Promising Actress, Most Promising Actor, Technical Assistant, Outstanding Crew Member, Outstanding Contributor. Includes the **Bruce Hlibok Playwriting Award**.

First Year General Chemistry Award: Given to the outstanding first-year chemistry student in recognition of excellence and promise in the field.

Foreign Study Scholarships: The awarding of the scholarships for travel is based on grades and a personal interview with the selection committee.

Gallaudet University Alumni Association Buff and Blue Awards: Established to encourage interest in the field of writing. The awards cover several categories: poetry, short stories, essays, and journalistic articles.

Joseph L. Mattivi Memorial Scholarship Fund (Joe Fund): Awarded to Career Center interns who most exemplify the spirit of life and work of Joe Mattivi, a former Experiential Programs Off Campus (EPOC) internship counselor at Gallaudet University, who passed away at the early age of 34. Awardees are chosen, by Career Center Internship Advisors, from any Gallaudet major and exemplify excellence in scholarship and work, embracing challenge as a learning experience, and demonstrating a joy for life and a love for humanity.

Leon Auerbach Freshman Mathematics Award: Awarded annually for the best work done in this subject.

Lillian Gourley Rakow Creative Writing Award: Established in 1982 with a gift from the estate of Jules Pierre Rakow in memory of his wife, Lillian. The fund provides an annual award to a sophomore, junior, and senior with demonstrated creative writing ability. Winners are selected on the basis of a portfolio submitted to the English Department and evaluated by a special committee.

MacDougall Creative Writing Award: This award, established in 1979 by Nanette Fabray MacDougall in honor of her husband, Randy, is open to any full-time, deaf undergraduate student at Gallaudet. Gallaudet students compete for prizes by submitting a portfolio of creative writing to the English Department. The writing is then judged by a committee of professional writers and teachers. The purpose of the award is to recognize "promising deaf writers at Gallaudet and to encourage them to seek careers using their writing skills."

Male and Female Athlete of the Year: Winners of these prestigious awards are selected by the Athletics Department's head coaches. The recipients must have had an outstanding season in one or more sports in the current academic year; have earned at least a team award, conference honor, or NCAA honor; have been good role models on and off the field; and be in good academic standing.

Olof Hanson Service Award: Conferred annually upon the man in the senior class who during the year showed the greatest promise of high character and leadership.

Phi Alpha Pi Award Phi Alpha Pi is the scholastic honor society of the University. See the section entitled "Honor Societies," in the Campus Programs and Services section.

Phi Kappa Zeta Alumni Scholarship: Presented to sophomore, junior, and senior sorority members with high scholastic standing by the national chapter of Phi Kappa Zeta.

Phi Kappa Zeta Leonard M. Elstad Scholarship for Total Performance: Presented annually to an incoming senior who has high qualities of leadership, scholarship, and personality. The recipient of this award receives \$50.

President's Council Award: Presented to the student with the highest academic achievement.

Professional Development Award: Awarded to the senior social work major who demonstrates exceptional professional growth during the major as measured by degree of personal identification, growth, and maturity as reflected in performance in social work courses and internship.

Psychology Department Award: Presented each year to a graduating senior who has maintained a high grade point average over a period of four years at Gallaudet University and who is an exemplary major in psychology.

Sociology Department Award: The Sociology Department Annual Award is given to an exemplary graduating senior who has a consistently high GPA in all Sociology courses, as well as outstanding work in their internship, research, and/or leadership.

Student Body Government Service Awards and Honorable Mention: Awarded to members of the SBG who have given their time and effort to the improvement of the organization.

Thomas S. Marr Awards: Through the bequest of Thomas S. Marr, the income from the Thomas S. Marr Fund is awarded to juniors or seniors with the highest cumulative grade point averages.

Who's Who in American Colleges and Universities: Included in this publication are the names of juniors and seniors in recognition of their outstanding leadership, scholastic achievement, character, and service to the University

INSTITUTIONAL REPORT CARD ON TEACHER PREPARATION

Aggregate and Summary Institution-Level Pass-Rate Data: Regular Teacher Preparation Program

HEA - Title II 2007-2008 Academic Year		January 15, 2009
